31 AUG 1948

SIR,

R.C.No. 1202-B1/48 dated 23rd August, 1948.

SCHOOLS--Secondary--Introduction of bifurcated courses in selected high schools in the current year 1948-49--Engineering course--cost of Equipment--abnormal increase--certain modifications regarding the purchase of equipment--recommended for Government's approval.

Reference:-G.O.No.1395- dated 29.5.1948.

64181

In para 4 of the G.O.cited above, it is laid

down that in addition to the teaching grant payable to local bodies and the management of aided secondary schools to the limit prescribed in respect of the organisation of the new courses, a non recurring grant equal to three fourths of the cost of the equipment to be purchased for the new courses will be paid in the current year subject to a maximum of Rs. 5,700/- for each school.

It has been represented to the Director by certain managements of schools which have introduced 'Engineering' as the special subject under the bifurcated courses, that the quotations furnished by the firms regarding the costs of articles of equipment to be purchased for this course are much more costly than the estimated costs furnished in the draft syllabus for the Engineering course and that to purchase the articles at the current market prices quoted by the firms would mean many thousands of rupees over and above the estimates furnished by Government in the draft syllabus for the Engineering course.

In the estimates of costs of equipment furnished under the several sections in the draft syllabus for the Engineering course, provision has been made for a sum of Rs.1070-0-0 under the head 'Auto mechanics section'. As this subject has not been included in the revised syllabus for the Engineering course the purchase of the articles included under this item is not necessary.

In order to enable the managements of schools concerned

: 2 :

to meet the abnormal increase in the costs of articles of equipment over the estimated cost furnished in the draft syllabus and also, to make up for this disparity in prices, I recommend that the managements be permitted to utilise the sum of Rs. 1070-0-0 also included under the 'Auto mechanics' section' towards the purchase of the articles of equipment under the other sections/for schedule in the draft syllabus.

Yours faithfully,

K. Subramanian

For Director of Public Instruction.

The Deputy D.P.I.

Reference Director's letter R.C. No. 1202 B1/48 &

23.8.48 - purchase of equipment for the Engineering course introduced as a bifurcated course in Secondary schools.

Please furnish an estimate of the cost of the articles of equipment to be purchased for the Engineering course, at the current market rates (excluding the equipment for 'Auto-mechanics section') as this is required to judge whether the maximum limit of Rs. 5,700 prescribed for each school is suitable/ or not for the Engineering course is concerned.

Office of the
Director of Public Instruction.
Rc.No. 1202-B1/48.

Madras, dated 27th September 1948.

From

The Director of Public Instruction.
Madras.

To

The Secretary to Government,
Education and Public Health Department,
Fort St. George, Madras.

Sir,

Sub: SCHOOLS - Secondary - Introduction of bifurcated
courses - Engineering course - Cost of equipment.

Ref: Government's Telephonic Message dated 4-9-1948.

With reference to the Government's
Telephonic message dated 4-9-1948 cited above, I am to report that the
total cost of articles of equipment non recurring and recurring under the
several heads excluding the articles under the Automechanic section works
out to Rs. 10769-13-0 or 10770 in round figures. This amount has been
arrived at by taking into account the current prices of the articles.
The prices are however subject to fluctuations.

The total cost of articles under each
head as per the current prices is shown below:

	Non-Recurring. Rs.	Recurring. Rs.
I. Blacksmith Unit C tools & plant	1561--14--0	II & III 200--0--0
I Wood working department (Tools & plant)	1690--11--0	II 200--0--0
Mechanical Drawing Section.	1115--0--0	350--0--0
Electrical Section.	1866--12--0	50 50--0--0
Machine and fitting section.	1335--8--0*	300--0--0
	800--0--0 **	
	1300--0--0	
	9669--13--0	1100--0--0

** In this connection I am to report that in the printed draft syllabus
for the Engineering Course the two items of articles viz. (i) Power drill
upto 3/4" hole Rs. 800/- and Medium Lathe with checks at 6" centre Rs. 1300/-
have been omitted under the head "machine and fitting section". But these
items have been included in the estimate of cost now furnished.

Yours faithfully,
