GOVERNMENT OF MADRAS

Sir,

§6827

I am a Madras govt scholarship holder and the same was awarded in July '46. I was selected for specialisation in centrifugal, Bore well & Airlift pumps. I was informed by the High commissioner that I was admitted in the Imperial College London and so arrangements were made for my departure and I reached this place on 8.9.47. I find that I have been admitted in the I year of BSc (Engineering) in the City & guilds College of the Imperial Institute (which is a 3 years course.)

The B.Sc Syllabus here is the same as the B.E. degree course of the Madras University of which I am an Honours graduate. Further, B.Sc students are given only general training and no specialisation is possible. Atleast if I do M.Sc (Eng) here I can hope to get special training in the subject selected for me. I have tried to get admission for M.Sc in all the institutions here but without success. The main difficulties were (1) want

Dev. U.O No 103889 [illegible]

30.10.47.

Copy of letter No. E.A.7589, dated 23rd September, 1947 from the High Commissioner for India, Education Department, to the Secretary to the Government of India, Ministry of Education, New Delhi, India.

--

I am directed to invite a reference to the Education Department cable dated the Ist June, 1946, No. F.7/8/46/OD.II. insofar as it concerns Mr. R. Krishna Murthy, and to state that as desired by the Government, the College of Technology, Manchester, was approached on behalf of this scholar, As they were unable to accept him, an attempt was made to place him elsewhere, and the Imperial College of Science and Technology were approached on his behalf, who offered him admission for the Ist year course in Mechanical Engineering.

I am to point out that in the original cable under reference, it was not stated whether an undergraduate course or post graduate course was desired for Mr. Krishna Murthy, and further that the offer from the Imperial College for the under graduate course was accepted by the Provincial Government (Vide Education Department cable dated the 9th June, No.F.7/8/46. OD.IV.

Mr. Krishna Murthy arrived here on the 8th September, 1947 and was asked to report to the College authorities. He now represents that in view of his previous qualifications and experience, the facilities for undergraduate courses offered by the Imperial College are not suitable for his requirements.

With this view, this Office is inclined to agree. In fact Mr. Kirpal, in several of his communications to India, has pointed out that instead of repetition of undergraduate courses scholars who possess Engineering degrees and practical experience in India would be benefitted to a greater degree by utilizing practical training facilities in the United Kingdom whenever available. Under the circumstances, Mr. Krishna Murthy's suggestion that he should be placed in an industry instead of in an undergraduate University course, is excellent. I am to point out, however, that practical training facilities are also very difficult to obtain, but every effort will be made to make suitable arrangements for this scholar if the sponsoring Government desire that Mr. Krishna Murthy may be switched over to practical training. I am to add that until the Government's decision is known, Mr. Krishna Murthy has been advised to continu his studies at the Imperial College of Science and Technology.

Malhotra. 21/10.

From

N. Krishna Murthy, B.E.,
Government Scholar.

To

The Minister,
Education Department,
Government of India.

Through:- The High Commissioner for India in U.K.

Sir,

I am an Engineering graduate of the Madras University and I was awarded a scholarship by the Madras Government for higher training in Pumping Machinery in the United Kingdom. I arrived in London on the 8th September, 1947.

I find that I have been admitted in the B.Sc.(Eng) Course of the City and Guilds College, London. I am informed by the College authorities that it is now impossible to admit me either in the M.Sc. or D.I.C. Course. If I am not admitted in either of the above courses, I will not be given my special training in the subject chosen for me, namely Pumps. I am already an engineering graduate and the course here ~~wi~~ for the B.Sc. degree is almost the same as the B.E. degree course of the Madras University. Further, I won't get any training in the special subject of "pumps" if I study B.Sc. here. Hence it would be a waste of my time and Government money if I study B.Sc. here. I request that I may be given training in some factory where pumps are manufactured; for a period of one year.

I have the honour to be,
Sir,
Your obedient servant.

(Sgd.) N.KRISHNA MURTHY.

ET 10.11.47

12.11.47

13/11/47

Copy of a letter No. E.A. 7589 dated the 27th October, 1947 from the High Commissioner for India in London to the Secretary, Ministry of Education, New Delhi.

