SUB:- Physical Education - Appointment of additional staff for supervision - Part II Scheme for 1949-1950.

In enclosing herewith a copy of the letter C.No.416/48 dated 24th August 1948 received from the Chief Inspector of Physical Education, Madras, in regard to appointment of additional staff for supervision of physical education in schools I may state that at present physical education imparted in schools is not as it should be. Further, in view of the proposals to acquire playing fields and the proposed formation of the National Cadet Corps (Junior Division), the Physical Education assumes greater importance and significance. In order to ensure that physical education receives proper attention at the hands of school authorities it is very necessary that strength of the inspectorate in physical education is increased, since the existing staff is not able to supervise constantly the activities of physical education in schools solely because of the extensiveness of their jurisdiction. I, therefore, agree with the Chief Inspector of Physical Education that there is an imperative need to expand the supervisory staff in physical education.

2. But I am not sure if the scheme of Regional Physical Directors has been much of a success. A few officers with wide jurisdiction and increasing number of another four or five officers will not be of much use. A better place will be to attach a Physical Director to each of the District Educational Officers so that they may go with the District Educational Officers and help them in the inspection in so far as it relates to physical education. As a first step this may be tried in a few district. To start with, 4 additional Physical Directors may be attached to 4 District Educational Officers. As for girls schools, I consider it necessary that a similar scheme is given a trial. I would like the employment of 6 Women Physical Inspectresses in the scale appliable to Regional Physical Directors i.e. one for each circle. As a first step, 2 officers may be appointed in two circles. I also suggest, in this connection, that the designation noted below may provisionally be given to officers proposed to be newly appointed:

(i) Deputy Inspector of Physical Education
(ii) Assistant Inspectress of Physical Education.

I request that the Government may be pleased to consider the above proposals in connection with Part II of the Budget Estimate for 1949--50.

4. Attending Educational Conferences and Physical Education Conferences to explain policies and programmes of Physical education and to discuss and solve physical education problems.

5. Organising and conducting demonstration of physical education activities, play-festivals, sports meets etc.

6. Organising and conducting refresher classes in physical education for phyisical education teachers or special classes in physical education for the benefit of the Elementary school -- Teachers, and

7. Co-ordinating and developing the programme af health and Physical education in the schools and districts in their jurisdiction.

It is impossible to expect all this work to be done efficiently as long as the supervisory staff is understaffed as at present.

I have the honour to submit therefore that the expansion of the Supervisory Staff in Physical Education may be taken up &/ for immediate/urgent consideration as Part II scheme of the Budget for 1949-50, so that atleast by the School year 1949, more imtensive supervision and guidance of physical education work in schools may be possible.

In this connection I submit the following suggestions:

1. That 5 more posts of Inspectors of Physical Education (Men) be created in the cadre of the existing Regional Inspectors of Physical Education -- for work in the moffusil and one for - Madras City. The Inspector of Physical Education in Madras City will be responsible for the physical education work in Madras - City and will also serve as assistant to the Chief Inspector of Physical Education in the office as Technical Assistant. This - is necessary because of the constant tours of the Chief Inspector of Physical Education. The Headquarters of the other 4 can be decided later while deciding the reorganisation of jurisdiction of the Supervisory Staff.

2. That the post of Assistant to the Women Specialist in Physical Education, which is now in abeyance, be revived, her Headquarters being in Madras, with jurisdiction over the - Central districts and that two more posts of Inspectress of Physical Education be created one for the north and one for the south their Headquarters being perhaps at Guntur and Coimbatore respectively.

The financial commitments regarding these proporals are very small. At present a total of Rs.18060 is budgeted for the 4 Regional Inspectors of Physical Education. The proposal in respect of men will result in double the expenditure i.e. -- Rs.36120 while that for women will be about equal to that of - the four Regional Inspectors of Physical Education - Viz. Rs.18060, making a total of Rs.54180. This amount I submit is a negligible one when it is compared with the lakhs - that the Government of Bombay and the United Provinces are reported to be spending on Physical Education and with the benefits that will accrue from the intensive work that is possible as the result of the increase in the Supervisory Staff.

I have the honour to request that the Director may be

pleased....

pleased to consider these proposals as demanding top priority attention and to recommend them to Government for sanction and for the provision of the necessary budget allotment for the purpose with effect from 1949-50.

FROM

THE DIRECTOR OF PUBLIC INSTRUCTION,
MADRAS.

