[Despatch Abstract]

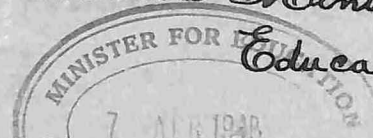

Schools - Secondary - Aided - Payment of special grant to managements which did not adopt at least the revised scale of pay fixed for teachers in the employ of local bodies from 1.1.47 - Position clarified.

MAIN ROAD, SURYARAOPEETA
COCANADA

To

The Honourable Minister for
Education.

Sir,

Formerly the Government promised that teachers in Aided Schools would be paid half the difference between the average of the scales they were actually drawing and the average of the Scales they were entitled to under the G.O. On the strength of this promise some private Managements have actually advanced these amounts to the members of their Staff.

Now the Govt seems to have rescinded the Order on the plea that calculations would be difficult. And naturally Managements which have already paid these amounts are taking steps to recover the same.

I request the Government to reconsider its decision bearing in

mind the Proverbial Poverty of the
School masters who would be effected
adversely by this.

If the only difficulty is
in the matter of Calculation, a Bonus
of two months' Salary might be given
in lieu of this as has been done in
Other Cases.

Thanking You,

I beg to remain,
Sir,

your Most Obedient
Servant,

RECONSIDER THE DECISION

Sir,—Formerly the Government of Madras said that teachers in aided schools would be paid half the difference between the average of the scales they were actually drawing and the average of the scales they were entitled to (under the G.O.) for the period January to May '47. In some schools it has been actually paid. Now the Government have changed their mind and order on the plea that calculations would be difficult. And there is talk of recovering these amounts in schools where they have been already paid. I request the Government to reconsider their decision. If the only difficulty is in the matter of calculation, a bonus of two months' salary might be given in lieu of this, as has been done in other cases.

difference between the average of the scales of pay actually
adopted by the managements and the average of the scales of
pay laid down for similar posts under local bodies subject to
the condition that this additional amount ^{was} ~~is~~ used entirely for
payment to the teachers. The intention was that teachers in

Calculation's Hurdle.

Formerly the Government of Madras said that teachers in aided
schools would be paid half the difference between the average of the
scales they were actually drawing and the average of the scales they
were entitled to (under the G.O.) for the period January to May 1947.
In some schools it has been actually paid. Now the Government seem to
have rescinded this order on the plea that calculations would be diffi-
cult! And there is talk of recovering the amounts in schools where
they had been already paid. Government should reconsider their decision.
If the only difficulty is in the matter of calculation a bonus of two
months' salary might be given, as has been done in other cases.

Please see the minutes of H.M. (Edn) above.

2. In para 8 of G.O. No 975 Education dated 10-5-47, the
Government undertook to pay to the managements of aided
secondary school which did not adopt atleast the revised scale
of pay fixed for teachers in secondary schools under local
bodies a grant ~~equal to the difference~~ calculated at one half
of the difference between the average of the scales of pay

adopted by the managements and the average of the scales of pay laid down for similar posts under local bodies subject to the condition that the additional amount should be used entirely for payment to teachers. ^{The object of this order was to see that teachers in aided schools which were not able to introduce the revised scales at a disadvantage compared with those in schools where the revised scales had been introduced} It is not clear how the managements of some

schools paid the difference before the special grant was sanctioned by Govt.

2. Attention is solicited to the Director's letter on pp 1-2 of G.O. No 2705 Education dated 17-12-47. As pointed out therein any decision by the managements in regard to the adoption of regular time scales of pay in cases where no such scales were previously in force

^{could have been taken} only subsequent to the issue of G.O. No 975

Education dated 10-5-47 and even if the managements had decided to

adopt the time scales of pay retrospectively from 1-1-47 expenditure

on payment of arrears of salaries according to the pay as fixed in those

scales ^{could have been incurred} only subsequent to 1-6-47 ^{and could be taken into account for the financial year 1947-48 only}; it is therefore correct to assess the teaching grant for the period from 1-1-47

to 31-5-47 on the basis of half (the usual) ^{net} cost. The Govt have

also decided to insist on managements adopting the revised scales from

1-6-47. The Govt have not gone back upon their promise to pay a special

grant in cases where the managements of aided secondary schools have

not adopted at least the revised scales of pay for teachers under local bodies.

The D.P.I. has been asked to report on the payment of the special grant

from the school year 1947-8. The ^{Director} ~~D.P.I.~~ has already called for information

as to how many managements of aided secondary schools have adopted at least

the local bodies scales of pay and how many have not, and on receipt of the

information orders will be issued in regard to the payment of special

grant. If such grants have been paid retrospectively in anticipation of Govt sanction as alleged at A.M.P. ante such payments will also be taken into account.

It is for consideration whether an order clarifying the

position may be issued. If so the draft order below is

for approval. As the orders in the G.O. at (h) were

issued at the instance of the D.P.I. the case

may be sent to the D.P.I. for remarks in the first instance.
