Sir,

PRESIDENCY COLLEGE, MADRAS--Survey Training for Geology
* Honours students in the College of Engineering, Guindy.

ENCLOSURES _____

SPARE COPIES _____

In G.O. No. 713. Education dated 9.4.1947, the Government approved my proposal for giving intensive survey training to Geology Honours students of the Presidency college in the College of Engineering at Guindy for a period of 6 months with one class on Saturdays. The Principal, Presidency College, states that students could not be spared for survey training as on all Saturdays they had to attend to laboratory or field work and requests permission for giving them necessary survey training during the summer vacation (April-May 1948) for not less than 30 days. There are 9 students.

In addition to the 9 students there are 2 members of the staff of the Presidency College who desire to undergo the training. The Principal recommends that the two members may be given training at their own expenses. The Principal has proposed that each student may be granted Rs. 7/- as conveyance allowance during their period of training. I request that this may kindly be accepted.

2. The Principal, College of Engineering, Guindy has agreed to provide for the training of the students and staff as was done last year. The staff required and the honorarium payable to them will be as follows:--

	Rs.
1 Asst. Master Instructor ..	150/-
1 Instrument Repairer.	10/-
1 Peon.	5/-
1 Clerk.	10/-
1 Sergeant.	6/-

	181

The Principal states that all the above staff are essential for conducting the course and that the increased honorarium is necessary for the strenuous work of the Assistant Instructor. I request that the staff and honorarium suggested by the Principal may kindly be accepted by Government. As the matter is very urgent, I have in anticipation of sanction of Government permitted

Sub:- Training in Surveying for Geology Honours students of the Presidency College.

An allowance of Rs.150/- instead of Rs.100/- is suggested for the Assistant Instructor as it was found last year that the work involved is most strenuous and trying owing to the intense heat of the Summer.

2. A number of persons besides Assistant Instructor such as the Instrument Repairer, Sergeant, Peons etc., are necessary for the conduct of the survey classes. They were inadvertently omitted last year and are included this year.
