The undermentioned estimates(*) for providing additional accommodation to Board High schools were sanctioned in the District Board Resolution's noted against each. The works were let on contract. The first two works were got completed in 1945-46 and the third is an incomplete one. The audit department has now raised an objection that the sanction of the Director of Public Instruction, Madras for improvements to these schools, as required in G.O.No.2216, L.A., dated 11-10-44 and G.O.No.506 Education, dated 2-4-45 was not obtained. As these estimates were sanctioned by the District Board prior to the issue of G.O.No.2216, L.A., dated 11-10-44, the approval of the Director of Public Instruction, was not then considered, insists on such approval, I request that the omission to get the approval of the Director of Public Instruction, Madras to the three estimates may kindly be condoned by Government.

An extract of paragraph 77 of the Audit Report is also enclosed.

and extensions to School buildings.

....

The plans and estimate for the three works mentioned above have been scrutinised and the following are the remarks:

2. Providing Additional Accommodation to the Board High School, Periyakulam:-

No site survey has been sent to verify whether the building has been properly sited. Neither detailed plan nor report to accompany the estimate has been sent to check the various provisions made in the estimate. Since the building is reported to have been completed the revised estimate may be approved for Rs.4,400/- on the responsibility of the District Board Engineer with regard to the correct design of the building.

3. Construction of a temporary shed in the compound of the Board High School, Melur.

No report to accompany the estimate explaining the proposals has been sent. Front verandah has not been provided. Structural calculations have not been sent to verify whether the building has been properly designed. Width of class rooms is only 15' - 0" against 16' - 0" required as per type design. Since the work is reported to have been completed, the estimate may be approved for Rs.2,000/- on the responsibility of the District Board Engineer for correct design.

4. Providing Additional Accommodation to the Board High School, Usilampatty.

Front verandah has not been provided for this building. Structural calculations such as pressure on soil, intensity of pressure on masonry, and for the various sizes of roof timbers adopted have not been furnished to check whether the design is in order. Since the work is stated to be in an incomplete state and as the entire cost of the work is to be borne out of District Board Funds, the estimate may be approved for Rs.7,600/- on the responsibility of the District Board Engineer for the correct design of the building.
