2012-2013

1. The first part of the paper is a review of the literature on the topic. It discusses the various methods used to study the effects of stress on the immune system, and the results of these studies. It also discusses the role of the hypothalamic-pituitary-adrenal axis in the stress response.

1. What is the main purpose of the study?
 2. What are the research objectives?
 3. What is the significance of the study?
 4. What are the limitations of the study?
 5. What are the conclusions of the study?
