Visual Education in Schools and Colleges--Introduction of.

READ:- G.O.No. 2036-Education dated 19th September, 1947.

The Government approve, subject to the following conditions, the proposals of the Director of Public Instruction for the provision of visual education in schools and colleges in the Province, as an interim arrangement, till they are in a position to take up the production of educational films for visual instruction and arrange for their exhibition in schools and colleges through their own agency:-

1. That a fee of Re.1/- is levied and collected from students studying in Forms I to III, Rs. 2/- from students studying in Forms IV to VI and Rs. 3/- from those studying in Colleges for the purpose.
2. That the films to be shown in the schools and Colleges should be subject to recognition and approved by the Director of Public Instruction.
3. That the fees collected for visual education should be kept separately by each school and should be utilized only for that purpose.
4. That the money collected for the purpose in a year, should as far as possible be spent in that year.
5. That the accounts relating to the collection of fees and the expenditure therefrom should be audited and submitted separately with the annual accounts.
6. That the school or college authorities make their own arrangements with firms or agencies recognised by the Director of Public Instruction for the exhibition of the films and draw up the year's programme.

Communicated.

2. The District Educational Officers and Inspectresses of Girls' Schools are requested to bring the G.O. read above and the clarification, to the notice of all schools under their control. They are requested to collect the particulars in the appended form and submit a report to the Director. The Principals of all Colleges are requested to submit similar particulars to this office.
3. A list of firms and agencies recognised by the Director for the exhibition of certified films will be forwarded shortly.

CLASSIFICATION:-

(a) A 'Show' will ordinarily consist of the exhibition of not more than 4 different films, representative of different subjects, the normal running time being one hour.

(b) It would be in the interest of visual education in schools that each institution should enter into a contract with a firm of producers or exhibiting agencies recognised by the Director of Public Instruction for the exhibition of all the films selected by the Visual Education Board for a period not exceeding one year. If they have their own projectors and can operate them, they need only hire the films.

(c) The optimum strength for a group is 200-250. For grading pupils, if the strength does not permit each form forming a group by itself, there is no objection to club the middle form pupils as the 'Junior School group' and the high school pupils as the 'Senior School group' in secondary schools and intermediate students and the degree course students as the 'College group' in Colleges.

(d) The year's programme for each group may be 10 shows preferably or at least 8 shows and they should be distributed throughout the year as far as possible at the rate of one per month. But under special consideration, two shows may be shown per month. The audience for each show should be students belonging to that particular 'group' only, viz. Junior or Senior.

(e) The teachers of the particular subjects handling the particular classes must attend the show. They should make some introductory remarks before the show and give a resume after the show, emphasising the important points brought out by the motion picture.

If the attending and supervising teacher thinks it necessary, the film may be repeated either in the same show or in a subsequent show.

The Director would like to lay stress on the importance of co-operation between the teachers and the film agencies, as the aim of Visual instruction may be defeated if the educational aspects are ignored. The teachers must first prepare the minds of the pupils before the show starts and should satisfy themselves that the pupils have really benefitted by the performance. They must realize that the films shown are real ~~and~~ educational aids for clarifying or emphasizing salient features of lessons presented or lectures given in class-rooms.

(f) The Director fixes a maximum of Rs. 45/- per show in a school as well as in a College; where an institution (school or college) is not able to collect the necessary amount, it may club with one or more institutions nearby and arrange for common shows. If even this is not possible for any reason, its inability should be reported to the Director.

(g) The authorized items of expenditure shall be.---

1. Show charges or hire charges in institutions owning projectors.
2. Purchase of screen.
3. Purchase of darkening material
4. Fitting up plug points to help and facilitate easy electrical connection.
5. Where the institution has no adequate accommodation for Visual Education shows, a nominal rent not exceeding Rs. 10/- per show may be permissible for the use of a hall or theatre.
6. Contingent expenditure not exceeding Rs. 2/- per show.

7. If any balance be left over at the end of the year after meeting all legitimate and authorized expenses, a reserve fund may be built up and ear-marked for some specific purpose connected with Visual education as for example, purchase of optical aids that may be used in schools, such as pictures, Epidiascope, film strip projectors, sound and silent cinema projectors, etc. It is desirable that schools should try and equip themselves with as many visual aids as possible and use them regularly.

(h) A register of receipts and expenses (supported by vouchers) should be maintained by each institution as also a register showing the programme of shows arranged for each year and the actual films exhibited. The amount collected should be deposited in a bank under "Visual Education Account".

(i) For this academic year 1947-48 if arrangements can be made for showing all the prescribed number of shows before the end of the academic year, the necessary fees may be collected and even two or more shows given per month to each group. Otherwise half the prescribed annual fees may be collected and arrangements made for giving each group five or at least 4 shows in the course of the academic year. In the case of schools owning projectors, the question regarding collection of fees at half the above rates is under the consideration of Government and their orders will be communicated in due course.

29/11/47

With reference to your above-mentioned letter may I invite your attention to para 2 of the G.O. Mis. No. 2036, Edn., dated 19-9-47 wherein the Director has been specifically requested to make all speedy arrangements for censoring and approving the educational films. It is only with reference to the provision of Visual Education as a long-range scheme that the final proposals were asked to be submitted by him for consideration of Government. In view of these instructions which are quite clear, a board had been formed and effect had been actually given to the proceedings constituting the Board by holding 2 of its meetings already. As I consider that a small and compact body would be more efficient, only 5 members were chosen for the Board (2 to represent colleges, 2 to represent High Schools and one from the Department).

As the Board has started functioning I would suggest that if so desired, in addition to the 5 members constituting the Board, the following 3 suggested by the Hon'ble Minister for Education may be co-opted to the same -

1. Sri S. Rm. Ct. A. Annamalai Chettiar
2. Mrs. Pithavadiyan
3. Sri P. S. Kailasam.

Yours sincerely,

We have passed orders with regard to Visual instruction in schools.

We have also provided that the D.P.I. must certify the films to be exhibited in schools as being suitable for children and as being educational films. There is also a proposal to introduce educational films in all cinemas for about 20 minutes. Now, we must create the machinery to see these films and certify them. I suppose some organisation like the Cinema Censor Board with about three to five persons must be necessary to help the D.P.I. to certify these films. The D.P.I. may be asked to make a specific proposals in this regard.
