Mem. No. 60874-1/47 A. Edu. dated 30-7-47.

The D.P.D. is requested to submit
urgently a report on the selection of students
to the Engg. colleges in the Province in 1947-48
giving the number of students selected to the
various branches and also the principles
followed in the selection. The D.P.D. is also
requested to make any suggestions which he
may consider necessary, for future guidance.

Received
To
30 MAY 1948
The SECRETARY TO GOVERNMENT,
EDUCATION, PUBLIC HEALTH
DEPARTMENT,
FORT ST. GEORGE, MADRAS.

Enclosures : ROC No. 432-K2/47 dated 27th May 1948.

Sir,

Sub: Engineering - Colleges - Selection and Admission
of Students in 1947-48 - Report.

Ref: Government Memo. No. 60814-5/47-A Edn. dated
15-4-1948.

I have the honour to enclose herewith a copy of the report
received from the Principal, College of Engineering, Guindy on the
selection and admission of students for the Engineering Colleges
in 1947-48.

FOR DIRECTOR OF PUBLIC INSTRUCTION.

KN. 28.5.

Owing to the late publication of the results of the Intermediate Examination of the University of Madras and the uncertainty regarding the date on which the consolidated mark sheets of that Examination will be available, a date for a meeting of the Selection Committee for actual work of selections could not be decided until almost the end of June 1947. However, a preliminary meeting was held on 29-6-47 to discuss general principles to be followed in selections. All the members of the Committee were present on 29th June and the members of the Committee raised a number of points in connection with the G.O's relating to admissions and requested the Principal, College of Engineering, Guindy to get these points clarified by the Director of Public Instruction, Madras. The marks of the Intermediate Examination of the Madras University had been received by that time and the first meeting of the Selection Committee for actual work of selections was fixed on the 2nd July 1947.

2. The Selection Committee met on the 2nd, 3rd, 4th, and 5th July 1947 and completed the selections on the 5th of July. The selection list was put up on the Notice Board of the College on the 6th July 1947 and was published in the Fort St. George Gazette of 8th July 1947.

3. The allotment of selected candidates to various Colleges was completed by 10th July. List showing allotment of candidates to various Colleges was put up on the College Notice Board on the 11th July and memos were despatched to selected candidates on the same day.

4. One of the members of the Committee, Mr. A. Viswanath, Principal, Arthur Hope College of Technology, Coimbatore was not present at the meetings of the Committee on the 2nd July and subsequent dates.

I. BASIC FIGURES.

5. Figures relating to the number of seats available for various linguistic areas, communities, districts etc., are given below:-

6. Seats available to students of the Presidency: The number of seats sanctioned for all the Colleges is 365. Of these, 10% had to be reserved for Ex-service personnel, but there were only 13 eligible applicants. The number of seats reserved in various Colleges for

20

21
12

-2-

areas outside the Madras Presidency is 31. The total number of seats available for allotment to students of the Presidency was 365 - 13 - 31 = 321.

7. Appendix "A" gives details of the seats sanctioned for various Colleges, the seats reserved for areas outside the Madras Presidency, seats allotted for Ex-service personnel and the seats available for allotment to students of the Presidency.

8. Seats available for various linguistic areas and communities:

Appendix "B" shows the seats to which the various linguistic areas are entitled according to G.O.Ms.No.997, Edn., dated 22-7-43 and the seats to which various communities in these areas are entitled ~~in~~ in accordance with G.O.Ms.No.1364, Edn., dated 27-6-47.

9. Seats available for various districts: The numbers of seats to which the various districts are entitled according to their population in the 1941 Census Report, are given in Appendix "C".

10. Total number of applications received: Candidates seeking admission to any of the Government Engineering Colleges were directed to apply to the Principal, College of Engineering, Guindy in the form to be supplied by him, and to state in the application their order of preference for the various colleges. The total number of applications received was 1857. Appendix "D" gives the numbers of applications received from various communities and districts.

II. RESULTS OF SELECTION.

11. Appendix "E" gives the list of candidates provisionally selected for admission together with their district and community and the College to which they are allotted. The abbreviations "A", "C", "G" and "V" stand for Anantapur College, Coimbatore College, Guindy College and Vizagapatnam College now at Cocanada, respectively.

