Dr. Tara Chand, M.A., D.Phil.,
Secretary to the Government of India.

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Madras.

SUBJECT:- ADVANCED STUDIES OVERSEAS IN RESPECT OF MR. N.V.SUBBA
RAO, A MADRAS GOVERNMENT 1946-47 SPONSORED SCHOLAR.

Sir,

I am directed to refer to correspondence resting with
this Ministry letter of even No., dated 30th March, 1948, regarding
the above scholar and to forward herewith a copy each of letters No.
E.A. 7595, dated 13th May, 1948 and 10th June, 1948, together with
a copy each of a progress report and an application for extension
from Mr. Subba Rao in the period of his scholarship received from the
High Commissioner for India, in London in this Ministry.

2. It will be observed that Mr. Subba Rao has requested
for an extension in the period of his scholarship upto 31st March
1949 to enable him to finish the work for Ph.D. which seems to have
been delayed due to difficulties in securing the required apparatus.
After finishing Ph.D. in December 1948, he desires to have some
practical training for 3 months in one of the manufacturing concerns
in the United Kingdom.

3. The High Commissioner for India in London and Mr. Subba
Rao's supervisor have supported the scholar's application. The
Government of India are also inclined to agree to extend Mr. Rao's
scholarship upto 31st March 1949.

4. The Provincial Government may kindly consider the matter
and communicate their decision to this Ministry at an early date.

Yours faithfully,

(K.P.Lukose)
For Secretary.

Copy of letter No. E.A. 7595, dated 13th May, 1948, from the High Commissioner for India, Education Department, London, to the Ministry of Education, Government of India, New Delhi.

Please refer to your endorsement No. F.7-8/S.23/46-O.D.IV dated 30th March, 1948 regarding Mr. N.V.Subba Rao, which was addressed to the Government of Madras and a copy of which was received in this Office for information on the 5th April, 1948.

I append below a copy of certificate which was issued to him by the Imperial College of Science & Technology, from which it will be seen that his conduct and progress have been satisfactory. The annual Progress Reports will be available sometime by the end of July as the results of the examinations which are held some time in June, are not known before that date. It is therefore not possible to submit full reports earlier than that date.

COPY

CERTIFICATE.

I hereby certify that Mr. N.V.Subba Rao has been in regular attendance at Imperial College during the quarter ending March 1948, and that his conduct and progress have been satisfactory.

Signature of University, College,
or other authority.

(Sgd.) A.G.Pollard.

X 3

Copy of letter No. E.A. 7595, dated 10th June, 1948, from S.G.Sathaye, Esq., Education Department, India House, London to D.K.Hingorani, Esq., Ministry of Education, Government of India, New Delhi.

Please refer to my D.O. letter dated 13th May 1948 regarding Mr. N.V.Subba Rao, your reference No. F.7-8/S.23/46-O.D.IV. I now enclose herein in duplicate this scholar's application for extension until 31st March 1949 (a) to enable him to complete his research course by December 1948, and (b) to enable him to have practical training for a period of 3 months thereafter. It will be noticed that the necessity for extension has arisen because of the difficulties in procuring necessary apparatus. Having regard to the endorsement of Mr. Rao's supervisor, this office supports the representation made by this scholar. I should be glad if you would kindly let us know the Government's decision as early as possible.

(undated)

Dear Sir,

In my last annual report, I wrote that I would subsequently inform you regarding my practical training. During the last year, while carrying out research work in the College, I had awaited the opportunity of visiting several research institutions and manufacturing concerns dealing with insecticide and fungicides, with a view to acquainting myself with the latest developments in this branch. To make my training complete, I suggest that the practical training be broadly based on two lines:

1. First-hand knowledge of the latest methods of application of insecticides and fungicides for plant protection and protection of grains, etc. in storage;
2. Industrial experience in the manufacture of modern insecticides.

Under the first item, visits to the following will be of immense use :-

1. East Dalling research station and other Kent orchards to follow up the spray programme.
2. Seed-treatment plants (protection of seeds from diseases)
3. Fumigation of granaries, warehouses, etc.

I have already made contacts with the East Dalling research station for the first and I hope to be able to secure facilities for the last two aspect of training without difficulty. I can visit them as and when I find time during the session.

Regarding the second part, I shall be much obliged if you could try with the following concerns for practical training. The actual period of training may be decided after permission has been secured for the training.

From January 1949 - 3 months

1. One month in the D.D.T. manufacturing plant of Messrs. Geigy & Co., Manchester.
2. One month in the - - - plant of I.C.I. Ltd.
3. 2 weeks in Plant Protection Ltd., Yalding, Kent.
4. Boots, Nottingham.

I hope you approve of this programme and make the necessary arrangements. Respectfully yours,
V. Subbarao.

Memo.—Report required overleaf should in all cases be obtained before this report is returned.

[P.T.O.]

