Physical Education - Bhore Committee Recommendations.

The Health Survey and Development Committee has made the following recommendations among others, on the subject:--

p.5 of Sectional notes

(i) Apart from the requirements of the secondary schools and colleges thousands of teachers will be needed for our primary schools. It is accordingly suggested that in the normal schools physical education should be a compulsory subject and that in every training college for teachers of secondary schools adequate emphasis -- should be laid on physical education.

p.11 of Sectional notes -

(ii) The suggestion that all teachers of primary and secondary schools should be trained to take part in the development of the physical training scheme has been actuated by two reasons. One is that a nation-wide programme of physical culture cannot be undertaken without an army of ~~kxx~~ instructors and the other is that the usefulness of physical instructors will be on the wane -- after a certain age, and it would be an advantage if such men also possess the additional qualification of an ordinary teacher on the academic side, so that they can during the last 10 or 15 years of their service, be diverted to the purely teaching line.

P.T.O.

(iii) A certain number of highly qualified physical training instructors should be selected and sent abroad at state expense for higher training on the most up-to-date lines. On their return to India they should be employed in responsible administrative and teaching posts where their special training will be of value.

2. The D.P.I. is requested to offer his remarks on these recommendations.

1 with reference to Govt.Memorandum No.42960-Spl/47-1 dt.14-7-47, I have the honour to state as follows:-

2 It is the accepted situation as in all advanced countries in this Province also that in the primary schools, the class-room teachers have to handle all the subjects of the class ~~the~~ that they are responsible for. The primary school teacher is thus also responsible for conducting the physical training activities of his or her class in an elementary school. That this is the accepted position can be seen from the revised T.S.L.C.Syllabus wherein physical training is made a compulsory subject for the elementary and secondary grade teachers' training under Group B with the proviso that "Pupil-teachers who do not show satisfactory progress in the B Group subjects should not be promoted from the junior to the senior class, they should not be presented for the Public Examination". In practice, however, this emphasis on physical training as a required subject for the elementary or secondary grade teachers' training course is not implemented. This is evident from appendix I of the Revised Syllabus (Secondary and Elementary grades) of 1940 (page 64) in which the distribution of time for the various subjects of the elementary grade for the first year and second year are given but wherein it is surprising that not even a single ~~secondary grade~~ period is provided for physical training though for the secondary grade in the first year and second year ~~are given~~ one period is set apart for extra-curricular activities. Because of the requirements as in G.O.No.665 Education dated 17th April 1940 the Adviser to Government on Physical Education advised the allotment of two periods of instruction and two periods of participation per week in the training schools and in general many training schools provide this time though very often outside schoolhours. That physical education is not provided for in the distribution of time in appendix I of the Revised Syllabus and that headmasters provide for this subject out of school hours make the pupil-teachers feel that physical training is not such an important ~~ant~~ subject and consequently they do not give it the attention they should. Besides, among the revised syllabuses of subjects for the training school leaving certificates, nowhere is to be found the slightest indication even in bare outline of the scope and extent of physical education syllabus in normal schools.

cp. recommendation (b)

and if the progress is unsatisfactory in the senior class

3 It may also be remembered that physical training is not an examination subject. As in the case of all the non-examination subjects, physical education is relegated to the background. The directions that "pupil-teachers who do

not show satisfactory progress in the B Group subjects should not be promoted from the Junior to the senior class and if the progress is unsatisfactory in the senior class, they should not be presented for the Public Examination" arenever followed. The result is that physical training in the elementary grade and secondary grade Training schools does not at all serve any useful purpose.

4 The remedy for implementing the Bhore Committee's recommendations that "in the normal schools physical eduction should be a compulsory subject" is as follows:-

(1) A detailed syllabus of physical education for normal schools separately for the elementary grade and for the secondary grade should be prescribed.

(2) At least two periods per week should be provided within the time-table, the other three periods in the week (one period a day is a minumum necessity) being provided out of school hours immediately after the school is over.

(3) In addition to the above provision, there shouldbe specific requirements for model, observation and criticism lessons in physic education for elementary schools.

(4) Physical education should be made an examination subject in the normal schools both elementary grade and secondary grade.