This is in continuation of our cable dated 24th October No. 3447/ regarding 1946-47 Madras Government scholar Mr. R.Krishnamurthy who arrived here last month to join an undergraduate course at the Imperial College of Science, London. As already stated in Dr. Sathaye's official letter E.A. 7589 of the 23rd September, it would not be suitable for Mr. Murthy, with his previous qualifications to take an undergraduate course in Mechanical Engineering. We have therefore obtained as offer of practical training in pumps with a very well-known firm of engineers, Messrs. Worthington-Simpson, Ltd., of London and Newark. They have offered to give this student practical training for one year at their works, in the following sections:-

1) Pattern Shop
2) Foundery
3) ~~Machine Shop~~ Machine Shop
4) Fitting Shop
5) Testing Laboratory

Mr. Murthy would receive the training on 'no wages - no premium' basis and would have to comply with the firm's rules and regulations and observe the customary working hours. These conditions are, of course, applicable to all apprentices.

Would you kindly obtain the sanction of the Provincial Government and communicate it to us by cable, if you have not done so already.

Reference No. E.A.7589.

From

The High Commissioner for India,
Education Department.

To

The Secretary to the Government of India,
Ministry of Education,
New Delhi, INDIA.

Sir,

I am directed to refer to our previous correspondence regarding Mr. R.Krishnamurthy, 1946 Madras Scholar, resting with your cable No. F.7-8/46/O.D.IV., of the 19th November,

I am to state, in continuation of our D.O. letter of the 27th October, that Messrs. Worthington-Simpson, Ltd., London, have accepted this candidate for one years practical training at their works in Newark. The Scholar commenced his training provisionally with this firm on the 3rd November, As a result of your cable of even number, dated the 18th November, this arrangement has now been confirmed.

As regards the program for his second year, there will be two alternatives:-

A

1) It might be possible to place him with another firm for further practical training in any aspects of the subject that might not be coverned with the firm mentioned above.

B

2) It might be possible to get him admitted to a short theoretical course at some British University having some bearing on the subject.

I have etc,etc.,

MADRAS GOVERNMENT SPONSORED SCHOALR MR. R. KRISHNAMURTHY.

pp 21-22 ante

Sir,

I am directed to refer to your letter No. 80827-c2/47-8 Education dated the 16th February 1948 and to regret to state that this Ministry inadvertantly offered to the Provincial Government vide their letter of even. No. dated the 16th Dec. 1947, an unconditional choice between the two courses of work proposed by the High Commissioner for India, London, for Mr. Krishanmurthy in the second year of his stay in the United Kingdom.

p 15 ante

It will be observed that if the choice of the Provincial Government is accepted, he will be doing practical training for both the years of his scholarship; as such his case will not conform to the general policy of our scheme which is that scholars sent abroad should do balanc-ed courses of theoritical studies and practical training.

It is, therefore, suggested that the Provincial Government may kindly reconsider the matter and approve of the alternative course of work proposed by the High Commissioner for the scholar- theoretical studies at some British Universities- so as to bring his training within the accepted scope of this Ministry's scheme of Scholarships.

An early reply is requested.

I have the honour to be,
Sir,
Your most obedient servant,

Madras.

ASST. SECRETARY TO GOVERNMENT
2 JUL 1948
EDUCATION AND PUBLIC HEALTH DEPT.

Subject:-Advanced studies overseas in respect of Mr. R. KRISHNAMURTHI, a Madras Government 1946-47 sponsored scholar.

48662

p27 ante

Sir,

I am directed to refer to correspondence resting with with Ministry endorsement of even ~~No.~~ number dated 19th March 1948 regarding the above scholar and to forward herewith copies of marginally noted correspondence that has passed between this Ministry and the High Commissioner for India in London.

1. letter No.E.A. 7589 dt.23.4.48 from the H.C. to this Ministry.
2. This Ministry's letter of even No. dated 7.5.48 to the H.C.
3. Letter No.E.A. 7589 dt.3.6.48 from the H.C. to this Ministry.

The Government of Madras may kindly consider the matter in the circumstances explained above and inform this Ministry at an early date whether they agree to the scholar's return after the present course of practical training.

Yours faithfully,

(K.P.Lukose),
for Secretary.

Gulhati,
26.6.

27

Copy of letter No. E.A.7589 dated 23rd April 1948 from the High Commissioner for India, London to the Ministry of Education, Government of India, New Delhi.

I am directed to refer to our previous correspondence regarding Mr. R.Krishna Murthy, 1946 Madras Scholar, resting with your letter No.F.7-8/S.26/46.OD.IV dated 11th March, 1948, and to enclose a copy of an application from the candidate in which he expresses a desire to return to India at the completion of one year's training in this Country.