12. Appendix "F" gives the number of students selected from various linguistic areas and communities.

13. Appendix "G" gives the number of students selected from various districts and communities.

14. Appendix "H" gives the number of students allotted to va-

available for allotment to students of the Presidency was 385 - 15 - 11

132

7. Appendix "A" gives details of the seats sanctioned for various Colleges, the seats reserved for areas outside the Indian Presidency, seats allotted for Executive Council and the seats available for

3. Seeds available for various linguistic areas and communities:
Appendix and above the seeds to which the various linguistic areas are entitled according to G.O. No. 1334, Edn., dated 22-7-43 and the seeds to which various communities in these areas are entitled from 1944 onwards with G.O. No. 1334, Edn., dated 22-7-43.

9. Specimen available for various districts: The numbers of specimens received from various communities and districts.

11. Appendix "A" gives the list of candidates provisionally se-

12. Appendix "B" gives the number of students selected from various linguistic areas and organizations.

various Colleges from various linguistic areas and communities.

III. PROCEDURE FOLLOWED IN SELECTION OF CANDIDATES.

15. Besides the basic figures given above, the Committee had lists containing marks and other particulars of applicants from various districts and communities, the total number of candidates in the list being well in excess of the total number of seats available. With the information available, selections for various communities were made as follows:-

16. Communal representation: The Committee decided that communal representation should not be on the basis of districts, but should be on the basis of linguistic areas, as it was impossible to give communal representation to every district, without serious injustice to candidates of the same community in that linguistic area.

17. Harijan candidates: There were only 10 Harijan applicants from all the areas and they were all selected. The Committee could not see its way to fixing a minimum qualification for this community in view of the very small number of applicants and the belief that the very fact of admission of Harijan students in an Engineering College would act as an uplifting factor for that community and be in keeping with the benevolent policy of the Government towards this community.

18. Backward communities: The Government Order Ms.No.1364, Edn. dated 27-3-47 directs that a decent minimum qualification should be insisted upon in the case of candidates from backward communities. The backward communities that the Committee had to deal with were the Non-Brahmin (Backward) and the Muslim communities. The Committee was of the opinion that the same minimum qualification should be fixed for both these communities and the marks obtained by the last candidate in order of merit selected from the Non-Brahmin (Backward) community was set as the minimum qualification.

19. Christians and other minorities: The minimum qualification fixed for the Backward communities was also fixed for these communities.

20. Brahmin and Non-Brahmin (Forward) communities: There were sufficient candidates from these communities of a high standard of pro-

24

25

14

proficiency. They were first given the quota to which they are entitled under the communal G.O. The surplus seats from other communities were then distributed among them as we felt that the claims of all the other communities with reference to the minimum qualification had been satisfied.

21. Representation to linguistic Groups: We could not adhere rigidly to the proportions prescribed for various linguistic groups, and the West Coast had to be given a few more seats than what it is entitled to.

22. Representation to districts: We found it impossible to give representation to the various districts rigidly on the basis of population without penalising highly deserving candidates of other districts in the same linguistic area.

23. For example, Madras is entitled to 5 seats only on the basis of its population. But, we were obliged to allot 21 seats to this district for the following reasons: The three Anglo Indian candidates selected from the Tamil area were all from Madras, as they were by far the best among the candidates from this community in the Tamil area. Three Indian Christians had to be selected from Madras as they were among the highly deserving candidates of this community from the Tamil area. There was one Harijan candidate from the Madras district who had to be selected. Thus, 7 seats had to be allotted to minorities. The candidates from other communities were highly deserving compared with candidates of these communities from other districts in the Tamil area and they had to be selected.

24. There were similar circumstances in other districts as well. The Harijan candidates from the Telugu area were concentrated in the East Godavari and West Godavari districts, and of the 7 candidates selected from the Telugu area, 5 were from East Godavari and 2 were from the West Godavari. The largest number of highly deserving candidates of Brahmin and Muslim communities in the Telugu area were from the Kistna District and they had to be selected. The largest number of highly deserving candidates of the Indian Christian community in the Tamil area were in the Tinnevely District and 7 of them had to be selected from this district.

