NO.F.3-11/45-ODIV.
GOVERNMENT OF INDIA,
Department of Education,
New Delhi 3, the 26th AUGUST, 1947.

MEMORANDUM.

SUBJECT: ADVANCED STUDIES OVERSEAS IN RESPECT OF MR. P.D.KUMARESAN, 1945 SCHOLAR.

69435

C.o.665 Edn
2-9-47

(V)|p.h.cl

p3 ii p

The undersigned is directed to refer to this Department correspondence on the above subject, resting with Memorandum of even number, dated the 26th March, 1947 and to forward herewith a copy of Mr. Kumaresan's letter dated the 24th July, 1947, received through the High Commissioner for India, London, regarding his course of studies.

The High Commissioner for India states that unfortunately the Indian Embassy, Washington, has not yet been able to secure the desired facilities for the scholar in the United States of America. In the meanwhile, he supports the scholar's representation that he may be allowed to stay in the United Kingdom for undertaking the D.I.C. Course in Mechanical Engineering for which he has been accepted by the Imperial College of Science and Technology from October, 1947. The course involves an extension in Mr. Kumaresan's scholarship period until the end of July, 1948, which the High Commissioner for India recommends.

The Government of Madras may kindly consider the case and communicate their decision to the Government of India, at a very early date, by telegram, as the decision must be communicated to the High Commissioner within a fortnight or so. The Government of India are prepared to agree ~~for~~ to the extension recommended by the High Commissio

for Secretary.

To
The Secretary to the Govt. of Madras,
Education and Public Health Department

R'25.8.

Copy of a letter dated the 24th July, 1947 from Mr. P.D.Kumaresan, Gt Baddow, Essex, to the Secretary Education Department, Government of Madras through the H.C. for India, Education Department, London.

Sub:- Extenstion of scholarship for a period of 9 months:- January 1948 - Sept'48,

----

According to arrangements made by the High Commissioner in London, which was communicated to me by the Government of Madras, in November 1945, I should have joined the City and Guilds College, London, after I landed in U.K. on 28.12.45. But, after an interview with the Registrar, it become clear that there were no facilities that year for any post-graduate work in Mechanical Engineering; and therefore expressed my desire to undergo practical training in production and administration at a works manufacturing pulverising machinery. It was not till after 3 months that I was fixed up at Christy and Norris Ltd in Chelmsford. I reported to the Ag. Director, Mr. Chirsty, and the Works Manager, Mr. G.H.Smith on March 4th 1946.

After a very good training on production and management at the works, I completed my course on March 26th 1947.

As the nature of the subject involved a scope for using pulverised coal in India for power station work, collieries, metallurgical furnaces, cement and other kilns, I wrote to the Secretary, Education Department, in London who very kindly obtained permission from the Government for my study on Pulverised Fuel in U.S.A. where it has been greatly developed. The Educational Liaison Officer at Washington D.C. was contacted and have received information that he is awaiting reply from the Carnegie Institute of Technology at Puttsburg, Pennsylvania.

After finishing at Chirsty a Morris Ltd., I was able to visit Engineering works and Power stations in England and Scotland and these visits have been of very great value indeed. These tours came to an end on June 30 1947. Since then I have been awaiting communication from Washington D.C. as to be the arrangements made.

As an alternative, I asked for admission at City and Guilds College for postgraduate course in Mechanical Engg. which is now being offered.

In either case, whether I work in U.S.A. or at City and Guilds College, it will not be possible to complete by December 1947 when my scholarship comes to an end. It would be necessary for me to continue till September 1948.

Under the circumstances, I should be very grateful if the scholarship be extended for a period of 9 months - i.e. till September 1948. which would enable me to complete my study and thereby equip me better to serve the needs of the country.

Subject: Advanced studies overseas in respect of Mr. P. D. KUMARESAN, 1945 scholar.

Sir,

I am directed to refer to your telegram dated 21-10-1947, on the above subject, and to state that the Government of Madras have not communicated their further views in regard to Mr. P. D. Kumaresan's studies. They may kindly inform this Ministry urgently, whether they have any alternative suggestions regarding the scholar's further studies for the next two months. It will be recalled that the scholarship ~~will~~ is to terminate ~~usually~~ in December 1947. If they have ~~no~~ no suggestions in this respect, it would be advisable to recall the scholar at once; for in view of their decision not to agree to the 7 months' extension to enable Mr. Kumaresan to complete his D.I.C. course, it would be of no use his studying in the Imperial College of Science, London for three months for the D.I.C. course and then to leave it uncompleted.

The Provincial Government may kindly telegraph their decision to the Government of India urgently.

I have etc.,

DKHingorani

SECRETARY, EDN. AND P. H. DEPT.
4 FEB 1948
GOVERNMENT OF MADRAS

MINISTER FOR EDUCATION
GOVT OF MADRAS

EDUCATION AND PUBLIC HEALTH
5 FEB

To
The Hon'ble The Minister for Education.

Sir,

8428

~~Sir~~, I am the father of P.D.Kumaresan, one of the Govt of Madras Scholars now undergoing training in U.K. He had completed his training in a factory at Chelmsford where he spent 15 months. After that, the Ministry of Mines and Labour had arranged for visits to various big factories both in England and Scotland. For his specialised training he was recommended to be sent to America for a further training of one year. Inspite of the best efforts of Prof. Sundaram, then in U.S.A., a place could not be secured in any of the big factories dealing with Pulverisation of coal, and so the India House recommended that he should join the City and Guilds Institut~~ion for~~ and work for his D.I.C. He had started his work already when the intimation went to him that extension of scholarship was not granted by the Govt of Madras. I also advised my son to return immediately and he was prepared to do so, but at the last moment on the intervention of the Govt of India, the matter seems to have been delayed and he had even paid the fees for the new term in January, but on January 27th he received a further letter from the Education Department to the effect that the Madras Govt had decided not to extend the scholarship. In his letter dated January 27th, he writes as follows:-"A month ago, if the passage arranged for January 15th had not been deferred, I would have returned home without, in the least, feeling sorry. But now that I have put in another month in the second term (i.e. very nearly a half session is over) it would be rather unwise of me to neglect this opportunity

Though the Industries Dept. say that another degree or diploma will not do much good, the advanced treatment of modern mechanical engineeri problems and the training in the methods of research would be of great value if I have to take up a job in an Engineering Institution. The City and Guilds Institute is a leading, well known college recognised all over the world in that field. So the Dip. of Membership of Imperial College (D.I.C.) would be of great value".

Under the circumstance I shall be grateful if the matter be reconsidered and he be permitted to return in July. As I have a sprain in the foot I am unable to meet you. As you are interested in young men equipping themselves effeciently for the service of the motherland, I am sure this will meet with your sympathic consideration.

Thanking you,

Yours Faithfully,
J. D. Asirvadam

The Secretary to Govt, Education Dept.,
Fort St. George, Madras.