Since receiving the enclosed application from the candidate, we have been in touch with Messrs.Worthington Simpson, Limited, under whom he has been undergoing training and a copy of their opinion is also enclosed herewith. Inview of the comments expressed by the firm, we are prepared to recommend Mr. Murthy's return to India, after he has completed a year's training.

I am to request that t e decision of the Provincial Government may be forwarded to this office, as to whether we should arrange for another year's ~~xpx~~ practical training for this candidate, or to permit him to return. The scholar arrived here on 8th September, 194~~8~~7 and started his practical training on the 3rd November, 1947.

=======================

Copy of letter from R.Krishnamurthy, B E. A,M.I.E. B.A.E. Newwark (Notts) to the Secretary to High Commissioner.

Subject:-Training Completion - Further Instruction requested
Ref:- E.A. 7589 - Madras Scholar.

I am having training in Worthington Simpson Factory from the last week of October 1947. I will be completing my training by the middle of October of this year. I was informed by you, a few months ago, t at we should decide about my future after I have put in a few months training here. Now that I have been here for five months it is time that my future is decided. I request you to send me back to India as soon as I complete the training here. This matter may be communicated to the Government of Madras if you think it necessary, and their approval obtained. I also request you you to let me know the action taken by you in this regard.

========================

Letter from the Export Manager, Worthington Simpson Ltd. to the High Commissioner for India. April 13th 1948.

We are in receipt of your letter of the 5th inst. regarding the above mentioned, who is at present undergoing practical training at our Woris, and we note that Mr. Murthy expresses the desire to return to India on completion of his one year's training with us.

In the previous correspondence we had with you on this matter it was arranged that Mr. Murthy would undergo one years' training with us, and we have no knowledge of his Sponsoring Authorities requiring him to study for two years in this country.

With regard to the last paragraph of your letter, we would advise that Mr. Murthy has so far made very satisfactory progress at our Works and if he continues to do so, it is our opinion that on completion of one Year's training there, this should be sufficient for the purpose for which he was sent.

Trusting this gives you the information required.

================

Copy of letter No.F.7-8/S.26-OD.IV dated 7th May,48 from the Ministry of Education, Government of India to the The High Commissioner for India in the U.K. London.

Subject:- Scholarships for Advanced Studies Overseas, 1946-1947 Madras Government sponsored scholar Mr. R.Krishnamurthy.

I am directed to refer to your letter No.E.A. 7589 dated the 23rd April,1948 and to say that before considering the request of the scholar to return to India this Ministry would like to have the following information. 1. Details of work expected to be done by Mr. Murthy at the end of his one year with M/S. Worthington Simpson Ltd. 2. Whether a short theoretical course can be arranged for him in some University in the United Kingdom at the end of his practical training course. 3. Further details as to the reasons why Mr. Murthy wishes to return.

It is requested that the required information may kindly be furnished to this Ministry immediately so as to enable us to take further action in the matter.

==================

Copy of letter No.E.A.7589 dated 3rd June 1948 from the High Commissioner for India, to the Ministry of Education Government of India, New Delhi.

I am directed to invite reference to this office letter dated 26th May 1948 regarding Mr. R.Krishnamurthi, (Your reference F.7-8/S.26/46-OD.IV), and to enclose herein a copy of a letter which has now been received from the student.

It is recommended that this scholar may be allowed to return to India as desired ~~hm~~ by him.

====================================

Copy of a letter from R.Krishnamurthy, Newark (Notts) to the Secretary, The High Commissioner Education Department.

2 Ref:-Your letter E.A. 7589 dated 26.5.48.

The details of work expected to be done by me by the end of one year. This factory employs approximately 1300 workers. The main products of manufacture are, Turbine, Volute, Borehole, Axial, flow, Refinery, Sewage and Subersible pumps. The size of pump varies from very small pumps for domestic use to very large ones for water works and Docks. The firm also manufactures Air Compressors of varying size, condensers and evaporators, and steam pumps of the direct acting type.

I have so far completed more than seven months of training here, during which time I have worked in the following sections of the factory.
1. Pattern Shop. 2. Core Shop. 3. Moulding & Casting.
4.Machine Shop. 5. Fitting. 6. Assembly & Erection.

In the months to come I will have training in
1.Test House. 2. Laboratory. 3.Planning Department.
4.Rate fixing Dept. 5.Design and Drawing Office.

