Telegraphic Address "INSTRUCTION"

To

The SECRETARY TO GOVERNMENT,
Education and Public Health Department.

R.O.C. No. 6841-G3/46, dated 30th Septr. 1947.

Sir,

* SUB:- Buildings = Government Secondary and Training School for Mappilla Girls = Tirur = Construction of new buildings for the school and hostel at an estimated cost of Rs.3.59 lakhs = Proposals submitted:

REF:- G.O.No.MS.811, Education and P.H., dated 1st June 1942.

V/17

I have the honour to submit herewith the following proposal for the construction of new buildings for the Government Secondary and Training School for Mappilla Girls, Tirur at an estimated cost of Rs.3.59 lakhs and to request that Government may be pleased to accord their administrative approval to the scheme and provide necessary funds for the same in Part II of the Budget Estimate for 1948--49.

2. Proposals for the construction of new buildings for the above school and its hostel at an approximate cost of Rs.88,200/- were submitted to Government as a Part II Scheme for 1942--43, but Government in their order quoted above, ordered that the scheme should be postponed in view of their decision that no new works involving the use of iron, steel and timber should be started for the time being.

3. The school has since become a complete High School, with Secondary Grade Training Section attached to it. There are about 350 students on the rolls, out of which nearly 200 are residing in the hostel attached to the school. The existing accommodation provided in temporary sheds is quite unsuitable and inadequate. The practising section of the Training school is held in a rented building. It is, therefore, quite essential to put up a pucca building for both the school and hostel as early as possible.

4. Plans for the school and Hostel buildings have been got prepared by the Consulting Architect. The school building provides for 13 class rooms, excluding rooms for optional class, library, laboratory, etc. The extension for future construction shown in dotted lines in the plan will accommodate about 5 class rooms and a hall. For purposes of hall at present, the class rooms 4, 5, and 6 (in the plan) can be utilised by removing the partitions in between these rooms. In the building for the hostel, big size rooms (20' x 16') have been adopted with a view to accommodate five students in each. The building can thus accommodate 160 students in all.

5. From the above, it may be seen that provision has been made only for the minimum requirements in the proposed buildings both for the school and for the hostel. The cost of the scheme including the cost of the site, compound walls etc., is estimated by the Consulting Architect to Government at Rs.3.59 lakhs. The statement of approximate cost for the above amount, furnished by the Consulting Architect to Government is submitted herewith. The pencil drawings of the proposed buildings have been approved by me and are being retransmitted to the Consulting Architect for taking and furnishing me with the blue print copies thereof. The plans will be submitted to Government on their receipt from the Consulting Architect.

6. In the circumstances, I request that Government may be pleased to accord their administrative approval to the scheme and provide necessary funds for the same in the Budget Estimate for 1948--49. It will not be out of place, if I mention here that this only Mappilla Girls School is a growing institution and deserves every possible encouragement.

R. S. Vannambal
for DIRECTOR OF PUBLIC INSTRUCTION.

C.No.78197-B1/47.

Part B Scheme 1948-49

BUILDINGS - Government Secondary and Training School
for Mappilla Girls, Tirur - Construction of buildings for
the school and hostel.

From the Director of Public Instruction, Roc.No.6844-G3
of 1946 dated the 30th September 1947.

In 1941, the Director of Public Instruction
submitted proposals for the construction of buildings for
the then Government High School for Mappilla Girls, Tirur,
at an estimated cost of Rs.88,200/-; but they were ordered
to be postponed in view of the decision of the Government
that no new works involving the use of iron, steel and
timber should be started. In view of the improved position
of building materials on account of the termination of the
war and on account of the fact that the position ~~will~~ ^{would}
improve further, the Director was permitted in Memo No.
8886-B1/46-6 Education, dated the 20th August 1946, to
consider plans and estimates for construction of buildings
for educational institutions involving the use of controlled
materials to the minimum required, if they were really
urgent and also schemes for storeyed buildings, wherever
necessary.

2. The Director has now submitted proposals for
the construction of buildings for the Government Secondary
and Training School for Mappilla ~~girls~~ ^{girls}, Tirur and for the
hostel ~~for the students studying in the school~~ ^{attached to it} at an
estimated cost of Rs.3.59 lakhs. The cost of construction

of buildings for the school alone is estimated at 1.28
lakhs. ^{plus 18814 for building etc.} The Director reports that the plans have been

sent to the Consulting Architect for taking blue prints
and that they will be submitted ^{to govt} on receipt. They may be

awaited. ^{now} The school is ~~now~~ a complete high school
~~which~~ ^{and} is intended for Mappilla Girls who are educationally
backward ~~and deserve~~ ^{deserve} encouragement. A Secondary Grade

Training Section has also been attached to the school and
