Examinations, Madras.

[illegible]

Sir,

Sub: Government Press - Workers in the Confidential
Section - Grant of Special allowance - proposals

Ref: My letter No. 60/Mis., dated 22-12-1947 and
15-3-48 and G.O.Ms.No. 1186 Edn., dated 12th May '48.

With reference to correspondence referred to above I should like to renew my request for the sanction of a special allowance for the staff of the Confidential Section of the Press.

It has already been pointed out to Government that there has been and is still a very great increase in the Confidential work of the Press, the main item of which is the S.S.L.C. Examination papers which are now being done twice in a year instead of once as hitherto.

The General Public has found out that these papers are being printed at the Government Press and Government do not realise the tremendous temptation to which the staff is being put by the attempts of bad characters to elicit information from them.

As already pointed out a small allowance (which may be half that proposed and forwarded with my letter No. 60/Mis. dated 15-3-1948) will be an encouragement and incentive to keep the work secret and abolish any risk of leakage in either the S.S.L.C., T.S.L.C. or E.S.L.C. papers and I would request Government to sanction the same.

Superintendent.

Re. No. 404 A/48

28.9.1948.

Submitted.

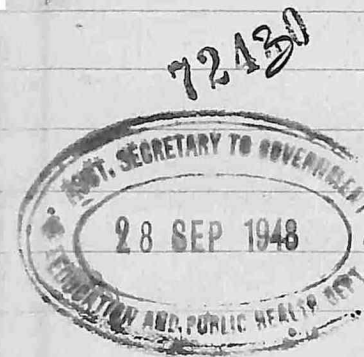

The Government Press Prints the question papers of all the Government Examinations under the control of the Commissioner for Government Examinations, Madras. Of the several examinations; the S.S.L.C., T.S.L.C., VIII Standard and the Government Technical Examinations are the * biggest. The S.S.L.C. and the Examinations in Shorthand and Typewriting are held twice a year. Due to the large increase in the number of candidates, the strain involved in the work of printing the several thousands of question papers in the confidential section of the Press increases correspondingly, as the copies have to be delivered at the scheduled date or time. The limited staff in the confidential section should be kept above want and temptation, as the papers are printed at the Government Press only and as recent experience has shown that persons are out to get at the question papers somehow or other. The recommendation of the Superintendent is supported, especially as he states that it will be enough if only half of what he has proposed by way of special allowance to the staff of the Confidential Section is sanctioned by Government to keep this staff above temptation and jealously guard the secrecy of the matter handled by them.
