S/3-49

Sir,

46434
2/6

In reply to your G.O.No.MS.945 Edn. d. 7th May, 1947, I submitted a copy of the plan and estimate of the building for hostel for Road Construction and Minor Irrigation Overseers. The course started at the instance of Government with one class in July,1945 and another in July 1946 left little time to make preliminary arrangements for the accommodation of the students. In these days of scarcity of materials, with such materials available rooms were constructed on the lines of cheap construction. The subject was under correspondence between the University and the Director of Public Instruction long before its construction. The urgency of the work was the only reason for failure to get plans and estimates provisionally sanctioned before beginning the work.

The University is therefore to request the favour of full grants, viz. Rs.76,000/- for the buildings erected in token of the appreciation of the work done in such short time in spite of the difficulties in these days.

Your obedient Servant

Ag.Registrar,

Sub: University--Annamalai--Road Construction and Minor Irrigation Overseers' courses--application for grant--Recurring and Non-recurring.

In accordance with and only because of the suggestion of Government in the Education and Public Health Department in their letter No.49267 C5/44, dated 13-11-1944, the Syndicate of this University agreed to start courses for 2 years for training Road Construction and Minor Irrigation Overseers, by way of immediate execution, at the request of Govt. of some portion of road development of postwar development programme. Though the Universities do not generally start non-degree courses and details for the purpose of necessary preliminary sanction for staff, lecture halls and hostel accommodation and laboratory equipment required time, in its anxiety to work out quickly the ideas of Govt. the University started the courses in anticipation of sanction of grants to meet the full cost of the scheme. As the scheme was started at the instance of Government and admission to the courses have now stopped at the request of Government in their Order G.O.No.Ms. 945, Edn. dated 7-5-1947 full grants, recurring and non-recurring, should in all reason be considered earned by the University. The recurring cost has been Rs.47,000-, each year and the non-recurring cost for a hostel on a very cheap design built with such materials as were made available in the locality in these days of difficulty of procuring materials has been Rs.76,000/- The design has been the result of correspondence with Government through the Director of Public Instruction, Madras, and the estimates and plans cannot be held to be submitted without giving time to Government to approve details.

In view of these facts, the Government is requested to be so good as to pass orders sanctioning a recurring grant at the rate of Rs.47,000/- and non-recurring grant of Rs.76,000/- and adjust Rs.40,000/-paid each year for the 2 years 1945-46 and 1946-47.

II letter

In continuation of the interview the Hon'ble Minister was pleased to grant me on the 17th June last, I crave permission to submit herewith a copy of my letter No.2944 dated 7-7-47 to Government renewing the University's request for sanction of a recurring grant of ~~Rs.47,000/-~~

-2-

Rs. 47,000/- and full non-recurring grant of Rs.76,000/- for running the Overseer courses for Minor Irrigation and Road Construction at the instance of Government as part of the postwar reconstruction programme. I request that Government be pleased to accord their most sympathetic consideration to this request.

Sir,

University - Annamalai - Road construction and Minor Irrigation Overseers course - Grant for Hostel building.
Govt. Memo. No.42694-G3-48-1-Edn. dated 18-6-47.

5/2088
P5 ante

The Registrar, Annamalai University has submitted only an abstract estimate and a plan for the above work. With these limited particulars technical scrutiny of any value could not be made. A site plan showing the soil and sub-soil particulars with north point, direction of wind, pressure and structural calculations, nature of wood used, detailed estimate and detailed data for rates etc. are required for proper examination of the proposals. But as the buildings have already been constructed, the above particulars need not be called for now as no useful purpose will be served thereby at this stage. However it seems that a rate of Re.0-4-3 per Cft. and Rs.4-12-0 per Sft. have been adopted which are reasonable rates at present.

P3 ante

2. The Registrar in his letter No.1570 dated 30-5-47 requests for a full grant of Rs.76,000/-. Generally only half-grant is given by Government for educational institutions and this may be considered by Government in this connection.

NOTE FOR THE STANDING FINANCE COMMITTEE.

University--Annamalai--Road construction and Minor Irrigation Overseers course--Grant for hostel building.

