Subject:- ADVANCED STUDIES ABROAD IN RESPECT OF MR. CHANDRA SEKARA VENKATESAN - 1947-48 MADRAS GOVERNMENT SPONSORED SCHOLAR.

19352

Main File [illegible] /

Sir,

I am directed to refer to this Ministry endorsement No. F.4-2/47.O.D.IV., dated 23rd June, 1947 in so far as it relates to Mr. Chandrasekara Venkatesan, a 1947-48 Madras Government Sponsored Scholar selected for advanced studies in "Industrial and Applied Chemistry" and to state that the High Commissioner for India, London intimates that admission for this scholar to any of the institutions in the United Kingdom suggested in the statement forwarded to this Ministry under your letter No. 55453C2/46-20-Education dated 6th February, 1947 will not be possible before October, 1948, nor to any other University in the United Kingdom. His papers are, therefore, being diverted to the Educational Liaison Officer for India in the U.S.A. for securing his admission there.

Subject:- Advanced Studies abroad in respect of Mr. S.H. Mahadevan 1947-48 Madras Government sponsored -scholar-

Sir,

Main File not [illegible]

I am directed to refer to this Ministry endorsement no. F4-2/47-ODIV dated 23rd June 1947, in so far as it relates to Mr. S.H. Mahadevan, a 1947-48 Madras Government sponsored scholar selected for advanced studies in the subject "Civil Engineering Highways Construction-Building" and to state that the High Commissioner for India, London, has intimated to this Ministry that he has diverted his application with necessary documents to the Indian Embassy Washington, as it has, apparently not been possible to secure his admission in the United Kingdom.

Bridges

Vide item 89 180 (C)

The Indian Embassy Washington is being requested to arrange for his admission at the Massachussetts Institute of technology or Cornell University or any other suitable institution in the United States of America suggested by you in the statement forwarded to this Ministry under your letter no. 55453C2/46-20 Education dated 6th February 1947

OVERSEAS SCHOLARSHIPS - 1947 - 1948. — Messrs C. Venkatesan and S. H. Mahadevan.

Mr C. Venkatesan / S. H Mahadevan is informed that it has not been possible to secure facilities for his training in " Applied Chemistry / Industrial and Civil Engineering — Highways Construction - Bridging in the U.K. owing to lack of accommodation. His papers have therefore been diverted from the U.K. to the U.S.A. The Educational Liaison officer in America will arrange for his admission in a suitable institution in that country. He is asked to apply to the Secretary to Government, Home Department and to get his passport endorsed for entry into the U.S.A. When a seat is secured for him in America, a certificate in the prescribed form will be furnished to him for obtaining a visa from the American Consulate.

2. An application form in duplicate for admission in Educational institution in the U.S.A. is enclosed. Mr. Venkatesan / Mahadevan is requested to complete the forms and forward ~~it~~ them to Govt. at a very early date.

Education and Public Health Department, MADRAS.

Subject:- ADVANCED STUDIES OVERSEAS IN RESPECT OF MR. CHANDRASEKARA VENKATESAN 1947-48 MADRAS GOVT SPONSORED SCHOLAR.

30945

Sir,

I am directed to refer to previous correspondence on the subject mentioned above ending with your letter No. 9352-C2/48-2 Education ~~xx~~ dated the 8th April, '48 and to forward herewith a copy of letter No nil dated the 6th April, '48 with enclosures from the Indian Embassy, Washington for your information only ~~in~~ so far as it relates to Mr. Chandrasekara Venkatesan one of your 1947-48 Sponsored Scholars selected for advanced studies in 'Industrial and Applied Chemistry'.

2 It will be seen from the Indian Embassy Washington letter referred to above that the Dean of the School of Engineering, University of Utah, has recommended Mr. C. Venkatesan to the Registrar for admission to the said University, for advanced studies in Chemical Engineering. No reference as to the term for which his admission has been recommended appears to have been made by the Dean. In this connection I am to draw your attention to the Indian Embassy's observation that the admission is not absolutely final but may be taken for granted and that as soon as they hear from the Registrar, University of Utah they would confirm Mr. Venkatesan's admission to this University. I am therefore, to state that you will be informed as soon as this Ministry receives confirmation of the admission from abroad.

3 It will be seen from the letter dated the 19th March, '48 from the Head of the Department of Chemical Engineering to the Dean School of Engineering, University of Utah that in his opinion, though Mr. Chandrasekara Venkatesan ~~have~~ had research experience, he does not believe that he will be able profitably to undertake graduate work in Chemical Engineering without further proper action. As far as he can determine Mr. Venkatesan appears to have had very little work of an engineering nature and it would probably be necessary for him to spend about one year engaged in essential undergraduate course before undertaking graduate work. This would mean that it would take approximately two years for him to complete work leading to the Master's Degree in Chemical Engineering.

4 I am to request you ~~to~~ to kindly communicate to this Ministry your views in the matter and in the event of the admission being confirmed by the Indian Embassy Washington you may kindly intimate whether it is acceptable to you in the light of the observation of the Head of the Department of Chemical Engineering, University of Utah, as detailed in the foregoing para.

I have the honour to be,
Sir,
Your most obedient servant,

D. Radhani.

for Secretary

(KARTAR)

Copy of a ~~xxxxxx~~ D.O. No. nil dated the 6th April, '48 from B.K. Byram, 635 F Street N.W. Washington D.C. to Mr. Ashfaque Hussain Ministry of Education, Government of India, New Delhi.