...the districts on the basis of population as was practicable and no district has received less than 66% of the seats to which it is entitled.

26. Allotment of selected candidates to various Colleges: The principle followed in the allotment of students to various Colleges was that suggested originally in the Government Memorandum No.36907.A/47-1 Edn., dated 30-4-47 and the proposals based on it made by the Principal, College of Engineering, Guindy in his letter Rc.No.6-3 B/47 dated 21-5-47 and generally accepted by the Government. (Vide Director of Public Instruction's Proceedings Rc.No.432.K2/47 dated 21-6-47). According to this, the College of Engineering, Guindy should have 50.8% students from Tamil area, 38.1% students from Telugu area and 11.1% students from the West Coast area. The majority of students in the Cocanada and Anantapur Colleges should be from the Telugu area and the majority of students in the Coimbatore College should be from Tamil area. The majority of students from the West Coast should go to the Coimbatore College.

27. The vast majority of applicants, as well as selected candidates, had given Guindy College as their first choice. The second and third choices were, Cocanada and Anantapur in the case of the majority of candidates from Telugu area, and Coimbatore and Anantapur in the case of majority of candidates from Tamil and West Coast areas.

28. Allotment of candidates to the Guindy College was first made and candidates were selected from various areas on the bases of merit and communal representation.

29. All the remaining candidates from the Ceded Districts were allotted to the Anantapur College. The majority of the remaining students from the Telugu area were allotted to the Cocanada College, and some were allotted to the Anantapur College to increase the number of Telugu students in that College.

30. The remaining students from the West Coast were first allotted to the Coimbatore College and the strength of that College was made up by allotting students from Tamil area on the bases of merit and communal representation thereby majority of students in the Coimbatore College were from Tamil area.

31. It was, however, found that all the remaining students from

25. However, we have attempted to give as full representation to the districts on the basis of population as was practicable and no district has received less than 66% of the seats to which it is entitled.

26. Allotment of selected candidates to various Colleges: The principle followed in the allotment of students to various Colleges was that suggested originally in the Government Memorandum No.36907.A/47-1 Edn., dated 30-4-47 and the proposals based on it made by the Principal, College of Engineering, Guindy in his letter Rc.No.6-3 B/47 dated 21-5-47 and generally accepted by the Government. (Vide Director of Public Instruction's Proceedings Rc.No.432.K2/47 dated 21-6-47). According to this, the College of Engineering, Guindy should have 50.8% students from Tamil area, 38.1% students from Telugu area and 11.1% students from the West Coast area. The majority of students in the Cocanada and Anantapur Colleges should be from the Telugu area and the majority of students in the Coimbatore College should be from Tamil area. The majority of students from the West Coast should go to the Coimbatore College.

27. The vast majority of applicants, as well as selected candidates, had given Guindy College as their first choice. The second and third choices were, Cocanada and Anantapur in the case of the majority of candidates from Telugu area, and Coimbatore and Anantapur in the case of majority of candidates from Tamil and West Coast areas.

28. Allotment of candidates to the Guindy College was first made and candidates were selected from various areas on the bases of merit and communal representation.

29. All the remaining candidates from the Ceded Districts were allotted to the Anantapur College. The majority of the remaining students from the Telugu area were allotted to the Cocanada College, and some were allotted to the Anantapur College to increase the number of Telugu students in that College.

30. The remaining students from the West Coast were first allotted to the Coimbatore College and the strength of that College was made up by allotting students from Tamil area on the bases of merit and communal representation thereby majority of students in the Coimbatore College were from Tamil area.

31. It was, however, found that all the remaining students from

pass 20

28. However, we have attempted to give as full representation as possible to the various linguistic areas in the Anantapur College and Cocanada College. This would have resulted in there being a majority of Tamil students in the Anantapur College and a narrow margin between the numbers of Tamil and Telugu students in the Cocanada College. Some students from the West Coast area were therefore posted to the Anantapur College. In spite of this, students from the Telugu area in the Anantapur College were not in an absolute majority. Their number was, however, larger than the number from any other area. This is the best that could be done as it was not possible to have a majority of Telugu students in the Anantapur College without having a narrow margin between the numbers of Telugu and Tamil students in the Cocanada College. The Committee felt that the Cocanada College should have a distinct majority of Telugu students and that as few students as possible should be sent to Cocanada from the Tamil area.