TO

THE SECRETARY TO GOVERNMENT,
EDUCATION AND PUBLIC HEALTH DEPARTMENT,
FORT ST. GEORGE, MADRAS.

Sir,

SUB:- Physical Education - Opening of centres for the training of Physical Education Teachers Part II Scheme for 1949--50.

...

In enclosing herewith a copy of the letter C.No.380/48 dated 12th August 1948 from the Chief Inspector of Physical Education, Madras, I may state that at present there is a great dearth of trained Physical Education teachers. I consider that the situation can be eased only by opening a few centres for the training of Physical Education teachers. I recommend that three centres may be organised at the following places, viz.

(i) Saidapet, (ii) Rajahmundry; and (iii) Bellary.

Details regarding staff, accommodation and equipment necessary for the three centres are furnished below:

Staff:- In all the three centres, additional posts of (i) Physical Director, (ii) A higher grade certificate holder in Physical Education and (iii) a full time athletic peon are necessary. The scale of pay of the Physical -- Directors in charge of these training centres should be in the scale of pay applicable to the Regional Inspectors of Physical Education i.e. Rs.120--5--170--7--240 plus Rs.5/- for L.Ts. The scale of pay of the Higher Grade Certificate holders in Physical Education will be Rs.50--2--70--2½--95 and the scale of pay of the Athletic Peon will be Rs.16-1/2-25. They will be eligible for house rent allowance and dearness allowance according to rules. The centres are to be opened by June 1949 along with the ordinary Secondary Training classes. Hence the appointments will have to be made with effect from April 1949.

The immediate cost during the year 1949--50 under the head "Staff" for 11 months i.e. May 1949 to March 1950 will be as follows:

3 Physical Directors in the Scale of Rs.120--240.	120 x 3 x ~~22~~ 11 29 x 3 x 11	-	Rs.3960 957
3 Higher Grade Physical Education Teachers in the scale of Rs.50--95.	50 x 3 x 11 22 x 3 x 11	-	Rs.1650 726
3 Athletic Peons in the scale of Rs.16--25.	16 x 3 x 11 19 x 3 x 11	-	Rs. 528 627
Total:	...		Rs.6138 + 2310 8448

A

Equipment:- All the 3 training institutions at Saidapet, Rajahmundry and Bellary have some equipment for Physical Education work which has been purchased from the Games Fund or supplied by the Department from Provincial Funds. These may be utilised for the Physical Education Training Classes also. But there is need for supplementing this by additional grants under the following heads:

(i) Physical Training and Games and Sports equipment necessary for the activities of the syllabus and for the games and sports programme for each centre.	Rs.1,000/-
(ii) Books and Journals on health, physical education and recreation for the Library	Rs.2,000/-
(iii) Improvement of existing playgrounds to provide for the necessary facilities.	Rs.1,000/-

The immediate cost under this head for the 3 centres during 1949--50 will be Rs.4000 x 3 - Rs.12,000/-.

21 **Accommodation**:- The minimum strength of the class will be 20 and the maximum may not exceed 30. The class room accommodation can be easily provided for at all the 3 centres. Hence, additional provision under this head does not appear to be necessary for the present. However, a sum of Rs.3000/- at the rate of Rs.1000/- for each centre may be provided for, in order to meet expenditure under "Contingencies".

41 **Stipends**:- The expenditure under this head for a maximum of 30 students at each centre at the rate of Rs.18/- per mensem per student from June 1949 to March 1950 will be:

Rs.18 x 30 x 10 ... Rs.5,400/-

For the three centres the amount works out to Rs. 16,200/-.

Miscellaneous:- Some provision will have to be made for miscellaneous expenditure such as class tours, camps, tournaments, competitions etc. An allotment of Rs.1,000/- for each centre is, therefore, necessary. The expenditure for all the three centres comes to Rs.1000 x 3 - Rs.3,000/-.

The total immediate expenditure for the three centres will thus be:

(a) Staff	...	Rs. 6,138
(b) Equipment	...	Rs.12,000
(c) Accommodation	...	Rs. 3,000
(d) Stipends	...	Rs.16,200
(e) Miscellaneous	...	Rs. 3,000
Total:	...	Rs.40,338 +2310 or Rs.40,300 42,640 in round figures.

Ultimate Cost.