Subject: Govt of Madras Scholar P.D.Kumaresan-Completion of studies in Germany in lieu of training in U.S.A. already sanctioned, but not undertaken as no arrangement could be made in U.S.A.

13885

P31 w/fm

Sir,

Herewith I enclose a copy of a letter to the Educational Secretary India House, London, of which I have received a copy for information.

Last December I cabled my son P.D.Kumaresan to return to India as the Govt considered the D.I.C.Diploma not essential for employment in the Industries Dept, Madras, and I was informed that passage arrangements were being made, and that he would leave U.K in January. But in January he was asked to continue at City and Guilds College, as Delhi had advised London that negotiations with Madras for reconsideration were being taken up.

Twice earnest attempts were made by Prof.M.S.Sundaram to secure for the scholar facilities in U.S.A. firms. When the second attempt made in November 1947 failed, I wrote to an engineer at Siemens in Germany whom I had met in Dresden in 1936, and he has assured my son that proper arrangements could be made in Manufacturing firms in Germany for the necessary training that he needs.

When Kumaresan interviewed on Feby 14 Prof.M.S.Sundram who is now in London as Educational Secy, he assured my son that training in Germany would be quite valuable, and that the High Commissioner would seek a quick decision regarding the application.

The 15 months training at Christy & Norris, Chelmsford dealt with only one part of the subject, viz manufacture of pulverising Machinery for building and road materials, like disintegrators, pulveriser mills, concrete mixtures, road-making machinery etc. The firm was not engaged in the other part of the subject, viz use of powdered coal, burning for thermal power stations(steam generation), industrial furnaces, Cement Kilns etc. The breaking up into powder of coal, and the machinery problems involved are different from those of grinding stone, lime etc. It is for the latter half of the training that he wished to go to the U.S.A. In England also, most of the thermal power stations are using powdered (pulverised) coal, which ensures efficient easy operation. Also the dissertation he is working on at the City and Guilds College is 'Combustion and utilisation of pulverised fuel'

Under the circumstances, I beg to request you to be so good as to secure a favourable consideration of my son's application.

Yours faithfully
J. D. Asirvadam
Retired Associate Professor, Madras Christian College

26, Woburn Square, London W.C.1
12th February 1948.

The Secretary,
Education Dept.
India House, London W.C.2

Ref: E.A.5222
Sub: Appeal for reconsideration of extension of scholarship till March 1949-Works training in Germany.

Dear Sir,

I have received communication from your office d/-24.1.1948 that the extension of scholarship has not been granted by the Govt. of Madras. I wish to bring to your attention the circumstances in which I am placed so that my application could be reconsidered sympathetically in the light of these.

Since I completed my works training with M/s.Christy & Norris Ltd. of Chelmsford in March 1947, I had been hoping to do further training with a few firms in the United States. Accordingly I wrote to your department which very kindly secured the necessary permission from the Government. I submitted a list of firms in U.S.A. in my letter d/-28.12.1946 and note d/-10.11.1947, which were engaged in the manufacture of machinery in which I am interested. While the arrangements were being made in U.S. I made a study tour in the next three months-April to June- of factories and Power stations in this country, the programme of which I have already sent to you in my letters d/-12.4.1947, 27.4.1947, 18.5.1947 and 19.6.1947.

I took up the P.G.course at City & Guilds College for two reasons - for one the College offered facility for research in Pulverised Fuel and secondly, after the end of the course, the College offered to arrange for training with a firm manufacturing Pulverised Fuel equipment.

I was hoping to know the decision of the Government early enough so that I could definitely decide one way or the other-either take up the course or leave it.

Since the decision was not known, I finally decided to profitably use the time of waiting by joining the College. Now when I have only a few months left before I finish my dissertation, I have the decision of the Government to the contrary.

Also I am in contact with two firms in Germany-Siemens and Der Maschinenfabrik, Augsburg-with a view to get training at their works after the termination of the course at Imperial College. The Engineer, Herr Fritz Hirschbühl, is prepared to give all facilities if I should go to his works and also to negotiate with other firms in which I may be interested. Now that I am in England, it would be very convenient to study the Continental methods in Industry. As a country that has held a foremost place in industry for years, it would be highly useful to understand the German methods with a view to profitably applying them in the newly developing industries of our country It would be indeed profitable to take atleast a 9 months training from July 1948 to March 1949.

In the long run, I feel, it would pay our country to benefit by the experience gained by the individual scholar. I trust an extension until March 1949 would be granted in view of the above mentioned to equip me to the maximum to meet the needs of our country.

Yours faithfully,
Sd. P.D. Kumaresan.

16285 SUB:- ADVANCED STUDIES OVERSEAS IN RESPECT OF MR. P.D. KUMARESAN, 1945 SCHOLAR.-

p25 ante

Sir,

p21 ante
p35 infra

I am directed to refer to this Ministry endorsement of even number dated 21st January 1948 in reply to your telegram dated 22nd December 1947 on the above subject, and to forward herewith for favour of necessary action a copy of letter No. E.A. 5222 dated 16th February 1948 from the High Commissioner for India, London, regarding Mr. Kumaresan's further studies and training. The scholar has now applied for extension in the scholarship period upto March 1949 in order to enable him to complete the D.I.C. course in Mechanical Engineering at the Imperial College of Science and Technology in July 1948, and then undergo practical training in Mechanical Engineering - Pulverization of Fuel with two German firms, Siemans and Der Maschinenfabrik, Augsburg upto March 1949. In view of the scholar's performance hitherto, the High Commissioner for India has strongly recommended the proposed extension and has added that in case Government is not willing to agree to it Mr. Kumaresan would be prepared to complete D.I.C. course and practical training upto March 1949 entirely at his own expense. Government of India would recommend that the scholar should be allowed to complete the D.I.C. course at the Imperial College at Government cost, and do practical training at his own, if considered necessary by the Provincial Government. Otherwise, Mr.Kumaresan may be permitted to complete both the theoretical course and the practical training atleast at his own expense. The Government of Madras may consider the case with reference to the urgency of their need for the scholar's services from the viewpoint of his employment on return, and kindly communicate their decision to the Government of India telegraphically.

Copy of letter dated 16th Feb. 1948 No. E.A. 5222 from the High Commissioner for India, London to the Ministry of Education New Delhi.

-.-

SUB:- Extension of scholarship for Mr. P.D. Kumarsesan - Madras Government scholar.

-.-

This is on continuation of our telegram No. E.A. 5222 dated 28th January 1948. Mr. Kumaresan has sent a further application for reconsideration of extension of his scholarship until March 1949. He has secured permission from two German firms who are willing to train him ~~the~~ in the process of pulverization of fuel. The Madras Government have asked him to be sent back immediately vide your cable No. 1065 dated 21st January. I do not know if this request by the scholar for reconsideration will materially alter their decision. If the decision is unfavourable to Mr. Kumarsesan, he says he is willing to stay at his own expnese and complete his studies and training. Please ascertain at once whether the Govennment of Madras will be agreeable to either of these suggestions. This department is willing to recommend him for the extension of his scholarship as I have personally satisfied myself that the candidate is fully deserving of the ecburagement that he seeks. He has made good use of his time and is likely to benefit by the extension.

