p. 2 supra

2. P.V. Abdurahiman Sahib, Officiating Lecturer in Mathematics, was selected for advanced studies overseas in "Engineering Mathematics". In G.O.Ms.No. 113-Edn., dated 24.1.1947 he has been granted study leave for a period of two years with effect from the 16th October 1946. In view of the Professor's remarks and the High Commissioner's recommendation, I request that the Government may be pleased to grant Mr.P.V. Abdurahiman an extension of study leave for a period of 9 months from 16.10.1948.

pp. 159-160 CF.
9 (G)

3. In case the extension of study leave is granted by Government, the extra expenditure involved to Government will be about Rs. 4,500/- approximately. Being a non-permanent Government servant he has already executed a Bond for a sum of Rs.15,000/- (Rupees Fifteen thousand) only, on the basis that the duration of the course of studies will not exceed two years. If the Government are pleased to sanction the extension of study leave for 9 months, Mr. Abdurahiman may be required to execute a supplemental bond for a sum of Rs.4,500/- or Rs. 5,000/-.

4. The Government may themselves inform the High Commissioner for India in London, of their decision in the matter.

Copy to the D.P.I.

Edn. and P.H. Dept.(A).

From the D.P.I.,No.10562-C1/47-25, dated 26-11-47.

Mr.P.V.Abdurahiman, Lecturer undergoing higher studies in U.K. - Request for extending period of study leave.

Under the G. of I., Edn. Ministry's scheme of sending abroad students at Govt. expense for advanced studies in subjects related to probable post-war needs, this Govt. "deputed", at their own expense, in 1946-7, Mr.P.V.Abdurahiman, Asst.Lecturer in Math. (since promoted as Lecturer, in the M.E.S.), Govt.Muslim College, Madras, to U.K. for studies in "Engg. Mathematics". He was granted study leave for a period of 2 years from 16-10-46. The terms allowed to him are indicated in para 1-B of G.O.130-Edn., d/- 23-6-47. He has now reported that he will not be able to finish his course until June 1949 and that therefore the period of his study leave may be extended by 9 months. The Professor of the Manchester Unty. under whom he works says that the value of the course which he is undergoing would be very greatly increased if he could stay for the "usual regulation period of three years." The High Commissioner and the D.P.I. recommend the extension. The extra cost involved in the proposal is about Rs.4,500.

M/2-3

II at CF 2

III at CF 2

Under the G. of I.'s scheme, the duration of the course of study is to be determined in each case by Govt., but it will be, in most cases, about 2 years. In the case of certain stipendiaries sent abroad, the Govt. have granted extensions of the periods of courses to more than 2 years.

In this case, this Dept. may support the acceptance of the High Commr.'s and the Dir.'s recommendation by relaxing, as a special case, rule 2 of F.R.84, under which the maximum of study leave that can be granted to an officer should in no case exceed 2 years for the whole period of his service (nor should the period of the leave, in combination with leave other than extraordinary leave or leave on medl.certificate, involve an absence of 28 months). The suggestion in para 3 of the Dir.'s letter at C.F. 1 may also be followed.

THE UNIVERSITY,
MANCHESTER, 13.

31st May, 1949.

Mr. Abdurahiman has taken the Ph.D course at this University. He has written a research thesis which includes the material for four original papers. Two papers are in fact awaiting publication, one in the R. & M. series of the Aeronautical Research Council and one in the "Aeronautical Quarterly" of the Royal Aeronautical Society. The thesis as a whole was a very satisfactory piece of work and a credit to the author.

In addition Mr. Abdurahiman has studied and attended lectures on various branches of Mathematics and Mathematical Physics. He has a pleasant personality and is well liked in the Department. On account both of his ability and pleasing disposition we are very glad to have had him with us.

Mr. P.V. Abdurahiman has been conducting aerodynamical research under my supervision at Manchester University for three years, during which time he has prepared a thesis for which the University has granted him the Ph.D. degree.

He has shown initiative and determination in bringing the solution of some exceptionally complicated mathematical problems in theoretical aerodynamics to a successful conclusion. At the same time he has made himself acquainted with wide sections of modern applied mathematics, including basic analytical methods, electromagnetism, elasticity, heat conduction, etc.

I shall be very surprised if I do not in the future hear that he has made further substantial research contributions.
