From A. Lepper Esq., Superintendent, Government Press, Madras. To The Secretary to Government, Education & Public Health Department, Fort St. George, Madras.

No.S.B/Accts. Dated 21st June 1948.

Sir,

Sub: Contingencies - Employment of additional water brahmins during hot season of the year - Sanction Requested.

I have the honour to state that the employment of a water brahmin at the Central Press, Mint Buildings, has been sanctioned in para 3 of G.O.No.Ms. 56 Fin., dated 26-1-1934. The technical sections of the Mount Road Branch Press have since been amalgamated with the Central Press in 1938. There are about 1,800 employees now working at the Central Press and the water brahmin finds it difficult especially in the hot season of the year to supply water to the employees working in various sections scattered in different places at the Central Press. Besides the Corporation water supply in the premises stops at certain hours and does not meet fully the need of the employees during working hours. As much inconvenience is felt by the employees and the supply of drinking water to the employees is one of the recommendations made by the Royal Commission on labour, I request that sanction may be accorded for the employment of two additional water brahmins on wages together with Dearness allowance not exceeding the prevailing market rate from April to September each year.

2. The expenditure in the current financial year is negligible and will be met from the allotment under "56 Stationery and Printing - Government Presses - A. General Overhead charges - Pay of menials or by re-appropriation."

Note: Please see the letter from the S.G.P. on p.1. of. The S.G.P. states that the water brahmin, ~~employment of whom was sanctioned in G.O.Ms. No 56 Fin dated 26-1-1934~~, finds it difficult especially in the hot season of the year to supply water to the employees working in various sections of the Central Press. The number of the employees ^{has} increased from 1200 in 1934 to ~~the present number of 1800~~ now. The S.G.P. requests sanction for the employment of two additional water brahmings ~~only~~ in the hot season ^(April to September) of each year. But, it would seem sufficient if one additional water brahmin ^(of about 600 only) was sanctioned, considering the increase ^{in the} number of employees. Subject to orders, a draft order, sanctioning the employment of one addl. water brahmin is submitted.