Copy of letter dated 12th Feb. 1948 from Mr. P.D.Kumarsan to the High Commissioner for India, London.

-.-

SUB:- APPEAL FOR RECONSIDERATION OF EXTENSION OF SCHOLARSHIP TILL MARCH , 1949 - WORKS TRAINING IN GERMANY.

I have received communication for your Office dated 24-1-1948 that the extension of scholarship has not been granted by the Govt. of Madras. I wish to bring to your attention the circumstances in which I am placed so that my application could be reconsidered sympathetically in the light of these.

Since I completed my works training with Messrs. Christy & Norris Ltd., of Chelmsford in March 1947, I had been hoping to do further training with a few firms in the United States of ~~America~~ Accordingly, I wrote to your department which very kindly secured the necessary permission from the Government. I Submitted a list of firms in U.S.A. in my letter dated 28-12-1946 and note dated 10-11-1947, which were engaged in the manufacture of machinery in which I am interested while the arrangements were being made in U.S.A. I made a study tour in the next three months - April to June - of factories and Power Stations in this country, the programme of which I have already sent to you in my letters dated 12th April, 27th April, 18th May, and 19th June 1947.

I took up the post-graduate course at the City & Guilds College for two reasons:- for one the College offered facility for research in Pulverised Fuel and secondly, after the endo-f the course the college offered to arrange for training with a firm manufactuuring Pulverised fuel equipment.

I was hoping to know the decision of the Governmnt early enough so that I could definitely decide one way or the other - either take up the course or leave it. Since the decision was not known, I finally decided to profitably use the time of waiting by joining the College. Now, when I have only a few months left before I finish my dissertation, I havethe decision of the Government to the contrary.

Also, I am in contact with two firms in Germany- "Siemans" and Der Maschinenfabrik Augsburg" - with a view to get training at their works at the termination of the course at Imperial College. The Engineer, Herr Fritz - Hirschbiihl is prepared to give all facilities if I should go to his works and also to negotiate with other firms in which I may be interested. Now that I am already in England, it sho would

p.T.O..

36

be highly useful to understand the German methods with a view to prifitably applying them in the newly developing Industries of our country. It would be indeed profitable to take at least a 9 months training from July 1948 to March 1949 with the firm.

In the long run, I feel, it would pay our country benefit by the experiences gained by the individual scholar. I trust an extension until March 1949 would be granted in view of the above mentioned to equip me to the maximum to meet the needs of our country.

very Convenient to Study the Continental Methods in Industry. As a Country that has held a foremost place in Industry for years it would ~~be~~

Copy of letter No. E.A.5222, dated 15th July 1948, from the High Commissioner for India, Education Department, London to the Secretary to the Government of India, Ministry of Education, New Delhi.

SUBJECT:-MR. P.D.KUMARESAN - MADRAS GOVT. SCHOLAR. ㉗

For attention of Mr. P.N.Kirpal.

This candidate was sent by the Government of Madras to study the problems connected with Pulverising Coal. His scholarship expired on 24-12-47 and the Government of Madras permitted him to extend his study up to March 1949 provided the scholar met his expenses from his own resources. After nearly a year of correspondence with suitable industrial firms in America it has now come to be known that a firm called Messrs. Kennedy Van Saun Manufacturing & Engineering Corporation are willing to accept Mr. Kumaresan for practical training in their pulverisation plant. I am attaching Mr. Kumaresan's letter, together with the correspondence he has had with this American concern, and I should like you to let me know whether Mr. Kumaresan may now proceed to America for this training. Considering the offer of this scholarship was to get him trained in the pulverisation of coal, I am definitely of the opinion that the scholar may be sent to avail himself of this opportunity. If this is agreed to, the question arises whether Mr. Kumaresan should go at his own expense or whether the Government of Madras will agree to financing him for the American part of the training. If the decision is that Kumaresan should go at his own expense, will you give the necessary recommendation to the Reserve Bank to release adequate Dollars to the extent of at least $900 for a period of six months. I have written in detail, but should like to have your decision by cable. If this entire programme is not approved, Mr. Kumaresan will be ready to return to India by the first available sailing.

****

26 Woburn Square,
London W.C.1.
July 12, 1948.

Dear Professor Sundaram,

After spending one year at the factory of Messrs Christy and Norris Ltd., Chetmsford, who are manufacturers of pulverising and grinding machinery (other than machinery for pulverising coal) I suggested a few firms in U.S.A. engaged in manufacture of equipment for pulverising coal and steam generators for power station work. The Education Department secured permission early in 1947 from the Government of Madras and was in correspondence with the Educational Liaison Officer at Washington to fix up training with one of these firms. But unfortunately at that time no facility for such a training was available and therefore I chose the post-graduate research facilities for a year offered at Imperial College, London. I completed my dissertation on "combustion of pulverised coal and some factors influencing the design of furnaces for large steam generators " in June 1948.

During the course of the summer term, I was in touch with a German Engineer, Herr Fritz Hirsch Biihl, who was interested in my work in this country and very kindly agreed to arrange for my training with one of the German firms and drew up a programme of visits till March 1949. This time also your department obtained an extension of my period of training till March 1949, but at my own expense. It was felt at the time that a theoretical training at Imperial College will not be of much value to the Industrial needs and therefore the extension from January 1948 till March 1948 was given with this reservation. There has been some difficulty in getting military permits to the four zones in Germany which has been exploired in my letter to Dr. S.G.Sathaye dated June 3, and so I had to cancel my study visit to Germany.

In June 1948, Dr. L.A. Gotwald of the Board of Foreign Missions of the United Lutheran church in America negotiated with a few firms on my behalf and has succeeded in getting training facility for a minimum period of 6 months with the firm "Kennedy-Van Saun Mfg. & Eng. Corp. 2 Park Avenue, New York 16, N.Y.
I am enclosing a copy of letter received from the President of the firm expressing his willingness to cooperate fully in arrangin

a suitable training. In confirmation to this, Dr. Gotwald has also received an assurance from this firm to give 6 months training in their factory at Danville, Penn. I am enclosing (Encl. 2) copy of letter received this morning from Dr. Gotwald.

The firm of Kennedy-Van Saun is well known for their manufacture of crushing, mining and cement machinery, preumatic transport systems and pulverised coal equipment, and I am sure it will be very valuable to take the six months training offered at their Danville factory.

I find that the dollar exchange regulations require a permit from the Reserve Bank of India before proceeding to U.S.A. I therefore request you to secure the release of dollars which would enable me to complete my study in U.S.A.

Yours sincerely,

Sd/- P.D.Kumaresan.

Letter of President, Kennedy-Van Saun Mfg. & Eng. Corp.
to P.D.Kumaresan.