(5) Physical Education in the normal schools should be in the hands of L.T.Physical Director. Those with lesser qualifications should not be permitted to be in charge of physical education work in normal schools.

Cp. recom (2)

5 The other recommendation of the Bhore Committee is that "in every training college for teachers of secondary schools also adequate emphasis should be laid on physical education." This also has been accepted in principle in that in both in the Teachers' College, Saidapet and in the Government Training College, Rajahmundry, physical education is in the hands of graduate physical directors and is organized and conducted by them, The purpose of the physical education work in the training colleges is not to turn out teachers who would be able to handle physical education work in secondary schools as the Bhore Committee seem to envisage but to make every teacher of a secondary school sufficiently interested in games and sports and other physical training activities as to be able to intelligently co-operate with the physical education teachers or to be responsible for special activities of the games programme, such as, Football, Hockey, Cricket, etc. In this Province, it has been accpeted that the technically qualified personnel are absolutely necessary for handling the work in secondary schools and therefore Government have approved and recognized the courses of training for the Diploma, Higher Grade and Lower Grade Certificates in the Y.M.C.A.Colege of Physical Education, Saidapet, Madras, and the teachers trained at this College are employed in the secondary and training schools of the Province to handle physical education work. It has been urged - ~~pleas please see this office R.O.C.No.109/47 dated 22nd April 1947~~ - The C.I.P.E. states that only secondary grade teachers and L.Ts. or B.Ts. should be permitted to undergo additional physical education training at the Y.M.C.A.College of Physical Education so that in case any of them at a later stage become physically unfit for handling physical education work, they may be drafted to the teaching line. To this extent, the recommendation of the Bhore Committee has been already recommended as the principle to be followed by the Madras Government.

Cp. recom (2)

6 The suggestion of the Bhore Committee that all teachers in secondary schools should be trained in physical education work is not tenable for two reasons, namely:-

(1) The secondary school stage is that where the age of the students is from 11 to 16 (themost important period of their growth) and where only very specially trained and qualified persons can successfully deal with the growth and development of the body through exercises and games. Intensive technical training alone will give ~~thi~~ this necessary knowledge. An additional physical education course in a training college or trainig school will not be adequate for this purpose.

(2) Every teacher of a secondary school is not interested in either physical training or games or sports. Experience has shown in the past so many years that in an average staff of a secondary school there may be at the most three or four specially interested in games and sports. None are interested in physical training work as such. To compel all who join a training college or teachers of secondary schools to takepart in physical education work in addition to their own academic work would be detrimental to progress since the majority of the teachers are not interested in it and number of teachers really interested in physical education in schools is negligible.

~~In view of the above, it is very strongly urged that while attempts should be made to increase the attention to physical educat-~~

In view of the above, it is very strongly urged that while attempts should be made to increase the attention paid to physical education in training colleges for teachers of secondary schools in order to make every teacherin a secondary school to take a more intelligent interest in physical education work and to co-operate intelligently and willingly in physical education programmes in schools, they should not be required compulsorily to take up physical education training also during their training for the L.T. or B.T. degree. One or two suggestions or improving the standard of physical training work in Teachers' training colleges might be considered. The first is that even in the training colleges, the detailed syllabus for physical education work should be prescribed with more time allotted for it and secondly that here also physical education should be made in the teachers' training colleges if the present apathy for games and sports and physical training activities among teachers should be made to disappear.

an examination subject for the L.T. or B.T. Degree. Rigid requirements in respect of physical education should be made

Cp. recom ②

7 As regards the second recommendation of the Bhore Committee there can be no two opinions. We certainly need in this Province a number of highly qualified physical directors who need to be selected and sent abroad for higher trainig on the most up-to-date lines. At present in the Education Department of the Government of Madras there is only one highly qualified officer, namely, the C.I.P.E. and all the rest in schools and colleges and in the Inspectorate line are the products of the Y.M.C.A. College of Physical Eduaation, Saidapet with little or no experience of what happens outside the province. A selection of some of these may be made with a view to givingthem special responsibility on their return either in the administrative or teaching line. It may be added in this connection that in the award of scholarships for foreign studies both by the Central Government and the Provincial Government, there have been very few scholarships ear-marked by the Central Government, while the Provincial Government does not seem to have allocated any so far. A beginning may be made by the deputation of suitable candidates for training abroad beginning from the year 1948-49 and the award of at least three scholarships one of which should be for a woman.