During my stay, I have also been given access to all the information I require with regard to production methods etc.

It can be seen from the list given above that during my training, I cover the entire factory. As I work from 7.30.a.m to 5.30 p,m. like any other member of the firm, it is quite possible to learn all that is to be learnt here within a period of one year.

I was sent here to specialize in the design and manufacture of pumps and I presume that what I am doing here is what is required of me.

II. Whether a short theoretical - training course.

A When I came to this country I found that I had been admitted to the First Year B.Sc. in the Imperial College London. At that time I pointed out that I would be wasting my time if I study for a degree course since it would not give me the necessary knowledge and training in design and manufacture of pumps. Further I also pointed out that I was already an Honours Engineering degree holder of the Madras University, the syllabus of which is more or less identical with most of the British Universities and as such no useful purpose would be served by my joining any University here. Even when I tried to secure a seat for Research, most of the London Colleges refused since the nature of my subject was such that their Laboratories were not suited for this work.

Only after taking into consideration all the above facts The High Commissioner addressed the Government of India to put me in a factory instead of a College, and did so in anticipation of approval.

As the Government also later approved this action, I understood that the Govt. were in agreement with the views expressed by me. As nothing has happened from that time to the present to change the position of affairs, I have to state again that since pure theory as taught in University is very different form the commercial designing as applied in production, the University Course will be of very little assistance to me in my specialization unless it i is a sustained research work on pumps for several years.

The Reasons for my returning in one year.

P.T.O.

28 ~~5~~/32

B

During my one year training at the works, I have learnt many important points regarding the efficient methods of pump production. This was made easy in my case by the fact that I had nearly five years of ~~x~~ factory service before I came here. I cannot learn more if I stay here for another year, than what I have learnt in the first one year. I could be more usefully employed if I were to return to India ~~f~~ after one year and devote myself to the production, maintenance or even research on pumps.

Under the circumstances it would be a waste of my time and Government money if I were allowed to stay here for another year. I would be failing in my duty to my country, if I did not point out the above fact. But the final decision rests with the Government, and it is for them to decide about my future plans.

ADVANCED STUDIES OVERSEAS IN RESPECT OF MR.R. KRISHNAMURTHY, MADRAS GOVERNMENT 1946-47 SPONSOR RED SCHOLAR.

Sir,

p36 ante

In continuation of this Ministry endorsement of even No. dated the 10th August, 1948 regarding the above scho lar, I am directed to state that the High Commissioner for India, London has since informed this Ministry that it will not be possible to secure admission for Mr. Krishnamurthy in any University from October 1948, as all the vacancies have now been filled. I am therefore to request you to confirm that the scholar may return to India after completing the course of training which he is doing now.

2. The High Commissioner has also stated that in view of the passage difficulties, the scholar has enquired whether he can return to India by air. If the Provincial Government desire that he must return by air to India immediately from the viewpoint of his employment they or the scholar will have to bear the entire extra cost involved in arranging an air passage to India from the United Kingdom.

3. The Provincial Government's decision in the matter may kindly be communicated to this Ministry as early as early as possible.

Overseas Scholarships - 1946-47 - Mr R. Krishnamurthy

pp1-2cf C. No: 80827 (2/47, From Mr R. Krishnamurthy, Lr d 3-10-47

37

Pl. see the letter on pp1-2cf.

Mr R. Krishnamurthy is a scholar selected in 1946-47 for advanced studies in "Mechanical Engineering - Design and manufacture of Centrifugal pumps; deep well, bore well and tube well pumps and Air lift pumps". The Dev. Dept to whom the subject relates, suggested the candidates' admission in the Manchester College of Technology, U.K. As this college was unable to admit the Scholar for the 1947-48 session, he was admitted to the first year Mechanical Course in the Imperial College of Science and Technology, London ~~U.K.~~ - Vide the letters on pp1 and 3cf and the notes on p1nF of C.O. No: 1928 Edn d 3-9-47.

g/INF

(g)

2. The Dev. Dept suggested 2 years study for the scholar including practical training at any of the manufacturers ~~to~~ e.g. M/s Mather & Platt, Manchester. In the circumstances reported by the candidate, it may be possible to arrange for his practical training immediately. But it may ~~however~~, be [illegible]ed that the Govt of India have repeatedly stated that all communications from ~~the~~ Scholars abroad should pass thro' the proper channel (ie) thro' the Edl Liaison officer abroad and the Govt. of India. In view of this, communications recd. direct from overseas Scholars are generally ignored. - Mr Krishnamurthi has stated in the last para of his letter that he has already addressed the Govt. of India to put him for practical training in a firm. In view of 'A' above, it seems that the prese

p148cf (a)

C.O 8206 Edn 15-11-48

'A'

p2cf

Z

letter from the Scholar should be ignored.