Dear Sir,

We are in receipt of a letter dated June 11th from the Board of Foreign Missions of the United Lutheran Church in America, 231 Madisan Avenue, New York,N.V., and we hasten to send you a complete set of our catalogue No. 44-A,44-B,44-C,44-D,44-F and if and when you arrive in the United States you are invited to call on us. If you care to go to our factory at Danville, which we believe is one of the largest of its kind in the world, we will be glad to cooperate with you and show you our facilities for the pulverization of coal and other materials.

Our address, as you will observe, is No. 2 Park Avenue, New York city and you are invited to call on us and we will be glad to cooperate with you to the fullest extent possible.

Hoping to have the pleasure of meeting you,

We are,
Very truly yours,

Sd/- J.E.Kennedy
President.

(COPY)

Letter of Dr. L.A.Gotwald, Executive Secretary, Boar foreign Missions of the U.L.C.A., to P.D.Kumaresan.

Dear Kumaresan,

Thank you for your letter of June 28 in which you indicate that Mr. Kennedy, President of the Kennedy-Van Saun Mfg. & Eng. Corp, wrote you that they would be glad to cooperate in giving you some training here in America. Today I received the following cable from your father in Madras:-

> "Please contact President Kennedy 2 Park Avenue
> New York. Arrange six months training Kumaresan
> Danville factory Government minimum -
>
> As-vivadam."

From this cable I understood that he had secured for you some government scholarship for further study in America for six months.

This afternoon I called up Mr. Kennedy on the phone and he assures me that they would be glad to take care of you and give six months training in their Danville factory. I suggest you immediately write to him,to Lion and confirm the fact that you plan to come. In your letter you might mention the fact that I called Mr. Kennedy on July 9th concerning this matter and he assured me that they would have a place for you. I hope you will be able to get a passage at an early date for America, and probably when you get here, I shall be unable to see you.

Unfortunately, I will be away in Europe from August 6 to September 20, attending the meeting of the World Council of churches in Amsterdam, Holland. However, there will be someone here in the office of our Board at 231 Madison Avenue who might be able to help you. When you come ask for Dr. Fiedler if I am not here. Dr. Fiedler was a missionary in India for many years.

With kindest regards and hoping that your plans for coming to America will work out successfully,

Yours very sincerely,

Sd/- L.A.Gotwald.

Govt.of Madras, Madras.

Sir,

Subject: P.D.Kumaresan, Govt.of Madras Scholar now in U.K. Training in pulverised fuel to be completed in U.S. High Commissioner's recommendation to permit schola to take six months training at the Kennedy-Van-Saun Manufacturing and Engineering Corporation.Govt's orders that he be permitted to undergo the training at his own cost.

59414

ASST. SECRETARY TO GOVERNMENT
19 AUG 1948
EDUCATION AND PUBLIC HEALTH DEPT.

copy p 58 infra

Reference: My letter to New Delhi dated 7.8.'48, praying that P.D.Kumaresan be permitted to complete his training in U.S.A.at Govt. cost at least for half the period recommended by the High Commissioner.

The training in U.S.A.repeatedly recommended by the High Commissioner for India,London and by the Govt. of India will equip the scholar for more efficient service in India. Kumaresan feels that his training in regard to pulverised fuel is incomplete and requests that as facilities for training in U.S.A. have been secured, he be permitted to complete his training in U.S.A. and thus thecdecision of the Govt. permitting him to spend a year in U.S.A. and complete his training in his special subject satisfactorily may be implemented though for a shorter period.

In view of the consideration that I am engaged in honorary religious and social service which brings me no income but entails expenses, and that during the period of five years since my retirement, I have had a difficult time economically for reasons stated in the letter under reference, may I request you to be so good as t recommend the scholar being sent to U.S.A. at Govt. cost for 6 months or at least meet the passage expenses and maintenance for half the period.I could then arrange for a loan to carry him through the remaining period of his stay in U.S.A.

In reply to a request from my son in his letter dated July 13. for some money being remitted to him through the Inter-Mission Business Office,Bombay or so, lest as he stated he'get stranded immediately on landing in U.S.A.'I cabled among other matters that I would remit money to Dr.Gotwald through the Mission Treasury at Guntur.It might be that this reference,though it meant only a small sum of Rs.500/-,might have given the impression to the authorities in London that the scholar could undergo this training at his own cost.

I shall be very grateful for a recommendation of this Scholar's request to be permitted to complete his training at Go Govt. cost.

Thanking you,

Yours faithfully,

J. D. Asirvadam

Rao Sahib The Rev. J. D. Asirvadam, M.A.,
***

Tambaram, Madras,
7th August 1948

The Secretary
To The Govt. of India,
New Delhi.

Sir,

I write this to you on behalf of my son, Paul Daniel Kumaresan, who was sent from Madras to the United Kingdom for Post-Graduate work, his field of special study being Pulverised Fuel. Finding that it would be necessary for him to complete his training in this particular field in America, The High Commissioner for India recommended that he should be permitted to spend a year in the U.S.A. and on the recommendation of the Govt. of India, the Govt. of Madras agreed to the scholar proceeding to the U.S.A. for a year.

Prof. M. S. Sundram was then the Educational Officer at Washington and his efforts in February 1947 and again later in the year proved of no avail and on the advice of the Education Department, India House, Kumaresan joined the City & Guilds College, with a view to carry on a theoritical study in his subject. Kumaresan was very unhappy that the needed facilities for completing his training were not forthcoming and therefore I wrote to a personal friend in Germany, whom I had contacted at Dreysden in 1936 and he assured my son that there were adequate facilities for training in Germany. Even this German training was beyond my means unless my friend at Dreysden could arrange for his expenses in Germany being made available by the firm concerned. As explained by my son there were other difficulties also in regard to his training in Germany.

Under the circumstances I wrote to Dr. L. A. Gotwald of New York and he has finally succeeded in making an arrangement for training at Danville Factory of Kennedy Van Saun Mfg. and Eng. Corporation. When Prof. Sundram who has been in touch with the scholar's needs enquired whether he could not venture on the American plan privately in the hope that if the Govt. of India and the Govt. of Madras ~~recommended~~ happened the training the needed support from Government would be forthcoming. In reply to a cable received from him I cabled my son "Return procedure inadvisable". He was to have sailed from London on July 30th. On the day I sent the message, viz. the 26th he also sent another message which read as follows: "Your two letters. High Commissioner's correspondence sent Delhi by air. Prof. Sundram cables Madras. Awaiting cable Government's decision". In one of my letters I had written to him that the training in the U.S.A. would be possible only if the Government would implement its old decision to give him facilities for a year's training in America.

In view of the fact that
England, it would be enough
ville Factory.

this affair before the middle of August, when he would be away on a conference and he is the only person who knows the history of my case fully and is also the only person who could take any major action as the chief.

As I had advised expected that my son would have sailed on July 30th but for the fact that he had the hope that the Govt. of Madras and the Govt. of India would provide him with the facilities that they had already promised a year ago.