32. Reserve List: In previous years, vacancies caused through selected candidates not turning up, were generally filled up from the unselected candidates present at the college on the date of admission. We did not consider this to be a desirable procedure and prepared a Reserve List for each College for the various communities and laid down the following principles on which the vacancies shall be filled by the Principals.

- (a) Vacancy in any linguistic area shall be filled by a candidate from that area;
- (b) Vacancy in any community shall be filled by a candidate from that community;
- (c) If a vacancy in any community cannot be filled by a candidate from that community, this vacancy shall be set aside. All such vacancies shall be pooled and be allotted in the following order:-
 - i. Non-Brahmin (Backward)
 - ii. Non-Brahmin
 - iii. Brahmin
 - iv. Muslim
 - v. Others
- (d) Candidates under various communities in the Reserve List are arranged in order of merit and vacancies from any particular community shall be filled in that order.

29
16

from the Tamil area had to be posted to the Anantapur College and Cocanada College. This would have resulted in there being a majority of Tamil students in the Anantapur College and a narrow margin between the numbers of Tamil and Telugu students in the Cocanada College. Some students from the West Coast area were therefore posted to the Anantapur College. In spite of this, students from the Telugu area in the Anantapur College were not in an absolute majority. Their number was, however, larger than the number from any other area. This is the best that could be done as it was not possible to have a majority of Telugu students in the Anantapur College without having a narrow margin between the numbers of Telugu and Tamil students in the Cocanada College. The Committee felt that the Cocanada College should have a distinct majority of Telugu students and that as few students as possible should be sent to Cocanada from the Tamil area.

32. Reserve List: In previous years, vacancies caused through selected candidates not turning up, were generally filled up from the unselected candidates present at the college on the date of admission. We did not consider this to be a desirable procedure and prepared a Reserve List for each College for the various communities and laid down the following principles on which the vacancies shall be filled by the Principals.

- (a) Vacancy in any linguistic area shall be filled by a candidate from that area;
- (b) Vacancy in any community shall be filled by a candidate from that community;
- (c) If a vacancy in any community cannot be filled by a candidate from that community, this vacancy shall be set aside. All such vacancies shall be pooled and be allotted in the following order:-

- i. Non-Brahmin (Backward)
- ii. Non-Brahmin
- iii. Brahmin
- iv. Muslim
- v. Others

If there is no candidate from a community to which the vacancy falls, that vacancy shall be allotted to the next community in the above order. The community awarded a seat in this manner, shall be entitled to a seat which is due to it in its own turn.

- (d) Candidates under various communities in the Reserve List are arranged in order of merit and vacancies from any particular community shall be filled in that order.

from the Tamil area had to be posted to the Annamalai College and
Coimbatore College. This would have resulted in there being a ratio
of Tamil students in the Annamalai College and Coimbatore College
between the numbers of Tamil and Telugu students in the Coimbatore Col-
lege. Some students from the West Coast were therefore posted to
the Annamalai College. In spite of this, students from the Telugu
area in the Annamalai College were not in an absolute majority. Their
number was, however, larger than the number from any other area. This
is the best that could be done as it was not possible to have a ratio
of Telugu students in the Annamalai College without having a nar-
row margin between the numbers of Telugu and Tamil students in the
Coimbatore College. The Committee felt that the Coimbatore College should
have a distinct majority of Telugu students and that a few students
from the Tamil area should be sent to Coimbatore from the Tamil area.

32. Reserve List: In previous years, vacancies caused through
selected candidates not turning up, were generally filled up from the
unselected candidates. It is the policy of the Government of Madras
to fill not less than 10% of the vacancies in the various communities and to
reserve list for each college for the various communities and to
draw the following principles on which the vacancies shall be filled
by the principals.