****

P 26 of r.f. (M)

The Annamalai University opened, from 1945-46 at the instance of Govt, a diploma course in the University College of Engineering for the training of candidates for ~~purposes of appointment of~~ Road construction and minor irrigation Overseers, ~~from 1945-46.~~ The course extended to two years and provided for the training of 100 candidates each year. The Registrar, Annamalai University, applied for financial assistance (recurring and non-recurring grants) towards the cost of the course. The estimated net recurring expenditure was Rs.44,000/-; the ~~net~~ non-recurring expenditure under equipment was estimated at Rs.98,250/-, and on the construction of a hostel for 200 students and quarters for residential staff at Rs.1,75,000/. The Government sanctioned the payment to the Annamalai University of an annual fixed grant of Rs. 40,000/- towards the recurring expenditure of the course. The above subsidy ~~is~~ was restricted to the first 3 years, so as to cover the training of 2 batches for the two years' course. As the course was to continue only for two batches in the first instance, ~~the total period covered by two batches being 3 years~~ covering a period of only three years, the Government considered that it was not necessary for the University to incur any ~~reference~~ expenditure on buildings and no grant was therefore sanctioned for the construction of buildings. The Govt. however sanctioned a lump sum grant of Rs.30,000/- towards the cost of equipment. Fresh applications for the course have not been invited ~~The courses has since been abolished from 1947-48~~.. .. from 1947-48.

PP 3-4 of f (S)

2) The Registrar has now brought to the notice of the Govt. th the University, out of sheer necessity, had to construct blocks of rooms provide accommodation for the Overseer ~~class~~ students and that the actual expenditure incurred on the work was Rs.76,000/-. In view of the actual expenditure incurred on buildings on account of the course ~~for the Overseer class students~~, started at the instance of the Govt., the University has requested for a full grant to cover the above expenditure. It ~~is~~ has been pointed out that these buildings which were erected urgently to meet a specific demand cannot be used permanently as hostel buildings, and that but for the Overseer stude these blocks would not have been built at all. The University did not have o the specific approval of Govt. for the construction of the above tempora

PP 9-10 of f (S)

16

buildings. But as the University had to provide ~~anyhow~~ accommodation urgently for the students who had to attend outdoor and practical classes like Survey early in the morning ~~for whom the Government asked the University to open the course,~~ Residential facilities had to be found within the University Campus. It was, therefore, proposed to sanction a half grant towards the expenditure incurred on the construction of buildings ~~to it for the purpose~~. Finance agreed to the proposal for a half-grant and suggested that ~~if~~ the plans and estimates for the buildings already constructed be obtained from the University and got scrutinized by the Consulting Archetect. The case was circulated to H.M.(Education) & H.M.(Finance). ~~They have minuted~~ H.M.(Edn)/ minutes as follows on the above proposal:

14 n of (S)

P 6 n of (S)

(2) " In the present circumstances, the half-grant may be sanctioned and the matter may be put up before the University Grants Committee."

18 n of (S)

(Sd). T.S.A(vinasalingam)
H.M.(Edn.)
28-4-47.

" Half-grant may be given. Need not go before the Grants Committee."

P 9 n of (S)

Sd. B.G(opala Reddi)
H.M.(Fin)
6-5-1947.

The plans and estimates were obtained from the University and the Consulting Architect who was consulted in the matter has ~~stated~~ reports that it is not possible to make a scrutiny of the extimate and plan with the limited particulars furnished by the University. He considers, however, that as the buildings have already been constructed, no useful purpose will be served by calling for the above particulars now, and that the rates accepted by the University may be adopted, and has suggested the grant of a half grant for the current year instead of the full grant as asked for by the University. The proposal for a half-grant of Rs.38,000/- is a "New service" and as such it is placed before the ~~University~~ Standing Finance Committee.

P1 of
P5 of
P13 of

The point for orders is whether in the circumstances, a half-grant (non-recurring) of Rs.38,000/- towards the cost of construction of the hostels ~~built~~ constructed for the students of the Road construction and Minor Irrigation Overseers course may be sanctioned to the Annamalai University.

ASST. SECRETARY TO GOVERNMENT
12 APR 1948
EDUCATION AND PUBLIC HEALTH DEPT.

Sir,

SUB: University - Annamalai - Road Construction and Minor Irrigation Overseer's Course - Grant of Hostel Buildings.

Ref: Letter No.42694 - G3/47-5 Education dated 25--3--48.

P23 and

P23 and P

In reply to Government's reference in their letter No.42694-G3/47-5, Education, dated 25--3--48, I am to state that in accordance with the wishes of Government, contained in letter No.49267 G-5/44 dated 13--11--44 and with a view to contributing its share towards the execution of some portion of the post-war development programmes of Government, the University undertook to run the Road Construction and Minor Irrigation Overseer Diploma Course, as a subsidiary activity to the organisation of the Engineering and Technological Courses of study from 1945--46. This decision of the Syndicate was communicated to Government in my letter No.5588 dated 24--11--44. The estimate for running the course as worked out by the Head of the Department of Engineering and Technology was submitted to Government along with my letter No.4702 dated 17--9--45.