Average pay of 3 Physical Directors: 185 x 12 x 3.		Rs.12,210
Average pay of 3 Higher Ely. Grade Physical Edn. Teachers--72½x12x3.		Rs. 2,610
Average pay of 3 peons 20 7/10 x 12 x 3		Rs. 745
Equipment	4000 x 3 ...	Rs.12,000
Accommodation	1000 x 3 ...	Rs. 3,000
Stipends	18 x 30 x 12 x 3	Rs.19,440
Miscellaneous	1000 x 3 ...	Rs. 3,000
		Rs.53,005 or Rs.53,000

in round figures.

1440

864

55,988 or
56,000

I request that the Government may be pleased to consider the above proposals in connection with Part II of the Budget Estimate for 1949--50.

I am including the necessary provision in Part II of my estimate for 1949--50.

Yours faithfully,

1/2 VKR
28/9

for DIRECTOR OF PUBLIC INSTRUCTION.

KAN.27/9

27/9

Copy of letter C.No.380/48 dated 12th August 1948 from the Chief Inspector of Physical Education, Madras to the Director of Public Instruction, Madras.

Physical Education - Training of Physical Education Teachers - Enlargement of facilities by opening centres at selected secondary training schools:

REF:- My RC.No.236/47 dated 27th May 1947 and 4th August 1947: Director's Proceedings RC.No. 1011/E/47 dated 29th Septr.1947.

***

In the proceedings of the Director referred to above the proposal for the training of Physical Education Teachers at selected centres in the Presidency was deferred.

I have the honour to resubmit the proposal as submitted in my communications referred to above and to request the Director to be pleased to approve the scheme and forward it to Government for their early orders giving it top priority in the Part II Scheme of the Budget for 1949--50, so that it may be implemented with effect from the school year 1949-50.

In resubmitting the proposal I have the honour to report that the position in respect of supply of trained physical education teachers has not improved in the least since only about a hundred were trained at the Y.M.C.A. College during 1948--49 while the need for many more physical education teachers has arisen due to (i) the increased number of new secondary schools in the Province and (ii) the larger enrolment in the existing schools.

I may also submit that even if Government were to take over the Y.M.C.A.College and run it as the Government College of Physical Education, it would still be necessary to open centres because the enrolment at the college is limited by the existing hostel accommodation. Even if additional accommodation is provided, it is not likely that more than 200 can be provided for. Besides, it seems that atleast 2 years will pass before Government can take over the Y.M.C.A. College and run it as their own i.e. not till 1951.

The emphasis placed on the regional language as the medium of instruction also necessitates the opening of more centres where the training of physical education teachers could if, necessary be conducted in regional language.

The outcome of the opening of the training courses for physical education teachers at the six proposed centres namely Teachers' College, Saidapet, Government Training College, -- Rajahmundry, Government Secondary Training School, Calicut, Government Secondary Training School, Mangalore, Government Secondary Training School, Dindigul and Government Secondary Training School, Bellary will be that on an average about 120 more physical education teachers will be trained every year in addition to the 100 or more at the Y.M.C.A.College, Saidapet.

This proposal is a 5 year scheme and the cost is estimated to be about Rs.1 lakhs of rupees per year for all the six centres. The total cost for 5 years will be Rs.5 lakhs and I submit that this is a very conservative expenditure considering that the result of the expenditure will be providing the necessary number of trained physical education teachers who are to deal with the physical education of thousands and thousands of pupils in the secondary schools, improve their health and physical welfare and train them in the highest virtues of sportsmanship and citizenship.

Sir,

Sub: Physical Education - Appointment of additional Physical Education teachers and supervisory staff

Ref: Government Edn and Public Health Department Memo. No. 71524-C.1/48-1 Edn dated 16-10-1948. — p21 ante

---

With regard to the need for increasing the number of Regional Physical Directors, I may state that the present officers are unable to give any guidance to teachers employed in elementary schools and these schools do not require physical training instructors. Elementary Schools need their help and guidance. The dearth of Physical Training Instructors cannot be a sufficient reason for rejecting the proposal.

2. With regard to the other points raised in the above Government Memo. I enclose a copy of the remarks of the Chief Inspector of Physical Education with which I agree.

Yours faithfully,

27/10

for Director of Public Instruction.

RVR 27/10/-

27/x.