University, College or Works Report on the work of the Scholar during the period under review:—

Dr. Subba Rao's work continues to give every satisfaction and should be a source of credit to himself and to those sponsoring his studentship here.

Unavoidable delay in obtaining certain instruments for his work will probably necessitate his continuing a few months longer than was originally planned. In anticipation of this contingency, an extension of his scholarship for another term, i.e., until December 1948 is very desirable.

The investigations concerning Derris are yielding important results, commercially and economically, and their completion is a matter of concern.

(Sgd) A. G. Pollard.

FOR OFFICIAL USE ONLY.

DEPARTMENTAL OBSERVATIONS.

Proposed course of study during the year 1st October 1948 to 30th December 1948.

Completion of current investigations on Rotenone and Derris products.

(Sgd) A. G. POLLARD.

COPY.

Course of study attended during 1946 - 48.

November 1946 to May 47: Advanced study in Agricultural Chemistry including a course in soil microbiology.
May 47 onwards: Carrying out research on "The rate of decomposition of rotenone and derris deposits."

Aim of the investigation:

Rotenone is one of the most powerful insecticides and at the same time the least harmful to human beings. It is the active chemical component of some species of Derris, such as *D. elliptica* and *D. ferruginea*, which are grown in India. In the near future India has to depend on its natural insecticides, derris and tobacco, for protecting its crops against pests.

In the laboratory tests, rotenone is reported to be more toxic to insects than D.D.T., but however, it undergoes decomposition, when applied in the field. Though derris products have been in use to control several pests, their performance in the field is still capable of improvement. The present investigation was undertaken with a view to ascertain how long a rotenone or derris deposit would remain effective and to find ways and means of improving its permanence.

Results so far achieved:

- (i) A satisfactory method of estimation of rotenone in very minute quantities and that too in the presence of its decomposition products was worked out and standard curves for interpolation were drawn.
- (ii) With the facilities offered by the Pest Infestation Laboratory of the D.S.I.R. at Slough, a suitable method to produce replicate deposits of rotenone of varying thickness was evolved.
- (iii) The rates of decomposition of these deposits under conditions of artificial light and under sunlight were studied. (Special artificial lighting equipment was designed and constructed for this purpose with the help of some of the Electric Lighting Manufacturers).

Work under progress:

The effect of various anti-oxidants and inert covers is being studied with a view to prolong the toxicity of the deposits. In addition to pure rotenone deposits, the rates of decomposition of the deposits of derris resin and of derris dusts are also under investigation.

OVERSEAS SCHOLARSHIPS (CENTRAL/PROVINCIAL)
APPLICATION FOR EXTENSION OF PERIOD OF SCHOLARSHIP.
 (To be filled in triplicate)

N.B. This application must be made in time so as to reach the Government of India, Ministry of Education at least three months before the expiry of the sanctioned period of scholarship.

1. Name of the Scholar. N.V. SUBBARAO
2. Sponsoring Government. (with year of selection in brackets) Madras (1946)
3. Date of commencement of scholarship. (Date of arrival in U.K./U.S.A.) 29th October 1946
4. Date of normal termination of scholarship. 29th October 1948
5. Details of the courses undertaken upto the date of normal termination of scholarship. (Give full details and if the space is insufficient separate sheet may be attached.)

Institution or University attended.	Date of Joining	Date of leaving	Subject with exact branch	Some details of the course	Degrees, diplomas or certificates if any Obtained.
(1)	(2)	(3)	(4)	(5)	(6)

| (a) Academic courses | Agricultural Chemistry Dept. Imperial College of Science London, S.W.7. | 4-11-1946 | - | Agricultural Chemistry - chemist of insecticides and fungicides. | Nov '46 - May '47
Advanced study in Agr. chemistry including a course in soil microbiology.
May '47 onwards |
| (b) Practical training. | | | | | Carrying out research on the study of rate of decomposition of rotenone and deers deposit with a view to improve their permanence. |

Additional experience: Visited a number of research institutions and factories in U.K and also on the Continent dealing with insecticides and fungicides to get acquainted with recent developments in the field of insecticides and fungicides and to discuss related problems.

Professional qualification: Elected a fellow of the Royal Institute of Chemistry of Great Britain & Ireland in Nov '47.

6. Final date upto which extension is required. 31st March 1949.
7. Reasons why extension is considered essential. 1. Owing to difficulties in the procurement of apparatus, my work has been considerably delayed. To complete the present investigation on rotenone and deers deposit, extension of scholarship upto the end of Dec '48 is required.

During my stay in this country, I should like to take the opportunity of gaining experience in the manufacture of modern insecticides, DDT and Gammaxane. I applied to the High Commissioner to arrange for practical training in some of the manufacturing concerns for a period of 3 months. In case the facilities for the practical training asked for are secured, I request that extension for 3 months from January '49 may be granted.

(P.T.O.)