It may be that the officials in London had thought that I was economically in a position to meet the necessary expenses of my son. I wish to submit that after serving in the Madras Christian College as a High School teacher and later as a lecturer and in the final years as Associate Professor, I retired in June 1943 and since then I have engaged myself in a good deal of honorary service at Tambaram and in the Province. At the moment I am the Honorary Chairman of the National Christian Council Famine Relief Committee for South India. Another son is now in Sweden and will not return till after September 1950. A daughter has just finished her M.B.course and is working as a Honorary House Surgeon at the General Hospital and she will complete this practical training for a year only in July 1949. The past five years have been a time of great economic strain and I am therefore unable to undertake so great a responsibility.

At the sametime I earnestly request ~~wish to urge you for~~ a reconsideration because of the fact that having spent his time very usefully in England, Kumaresan is naturally very anxious t[illegible] return with the feeling that he had completed his train[illegible] in his special branch. If he will be allowed to [illegible]alisation. now there will be a sense of frustration wh[illegible]quipped for the youngman and he would not be [illegible] chosen f[illegible] in our land in the subject that [illegible] backed up the

The Govt. of India has always st[illegible] the past and if a idea of further training for Kum[illegible], I have the hope that this similar recommendation regarding him will be upheld by the final recommend[illegible] Govt. of Madras.

My son is anxious to leave for New York before the visitors to the Olympic games begin to return and therefore a quick decision regarding this matter will enable Kumaresan to book his passage before the rush season begins. If atle[illegible] the passage and the expenses for three months are met by Government, I shall take steps to arrange for the expenses for the next three months or any longer period that he ma[illegible] able to spend at Danville Factory so that he may avail [illegible] of the decision of the Govt. of Madras that he could [illegible] his training till March 1949.

Thanking you,

CABLE CORW STATE

Copy of application dated 7th August 1948 from Mr.
Asvenadam to the Secretary to the Government of India New

I write this to you on behalf of my son, Paul Daniel Kumaresen, who was sent from Madras to the United Kigdom for Post Graduate work, his field of special study being Pulverised Fuel; Finding that it would be cessary for him to complete his training in this particular field in America. The High Commissioner for India recommended that he should be permitted to spend a year in the U.S.A. and on the recommendation of the Government of India, the Government of Madras agreed to the scholar proceeding to the U.S.A. for a year.

Prof. M. S. Sundram was then the Educational Officer at W Washington and his efforts in February 1947 and again later in the year proved of no avail and on the advice of the Education Department, India House, Kumaresan joined the City and Guilds College, with a view to carry on theoritical study in his subject. Kumaresan was very unhappy that the needed facilities for completing his tfaining were not forthcoming and therefore I wrote to a personal friend in Germany, whom I had contacted at Dresden in 1936 and he assured my son that there were adequate facilities for training in Germany. Even this German training was beyond my mea means unless my friend at Dresden could arrange for his expenses in Germany being made available by the firm concerned. As explained by my son there were other difficulties also in regard to his training in Germany.

Under the circumstances I wrote to Dr. L.A.Gotwald of New York and he has finally succeded in making an arrangement for training at Danville Factory of Kennedy Van Saun Mfg. and Eng.Corporation. When Prof. Sundram who has been in touch with the scholar's needs enquired whether he could not venture on the American plan privately in the hope that if the Government of India and the Government of Madras approved the training, the needed support from Government would be forthcoming. In reply to a cable received from his I cabled my son 'Return,procedure inadvisable'. He was to have sailed from London on July 30th. On the day I sent the message, viz. the 26th he also sent another message which read as follows: ' Your two letters. High Commissioner's correspondence sent Delhi by air. Prof.Sundram cables Madras. Awaiting cable Government's decision'. In one of my letters I had written to him that the training in the U.S.A. would be possible only if the Government would implement its old decision to give him facilities for a year's training in America.

In view of the fact that he spent a fairly long time in England, it would be enough if he spends six months in the Danville Factory.

My son in his letter dated the 23rd ultimo wrote of an earlier cable as follows: 'Received your cable on 20th morning. I consulted Prof. M.S. Sundram this afternoon. He thinks that if the Government aid is absolutely essential for me to go to the U.S.A., I should await reply from Government to his recommendation. But if Iam willing to go on my own, I should venture to do so and get a provisional reservation as early as possible. As the official cable from Madras through Delhi will take some time to reach Prof. Sundram says that unofficially he would strongly advise me to avail myself of this opportunity as that would be a fitting conclusion to my studies after the German programme and the earlier attempts in the U.S.A. have both failed to work out. Prof. Sundram is eager to settle this affair before the middle of August, when he would be away on a conference and he is the only person who knows the history of my case fully and is also the only person who could take any major action as the Chief'

As I had advised my son would have [illegible] but for the fact that he had the hope that the Gov[illegible] 30th and the Government of India would provide him with the fa[illegible] Madr that they had already promised a year ago.

It may be that the officials in London had thought that I was economically in a position to meet the necessary expenses of my son. I wish to submit that after serving in the Madras Christian College as a teacher in the High Schooland later as a lecturer and in the final years as Associate Professor, I retured in June 1943 and since then I have engaged myself in a good deal o honorary service at Tambaram and in the Province. At the moment I am the Honorary Chairman of the National Chistian Council Famine Relief Committee for South India. Another son is now in Sweden and will not return till after September 1950. A daughter has just finished her M.B.course and is working as a Honorary House Surgeon at the General Hospital and she will complete this practical training for a yearly only in July 1949. The past five years have been a time of great economic strain and I am therefore unable to undertake so great a responsibility.

At the same time I earnestly request a reconsideration because of the fact that having spent his time very usefully in England, Kumaresan is naturally very anxious to return with the feeling that he had completed his training in his special branch. If he will be allowed to return now, there will be a sense of frustration which is not good for the youngman and he would not be fully equipped for service in our land in the subject that he ha had chosen for specialisation.

The Government of India has always strongly backed up the idea of further training for Kumaresan in the past and if a similar recommendation is made now, I have the hope that this final recommendation regarding him will be upheld by the Government of Madras.

My son is anxious to leave for New York before the visitors to the Olympic games begin to return and therefore a quick decision regarding this matter will enable Kumaresan to book his passage before the rush sesson begins. If atleast the passage and the expenses for three months are met by the Government, I shall take steps to arrange for the expenses for the next three months or any longer period that he may be able to spend at Denville Factory so that he may avail himself of the decision of the Government of Madras that he could take his training till March 1949.

Thanking you.

Copy of letter dated 9th August 1948 from Rev. J.D. Asirvadam to the Secretary to the Government of Madras.

Subject: P.D.Kumaresan, Government of Madras scholar now in U.K. Training in Pulverised fuel to be completed in U.S.A. High Commissioner's recommendation to permit scholar to take six months training at the Kennedy-Van-Saun Manufacturing and Engineering Corporation Government's orders that he be permitted to undergo the training at his own cost.

Reference: My letter to New Delhi dated 7th August 1948 praying that P.D.Kumaresan be permitted to complete his training in U.S.A. at Govt. cost at least for half the period recommended by the High Commissioner.