8 A committee may be appointed by Government to go into the whole question of how to make physical education a compulsory and an examination subject for the elementary and secondary grade normal schools and for the teachers' training colleges and to formulate definite proposals on the subject. The Committee might consist of the D.D.(E) (Chairman), the C.I.P.E. (Secretary), the Principal Teachers' College, Saidapet, the Principal, Y.M.C.A.College of Physcal Education, Saidapet, Mr.H.Daniell B.A.,L.T. Principal, United Mission Training School, Viruthampet, North Arcot Distt., Rev.T.R.Foulger, Principal, Meston Training College, Royapettah, Miss K.N.Brockway, Principal, St.Christopher's Training College, Vepery, Mr.R.V.Satyanarayana Raju, Regional Inspector of Physical Education, Rjahmundry, Miss.C.R.Ranganayaki, Physical Training Instructress, Govt.Hobart Secy. and Training School for Muslim women, Royapettah, Mr.T.P.Santanakrishna Naidu, Special Officer for Quinquinnial Report and Miss C.Alexander, Superintendent, Kindergarten Section, Teachers' College, Saidapet.

SECTIONAL NOTES.

(a) The starting of more physical education colleges.

Recommendation.

para 4, p-93, Vol II

"The first step to be taken in this direction is the starting of some more physical education Colleges. There should be one or two such institutions in each province according to its needs. Each institution should grant a recognized qualification".

Note.

x Note no 136.

Secretary in his notes on the committee's report has drawn attention to the training institution we have here - the Y.M.C.A. College of Physical Education. The Y.M.C.A. College has been training physical training instructors and physical directors. The institution has been in existence for over 25 years now - formerly it was called a "School", and is run with a grant-in-aid from provincial funds. The question of the establishment of a Government physical training institution was considered in 1929 on the suggestion of the Physical Education Committee which reported on the problem of physical education in the Province, but was evidently not pursued as the Y.M.C.A. institution served the purpose satisfactorily. It is seen from the brochure (put up below) pertaining to the College that the institution is run on proper lines and that it grants a diploma and a senior and a junior certificate. The latest report of the D.P.I. on post war reconstruction schemes shows that the existing provision in the college is not fully utilized owing to dearth of applicants for the courses. There does not therefore appear to be any case for opening another similar institution just at present.

After considering the proposals of the D.P.I., the Govt. have come to the following tentative conclusions:—

1) That the starting of an entirely new college of Physical Edn. is not feasible;

2) That the college of Physical Edn at Saidapet might continue to be run by the Y.M.C.A. on condition that the management of the college is agreeable to the Govt exercising control in the manner set out in the memo. at p39 of G.O. 963 Edn dated 9.5-47;

With reference to the above conclusions the D.P.I. has been asked to report whether the Y.M.C.A. is agreeable to the proposed measure of control by the Govt. and what will be the cost to Govt. if they were to take over the college entirely. His reply is awaited. It may be mentioned here that to meet the present shortage of qualified Physical Training Instructors the Collector and S.O. Tanjore Dt-Bd has proposed that the Govt. establish and maintain a Physical Edn. college either at Coimbatore or Bangalore. This proposal is being dealt with separately. (b) Inclusion of physical education in the syllabuses for normal schools and training Colleges for Secondary Schools Teachers.

Recommendation.

Note.

Notes p. 137.

Secretary# in his notes has asked that these suggestions be examined with reference to the existing curriculum. It is seen that physical education figures in the syllabuses for the T.S.L.C. (secondary and elementary grades) and for the Teachers' College, Saidapet. The W| D.P.I. may be asked to offer remarks whether anything further is necessary.

p 5 c.f.

The Director's remarks on the recommendation are contained in paragraphs 2 to 5 at pp 3-4 c.f. and para 8 at p 5 c.f. He has made certain proposals therein. He however considers that a committee should be appointed to go into the whole question of how to make physical education a compulsory and an examination subject for the elementary and secondary grade normal courses and for the teachers' training colleges ~~to~~ and to formulate definite proposals on the subject.

