To

The Honble Sri V. Kurmayya garu,

Minister for Rural Development
& Harijan uplift.

Respected Sir,

45519

I beg to bring the following
few lines to your kind consideration and
favourable order. I am a poor Harijan student.
I applied this year for B.E. Seat in the
Engineering College, Guindy Madras. But
I fear that I may be disqualified as my
age exceeds the age limit (24 yrs for schedule
Caste for B.E. course) by $11\frac{1}{2}$ months as I was not
admitted in school in my early stage
by my illiterate & uneducated parents.
I am very much interested in studying
Engineering course. My registration number is 4999.

I request your honour to be kind enough
that my case may be considered and
I may be exempted from the above age
restriction for which and may be given a seat
in Engineering College, Guindy Madras for which I
shall ever be grateful to your honour.

I beg to remain,

Sakthimethipalli,

17-6-48.

Respected Sir,

Yours most obediently,

J. Krishna Murthy

Sub: Colleges. Tengg. - Admission of Sri T. Krishnamurthy, a Harijan student - Age rule - Relaxed

From Sri T. Krishnamurthy d. 17.6.48.

G.O. No. Hs. 1636 Edu. dated 25-6-48.

The Govt. direct that the age rule applicable for admissions into Tengg. Colleges be relaxed in favour of Sri T. Krishnamurthy, a Harijan student, whose age exceeds the prescribed age limit of 24 years by about 11 $\frac{1}{2}$ months.

M. ment. d. H.M. (R.D.) on pic.f.: "Secy. 22 P.H. Please

The petitioner requests that ~~the~~ ^{rule} ~~agreement~~ for admission into Engg. colleges may be relaxed in his case. The age limit in the case of Hunjan students is 24 years and the petitioner's age exceeds this limit, it is stated, by " $\frac{1}{2}$ " months.

14 seats in the Engg. colleges. The number of Harijan applicants is reported to be below the total number of seats earmarked for them, and, therefore, the petitioner is sure to get admission, if his request for relaxation of his rules is granted. His request may, in the circumstances be complied with. Subject to orders, a draft order is ruled for approval. The file may be circulated to H.M. (Edn.) & H.M. (Ld.)

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system has solutions for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied. In this case the solutions are unique and can be found by the method of successive approximations.
