In para 2 of my letter referred to above, I reported to Government that the Principal of the College was making arrangements to obtain a separate low tension supply for the college independent of the supply from the Argus Engineering Company. As the common supply to both the company and the college was unsatisfactory and as the opening of the specialised course in Electrical Engineering with effect from the beginning of the current academic year required increased power, the Principal opened negotiations with the Hydro-Electric Department for a separate supply to the college. In G.O.No.Rt.1383 P.W.D. dated 10-11-47 Government permitted the extension of temporary supply of Electricity at low tension to the college for one year from the date of supply. Government also ratified the action of the general Superintendent Operating Systems, Madras in having authorised the Superintending Engineer, Pykara Electricity system to proceed with the work in anticipation of sanction of Government. It is now reported that a separate L.T. supply was given to the college on 21-12-1947 and from that date all payments of Electric charges to the Engineering Company will cease.

POST COPY OF TELEPHONIC MESSAGE DATED 19-2-48.

From

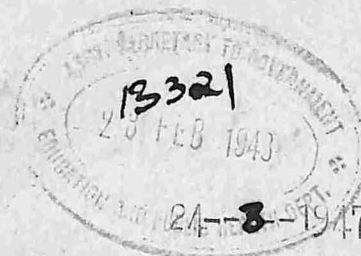

The Director of Public Instruction,
Madras.

To

The Assistant Secretary to Government,
Education & Public Health Department,
Fort St. George,
Madras.

Sub: Arthur Hope College of Technology -
Coimbatore - supply of electric energy

Ref: Your Telephone Message No. 4717-1/48-A
dated 4-2-1948.

A copy of this office letter No. 183.K2/46, dated 24-2-1947 referred to, is herewith enclosed.

[Signature]

Gr. 20.2.

For Director of Public Instruction.

Copy of letter No. Rec. 100.183.K.2/46, dated 24-2-1947.

Sub: Arthur Hope College of Technology,
Coimbatore - Electric current and
water charges.

Ref: My letter No. 183.K.2/46, dated 1-3-1947.

With reference to para 4 of my letter referred to above, I have since received a report from the Principal, Arthur Hope College of Technology, Coimbatore on the question of Electric current and water charges.

2. The College, hostel and staff quarters at present receive low tension power supply from the Argus Engineering Company who obtain it in bulk from the Electricity department. There is at present only one meter to receive the total consumption of the company, the College, Hostel and Staff quarters. The Principal has therefore to make an estimate of the average current consumption of the various sections with reference to the number of lamps, voltage of each lamp and the average daily burning hours. He has calculated a monthly consumption of 2000 units for all the sections, the charges for which comes to Rs. 100/- calculated at 0.8 annas a unit. The management of the Argus Engineering Coy. have agreed to receiving a flat rate of Rs. 100/- towards current charges till separate are installed. The Principal proposes to recover the charges from the students, staff hostel and college office in the manner specified below:-

From students.
Hostel
Staff
College office

Rs. 19-2-0
5-3-0
5-6-0
66-5-0 (to be recovered also from students as establishment charges).

P.T.O.

3. The Principal states that he is making arrangements to obtain a separate low tension supply for the college independent of the supply to the Engineering Company. As the existing arrangement proposed by the Principal is ~~not~~ only temporary. I have approved of the proposal to incur an expenditure of Rs. 100/- per mensem with effect from 16-12-1946 the date on which the new management took charge from the College allotment towards the payment of Electric current charges and to recover it in the manner specified above.

For Director of Public Instruction.

Chepauk, Madras.

To

The Secretary to Government,
Education & Public Health Department,
M a d r a s.

No. 3455 G/48-2 dated 8th May, 1948.

34611

Sir,

Sub: College -- Arthur Hope College of Technology
Coimbatore -- Supply of power to college
and hostel -- Installation of separate meters
and waiver of deposit amount.

Ref: Government memo No. 4717-3/48 A Edn. dated
16-3-1948 to the Chief Engineer for Electricity.

[Handwritten signature/initials]

As per the standard terms and conditions approved by Government for temporary supplies by this department, the entire cost of the service connection from the distributing main of this department has to be borne by the consumer. The fact that in this case the consumer is a Government institution makes no difference. The entire cost of the extension should therefore be paid. At the time of disconnection of the service at the end of one year and amount equivalent to the scrap value of the materials retrieved will be refunded to the College. I would mention in this connection that in the case of supply to Defence Department and in case of supply to the Malt Factory attached to the Agricultural College which were treated as temporary supplies the entire cost of the extension has been received by the department. It is reported by the Superintending Engineer, Pykara Electricity system that the Principal of the college was informed of the terms and conditions for temporary supply and that he in his letter dated 7-8-1947 has agreed to bear the ^{advised} cost. The Director of Public Instruction may be ~~addressed~~ to arrange for the deposit of the amount.

Regarding sub metering in the college to measure actual consumption in different departments, the college

--2--

should make its own arrangements for the purchase and installation of the sets to suit its requirements as the department does not make such arrangements to suit the convenience of consumers.

DEPARTMENT

1-3-1948

The proposals of P and P.H. at A and B on p1 above may be accepted in Finance.

Before accepting the proposals, it seems advisable to obtain the remarks of the CE(E) as to whether the deposit amount can be waived since the Electricity Dept. is run on a commercial basis. He may also be asked to state when separate meters are likely to be installed 'in order' to facilitate the correct allocation of the electricity consumption charges. Pw may be requested to obtain information on the above points.

Please see below