The training in U.S.A. repeatedly recommended by the High Commissioner for India, London and by the Government of India will equip the scholar for more efficient service in India. Kumaresan feels that his training in regard to pulverised fuel is incomplete and requests that as facilities for training in U.S.A. have been secured he be permitted to complete his training in U.S.A. and thus the decision of the Government permitting him to s spend a year in U.S.A. and complete his training in his special subject satisfactorily may be implemented though for a shorter period.

In view of the consideration that I am engaged in honorary religious and social service which brings me no income but entails expenses, and that during the period of five years since my retirement, I have had a difficult time economically for reasons stated in the letter under reference, may I request you to be so good as to recommend the scholar being sent to U.S.A. at Government cost for 6 months or at least meet the passage expenses and maintenance for half the period. I could then arrange for a loan to carry him through the remaining period of his stay in U.S.A.

In reply to a request from my son in his letter dated July 13, for some money being remitted to him through the Inter-Mission- Business Office, Bombay or so, lest as he stated he got stranded immediately on landing in U.S.A. I cabled among other matters that I would remit money to Dr. Gotwald throug gh the Mission Treasury at Guntur. It might be that this reference though it meant only a small sum of Rs.500/- might have given the impression to the authorities in London that the scholar could undergo this training at his own cost.

I shall be very grateful for a recommendation of scholar's request to be permitted to complete his training at Government cost.

****

Copy of letter dated 10th August 1948 from the Secretary to the Government of India, Ministry of Education.

Subject: K. D. Kumrasen 1945 Overseas scholar
training at Daville Factory, New York.

Reference: My letters of 7th August and telegram
9th August.

The Madras Government would await your recommendation. The long looked for facilities have been ~~received~~ secured. Training in regard to pulverised fuel at the Danville factory of the Kannedy. Manufacturing and Engineering firm would be most valueable. Though the firm would welcome Kumaresan at any time, a quick decision would enable the scholar to leave England before the rush for passage back to U.S.A. for olympic visitors begins.

The scholar having come to near the cherished goal of a satisfactory conclusion of his studies with a view to serve our land in an efficient manner in his special field of study, I earnestly request that the needed support for the training in U.S.A., already agreed to in principle, may be kindly sanctioned.

(V)

para 2 on p1cf

Pl. see the letter from th G. of I and its enclosure on pp 1-3 cf. Mr. P.D. Kumaresan is a candidate select in 1945-46 for the award of an overseas Scholarship, the subject of specialisation being "Design and manufacture of pulverising and grinding machinery, including machinery for buildings and roads". The candidate is intended to be absorbed in the 'Industries' after completio of training. Last year, the candidate applied for permission to continue his trainin in firms like "Blake Pulverising Co" in the U.S.A in order to do special study on Pulverising applied to fuel firing; after completion of his training at M/s Christy & Norris Ltd, Chelmsford, U.K. ~~by March '47~~. The Govt. gave him permission to do so but requested the G. of I to arrange Mr Kumaresan's training in such a manner in the U.S.A. that the entire durati of his course did not exceed two years. The G. of I ~~had also~~ accordingly advised the H.C. for India for Mr. Kumaresan's further traini — Vide the notes on pp1-4 NF and the letter from the G of I on p11 cf of G.O. No: 665 Edn d/ 2-4-

It is now observed from the letter of the G of I on p1 cf that the Indian Embassy at Washington has no yet been able to secure the desired faciliti for the scholar in the U.S.A. and that the H.C. for India supports the Scholar's representation that he may be allowed to stay in the U.K. for undergoing the D.I.C.

course in Mech. Engg. for which he has been accepted by the Imperial College of Science and Technology from October 47. The course involves an extension in Mr. Kumaresan's Scholarship period upto the end of July 48 which the G. of I. and the H.C. for India recommend. The recommendation of the G. of I. is acceptable in the view that it is not unusual to give extension of scholarship periods ~~to~~ in particular deserving cases. However, as ~~the~~ Mr. Kumaresan is earmarked for the Industries Dept. after completion of his training, Dev. may, perhaps, advise whether the D.I.C. Course in Mech. Engg. which Mr. Kumaresan proposes to undertake will be an essential requisite for his ~~final~~ absorption in "Industries". Finance may also see.

From the Govt. of India, Ministry of Education, No. F.3/11/45-OD.IV dated 11-12-47.

----

p13cF
p3cF
p1cF

The period of the scholarship granted to Mr. P.D. Kumaresan expires in December 1947. He finished his practical training in the United Kingdom in June '47. It has not been possible to arrange for his further training in the United States of America as originally proposed. In a letter dated 26th August 1947, the Govt. of India enquired whether the scholar might be allowed to stay in the United Kingdom for undertaking the D.I.C. course in Mechanical Engineering in the Imperial College of Science and Technology from October '47, the period of his scholarship being extended until the end of July '48. The Joint Director of Industries and Commerce, who was consulted in the matter, stated that the course referred to, was not considered to be an ~~ex~~ essential requisite for the scholar's absorption in 'Industries' and that the extension of the period of training was not necessary. The Government agreed with the recommendation of the Director and the Govt. of India was informed that this Government did not agree to the extension of the scholar's period of training.

p7cF

p24NF
p11cF

p13cF

In a letter dated 15th November 1947, the Govt. of India enquired whether this Government had any alternative suggestion regarding the scholar's further studies of the next few months, i.e. November and December. In this connection they stated as follows:-

> " If they (Madras Government) have no suggestion in this respect, it would be advisable to recall ~~hs~~ the scholar at once; for, in view of their decision not to agree to the 7 months' extension to enable Mr. Kumaresan to complete his D.I.C. course, it would be of no use his studying in the Imperial College of Science, London, for 3 months for the D.I.C. course and then to leave it uncompleted."

p15cF

In reply to this letter the Government of India was informed that this Government had decided to recall the scholar at once and they were requested to make arrangements for his return passage to India.

The Govt. of India, in the telegram on pages 17-19 c.f. point out that if the scholar were to be recalled now

C2

without finishing the D.I.C. course, he will return only with some practical training to his credit. They have also stated that the candidate has already put in 3 months towards his D.I.C. course. They advise ~~the~~ this Government to reconsider the previous decision..

In their letter of November 15th, the Govt. of India had not stated that the scholar has already commenced his course in the Imperial College of Science, London. As the scholar has already commenced his studies for the D.I.C., it is for consideration whether the previous decision will be reconsidered or whether, in view of the statement of the Joint Director of Industries that the D.I.C. course is not essential for the scholar's absorption in 'Industries', this Government may stick to the previous decision not to allow an extension of the period of scholarship.

The file may be sent to Development and Finance for remarks before circulation.