2/ The re-organization of the Training Schools and Training colleges to make them Craft-centred so as to make them fit in with the re-organized courses of secondary education, is being considered. The D.P.I. has been asked to submit proposals in this regard. Pending the proposed re-organization, it is for consideration whether a Committee should be appointed now to re-organize only the physical education side of the ~~Training &~~ training institutions. ~~The members of the Committee who ever they are, may desire to have an idea how the training institutions are to be re-organized, before they set about making their suggestions for the improvement of physical education in those institutions. In the circumstances~~, The appointment of the Committee may be, after the plans for the re-organization of training institutions have taken some shape, or if a Committee is appointed for the latter purpose, it may also deal with the plans for improvement of physical education in these institutions.

The DPI's proposal for a separate Committee for the present purpose may be accepted.

3/. In connection with a proposal to give training in the art of self-defence in schools and colleges, the D.P.I. ~~has~~ proposed the appointment of a Committee to work out a Scheme. He has been asked to forward detailed proposals for the constitution of such a Committee. Perhaps if a Committee is to be appointed now for the improvement of Physical Edn. in training institutions, that Committee may also deal with this scheme to ~~work out~~ give training in self-defence in schools and colleges.

This would come in here only after the Cttee that revised the syllabus for training schools & colleges. DPI may be briefly asked to consider whether in the training of experts the [illegible] items [illegible] being valuation to the position in L.F.R.?

Secretary in his notes has drawn attention to P.W.R. Scheme No.36. The aim of this scheme is ~~here~~ to have a physical training instructor for every 250 pupils. If this scheme is implemented in the manner now proposed (Please see copy of D.P.I's report kept below), the objective suggested will have been achieved.

Note.

Secretary has asked that the suggestion may be examined in consultation with the D.P.I. The insistence on the physical training qualification in the case of all primary and secondary school ~~school~~ teachers may affect the recruitment of the staff of schools, and it is doubtful whether the suggestion would be feasible of adoption, -- however desirable it may be from an ideal stand point.

✓ As certained from C/ section

Secretary has ordered that the suggestion may be examined in consultation with the D.P.I. The question was once considered and was eventually dropped. Our post war scheme 36 contemplates a provincial organization -- under a whole time Adviser to Government in Physical Education. The D.P.I's proposals ~~for this regard~~ for such an organization are under consideration. For the purposes of this organization and for filling teaching posts, it may be necessary to have men with the foreign training suggested.

Please see the remarks of the D.P.I. in para 7 at p5 cf. He suggests that scholarships should be awarded to suitable candidates deputed for training abroad in Physical Edn., the minimum number being 3, two for men, one for women. He also suggests that a beginning may be made from the year 1948-49.

2/. Any scheme for the foreign training of physical training instructors has to be considered with reference to the following factors:—

(a) how far it is ~~x~~ ~~required~~ necessary to implement post-war scheme No. 36; and

(b) how far it is necessary to meet the ordinary requirements of the dept.

(a) above Scheme No. 36 provides for the training of 1250 instructors and instructresses on the scale of one instructor or instructress for every 250 pupils. The scheme also provides for the employment of a whole-time Adviser to Govt. on Physical Edn., a Physical Director for each dt. and a P.T. Instructress for groups of districts. The Bhore Committee contemplates the employment p13 ante of foreign-trained candidates only in responsible administrative and teaching posts. Foreign-trained candidates ~~have therefore to be employed under scheme No. 36 not as P.T. Instructors and Instructresses but only~~ will therefore be required to be employed under scheme No. 36 only as supervisory staff. How far scheme No. 36 in so far as it relates to the employment more supervisory staff, is proposed to be implemented may therefore be examined.

In 1947, the D.P.I. was asked to bring forward ~~the~~ proposals for the appointment supervisory staff under the scheme as a part II scheme for 1948-49. The Director Y/10 who examined the question reported that more than 50% of Govt. institutions ~~were without a P.T. Instructor or Instructress as also more than a third of the~~ Y/45 and more than two thirds of the aided and board schools were without a P.T. Instructor or Instructress and recommended that the question of increasing the supervisory staff might be deferred for the time being, it being taken up after more educational institutions were able to employ an ~~Instr~~ Instructor or Instructress. The question ~~has~~ Y/46 was accordingly deferred. In the circumstances, there appears to be no prospect of the supervisory staff contemplated in scheme No. 36 being employed in the immediate future and consequently no foreign-trained candidates will be required for employment under the scheme.

