Technical Education Overseas - Study leave
to four officers deputed to United Kingdom.

Sir,

I am directed to enclose a copy of an application dated the 18th April, 1947, received from Messrs. P.B. Patnaik, C. Bhashyakarla Rao, K.K. Pillai and P.V. Abdurahiman for your consideration and to say that the High Commissioner strongly recommends that owing to the increased cost of living in this country, the Study Leave Allowance may be increased to £1 a day or alternatively to the stipendiary grant of £400 per annum with retrospective effect.

2. I am to add that a recommendation has been made to the Ministry of Education on similar grounds (a copy of the correspondence in the matter is enclosed for your information).

3. I am to ask, therefore, that your decision in the matter may be communicated to this Office as soon as possible by Air Mail.

I have the honour to be,
Sir,
Your most obedient Servant,

To The High Commissioner for India,
London.

Sir,

We, the Officers of the Madras Education Department on study in England, have the honour to make the following representation.

We were selected by the Government of Madras in June 1946 for undergoing advanced studies and in October-November 1946 we arrived in England and joined our institutions.

In their G.O. No. Ms. 113, Edn., dated 24/1/1947, the Government sanctioned study leave for two years and granted the following terms:

- (1) Study allowance at the rate of 12 shillings a day subject to the conditions specified in rule 8 in the Annexure to F.R.84.
- (2) Leave allowance at £25 to one of us (the average pay being higher than this amount) and at the rate equivalent to average pay to the rest with reference to Rule 12 in the Annexure to F.R.84 read with F.R.90.

Besides these allowances each will be given such amount, if any, as may be necessary to bring up the total payment made to him to the level of the aggregate payment made to a stipendiary student.

We submit that the total amount paid to us is not sufficient to maintain ourselves here and to meet our responsibilities in India. While on service we have been receiving besides our salary a war allowance of 17½% and a house allowance in the city of Madras. While in this country we get the study allowance of only 12 shillings a day plus the bare average pay from which income tax and life insurance premiums have to be paid. We have put in several years of service (some of us in the gazetted rank) and have acquired heavy family responsibilities. In these very difficult days it can be seen how expensive it is to meet the education of our children and maintain our families even at a considerably reduced level of comfort. After deducting these inevitable items of expenditure we are left barely with about £20 a month for our boarding, lodging and other expenses in London, Oxford or Manchester. We hope the High Commissioner who is fully aware of the high cost of living here will agree that it is very difficult for us to maintain ourselves healthy and active on this amount.

The average cost of living has gone up so much that the High Commissioner was pleased to have the scholarship of the Government scholars increased from £300 to £400. They get now £33 1/3rd. per month besides the allowances for books and travel. The rate is £35 1/3rd. at Oxford and Cambridge.

A number of officers have also come on deputation for advanced courses of study like us, but they receive their full pay plus a compensatory allowance of 19 shillings a day. We submit that we too have been "deputed" for training and study in the interests of the department. Yet we are considered different from them and are paid less. We understand that the compensatory allowance which was only 12 shillings until two years back, has been raised to 19 shillings owing to the increased cost of living. The study allowance of 12 shillings which was the rate paid long before the war was apparently not

/considered

Considered for revision at that time.

We think it is relevant to mention here the fact that the Government of Bengal have raised last year the study allowance granted to its officers from 12 to 19 shillings a day.

You have been very kindly looking after the interests and welfare of the students and officers on study here. We have represented to you our financial difficulties with the hope that you would view our case sympathetically and relieve them. We request you to kindly do the needful for granting us an increase in the rate of our study allowance at least to the level of the deputation people. It is needless to mention how handicapped we feel by constant worry about funds.

We request that early action may kindly be taken in the matter.

We have the honour to be,
Sir,

Sir,

I am directed to inform you that the letter addressed by the High Commissioner to the Ministry of Education, Government of India, referred to in the second paragraph of this Office letter, G.289.1.193, dated the 22nd October, 1947, originated out of an enquiry by the Government of India whether the existing rate of Study Leave Allowance of 12/- a day, for which a Government servant was eligible in addition to his pay, was adequate or not taking into account the increased cost of living in this country. The view of the High Commissioner was that this rate was not adequate in present conditions and he therefore recommended that it be increased to £1 a day or alternatively to a sum of £400 per annum, leaving out of account the pay to which the officer was entitled.

2. The High Commissioner's recommendation was based on the fact that it would appear that the officer is required to maintain his home establishment on a lower rate of pay than when he is at home and that it is highly desirable that he should receive an allowance adequate for his maintenance in this country, otherwise, as a number of officers have represented, their studies are seriously hampered by their financial worries.

Dear sir,

In April 1947, I, and my three colleagues who are in U.K. on study leave, had represented to the High Commissioner for India our difficulties owing to the high cost of living and had requested for an increase in our allowances. We were informed subsequently that the High Commissioner was pleased to recommend an increase in the study allowance given to us. Now, we understand that the Government of Madras are awaiting the decision of the Government of India on a similar recommendation sent to them with regard to general study leave terms.

Meanwhile, I regret to say for myself, that I have been put to considerable hardship and inconvenience in not being able to meet my expenses here and maintain my family in India in these very difficult days and that I have been obliged to leave unpaid several amounts due for payment.

I request the Government will be pleased to take very early action to relieve us of our difficulties.

Govt. servants sent to U.K. on study leave under
the G. of I. scheme - Rate of study allce.

In 1945-6, the G. of I. in the Edn. Dept. initiated a scheme of scholarships for sending to other countries (U.K., U.S.A., etc.) candidates for advanced courses of studies. The scheme was continued in 1946-7 and 1947-8. This Govt. participated in the scheme, bearing half the cost on account of the students sent against their quota of scholarships.

Alongside of that scheme, the G. of I. ~~also~~ sent overseas some of their officers also for higher studies. In that connection, they offered to Provinces to secure facilities of admission and passage for the Provl. Govt. servants whom the Provl. Govts. might send for the purpose at their cost. This Govt. have availed themselves of that offer ~~also~~.

The terms fixed by this Govt. in consultation with the Centre for their officers going overseas are contained in para 1-B of the G.O. at "X". Besides other allces., the officers are being given:

(1) leave salary as prescribed in rule 12 of the study leave rules in F.R.84; and

(2) study allce. at Sh.12 a day in U.K. and Sh.30 a day in the U.S.A. as prescribed in rule 7 ibid.
subject to the condition that these two amts. do not come up to the level of the U.S.A. as prescribed in rule 7 ibid.
So far as the United States is concerned, there

has been no complaint about the adequacy or otherwise of the study allce. But, 4 of the Govt. servants of the Edn. Dept. who had been sent to U.K. subd. some time ago, thro' the High Commr., the representation at pp.2-3 C.F. Thereon, the High Commr. recommended that, leaving out of account the leave salary of the Govt. servant concerned, the study allce. paid to him might be raised from Sh.12 to £1 a day. He made a similar proposal to the G. of I. in respect of their servants.

The understanding previously reached by this Govt.

with the G. of I. was that the same rates of allces. as are adopted by them would ~~also~~^{also} be adopted by this Govt. -- para 3 of "X"/3. That understanding apart, the G. of I. have since amended rule 7 of the study leave rules in F.R.84, itself, with retrospective effect from 1-4-48, raising the rate of the study allce. for persons sent to U.K. to Sh.16. That amendment evidently covers the cases of officers of all depts. of this Govt. also. The orders at "X"/3 may be modified accordingly.