......

With regard to the five chemical engineers and the four electrical engineers listed on the attached sheet, I have obtained admission for them in the University of Utah, as will be observed from the enclosed copy of a letter from the Dean of the School of Engineering together with its enclosures. The admission is not absolutely final, but may be taken for granted and as soon as I hear from the Registrar I will send you the usual admissions cable.

I am particularly sending you the copy of the letter from the Dean of Engineering in advanced course as it contains one or two points of interest regarding our engineering students and their lack of actual engineering training or experience.

I have had occasion previously to point out to you the difficulty regarding chemical engineering students especially, and we will have to accept the admission on the basis mentioned by the Dean, namely that gaps in their training will have to be filled by some under graduate work in engineering.

Your attention is also drawn to the special remarks regarding Mr. Reddi. I have had occasion also to inform you previously that Universities in this country do not cater for highly specialized training of almost a practical nature, such as the subject of electric traction allotted to Mr. Reddi. However, Mr. Reddi can well specialize in a ~~xx~~ number of courses that would help him along in the line and supplement his University education with such practical training as we may be able to obtain for him at a letter stage.

....

University of Utah.
Salt Lake City I.
March 19, '48

Mr. B.K. Byram
Educational Liaison Officer for India,
Embassy of India
635 F Street, N.W.
Washington D.C.

Dear Mr. Byram.

I am enclosing herewith a copy of my letter to our Registrar recommending the admission of the students that you made application for.

You possibly realize that the undergraduate work in India and America may be somewhat different so that it may be necessary for these students to do some additional undergraduate work before they are admitted to candidates for a Master's degree. This will definitely be the case in regard to the men who desire work in Chemical Engineering as they all seem to have had satisfactory work in chemistry but very little undergraduate work in Engineering.

I assume that we will soon receive work from our registrar Mr. Morton, granting permits to register. We have been very pleased with the number of students that we have had from your country and hope that these proposed ones may work out as well.

Very truly yours,
Sd/-
A.Ledoy Taylor, Dean
School of Engineering.

Original on file of University of Utah.

March 19, '48 23

Mr. Joseph Morton
Registrar,
University of Utah

Dear Mr. Norton,

I have examined the transcripts of the following Indian students Mr. Reddi, Mr. Talare, Mr. Sivasankain, Mr. Deshpande, and find their work such that I can recommend that they be admitted to the School of Engineering.

It may be possible that some of these men will have to take a number of undergraduate courses before they are admitted to candidacy for a Master's degree as it would appear that their technical training is not quite the equivalent of that given by the schools in our country. In the case of Mr. Reddi, I think he should be inormed that we do not give ~~wxxxxfx~~ special work in electrical traction, and I am doubtful if he will find work of this nature in any other institution, Also we can give him a number of courses that may be very helpful along this line.

Very truly yours,
A. LeRoy Taylor, Dean
School of Engineering.

March 19, '48.

Dean A.Leroy Taylor
School of Engineering,
Engineering Building
University of Utah
Salt Lake City, Utah.

Dear Dean Taylor,

I have studied the attached applications for admission to graduate study and recommend that all of them be admitted. Although three of these students V.S. Raghavan, M. Prabhanjana Murti, and R.S. Subrahmanya, have had considerable Industrial experience and the other two C. Venkatasen and Ajit Sankar Bhadura, have had research experience, I do not believe that they will be able to profitably undertake graduate work in Chemical Engineering without further proper action.

So far as I can determine, they have had very little work of an engineering nature, and it would probably be necessary for them to spend about one year engaged in essential undergraduate course work before undertaking graduate work. This would mean that it would take approximately two years for them to complete work leading to a Master's degree inCehmical Engineering. It may be that some of them have had engineering work which was not indicated in their scholastic records, and this would, of course, shoten the time requred.

Most of them appear to be excellent students, andI would be very happy to have them study in the Department of Chemical Engineering if they are interested in doing so under the circumstances. Five copies of our chemical Engineering programm, together with the infomation on graduate work are attached which I think should be forwarded to the applicants so that they will have a clear picture of our programme.

Yours sincerely yours,
Sd/-
L.S.Christiansen Head
Department of Chemical Engineerin

CERTIFICATE OF ADMISSION.

(OVERSEAS SCHOLARSHIPS (PROVINCIAL)

This is to certify that Mr. Chandrasekara Venkatesan has been selected by the Government of India as a stipendiary student for advanced studies in Chemical Engineering in the United States of America.

The Government of India hold themselves responsible for his maintenance while he is abroad and for his return transportation to India on the completion of his course of studies. Admission has already been secured for the candidate in the University of Utah and passage arrangements will be made by the accredited Travel Agents appointed by the Government.

Arrangements are being made to have the candidate met at the port of disembarkation by the representatives of the Government of India in the United States of America. The normal period of study in the United States America is expected to be two years.

Sir,

Sub: Education- Technical Training abroad - Overseas scholarships 1947-48-
Mr. C. Venkatesan - Regarding.

Ref: Government Memorandum No.50847-D.I./48-1, dated 10-5-48. p 33 ante

---

p 21 ante A

It is observed that the Head of the Department of Chemical Engineering, University of Utah believes that Mr. C. Venkatesan, in spite of his research experience, will have to undergo one year's undergraduate course before undertaking graduate work in chemical engineering. This may be agreed to, provided the foreign study will be completed in two years. The only point is whether such a course without practical training will fit the candidate for employment in industry in India.

28/5/48.