2. The period of scholarship of Sri Kumaresan

---

47 CV 11

expired by December 1947. In October 1947, (i.e) before the expiry of the period of scholarship of Sri Kumaresan, this Govt. informed the Govt of India that the period of study of the scholar need not be extended please see telegram to the Govt of India on p11 CF. It is at the instance of the Govt of India that the matter was reconsidered several times and the Govt. of India were finally informed that Sri Kumaresan may continue his studies up to March 1949 at his own cost – please see telegrams on pp 15, 26 and 37 C.F. In the circumstances ~~explained~~ noted by the Govt of India at 'A' on p39cf and in view of the fact that the Govt of India may bear half the cost on the scholar during this the period of extension up to 31.3.48, this dept may agree to the proposal of E.P.H at 'B' on p 10 above.

[Letter 69435 C2/47-7 Edn d 26.4.48]

Telegram from the G of I. Ministry of Edn d 30.7.48

Sri P.D. Kumaresan is a Candidate selected in 1945-'6 for the award of a scholarships for overseas study in "Design and manufacture of pulverising and generating machinery, including machinery for buildings and roads" and is intended for absorption in Industries on return. He reached the U.K. in Dec 45 and by June 47 completed a course of practical training in a firm. He then requested that arrangements be made for further training in the U.S.A. This was agreed to but the required facilities for training could not be secured in the U.S.A. In the meantime the candidate has joined the Imperial College of Science and Technology for the D.I.C Course in Mechanical Engg. To complete this course he applied for extension of scholarship till the end of July '48 which was recommended by the G of I. p 1 cf The Govt however considered that the D.I.C Course was not necessary from the viewpoint of his employment on return and therefore requested the Govt of India to send back the scholar immediately. p 11 cf p 15 cf Though the G of I advised the Govt ~~on~~ more than once to reconsider the decision, the Govt adhered to it. p 21 cf But the scholar again put in a representation that he might be permitted to complete the D I C Course in July '48 and then to undergo practical training in Mechl Engg - Pulverisation of Fuel - with a German firm upto March '49. p 33 cf As the scholar was prepared to meet the entire cost the Govt agreed to the request at the cost of the scholar. p 32 cf In consultation with the G of I it ~~has~~ was ~~been~~ decided to pay the stipend and other allowances to the scholar upto the end of March 48, the expenses there-after being met by the scholar himself. p 41 cf The G of I have now wired that practical training is not available in Germany but that it is available in the U.S.A with a manufacturing Corporation for 6 months beginning with August. p 45 cf They have enquired whether the Govt have any objection to this training at scholar's entire cost. As the scholar is to meet the cost and as his services are not required here immediately for employment he may be permitted to go to U.S.A at his own cost. The return fare to the scholar after completion of studies is to be paid by the Govt. The Govt will have to meet a higher expense if the scholar is to return from the U.S.A than if he is to return from the U.K. or the Continent. ~~However,~~ half the expense will be met by the G of I.

2. It may perhaps be noted in this connection that as the Govt had first approved of the scholar's practical training in the U.S.A and now, that he has secured facilities for such ~~of~~ training, he may put in a claim requesting the Govt to meet the cost of training. This may be considered if and when any representation is received from the scholar.

3. A draft telegram to the G of I approving the scholar's training in the U.S.A at his own cost is submitted for approval. Dev and Fin may see before issue.

[Telegram to the GoI of 3.8.48]

C. no 5941 4/48. from Rev. J. D. Asirvadam of 9.8.48

p 46 cf

p 56 cf

Sri P. D. Kumaresan, a 1945 scholar has been permitted, on the advice of the GoI, to go to the USA for 6 months' practical training in 'Pulverised Fuel' from August '48, at his own cost. The Scholar's father has now put in a representation to the GoI and this Govt requesting that the scholar may be sent to the USA at Govt cost or atleast to meet the passage expenses and maintenance for half the period. As the previous ~~[illegible]~~ decisions

p 46 cf

p 56-60 cf

regarding the scholar were taken on the recommendations of the GoI, their remarks on the present ~~recommendation~~ representation may be awaited till 20.8.48, if necessary.

24/8/48

[Letter Ref. 69435/47. 9 C2. Edn of 24.8.48

C. no. 63957 C2/48 from the GoI, Ministry of Edn F.3.11/S.37/45. S.2 of 23.8.48

p 64 cf

p 68 cf

The notes from the bottom of p 11 a may be perused. The GoI have forwarded to this Govt for such action as they consider necessary the letter of the scholar's father requesting financial help for scholar's training in the U.S.A.

p 68 cf

p 70-78 cf

2. The scholar P. D. Kumaresan has secured facilities for 6 months' practical training in the U.S.A. This Govt have permitted him to avail himself of this training at his own cost. His father's requests are:

p 46 cf.

(1) the entire expenses may be met by the Govt; or

p 74 cf.

(2) passage and half the expenses may be met by Govt or

(3) a loan repayable in instalments may be given to him.

p 70 cf.

3. The scholar reached U.K. in Dec and by June '47 completed a course of practical training. Then he wanted to go to the U.S.A for further training. This Govt agreed to it [on condition that it should be completed within the total period of 2 yrs] but a

V/7 cf.

16

facilities could not be secured then the proposal had to be dropped. The scholar completed the normal period of scholarship of 2 yrs in Dec 47. The Govt have, in concurrence with the G.o.I. agreed to pay scholarship till March '48. Thereafter the scholar is meeting the entire expenses himself. If 6 months practical training in the U.S.A is allowed at Govt cost the total period of training at Govt cost will be 2 yrs 9 months. In certain cases the Govt have sanctioned 3 yrs total training at their cost. As the scholar's services are at the disposal of the Govt on return, as practical training in the U.S.A was ~~first~~ at one time approved by Govt though subsequently dropped for want of facilities, ~~then~~ and as the total period of scholarship will ~~not~~ be less than 3 yrs, it is for consideration whether in modification of the previous orders the Govt will bear the cost of 6 months training in the U.S.A or, as suggested by the scholar's father, they will agree to meet at least the passage and half the expenses. | A

p 41 cf.

(V)

4. As regards request for loan, the G.o.I. have a scheme for grant of loans to non-muslim students and trainees abroad from Pakistan areas ~~for~~ whose parents or guardians have migrated to the Indian Dominion as refugees, and who for lack of funds, cannot continue their studies or training. There is no other scheme for grant of loans ~~for~~ under Overseas Scholarships Scheme. This request need not therefore be considered.

Edn. 2644 Edn
10.x.47

(S)

5. The scholar's father has stated that it will not be possible for him to finance his son's studies. If the Govt cannot comply with any of his requests ~~before~~ stated above, the scholar will have to stay in the U.K. at his own cost till end of October 48 when sea passage will be

Vide p 68 cf

---

(50) Cr 17 E 11

available unless he decides to return earlier by air meeting the difference in cost himself.

The remarks of Dev & Fin may be invited.

Referance E.A.5222. 24th March, 1949.

From: The High Commissioner for India,
Education Department.

To: The Secretary to the Government of India,
Ministry of Education, New Delhi.

