M.E.S. — Dr. K. Ramanyacharya

Re-apprd. as Prof. of

Applied Maths., Presy.

College —

The first of these is the
 fact that the population
 of the world is increasing
 at a rapid rate. This is
 due to a number of factors,
 including improved medical
 care, increased food supply,
 and a general increase in
 living standards. The result
 is that the world is becoming
 more crowded, and this has
 led to a number of problems,
 including pollution, resource
 depletion, and social unrest.
