Copy of Letter No. F.3-11/45-O.D.IV dated the 10th December 1947 from the Secretary to the Government of India, to the Secretary to the Government of Madras Education and Public Health Department. Madras.

Sub: Advanced Studies Overseas in respect of M/s. V. Baliah, K.S. Hegde and N.V. Kudva 1945 scholars; returns from the United States of America.

I am directed to state that the Educational Liaison Officer at the Indian Embassy, Washington, has informed the Government of India that Messrs. V. Baliah and K.S. Hegde would be completing their programme of studies in the United States of America sometime towards the end of December 1947 and Mr. N.V. Kudva in January 1948. Their return passages to India are being arranged by the Educational Liaison Officer. The first two may leave the United States of America early in January 1948, or by the next available boat while Mr. Kudva may leave in February 1948. The exact dates of departure will be communicated to the Government of Madras, when the passages are finalised.

The detailed Progress Reports showing the particulars of the scholar's work in the United States of America will be forwarded to the Government of Madras when the same are received from the Indian Embassy, Washington.

Subject:- ADVANCED STUDIES OVERSEAS IN RESPECT OF
MR. V. BALIAH, 1945 - SCHOLAR.
....

Sir,

I am directed to refer to this Ministry letter of even number dated 10th December, 1947 on the above subject, and to forward herewith for favour of necessary action, a copy of letter No. G- 36/45, dated 21st November, 1947 (with enclosures) from the Deputy Educational Liaison Officer at the Indian Embassy, Washington regarding Mr. Baliah's studies. He has recommended an extension in the scholarship period in respect of Mr. Baliah, upto June 1948 (i.e.) for a period of six months from January 1948 so as to enable him to complete the postgraduate Ph.D. degree course in Applied Chemistry at the Stanford University on 1st January, 1948 and then undergo the essential practical training upto the end of June 1948, by visiting some important chemical manufacturing industries, plants and laboratories in the Middle West and the Atlantic Coast. According to his Professor, this additional experience would be very valuable to Mr. Baliah in his future work in India.

In view of the good report on his work so far, the strong recommendations of the University authorities and the Educational Liaison Officer, and the fact that there will be no financial responsibility in regarding to the payment of his University tuition fees and other allied charges, Government of India are inclined to agree to the proposed extension in Mr. Baliah's scholarship upto the end of June 1948. The Government of Madras may kindly consider the proposal and communicate their decision to this Ministry, tele-

THE EDUCATION DEPARTMENT
EMBASSY OF INDIA

635 F STREET, N.W.
WASHINGTON, D.C.

Our File No. G.36/45

21st of November, 1947.

ATTENTION: Mrs. P. Johari
Subject + Extension in Scholarship
for Mr. V. Baliah, 1945-45 Madras
Government Scholar.

Dear Sir:

In continuation of our previous letter dated 5th of November 1947, I am to state that Mr. Baliah has now petitioned that his Scholarship be extended for six months. A copy of his petition, together with his professor's expert advice and report, is enclosed herewith for your consideration and decision. The Scholar has been advised to study the work carried out at other Research Laboratories in this country, and also to work with some private firms, who are engaged in the manufacture of Chemicals. He is expected to complete his University work towards a Ph.D. Degree by the first of January, 1948. After that date for the remaining period of his stay in this country, there will be no financial responsibility in regard to the payment of University tuition fees and other allied charges payable to the University. Mr. Baliah arrived in this country on the 28th of December 1945. We are prepared to recommend that the extension asked for may be granted to him.

If there is no objection, the decision of the sponsoring Government may be communicated to this office, preferably by cable

Sincerely yours

Sd/- A.S. Grewal.
Deputy Educational Liaison Officer.

Secretary,
Ministry of Education,
Government of India,
New Delhi, 3, India.

Stanford University,
California,
Nov., 1947. (6)

Dr. B.K. Byram,
Educational Liaison Officer for India,
Education Department,
Embassy of India,
WASHINGTON, D.C.

Dear Dr. Byram:

My Scholarship expires on Dec. 28, 1947, I shall be completing my work at Stanford University by Jan. 1948. So far I had only academic training and the need for some practical training is obvious. I discussed this matter with my professor and he is strongly of the opinion that I should have some practical training if the full benefits of my stay in this country are to be achieved. In a separate letter I am enclosing his views. He also suggested me a tentative program. So I request you to recommend to our Government to extend my stay for six months.

You may think that this application for extension has been made rather late. It was not possible for me to know earlier how long I should stay at Stanford University to complete my studies and what kind of practical training I should get later. I hope you will condone the delay and treat this application with the utmost urgency it deserves so that I can plan for further work.

Yours sincerely,

Sd/- V. Baliah.

Department of Chemistry.

November, 15th, 1947.

Dr. B.K. Byram,
Education Liaison Officer to India,
Education Department,
Embassy of India,
WASHINGTON, D.C.

Dear Dr. Byram:

Mr. V. Baliah, who expects to complete his work for the Ph.D. degree at Stanford University by January 1, 1948, has been conducting the experimental work for his thesis under my direction. He tells me that he wishes to request an extension of his fellowship for ~~six~~ months in order that he may visit other laboratories in the United States and if possible work for a period in a chemical manufacturing plant.

It is my opinion that such additional experience would be very valuable to him. His knowledge of the United States is now limited to the Pacific Coast and Stanford University, and he should have the opportunity while in this country to become acquainted with the larger universities and chemical industries and the Middle West and the Atlantic Coast. Mr. Baliah has done very good work while at Stanford, and I believe that he has the ability and training to profit greatly by an extension of his stay in the United States.

Very truly yours,

Sd/- Carl R. Noller,
Professor of Chemistry.

with reference to his telegram, dated the 15th January, 1948.
Mr. V. Baliah will continue to be treated as a Provincial
Government sponsored scholar, the expenditure in respect
of whom will be shared equally between the Provincial and
Central Governments.

By order,

L. K. Hingorani
for Secretary.

MALHOTRA 19/1.

From the Govt. of India Letter No. F.3-11/45-OD.
IV dated 27-12-47.

Sub: Advanced Studies Overseas Mr. V. Baliah,
Extension of period of scholarship.

Please see the letter from the Govt. of India and its enclosures in the Cf. Mr. Baliah was selected in 1945-46 for advanced studies in "Applied chemistry- manufacture of commercial solvents" and is intended, after completion of studies, for absorption in Industries (Govt. and private enterprise). The normal period of scholarship allowed for each scholar is two years. Mr. Baliah would have completed his two years of study by December 1947, having reached the U.S.A. in Dec. '45. In the circumstances stated in their letter of the Govt. of India are inclined to agree to the extension of the period of scholarship granted Mr. Baliah for 6 months, i.e., up to June 1948. It may be presumed that the Govt. of India will share half the cost of the scholar's training for this period also. This Department may agree to the extension of the period of scholarship.

Dev. and Finance may see for remarks.

To T.S.

The letter from the Govt. of India and its enclosures on pp 1-11. cf and the notes of the E & P H Dept above may be perused. In the circumstances stated at 'M' on p 3 cf agree with the views at 'A' above and