If it is considered that the matter should be taken up with ~~before~~ the Govt. of India, Dev. may see for remarks before the Govt. of India are addressed in the matter.

29.10.47

A letter and a telegram since recd. from the G. of I regarding Mr. Krishnamurthi's training will be found on pp 3-7 cf. It is seen that the

p7 cf

H.C. for India, London has secured facilities for practical training for the Scholar for a period of one year but the firm or firms in which the training has been arranged are not stated. This Dept. may agree to the training arranged for the Scholar.

It is submitted in this connection that the Govt. of India have held the view in the case of another Scholar (Mr. R. Padmanabhan) that mere practical training is outside the scope of the Overseas Scholarships Scheme and that the cost of such training arranged for any Scholar should be met entirely from Provincial funds. But in the particular case, the Govt. of India have agreed finally to share half the cost of the Scholar's training, as a special case and have made it clear that that case should not be cited as a precedent for any similar recommendations in future. In view of this, if the practical training arranged for Mr. Krishnamurthi is agreed to, this Govt. will have to bear the entire expr. on his training. Attention is, however, invited to the portion marked 'A' in the Govt. of India's letter on p 3 cf. In view of this, it may be presumed that they are prepared to share half the cost of the Scholar's training. If the Govt. of India do not agree, this Govt. may bear the entire cost as the Scholar has already reached England and has begun his studies in the Imperial College of Science and Technology and as it is now too late to cancel the Scholarship.

Accepted and passed on to Fin.

CPS
3.11.47

Fin E III

Please see the notes of E.P.H and Development on pp. 1-4 above. The candidate, Sri Krishnamurty who was originally admitted in September 1947 in the B.Sc.(Engineering) course in the City and Guilds College of the Imperial Institute of Science and Technology is ~~not~~ now to be switched over to practical training in a firm for a period of one year. In the circumstances explained in the letter from the High Commr at p. 4 C.F and in the notes of Development and E.P.H on pp.2-3 above the proposal may be agreed to in this Department.

2. As regards the sharing of the cost in respect of the training of the scholar by the Govt. of India, they have stated in their letter on p.3 C.F. that the financial responsibility of the Govt. of India in respect of this scholars training abroad will end at the end of two years knowing that the training now proposed is practical ~~tax~~ training. As the practical training proposed for Sri Krishnamurty is only for one year, and is within the two years course originally intended for him, the Govt. of India will probably bear half the cost inclusive of the practical training proposed. E.P.H have also mentioned this at B in the draft reply.

The draft telegram below may be accepted.

DEV. UO NO 3786 DI/48-2 29.1.48

ASST. SECRETARY TO GOVERNMENT
30 JAN 1948
7280
EDUCATION AND PUBLIC HEALTH DEPT.

The notes from p 6 ante may be ~~perused~~ perused. It is presumed that the Dev. ~~als~~ Dept accept the recommendation of the Jt D. I. & C. that Mr R. Krishnamurthy may undergo practical training for the second year also. This Dept may also agree to the proposal as the C of I. have already made it clear that they would bear half the cost, as usual, ~~for~~ the Scholar's training for the normal period of two years. Z in p 13 CF

It may, however, be noted that it ~~would~~ will appear from the H.C's letter on p16 CF that Mr Krishnamurthy's period of training for two years ~~would~~ will end only by the beginning of Nov '49 as he commenced his training provisionally with Messrs Worthington-Simpson Ltd, London from 3rd Nov '48. Having reached the U.K. on 8-9-47, Mr Krishnamurthy's normal tenure of scholarship will end by Sep '49. p 4 CF As the proposal for his training stands at present, it seems that the Scholar will have to be given extension of study for 2 months (ie) from Sep '49 to Nov '49. The C of I will not be prepared to share ~~at a future date~~, the cost involved in the period in view of their statement at 'Z' on p13 CF. In the circumstances, the C of I. may be told that Mr Krishnamurthy's training for the second year may be arranged as suggested by the Jt D. I & C. p17 CF his period of training should, on no account, go beyond Sep '49 by which date the normal period of his Scholarship will expire.