PP19-20 of G.O 1191 Edn 15.6.46 at (F)

P21 of above

PP5-9 of G.O 138 Edn 28.1.47 at (A)

At the time of opening the new Engineering and Overseer Courses in July 1945, the maximum residential accommodation available at the University was for 865. As stated in my letter No.12222 dated 21--3--47, the strength rose to 1184 after the admission of the first batch of students to the newly started courses and in view of the very limited accommodation the University had to provide for about 60 students of the Arts, Science and Oriental Faculties in Chidambaram Town. As the Overseer students had to attend out-door practical classes like Survey early in the morning, residential facilities had necessarily to be found within the University

PP1-2 of (S)

campus and to meet this urgent need, special arrangements were made to put up with the utmost speed a separate block of rooms and most of the Overseer students were provided with accommodation from July 1945 in the portions of the temporary blocks that were completed. With the admission of the second batch of students in 1946--'47 all the Overseer students (about 200) were provided with hostel accommodation, as the temporary hostel blocks were completed in December 1946. These blocks as they had to be raised specially and speedily to meet this urgent demand, built with palmyrah rafters and Mangalore tiles in order to ensure speedy execution in the face of acute shortage and difficulty in getting iron, timber and other building materials -- are not of a kind that can be used permanently as hostel buildings. It may be added that but for the Overseer students this block would not have been built at all.

I may be permitted to mention that according to the agreement with the contractor the entire block of 59 treble rooms should have been completed on the 15th of June 1945, ready for occupation by the Overseer students in July 1945. Intimation of this construction was given to the Executive Engineer as early as in February 1945, when the work was started. However due to the difficulty in securing iron and other building materials as also the supply of waggons for transporting the materials, the entire work could not be completed as per agreement. As mentioned earlier, in the portions that were completed, the Overseer students were accommodated.

Till the actual completion of the buildings-due to the uncertainty of getting materials like iron and timber-- preparation and submission of the plans and estimates had to be deferred. With the decision of the authorities that the blocks should be completed early with such materials as were readily available instead of waiting indefinitely for supplies of iron and timber, the temporary blocks were completed in December 1946 with palmyrah rafters and Mangalore tiles.

PP1-2 of ⑤ In March 1947 in Letter No.12222, the University requested sanction of Rs.76,000/- the amount actually spent in putting up this temporary PP3-4 of ⑧ structure. And in respect to G.O.No.945 dated 7th May 1947 detailed plans and estimates of this temporary block, ~~built for the Overseer students and~~

the final bill and completion certificate were sent to the Executive Engineer for scrutiny and issue of the completion certificate.

Under these circumstances, I request that Government will be pleased to give their most sympathetic consideration and sanction the full cost incurred on putting up the temporary hostel built to provide accommodation for the students of the Overseer Course.

Your most obedient servant,

Ag.Registrar.

ANNEXURE I.

E & P.H. DEPTT. (G3)

NOTE FOR THE STANDING FINANCE COMMITTEE.

UNIVERSITY-- ANNAMALAI-- ROAD CONSTRUCTION AND MINOR IRRIGATION OVERSEERS COURSE--GRANT FOR HOSTEL BUILDING.

P.T.O.

SUMMARY OF COST

Major head of account	Minor & subheads of account.	Ultimate cost		Cost in the year of introduction.	
		Recurring.	Non-Recurring	Recurring	Non-Recurring.
1	2	3	4	5	6
37.a.Education University-Grants to Universities.	a.c. Annamalai University voted-Non-recurring.	Nil.	Rs. 38,000	Nil	Rs.38,000/- in 1947-48.

The Annamalai University opened, from 1945-46, at the instance of Government, a diploma course in the University College of Engineering, for the training of candidates for road construction and minor irrigation Overseers. The course extended to two years and provided for the training of 100 candidates each year. The Registrar, Annamalai University, applied for financial assistance (recurring and non-recurring grants) towards the cost of the course. The estimated net recurring expenditure was Rs. 44,000/-; the non-recurring expenditure under equipment was estimated at Rs. 98,250/- and on the construction of a hostel for 200 students and quarters for residential staff, at Rs.1,75,000/-. The Government sanctioned the payment to the Annamalai University of an annual fixed grant of Rs. 40,000/- towards the recurring expenditure of the course. The above subsidy was restricted to the first 3 years, so as to cover the training of 2 batches for the two years' course. As the course was to continue only for two batches in the first instance covering a period of only three years, the Government considered that it was not necessary for the University to incur any expenditure on buildings and no grant was therefore sanctioned for the construction of buildings. The Government however sanctioned a lump sum grant of Rs. 30,000/- towards the cost of equipment. Fresh applications for the course have not been invited for 1947-48.