Copy of the remarks of the Chief Inspector of Physical Education.

p21 ante
p1 ante
p13 ante

1 Government Memo.No.71524-C.1/48-1 Edn dated 16-10-1948 (~~page 23-24 c.f~~) refers to 2 separate proposals - one relating to creation of more posts of R.I.P.Es., men and women (Director's) RC.No.2775 E.2/48 dated 23-9-48), theother relating to opening of more centres for the training of Higher Grade Certificate Physical Education Teachers (Director's RC.No.2813-E.2/48 dated 27-9-48)

2 ~~2~~. With reference to the first proposal, namely of creation of more posts of R.I.P.Es.(Men and Women) Government ask whether the appointment of the additional supervisory staff proposed by the Director should not wait till more physical education teachers are available for ~~app~~ employment in the various schools and in this connection invite the attention of the Director to the previous communication RC.No.3205-B.4/46 dated 29-9-1946. I submit as follows:-

Y/ws

3 There has been an increase in the number of Physical Education Teachers since 1946. About 10% of the schools, many of which are the newly opened ones, have no Physical Education Teachers. But the rest (nearly 800) have at least one Physical Education Teacher in each school. Some, specially the larger schools ~~teacher~~ have more than one. About 100 physical education teachers have been trained during 1946-47 and 1947-48 at the Y.M.C.A. College, and this year another 50 are being trained. Thus by the end of this year about 150 physical education teachers will have been added to the number of physical education teachers in service in 1946-1947.

Normal supply
Replacement
?

4 At present there are only 4 R.I.P.Es(Men) with about 200

schools each, while there is no women R.I.P.E. Because of the vast jurisdiction of the R.I.P.Es. each school is visited about one in 3 years and the guidance and supervision of the work of the P.E. teachers in schools is consequently not as effective as it should be. Even schools without Physical Education Teachers need guidance in respect of the games and sports programme, which is as much part of the physical education programme in schools as the Physical Training activities of the syllabus. With 4 more R.I.P.Es. (men) the jurisdiction of each R.I.P.E. will become less, and each school can be visited once a year if not more often and the physical education teachers guided and helped regularly. The same is true of women R.I.P.Es. also.

5 I submit that the creation of more posts of supervisory staff (men and women) is necessary for accelerating the progress of physical education work in the province and does not entirely depend on the number of Physical Education teachers employed.

6 Regarding the proposal to open more centres for training higher grade certificate P.E. teachers Government ask whether this could not be done at the Y.M.C.A. College and invite the attention of the Director of Public Instruction in his C.No.3205-B.4/46 dated 12-12-46 wherein the Director is said to have stated that as the training facilities available at the Y.M.C.A.College, Saidapet are not being fully utilised and as the college authorities are prepared to provide additional facilities when required to do so, no special arrangements are necessary for the training of additional Physical Training Instructors and Instructresses.

7 The position now is different. Though in 1946 the facilities at the Y.M.C.A.College were not fully utilised because of the poor enrolment at the College, this year the full capacity of the college is taxed and the Principalhas reported that he has had to turn down a large number of applications for want of accommodation; Because of its all-India Status, the College admits a large number from outside the Province, the average being about 30%, and thus an equal number of candidates from this Province are denied the training facilities at the college. Besides, there are three different courses of training--the Diploma, the higher Grade and the Lower Grade and consequently admissions to the Higher Grade are less than what would be the case where there only one course of training namely the higher grade. Because of these lack of facilities at the Y.M.C.A.College, it is proposed to have 3 separate centres for the training of only Higher Grade Physical Training Instructors who are the dire need of the schools in the Province. Nearly a thousand such teachers are still required.

8 The provision of additional facilities at the College, such as hostels additional class rooms etc. may make it possible to admit more candidates-about 75 more-since 200 is what the maximum capacity as stated by the Principal in one of this communications. But this provision will have to be all at Government expense. The College is not prepared to provide additional training facilitiesat their own cost. The college accepted to run the women's training class on condition Government subsidised the full cost. The college is getting full deficit grant since otherwise it will not be able to conduct the training courses. And neither the college nor the National Council of Y.M.C.A. which controls the

13

College have funds for capital developments at the college. This would mean that Government would have to meet the full cost of provision of the necessary additional facilities such as hostels, class rooms and so on.