Subject to orders, a draft letter is submitted. Dev. may see again before issue.

From the G of I, No. F 7-8/46-OD II d 1-3-48.

p 23 CF

Pl. see the letter from the G of I. on p 23 CF. It may be observed from their letter that if the Scholar is allowed to take practical training for the second year also, the Scholar's training will be outside the Overseas Scholarships Scheme and as such, the G of I. will not share half the cost ~~of the~~ involved. The only alternative left open to the Govt. is to accept the programme of studies detailed for the scholar at B on p 16 CF. This may be done.

C1/AS1

Dev may see for remarks. If Dev, however, insist that the Scholar should have only practical training for the second year, this Govt. will have to bear the entire expr. on the Scholar's training abroad in which case, Fin. should also see.

To AS

The file was last seen in this Dept at p 9 above. Further notes of E & P H Dept at pp 9-10 above and the letter from the G.O.I and its enclosure at pp 28-32 cf may be perused. Mr. R Krishnamurthi, 1946, 47 Madras Govt Scholar requests that he may be permitted to return to India on completion of the present course of one year's practical training. In the circumstances stated by the Scholar at 'A' on p 31 cf and at 'B' on 32 cf, this Dept may agree to the Scholar's return to India after the present course of one year. With these remarks the file may be returned to E & P H

p 28 cf

pp 29-32 cf

'Z' on p 29 cf

Vm
14.7.48

14/7/48

As already remarked by Dev.[+] there is no need for a continued practical course for a second year. The Scholar may return after the conclusion of his training for one year, if it not possible to arrange for him a theoretical course in centrifugals at a British University of a standard higher than that for the degree already held by him. Apparently, this is not possible, from the correspondence.

C. no 74962/48 from the G of I, Ministry of Edn
No. F. 7-8/S. 26/46-S. II of 9. x. 48.

p 38 C.f

Please see the letter on pp 34-35 C.f. and the G of I's letter recd above on p 38 C.f. The G of I may be informed that the scholar may return to India after completing the course of training which he is doing now.

As regards air passage for the scholar's return, the G of I have, in their telegram No. F2-26/47-S2 of 13. x. 48, intimated that they have authorised the High Commissioner, London, to send back all the scholars by Air if the period of waiting for steamer is likely to cost more than the extra cost if air passage is provided. The G of I have assumed concurrence of this Govt for this arrangement. It is proposed to confirm the assumption. The connected file has been sent to Fin. Even otherwise, this Govt have already agreed to ~~set~~ air passage being arranged for 3 scholars as it was considered to be more economical than paying scholarships and other allowances for the period of waiting for the steamer. The entire extra cost involved in arranging air passage will have to be met by this Govt. The G of I may be informed that air passage may be arranged for the scholar if the conditions stated in their telegram referred to above are satisfied in this case. ~~It does not appear however, that the scholar is required immediately for employment under this Govt.~~ ~~A draft letter is submitted for approval.~~ It may issue with the concurrence of Dev & Fin.

A

U.O. No. 75506 C/2/Edn

(Spl file)

M

wf

W3
9.x.48

In this case, the Govt of India desire to return the scholar by air if this Govt desire that he must return by air to India immediately from the view point of his employment & they state that this Govt. or the scholar will have to bear the entire cost involved in arranging an air passage to India from the U.K. ~~Ex orders~~. It may be stated at once that his services for employment are not immediately required in India. Alternatively it may be considered that he may be returned by air, on the ~~grounds~~. criteria recently laid down by the G. of I. that his ~~s~~ further stay in the U.K. will be more expensive than the extra cost involved in ~~bearing~~ the rate of air passage. The G. of I. are reticent on this point. The file may be sent to Dev. & Fin for views.

92416

14 C2

this deptt have suggested that expenditure involved in return of overseas scholars by air, should be equally borne by this Govt and the Govt of India, and have requested E.H.H. to inform the G. of I. accordingly. In the present case, namely that of Sri Krishnamoorthy, the Dev deptt have stated that the services of the scholar are not immediately required from the view point of employment. In the circumstances, there does not seem to be any necessity for arranging air passage for the scholar. If however it is considered that the scholar should return by air, then the cost involved will have to be borne equally by this Govt and the G of I. E.H.H may be requested to inform the G of I accordingly.