(b) above Though the D.P.I. has said in a general way ~~of~~ that foreign-trained candidates will be required for employment in the physical education organization in the province, it is not clear whether he has considered the question with reference to any ~~of~~ vacancies which are likely to arise in the organization. Except in regard to filling the post of Women Specialist in Physical Edn., no difficulties appear to have cropped up in recruiting the other supervisory staff required. As regards the post of Women Specialist which is vacant now, no qualified candidate applied for appointment to the post. The

~~question of making other arrangements to fill the post has been referred to the Commission. If these arrangements also should be found yet not to be suitable for adoption one of the arrangements proposed is that a candidate with certain qualifications should be selected by the Commission and then sent overseas for training at Govt. expense.~~

"In cities and important towns local authorities -- should direct more attention than has so far been given to the organization of suitable forms of recreation. Play grounds, parks, wrestling arenas and swimming pools should be provided and the need for including such requirements should be kept prominently in view in any schemes of -- town-planning that may be undertaken".

Note.

Secretary has drawn attention to scheme No.86 relating to the setting up of a Rural Uplift Organization. One of the aims of this organization was the provision of recreational facilities in villages as will be seen from the proposal for the appointment of rural recreation organizers, which that scheme envisaged. This scheme has been abandoned in view of the programme of intensive rural reconstruction in selected firkas.

2. Even now, local authorities are alive to the - need for the provision of recreational facilities to the public at large. The Corporation of Madras and several Municipalities have ear marked areas for use as playing fields by the public and have provided public parks. In areas for which town planning schemes are made lands are reserved for these purposes under these schemes. It is for consideration - whether this recommendation may be communicated to all Municipals, ~~and~~ District Boards, Commr., Corpn. of Madras & Chairman, Madras City Impt. Trust.

SUB:- PHYSICAL EDUCATION- Bhore Committee's Report - Implementation of recommendations - Orders passed.

REF:- From the D.P.I., No.10076-E4/47, dated 15-12-47.

ORDER (MS.) NO. 3039 EDN., DATED 2-12-48

p1 of main note

4 copies 2/12

The Bhore Committee has made the following recommendations on the subject of Physical Education:-

(a) that some more physical education colleges be started:

(b) that physical educationbe included in the syllabus for normal schools and training schools for secondary school teachers;

(c) that physical educationists be appointed on the staff of all the secondary schools and colleges;

(d) that all teachers of primary and secondary schools be trained in physical education;

(e) that highly qualified physical training instructors be selected and sent overseas for training on up-to-date lines;

(f) that a provincial organization for physical education be set up;

(g) that movements as the Boy Scout, Girl Guide, the Junior Red Cross, etc., should be given encouragement; and

(h) that suitable forms of recreation should be organized for the non-student population.

2. The Government have examined these recommendations in consultation with the D.P.I. and pass the following orders on the recommendations:-

Recommendation (a):- The Govt. do not consider that it is necessary to start a new college of Physical Education. The question of the Govt. exercising a larger measure of control over the Y.M.C.A. or in the alternative of taking it over entirely under them, is being considered separately.

pp1-3 of second note

p 5 cf

Recommendation (B):- The D.P.I. suggests that a Committee should be appointed to go into the whole question of how to make physical education a compulsory subject and an examination subject for elementary and secondary grade training courses and for teachers in training colleges and to formulate definite proposals in this regard. This suggestion is accepted. Orders constituting a Committee will be issued separately.

pp 5-7 of S. notes

Recommendation (c):- The Govt. Post-War Five Year Plan already provides for the appointment of a physical training instructor for every 250 pupils and the scheme will be implemented in due course.

p 9 of S. notes

Recommendation (d):- The Govt. agree with the D.P.I. that the suggestion cannot be adopted. Further with reference to recommendation (b) a prominent place will be given to physical education in the curriculum of training ~~of~~ institutions.

p 12 of S. notes

Recommendation (e):- The Govt. do not consider it necessary to depute any candidate for overseas training in physical education for the present.

pp 14-16 of S. notes

Recommendation (f):- There is already a whole-time Chief Inspector of Physical Education.

p 17 of S. notes

Recommendation (g) and (h):- The Scout organisations receive sufficient encouragement even now. The local authorities are alive to the need for the provision of recreational facilities to the public at large. They have earmarked areas for use as playing fields and provided public ~~parties~~ parks. The Govt. do not consider that any particular action is called for with reference to these recommendations.