9 It may also be pointed out to government that the proposal to open three more centres at Saidapet, Rajahmundry and Bellary, which is a 5 year scheme, has the following advantages:

(1) These centres will be in the centre of linquisite areas mainly Tamil and Telugu. The increasing emphasis on the regional language as the medium of instruction makes it necessary that instruction in physical education should also be in the regional language. This is not possible at the Y.M.C.A.College because of the admission into the College of students from all over India talking different languages and because the members of the staff of the college at present are either Malayalees or from Northern India and have little and have little knowledge of either Tamil or Telugu

(2)The cost of training at the proposed three centres will be much less than at the Y.M.C.A.College. The high cost of the training at the Y.M.C.A. College is one of the main causes why few apply for admission at the college. This will not be the case if the Government were to run the courses at Saidapet, Rajahmundry and Bellary.

(3) As many as a hundred more p.e. teachers can be added through these centres every year in addition to the 50 or so that can be expected to be trained at the Y.M.C.A. College. As many as a thousand more physical Education teachers are yet need and if the training is concentrated at the Y.M.C.A. College alone, it will take atleast 10 years for training all these one thousand even if Government were to provide additional facilities at the college at their cost. The opening of the additional centres will reduce the time to 5 years.

10 Government suggest that an increase in the number of stipends at the Y.M.C.A.College, as suggested in their G.O.No. 2677 Edn dated 16-12-1947 would have resulted in securing the required number of candidates at the college. But, this is not so. During 1947-48, 46 men candidates were eligible for stipends ~~the women to the men~~ and the Government were pleased to transfer 16 stipends of the women to the men. But this year, 1948-49, the total number of men candidates eligible for stipend is only 31. The fact of stipends being available is not a factor which attracts candidates for the training as Physical Education Teachers.

11 I request that the Director may be pleased to support the two proposals again in the strongest terms possible and to urge upon Government the necessity for sanctioning both the schemes since otherwise, with all the efforts that the Department can put forth, it will be extremely difficult to accelerate the progress of physical education on the right lines and in the interest of the health and physical welfare of the thousands of students in schools who have to be trained even through a sound physical education programme to be efficient citizens of the country.

Physical Edn. - Training Centres - Opening of - Supervisory Staff - Appointment of.

The D.P.I. has made the following proposals as part II schemes for 1949-50:

(1) Opening of training centres at Saidapet, Rajahmundry and Bellary to train additional physical education teachers. p13 CF

(2) Appointment of 4 Dt. Inspectors of Physical Edn. (designated as Dy. Inspector of Physical Edn) and 2 Women Physical ~~Instructresses~~ Inspectresses in 2 two circles. p1 CF

(1) Item Scheme No. 36 of the P.W.R. Schemes contemplates the training of 1250 instructors and instructresses on the scale of one instructor or instructress for every 250 pupils in secondary schools for boys and girls. In connection with the implementation of this scheme, the D.P.I. reported in Dec 1946, that the facilities available at the Y.M.C.A. College were not ~~fully~~ being utilised fully and that when required to do so, the college authorities were prepared to provide ~~add~~ additional training facilities. He therefore stated that no special facilities were necessary for the training of the physical instructors contemplated in the post-war scheme. The chief

C.No. 72813 E1/49 from the D.P.I. Rc.No. 2813 E2/49 d. 27.9.49.

The Director of Public Instruction is informed that the proposals in his letters cited cannot be [illegible]

12/12/51

Inspector of Physical Edn. has now in paragraphs 7-8 at pp 24-25 cf. explained at length how ~~the~~ in the present circumstances ~~[illegible]~~ it is not possible to arrange for the training of additional physical training instructors at the Y.M.C.A college. He has accordingly put up proposals for the opening of special training centres at Saidapet, Rajahmundry and Bellary for the training physical training instructors. The D.P.I. has strongly recommended these proposals.

p 19 cf

2/. It may be mentioned in this connection that a scheme for taking over the Y.M.C.A. college and running it as a Govt. institution has been put forward as a part II scheme for 1949-50. But even if the Govt. were to take over the college, it cannot be said that the Govt. can expand the facilities available at the college all of a sudden. The present proposals which have the advantages mentioned at p 25 cf. may approved.

M

3/. The expenditure involved in the proposals is given at p15 cf. This may be provided for in ~~[illegible]~~ of the budget.

(2) above In Dec 1946, the D.P.I. made more or less the same proposals brought now. He has cut down the number of officers to be employed. He was then asked to bring forward the proposals as a part II scheme for 1948-49. To this he sent the report at 4/45. It cannot be said that the position has changed since Sep. 1947 when this report was made. The D.P.I. has stated

4/1

4/10

p 22 cf

that the officers are required to give guidance to teachers employed in elementary schools. Elementary schools are not required to employ physical training instructors and there is very little of physical ~~at~~ activity in these schools. While to a certain extent the proposed officers may be useful in giving guidance to teachers in elementary schools, the officers cannot be employed solely on this ground. The proposals may be deferred at least till more number of physical training instructors are turned out by the special training centres proposed under item (1) above.