8. Details of the work to be done during the period of extension.
(Give full details).

Institution or University to be attended.	Duration From To	Subject with exact branch followed.	Details of the course to be followed.	Degrees, diplomas or certificates if any to be obtained.

(a) Academic courses
 Agric. chem. Dept. Imperial College. 29th Oct 48 to 31st Dec. 48. Chemistry of Insecticides and fungicides. To complete the present scheme of investigation on rotenone and deris deposits. Ph.D. and D.I.C.

(b) Practical training.

1. The Geigy Co Ltd. 1 month. Manufacture of DDT.
2. The I.C.I. Ltd. 1 month. " Gammaxane
3. Plant Protection Co. 2 weeks. Manufacture of insecticidal and fungicidal preparations.
4. Boots pure drug Co. 2 weeks. "

Signature of the scholar N.V. Subbarao

9. Recommendations of the Professor, or other University authority supervising the work of the scholar.

An extension of the period of scholarship is essential for the completion of the investigations on deris products.

It is highly desirable also that Dr. Subbarao should have the opportunity of widening his experience by visiting manufacturers of insecticides. Such extension is strongly recommended.

(Sd) A. G. Pollard 1.6.48.

10. Recommendations of the Educational Liaison Officer.

Extension recommended until 31/3/49.

SUBJECT: ADVANCED STUDIES OVERSEAS IN RESPECT OF MR.
N.V. SUBHA RAO, A MADRAS GOVERNMENT 1946-47-
SPONSORED SCHOLAR.

Sir,

pi ante

In continuation of this Ministry letter of even number dated the 30th June 1943 on the above subject, I am directed to state that the High Commissioner for India in London has since informed this Ministry that it will not be possible to secure practical training facilities for Mr. Subha Rao in the United Kingdom.

In view of the above, it would appear that Mr. Subha Rao requires an extension in the period of his scholarship upto the end of December 1943 to complete his work for Ph.D. The Provincial Government may kindly communicate their decision in the matter to this Ministry at a very early date.

Yours faithfully,

SUBJECT: ADVANCED STUDIES OVERSEAS IN RESPECT OF MR. N.V.
SUBBA RAO, MADRAS GOVERNMENT 1946-47 SPONSORED SCHOLAR.

Sir,

I am directed to refer to this Ministry letter No.
F.7-8/S-23/46-O.D.IV dated the 21st July 1948 on the above
subject and to request the favour of a very early reply. The
Provincial Government are no doubt aware that the normal
period of scholarship in respect of Mr. Subba Rao terminates
on the 28th October 1948.

Conduct Scholarship 1946-7

Sri N. V. Subba Rao

from the Govt, Ministry of Edu

No. F.7-8/5-22/46 O.D. 10 9 30.6.48

Sri N. V. Subba Rao was selected
in 1946-7 for the award of a scholar-
ship in "Applied Chemistry - Chemistry
of Insecticides and Fungicides" and is
studying at the University of London.
His scholarship commenced on 29.8.46 and
was normally intended to end by 29.8.49.
He has applied for extension till 28.3.49
to enable him to finish his work for Ph.D.
which seems to have been delayed due
to difficulties in securing the required
apparatus. The Govt of India are inclined
to agree to his extension. We may be
requested to consider whether the extension is
necessary especially from the point of view
of his employment on return. India should
also see.

Please see the note of E.P.H.
 and Dept. on pp 1-2 above. In the
 circumstances explained by the Govt of
 India on p 1 C.F. this department may
 also agree to the extension of the
 period of the scholarship of Sri N.V. Subbaker
 up to 31.3.49 (i.e.) by about 5 months. The
 Govt of India will no doubt bear the extra cost on the
 usual 50:50 basis. E.P.H. may express this presumption
 in their reply to the Govt of India.

Cno 55287 C2/48. From the Org D.

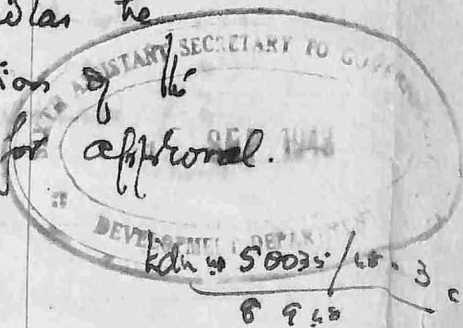

No. F. 7.8/5. 23/46. 03. 10 of 01.7.48 p13 CF.

Please see the Org D's letter on p 13 CF.
The Org D report that it will not be
possible to secure practical training facilities
for Mr. Sulebra Rao in the U.K. and that he
will require an extension till the end of Dec 48
only to complete his work for Ph.D. This
Govt have granted him an extension till the end
of March 49 to enable the scholar to complete Ph.D.
and then undergo about 3 months practical training.
The Org D may now be informed that if practical
training cannot be arranged for the scholar he
may be sent back to India on completion of his
Ph.D. Course. A draft letter is submitted for approval.

Dec may see before issue.