Sir,

With reference to your letter No.F.3-11/S-37/45-S dated the 7th March, 1949. regarding Mr. P. D. Kumareasan, 1945/46 Madras Government sponsored scholar, I am directed to invite your attention to this Office letter of even numbe dated the 15th July 1948, as also later reminders by cables No.8298 dated the 29th the July, and No. 8582 dated the 9th August, 1948, which fully explained the circumstances in which the departure of Mr. Kumareasan was delayed until the 12th September.

As you are aware, no passages were available for several months after May and it was only when our priority was given to this scholar that arrangements could be made for him to leave as early as the 12th September.

Yours faithfully,

Sd/-
J.N. KHOSLA
For Secretary,
Education Department,

No.F.3-11/S37/45-S.2.,
Government of India,
Ministry of Education,

ASSISTANT SECRETARY
MAY 1950
EDUCATION DEPARTMENT

SUBJECT: SETTLEMENT OF ACCOUNTS IN RESPECT OF MR.P.D. KUMARESAN, 1945-46 MADRAS GOVT. SPONSORED SCHOLAR.

...

Sir,

10162 ①

In continuation of para 2 of this Ministry letter of even number dated the 12th May, 1949, on the subject mentioned above, I am directed to forward herewith for the information of the Government of Madras, the marginally indicated correspondence received from and exchanged with the High Commissioner for India in London in connection with payment of stipend to Mr.P.D.Kumaresan.

1. Letter No.E.A.5222, dated the 31st May,1949, from the High Commissioner for India in London.
2. This Ministry letter of even number dated the 25th June, 1949 addressed to the High Commissioner for India in London.
3. Letter No.E.A.5222, dated the 13th July,1949 ~~addressed~~ from the High Commissioner for India in London.
4. This Ministry letter of even number dated the 14th September, 1949, addressed to the High Commissioner for India in London.
5. Letter No.E.A.5222, dated the 4th April, 1950, from the High Commissioner for India in London.

It will be observed from the letter dated the 4th April, 1950, from the High Commissioner for India in London that the overpayment of stipend for the period 25th March, 1948 to 30th April, 1948 made to the scholar has already been adjusted by him and a sum of £12-8-2d has been credited to the accounts of the Madras Government. Since the refund is divisible equally between the Central and State Governments, I am to request that a credit for £6-4-1d may kindly be afforded to the accounts of the Government of India under advice to this Ministry.

Yours faithfully,
D. Madhavi.
(D. Madhavi)
for Secretary.

....

I am directed to refer to your letter No.F-3-11/S37/45-S. dated the 12-th May, regarding overissue of scholarship allowance to Mr. P.D. Kumaresan. The accounts section has examined his bill and I am to inform you that he was paid scholarship up to and for the 24th March only. It was due to an oversight that you were informed on the 1st February that the scholarship had been paid up to 12th September 1948. I am to request therefore to kindly consider the letter of the 1st February as cancelled.

-.-.-.-.-.-.-.

Copy of letter No.F.3-11/S37/45-S.2., dated the 25th June, 1949, from the Secretary to the Government of India, Ministry of Education, New Delhi to the High Commissioner for India, Education Department, India House, Aldwych, London W.C.2.

......

SUBJECT: ADVANCED STUDIES OVERSEAS IN RESPECT OF P.K. KUMERASAN 1945-46 MADRAS GOVT. SPONSORED SCHOLA

.....

I am directed to refer to your letter No.E.A.5222, dated the 31st May, 1949, on the above subject and to state that the statement of accounts sent by you to this Ministry shows that a sum of £.33-S6-d8 was paid to Mr. Kumerasan during April, 1948 as stipend, whereas your letter referred to above shows that this scholar was paid upto and for the 24th March, 1948. This may kindly be clarified at an early date.

-.-.-.-.-.-

Copy of letter No.E.A.5222, dated the 13th July, 1949, from the Secretary, Education Department, Office of the High Commissioner for India in London, to the Secretary to the Government of India, Ministry of Education, New Delhi.

....

I am

I am directed to acknowledge the receipt of your letter No.F.3-11/S37/45-S.2., dated the 25th June, 1949, regarding Mr. P.D. Kumerasan, 1945/46 Madras Government Sponsored Scholar.

It is not clear to what statement of account you refer, as we do not appear to have any such statement on our file.

I am writing to confirm that Mr. Kumerasan was paid scholarship allowance for and up to the 24th March, 1948. If any further clarification is required, I shall be able to give this on receipt of a copy of the statement referred to above.

.---------

Copy of letter No.F.3-11/S37/45-S.2., dated the 14th September, 1949, from the Secretary to the Govt. of India, Ministry of Education, New Delhi ~~xx~~ to the High Commissioner for India, Education Department, India House, Aldwych, London W.C.2.

....

SUBJECT: ADVANCED STUDIES OVERSEAS IN RESPECT OF MR.P.D. KUMARESAN 1945-46 MADRAS GOVT.SPONSORED SCHOLAR

.....

I am directed to refer to your letter No.E.A.5222, dated the 13th July, 1949, on the above subject and to invite your attention to Abstract of Scholarship payments sheet No.25(Madras 37 Education-Post war reconstruction). It would appear therefrom that an entry against voucher No.243 shows a payment of £33/6/8d as scholarship allowance made to Mr. P.D.Kumaresan from April, 1948. Your letter ~~xxxxxx~~ under reference, however, states that the scholar was paid upto 24th March, 1948. This may kindly be clerified at a very early date.

-.-.-.-.-.-.-

Copy of letter No.A.P.37482/Accts & Ests/EA.5222, dated the 4th April, 1950, from the High Commission of India, Accounts Department, 55, Jermyn Street, London S.W.1., to the Secretary to the Government of India, ~~Madx~~ Ministry of Education, New Delhi.

....

SUBJECT: ADVANCED STUDIES OVERSEAS IN RESPECT OF MR.P. KUMARESAN - 1945-46 MADRAS GOVT. SPONSORED SCHOLAR.

.....

With reference to your letter dated the 14th September, 1949, No.F.3-11/S37/45-S.2., addressed to the Education Department of this office, I am directed to furnish the following information regarding the account of the above-named scholar.

As shown on the copy, sent to you, of the Abstract of Scholarship Payments, Madras 37 Education - P.W.R., for the month of April, 1948, Mr. Kumaresan was paid scholarship allowance of £33. 6. 8 for the month of April, 1948. The overissue, therefore amounted to £40. 17. 2 for the period 25.3.48-30.4.48.

In September, 1948 Mr. Kumaresan repaid to this Office the sum of £ 12. 8. 2 which was provisionally held in suspense, and brought to account finally in November, 1949. This recovery from him was made up as under:-

Refund of Scholarship Allowance		£40.17.2.
Less amounts due to him for		
(i) books purchased	£23.9. 0	
(ii) Voyage allowance	£ 5.0. 0	28. 9. 0
		£12. 8. 2

In November, 1949 the refund of scholarship allowance was inadvertently credited to the head of account "Madras 37 Education - P.W.R. Government Scholarship," But the error has since been rectified in the Accounts for March(Prelim) 1950, and the amount transferred to "Madras XXVI Education", as it represented a transaction relating to the previous financial year.