- (a) Vacancy in any linguistic area shall be filled by a candi-
date from that area;
- (b) Vacancy in any community shall be filled by a candidate
from that community;
- (c) If a vacancy in any community cannot be filled by a candi-
date from that community, this vacancy shall be set aside.
All such vacancies shall be posted and be filled in the
following order:-

- i. Telugu
- ii. Tamil
- iii. English
- iv. Malayalam
- v. Others

If there is no candidate from a community to which the
vacancy falls, this vacancy shall be allotted to the next
community in the above order. The committee members
sent in their reports shall be required to state which
of the above is the case.

(d) Candidates under various communities in the Reserve List
are arranged in order of merit and vacancies from the
various communities shall be filled in that order.

IV. ABSENCE OF MR. A. VISWANATH.

33. Mr. A. Viswanath, Principal, Arthur Hope College of Technology,
Coimbatore, and a member of the Selection Committee attended only the
Preliminary meeting of the Committee held on 29-6-1947. He informed
the members of the Committee on that day that he considered his absence
at his College on 3-7-1947 as imperative, but would be attending the
meeting of the Committee on the 2nd July, and on the 4th July, and
if necessary on subsequent dates.

34. Mr. Viswanath did not attend the meeting of the Committee
on the 2nd July. In his letter dated 2nd July 1947, received by us on
4th July, he wrote as follows:-

" sub: Admission of new students to the First Year Engineering course.

I request you to place the following suggestions to the mem-
bers of the Selection Committee.

- (1) That the 23 seats reserved for candidates from outside Madras
Province be distributed among the Visagapatam, Coimbatore, Guindy
and Coimbatore Colleges so as to promote an All-India atmos-
phere in all the Colleges of the Presidency.
- (2) That the percentages of seats reserved for particular com-
munities, Muslims, Depressed Classes, etc., not fully uti-
lised by these communities (due to insufficient applicants
from them to cover their quota fully) should be distributed
among all the other communities in proportion to the commu-
nal ratios or be left for pure merit only.

I have discussed this point with the Director of Public
Instruction and have been able to convince him that the
special weightage given by Government to any particular
community, if not fully utilised by that community, should
not be made use of to the benefit of any one other commu-
nity, but should be given back to all the communities. "

We did not receive any communication from the Director of Public Instruc-
tion concurring with the views expressed in Mr. Viswanath's letter ex-
tracted above.

35. Mr. Viswanath did not attend the meeting of the Committee on the
4th July and subsequent dates. On 5-7-1947, we received the following
telegram from him dated 4-7-1947.

" BEING INDISPOSED BY MY INABILITY TO ATTEND SELECTION
COMMITTEE MEETING".

V. ACKNOWLEDGMENT.

36. We wish to record our appreciation of the hard work done by

TO THE MEMBERS OF THE BOARD OF ENGINEERING EDUCATION,
MADRAS.

THE BOARD OF ENGINEERING EDUCATION, MADRAS, has the honor to acknowledge the receipt of your letter of the 10th October 1947, regarding the proposal for the distribution of Rs. 1000/- among the staff of the College of Engineering, Guindy, in addition to their normal duties, and strongly recommend that a sum of Rs. 1000/- may be sanctioned for distribution by the Principal, College of Engineering, Guindy among the clerks who have done the bulk of the work in connection with the selection of students.

Yours faithfully,
J. P. Krishna

CONVENER, SELECTION COMMITTEE.

by the staff of the College of Engineering, Guindy in addition to their normal duties, and strongly recommend that a sum of Rs. 1000/- may be sanctioned for distribution by the Principal, College of Engineering, Guindy among the clerks who have done the bulk of the work in connection with the selection of students.

MADRAS,
10th Oct. 1947.

=====

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1960. At the same time, the population of rural areas has decreased from about 100 million in 1900 to about 50 million in 1960. This has led to a concentration of the population in urban areas, which has had a number of important consequences for the development of the United States.

APPENDIX D.

Number of applications received from various districts and communities.

Districts.	Brahmins.	Non-Brahmins.	Backward.	Muslims	Christians & others.	Harijans.	Total.
