From

THE DIRECTOR OF PUBLIC INSTRUCTION,

MADRAS.

To

THE SECRETARY TO GOVERNMENT
Education and Public Health Department,
Fort St. George, Madras.

R. G. No. 748 P/47 dated 11th Aug. 1948.

Sir,

Subject:- MEDICAL INSPECTION - Government Arts Colleges
Remuneration to Medical Officers - Requesting.

With reference to G.O.No.16 Law (edn) dated 6th January 1928, a Medical Inspection fee of Re.1/- per pupil is being collected from the students of junior classes in colleges irrespective of the fact whether the money is for the first inspection or repeat inspection. Though the Medical Inspection fee is collected at a uniform rate, the Medical Officer is being paid with reference to G.O.No.16 Law (Edn) dated 6-1-1928 at the rate of annas twelve for the 1st and at annas six for the repeat inspection. The reason for this variation in the rate of fee collected and the remuneration paid to the Medical Officers which results in the difference being treated as revenue to Government is probably due to the fact that the University while introducing compulsorily the scheme of medical inspection in Arts Colleges fixed the rate of fee to be collected from each student at Re.1/- but did not fix the rate of remuneration to the Medical Officer, presumably because the entire amount of fees was expected to be paid to the Medical Officer. For some reason Government in the G.O. referred to, fixed the remuneration at a rate lower than the rate of fees to be collected from students. Whatever might have been the reason for this procedure, I am of the opinion that there is no longer any need to continue it and that whatever money is collected from students as medical inspection fee should be paid as remuneration to the Medical Officers conducting the medical inspection. Further, the amount of professional work, the care and time taken for each student by the Medical Officer whether he belongs to I year or III year, are the same and the labour involved in preparing the report is not less in the case of the III year students.

In the circumstances, I request that Government may be pleased to order that the entire amount of fees collected from the students may be paid as remuneration to the medical officers.

Yours faithfully,

[Signature]

For Director of public Instruction.

Sub: Colleges - Govt.Arts - Medical inspection - Fees payable to medical officers .

Read: G.O. No. 16 Law (Edn.) dated 6-1-28.
From the D.P.I. No.748 F/47 dated 11-8-48.

In G.O. No. 641 Law (Edn) dated 29-4-25, the Govt. prescribed certain arrangements for the conduct of medical inspection in secondary schools; and, in that connection, laid down that the fee payable to the medical officer conducting the inspection should not exceed twelve annas for the first inspection and six annas for each subsequent inspection. The scheme of medical ^{inspection} ~~inspr~~ was subsequently introduced in Arts Colleges also and the rate of fees payable to the medical officer was directed to be the same as in the case of secondary schools etc. But the rate of fee leviable from the students towards the medical inspection charges was fixed as Re.1 for each inspection; and this was based on the University regulation to that effect.

2. The D.P.I. now suggests that, there being no reason for the variation in the rate of fee collected from the students and the rate of fee paid to the medical officer, the entire proceeds from the medical inspection fees levied from the students may be made over to the medical officers as remuneration. In effect, he suggests that the medical officers conducting the inspections may be paid at a rate of Re.1 ~~for each~~ ^{per} student for each inspection, instead of at the rate of As.12 for the first and As.6 for the repeat inspection, as at present. The Director does not give any convincing reasons in support of his proposal. It may be pointed out ^{here} that the difference in the medical inspection fee receipts from the students and the payments to the medical officers was intended to cover incidental expenses such as cost of equipment, stationery etc. Moreover, the present arrangement has been in vogue for a fairly long period and, so far, no complaint has been made, or dissatisfaction expressed, regarding the rate of fees payable to medical officers conducting the inspections; and no change
