23rd July '47.

My dear D'Rozario,

Please refer to your telegram dated 9th July 1946 No.F.7/8/46/ODII, in which particulars of Madras Government Scholar, Miss Roshan J. Irani, were cabled to this Office. Miss Irani was admitted to the Department of Organic Chemistry at Liverpool University where she has started research work for her Doctorate degree. She was originally selected for Manufacture of Drugs and Pharmaceuticals. No University can teach manufacture of Drugs, and she was therefore given a problem relating to Drugs and Pharmaceuticals, but ~~giving~~ lying within the field of fundamental science. She is at present engaged on work on Moulds, isolating new organic compounds produced by them with a view to find their structure.

Miss Irani has represented that she should be given a course of studies which is more technical and is more in the field of applied science than her present work. She has been corresponding with the Philadelphia College of Pharmacy and in a letter dated June 30th, the Secretary of the Graduate Committee of this College has offered to accept Miss Irani for Graduate instruction in Pharmacy and Pharmaceutical Chemistry during the academic year 1947-48 under the status of a "Special Student", not a candidate for a degree.

I should be grateful if you would consult the Provincial Government and let me know as soon as possible whether the proposed transfer to Philadelphia College is acceptable.

Yours sincerely,

P.N.Kirpal.

My dear Mrs. Johari,

Please refer to your letter dated 6th August, 1947 No.F.7-8/460DIV, regarding the Madras Government Scholar, 1946 Scheme, Miss Roshan J. Irani, I enclose herewith the latest Progress Report dated 8th July 1947 received from Professor Robertson.

I am afraid it is not advisable to refer the matter to Professor Robertson at this stage. If the Government decide that Miss Irani should continue her studies in the United Kingdom, her relations with the Professor would deteriorate, and it would not be pleasant for her to continue to work. It is clear that Miss Irani is engaged upon a theoretical problem connected with the training which the Madras Government required her to receive. Arrangements for practical training cannot be made in the United Kingdom. As far as the course of theoretical studies is concerned, Miss Irani is studying at as good a place as anywhere in the world. The only matter on which a decision is necessary, is whether the Madras Government wish that Miss Irani should work on a problem of Applied Science, or receive practical training for which arrangements can be made in the United States of America. I do not think that it is advisable to trouble the Professor at this stage, and to seek his advice in regard to a matter which is really for the decision of the Sponsoring authorities.

Yours sincerely,

P.N.Kirpal.

Univeristy, College or works report on the work of the Scholar
during the/under review:-

Miss Irani has been engaged on studies in the chemistry of
fungal metabolic products. Since she came here she has studied the
isolation of the metabolic products of a number of moulds and has isolated
interesting new compounds. She is now proceeding to a study of their
chemistry and structure.

Miss Irani's work has been excellent. She is most conscientious
and painstaking.

directed to state that the Indian Embassy at Washington have
since informed this Ministry that Miss R.J. Irani has enquired
from them whether they can arrange for her training in the Control
Area of a Drug Manufacturing House or in the Food and Drugs
Administration, Washington.

The Indian Embassy have therefore informed this
Ministry that they will make efforts to arrange the training
desired by the scholar if the Provincial Government consider
such a training as necessary for her.

I am therefore to request you kindly to let this
Ministry know urgently whether the Provincial Government want
Miss. Irani to do the training suggested by her, if it can be
arranged by the Indian Embassy or desire that she may return
to India, after completing her present course.

The Provincial Government may kindly consider the
matter from the viewpoint of her employment on her return and

Mrs R. J. Irani is a scholar
selected in 1946 for advanced studies
in "Applied Chemistry - Manufacturing of Drugs
& Pharmaceuticals". She is intended for absorption
in Industries. She commenced her studies in
the U.K. in October '46, in research work relating
to Drugs & Pharmaceuticals. In October '47 she
went to the U.S.A and joined the University of
Wisconsin for ^{graduate} studies in Pharmacy and Pharmaceutical
Chemistry. The normal tenure of her scholarship
is only up to 28.2.48. The scholar has now
requested that arrangements may be made for
her training in the Control Area of a Drug
manufacturing house or in the Food and Drugs
Administration, Washington. The Secy enquires,
whether such arrangements should be made
or whether she may return to India after
completing her present course. If she is to undergo
further studies it will be necessary to
extend the period of scholarship and there is no
indication as to the period of extension.

Dev may be requested to consider the
matter from the viewpoint of the scholar's
employment on return.

has been sent to this Dept to consider, whether
arrangements may be made as
suggested at 11 on p 4 above. It is
submitted that the Dir. examined
the question of utilisation of the services
of scholars and submitted a list of
scholarships suitable for
appointment in the Industries Dept.
He has not suggested any suitable
job for Mrs R. J. Irani. On the
circumstances it is for consideration
whether the Secy will be informed
that the scholar may return to
India on completion of her present
course. After orders are passed
the file may be returned to Expt.