Sir,

Subject:- Travelling Allowance -- Physical Education -- Training Institution -- Re-organisation of Committees -- Constituted.

Ⓥ/pp29-30cf

In G.O.No.3038, Edn., dated 2-12-1948, Government have constituted a committee to go into the question as to how to make Physical Education a compulsory and an examination subject for Elementary and Secondary Grade Training Courses, and for teachers in Training Colleges.

Ⓝ

2. In para 2 of the said G.O. the Committee has been classed as a second class committee, It has also been stated that the non-official members of the committee will be allowed travelling allowance at the rates admissible to members of the II Class Committees with reference to G.O.No.520, Finance, dated 10--7--1947. The rate of daily allowance has not been laid down in the G.O. for local members of the II Class committe

3. I, therefore, request you to kindly let me know the rate of daily allowance that may be paid to the non-official members of the committee referred to above and who are residing in the City. I should say in this connection that an allowance of Rs.5/- per day is allowed to the non-official members of the City in the case of a similar Committee constituted with reference to G.O.169, Edn., dated 30-1-1947 for the revision of the "Syllabus of Physical Activities for boys in Secondary Schools and Manual of Instructions for teachers."

In enclosing herewith a copy of the representation of the Chief Inspector of Physical Education for a reconsideration of the orders cited above, I request that Government may be pleased to reconsider their orders in view of the fact, that few non-official members will be willing to attend any meeting of the Committee if they have to meet the expenditure on conveyance etc. from their own pockets. The non-official members are not paid any remuneration for their service. It is therefore reasonable to allow them atleast a conveyance allowance of Rs.5/- per day for the days of their attendance on the Committee.

In the proceedings cited above it is stated that Government in their Memo 55167-C1/49-1 Edn., dated 1-9-49 have ordered that non-official members of second class committee constituted in G.O.No.3038, Edn., dated 2-12-1948 and residing in the city are not eligible for Daily Allowance or Travelling Allowance. In this connection, I have the honour to point out the following:-

D/PP11-12 cf

(1) In G.O.Ms.No.169, Education, dated 30-1-1947 the Government have appointed an Expert Committee for the revision of Physical Education Syllabus for Secondary Schools for boys. In para 2 of this G.O. it is stated that non-official members of the Committee will be allowed a Conveyance allowance of Rs.5/- per day on the days they attend meetings of the Committee.

(N)

(2) In G.O.Ms.No.796, Education dated 21-3-49 the Government have appointed an Expert Committee for the revision of Physical Education syllabus for secondary schools for girls. In para 2 of this G.O. it is stated that non-official members of the Committee will be allowed a conveyance allowance of Rs.5/- per day on the days they attend meetings of the Committee.

(V)

3. When the Government have sanctioned conveyance allowance to non-official members appointed in the Committees mentioned above it is not known why the Governmenthave ordered that non-official members of the committee constituted in G.O.Ms.No.3038, Education

47

dated 2-12-48 are not eligible for daily allowance or Travelling allowance. It will be a great hardship for the non-official members of this committee if they are not paid any allowance. Besides they may not take interest in the work or attend any further meeting of the Committee if this allowance is withdrawn.

I request the Director to kindly address the Government to reconsider their decision on this matter.

He proposes that a conveyance allowance of Rs 5/- per day ~~for the~~ on days of their attendance ~~on the~~ at the meeting of the Committee may be paid to the Non-Official members of the Committee.

It may be mentioned in this connection that out of the 10 members of the Committee, only four are non-official members. The expenditure on the payment of conveyance allowance to these members as ~~or~~ proposed by the D.P.I. will not be much. There is also no reason why the concession allowed to the non-official members of similar Committees appointed in G.O. No. 169 Edn dated 30-1-47 and G.O. No 796 Edn dated 21-3-49 should be denied to these members. The proposal of D.P.I may be supported in this dept.