X

4/. The remarks of Fin. may be invited.

Finance (E.III) Deptt

Part II Scheme for 1949-50.

The proposals in the file relate to:-

(1) the opening of training centres for physical education at Saidapet, Rajahmundry and Bellary;

(2) the appointment of 4 District Inspectors of Physical Education (designated as Deputy Inspector of Physical Education) and 2 women Physical Inspectresses in 2 circles.

Proposal (1) above: Opening of training centres for Physical Education: The proposal involves the employment of the following additional staff:-

3 Physical Directors (120-240)

3 Higher Grade Physical Education Teachers (50-95)

3 Athletic Peons (16-25).

A or p13 cf

It is ~~xepox~~ proposed to admit a minimum of 20 students and a maximum of 30 students in each centre, who will be paid stipends at Rs.18/- per mensem for 10 months. The extra cost involved will be as shown below:

Z'imp 15 c.f

Y'imp 15 c.f

	Ultimate cost.		Cost in 1949-50.	
	Recurring.	Non-recurring.	Recurring.	Non-recurring.
	Rs	Rs	Rs	Rs
Staff.	18,553		8,448	
Equipment	12,000		12,000	
Accommodation	3,000		3,000	
Stipends	19,440		16,200	
Miscellaneous	3,000		3,000	
	55,993 or		42,648 or	
Total	Rs.56,000		42,600	

15 c.f

It has been stated that class room accommodation can be easily provided for ~~at~~ all at the 3 centres and no additional provision under this head is necessary for the present. The proposal is supported for the following reasons:-

Z'imp 15 c.f.

(i) that the existing facilities at the Y.M.C.A. College are inadequate to meet the growing demand for increased admissions;

2'imp 15 c.f

(ii) that the members of the staff of the College at present are either Malayalees or from Northern India, and have little knowledge of either Tamil or Telugu;

p 25 c.f

(iii) ~~the growing~~ that the cost of training at the proposed centres viz., Saidapet, Rajahmundry and Bellary will be much less than at the Y.M.C.A.College; and

-do-

(iv) the growing demand for Physical training teachers in the Province has to be met. E. & P.H.Deptt. support the proposal.

-do-

P 2 above

2. It has been stated by E.& P.H. that a scheme for taking over the Y.M.C.A. College and running it as a Government institution has been put forward as a Part II

M'imp 2 above

M'imp 2 above

scheme for 1949-50. If this proposal materialises then facilities for increasing the admissions for training as Physical training teachers can be arrnaged by Government at a comparatively less cost than by opening new centres involving more expenditure; ~~xxxxxxa~~ ~~There may not be much difference in the cost of training at Y.M.C.A.~~ especially as the trainees are being granted stipends. The present proposal ~~however~~ does not satisfy any of the criteria laid down in G.O.765, Finance, dated 6-8-48 for ~~taking~~ it as a Part II scheme. In the circumstances this department may advise strongly against the proposal.

M

~~Proposal (3) on p.3 above~~: - As regards the appointment of Inspectors of Physical Education, E.& P.H have stated that the proposal may be deferred at least till more number of Physical training instructors are turned out by the special centres. This department also may agree with their views.

5/11/48

5.11.48

E-PH

Fin. U.O. 95101/E4

6.11.48

EdPH(ea)

Please see the notes from pl above. Finance have opposed the proposal for the opening of special ~~trains~~ centres for training Physical Edn. Teachers on the following two grounds:-

(a) that it does not satisfy any of the criteria laid down in G.O. 765 Fin. dated 6-8-48;

(b) that if the Govt. take over the Y.M.C.A. College, the training can be arranged for at the college at a comparatively less cost

(a) above Scheme No. 36 of the P.W.R. Schemes contemplates the training of 1250 instructors and instructresses on the scale of one instructor or instructress for every 250 pupils in secondary schools for boys and girls. The present proposal of the Director for the opening of special training centres is for implementing this scheme and as such it does satisfy criterion (a) at p4 of G.O.765 Fin dated 6-8-48.

