Despatch Abstract

Schools. Secondary - Aided - Additional fee income
derived by the increase in the number of instalments —
Utilization for the grant of half scholarships to poor students —
Orders passed.

Secy., E. & P.H.

A deputation of Andhra & Tamil Nad Students' Congress came and met me and complained that, in some schools, enormous increase in fees has been made. While the Government may not object to a reasonable increase in fees, I think we may have to put up a higher limit, so that suddenly fees may not be increased very much. It may be reasonable to say that, at one time, there should not be an increase of more than 20% in the total fees for the year. While the Government ordered increase in fees in their Colleges, they have reserved 20% of the increased income for giving half scholarships to poor students. The matter may be investigated whether we can also insist that a part of the increased income ^{in aided institutions} should be given as half scholarship to poor students. As the agitation over the increase of fees is found all over the Province, the D.P.I. may be asked to consider and report soon.

The question of prescribing a maximum limit for the levy of fees in aided educational institutions has been deferred. Vide Go. no. 291 Edn dated 14.2.48. The D.P.D. may now be asked with reference to the correspondence ending with his no. no 902 - D1/47 29.11.47 whether Govt can insist on a part of the increased income derived by aided educational institutions being set apart for scholarships for poor students.

2. As managements were made to understand that the increased fee income was to be utilized for improving the scales of pay of the teachers and for the payment of Dearness allowance to them at Government rates, it is not desirable to require them now to set apart a portion of the fee income for scholarships to poor students. In many schools fee concessions are given under Rule 32 of the Grant-in-Aid Code, but this is not obligatory. It would suffice for the present if every aided school is required to grant these concessions.

Please see the remarks of the D.P.D. above.

2. The D.P.D. has been asked separately to report as to how many managements of aided secondary schools have adopted atleast the revised scales of pay fixed for teachers in secondary schools under local bodies, & how many have not and what steps have been taken to see that they adopt the revised scales. The Director has also been empowered to investigate into the financial position of the managements and direct the payment of the allowance in full if they can afford to do. The question whether the managements of aided secondary schools may be permitted to adopt the

The Govt agree with the D.P.D. that it is not desirable to require the managements of aided secondary schools now to set apart a portion of the additional fee income derived by the increase in the number of instalments of school fees for the grant of scholarships to poor students. The Director is ^{however} requested to instruct the managements of aided secondary schools which do not grant the fee concessions referred to in Rule 321(i) of the