(b) above It is not clear how providing for training at the Y.M.C.A. college (after it is taken over) will be cheaper to Govt. than opening special training centres. The chief-Inspector of Physical Edn. has stated that even if additional facilities are provided at the Y.M.C.A. college only about 75 more students can be trained while about 100 can be trained in the special centres. Provision of additional facilities such as hostels, additional class rooms etc. will mean a lot of money. This will be in addition to the expenditure ~~as [illegible]~~ which will have to be incurred in ~~staff~~ the additional staff which may have to be employed if more students are admitted. All things considered the chief Inspector has reported that training at the proposed three ~~[illegible]~~ centres will ~~be much~~ cost much less than that at the Saidapet college. Further training at mofussil centres while catering specially to linguistic areas will cost the students also less. Still further there is the uncertainty about the proposal to take over the Y.M.C.A. college, whether

para 8 at p24 cf

p 25 cf

p 9-10 of (Y)

K

---

in the present ~~context of~~ financial stringency it will get through at all. This department may therefore press for a beginning being made in the ~~[illegible]~~ direction of implementing scheme No. 36, by the opening of the 3 special training centres.

2/. The remarks of Fin. Dept. may be invited.

JNM 8/11/48

7/11/48

E. & P.H. No. 71524/48-4-G-Edn 8.11.1948.

97/67 8- NOV 1948 FINANCE DEPARTMENT

Y/26

Finance (E.III)Deptt.

(Previous Finance note on pp.3-5 above).

Please see the further note of E. & P.H. from the middle of p.5 above. P.W.Scheme No.36 contemplates the training of Physical instructors and instructresses, and the appointment of staff only for supervising physical training in schools and colleges. ~~only~~. It aimed at the training of 1,250 instructors and instructresses during a period of 5 years at the rate of 250 per year, paying them the usual stipend of Rs.12/- each per mensem for the duration of the training (10 months). The cost on this account was accordingly estimated at Rs.30,000/- per annum - vide the amount set apart for the ~~proposals~~ purpose under Scheme No.36. No provision was ever contemplated for the appointment of additional staff for the training of Physical training instructors as has been done in the case of supervisory staff under the same scheme. The scheme aimed only at accelerating the training of Physical training instructors and instructresses ~~to~~ in the existing institutions by giving them stipends. In accordance with that scheme, 60 stipends at Rs.18/- per mensem are now being granted to the candidates undergoing training in the Y.M.C.A.College of Physical Education, Saidapet and in the Physical Training Class for Women, Saidapet. The Govt. of India also are adjusting the grant due to this Govt. on account of P.W. Scheme No. 36. The D.P.I. also, while submitting proposals in December 1946 for implementing the plan reported that no special arrangements were necessary for

Y/26

K

training additional Physical Training Instructors and instructresses and that the Y.M.C.A.College was prepared to make the arrangement for the training of additional Instructors when necessity demanded, and that it was sufficient if the rate of stipends were increased. -- Accordingly the rate of stipends ~~were~~ was increased to Rs.~~30~~ 18/- per mensem from 1947-48. Thus the scheme did not contemplate the opening of new centres for the specific purpose of training Physical instructors and instructresses involving additional cost on account of additional staff etc. As such, the present proposal cannot be considered as falling under P.W.Scheme No.36.

para 1 on p 10 F

pp 9.10 (Y)

2. Further if the existing facilities in the Y.M.C.A.College are extended, then the need for the full amount of additional expenditure proposed on items other than stipends, i.e. for accommodation, staff etc. for the three new centres viz. Rs.~~37,400~~ 36,550 per annum, will cease to exist. As regards the statement of E. & P.H. that the proposal to take over the Y.M.C.A.College by the Government is uncertain in the present financial stringency, it may be stated that ~~the~~ it is the premier institution in the Province where facilities exist for the training of additional Physical Training Instructors and Instructresses and the matter of opening of new centres for this purpose is inter-related to the proposal for taking over the Y.M.C.A. by the Government, because Government are at present paying grants to this institution, and if Government are to open new centres for the training of Physical Instructors and Instructresses, there may not be the necessity for the Government contribution. In the circumstances this department may still adhere to the views already expressed at 'M' on p.5 above. If however E.& P.H. wish to press for the proposals, they may be requested to take orders in circulation including H.M.(Fin).

p 4 above

K on pp 6-7 above

83524

DS
E of F

This may be deferred in view of the financial stringency & the reasons given above.