2. The Registrar has now brought to the notice of the Government that the University, out of sheer necessity, had to construct blocks of rooms to provide accommodation for the Overseers students and that the actual expenditure incurred on the work was Rs.76,000/-. In view of the actual expenditure incurred on buildings on account of the course, started at the instance of the Government, the University has requested for a full grant to cover the above expenditure. It has been pointed out that these buildings which were erected urgently to meet a specific demand cannot be used permanently as hostel buildings, and that but for the Overseers students, these blocks would not have been built at all. The University did not, however, obtain the specific approval of Government for the construction of the above temporary buildings. But as the University had to provide accommodation urgently for the students who had to attend outdoor and practical classes like Survey, early in the morning, residential facilities had to be found within the University campus. It was therefore proposed to sanction a half grant towards the expenditure incurred on the construction of buildings. Finance agreed to the proposal for a hald-grant and suggested that the plans and estimates for the buildings already constructed be obtained from the University and got scrutinized by the Consulting Archetect. The case was circulated to Hon'ble Minister for Education and Hon'ble Minister for Finance. Hon'ble Minister for Education minuted as follows on the above proposal:-

"In the present circumstances, the half-grant may be sanctioned and the matter may be put up before the University Grants Committee".

(Sd) T.S.Avinashilingam
H.M.(Education)/28-4-47.

H.M.(Finance) minuted as follows:-

~~"Half-grant may be given. Need not go before the Grants Committee".~~

P.T.O.

"Half-grant may be given. Need not go before the Grants Committee".

(Sd) B.Gopala Reddi.
H.M.(Finance)
6-5-1947.

3. The plans and estimates were obtained from the University and the Consulting Architect who was consulted in the matter has reported that it is not possible to make a scrutiny of the estimate and plan with the limited particulars furnished by the University. He however considers, that as the buildings have already been constructed, no useful purpose will be served by calling for the above particulars now, and that the rates accepted by the University may be adopted and has suggested for the consideration of Government the grant of only a half grant instead of the full grant, as applied for by the University.

The proposal for a half-grant of Rs. 38,000/- is a "New service" and as such it is placed before the Standing Finance Committee.

4. The point for orders is, whether, in the circumstances, a half-grant (non-recurring) of Rs.38,000/- towards the cost of construction of the hostels constructed for the students of the Road construction and Minor Irrigation Overseers course may be sanctioned to the Annamalai University.

5. The particulars in regard to budget provision are furnished below:-

(a) Budget Provision under the Major head of account which includes Rs.9.59 lakhs for grants to the Annamalai University (Rs.5.09 lakhs recurring and Rs. 4.50 lakhs non-recurring).	Rs.6,99,62,900
(b) Actual expenditure to the end of June 1947	Rs. 80,87 lakhs.
(c) Estimate of extra expenditure on the present scheme in the current year.	Rs 38,000
(d) Savings in the budget provision for other items included in the Major head.	Rs Not known.

Annexure II.

Copy of letter from the Registrar, Annamalai University, Annamalainagar, No.332 dated 8th April 1948.

...

Sub: University - Annamalai - Road Construction and Minor Irrigation Overseer's Course - Grant of Hostel Buildings.

Ref: Letter No.42694 - G3/47-5 Education dated 25-3-48.

In reply to Government's reference in their letter No.42694-G3/47-5, Education, dated 25-3-48, I am to state that in accordance with the wishes of Government, contained in letter No.49267 C-5/44 dated 13-11-44 and with a view to contributing its share towards the execution of some portion of the post-war development programmes of Government, the University undertook to run the Road Construction and Minor Irrigation Overseer Diploma Course, as a subsidiary activity to the organisation of the Engineering and Technological Courses of study from 1945--46. This decision of the Syndicate was communicated to Government in my letter No.5588 dated 24-11-44. The estimate for running the course as worked out by the Head of the Department of Engineering and Technology was submitted to Government along with my letter No.4702 dated 17-9-45.

At the time of opening the new Engineering and Overseers Courses in July 1946, the maximum residential accommodation available at the University was for 865. As stated in my letter No. 12222 dated 21-3-47, the strength rose to 1184 after the admission of the first batch of students to the newly started courses and

P.T.O.

in view of the very limited accommodation the University had to provide for about 60 students of the arts, Science and Oriental Faculties in Chidambaram Town. As the Overseer students had to attend out-door practical classes like Survey early in the morning, residential facilities had necessarily to be found within the University campus and to meet this urgent need, special arrangements were made to put up with the utmost speed a separate block of rooms and most of the Overseer students were provided with accommodation from July 1945 in the portions of the temporary blocks that were completed. With the admission of the second batch of students in 1946-47 all the Overseer students (about 200) were provided with hostel accommodation, as the temporary hostel blocks were completed in December 1946. These blocks as they had to be raised specially and speedily to meet this urgent demand, built with palmyrah rafters and Mangalore tiles in order to ensure speedy execution in the face of acute shortage and difficulty in getting iron, timber and other building materials -- are not of a kind that can be used permanently as hostel buildings. It may be added that but for the Overseer students this block would not have been built at all.

I may be permitted to mention that according to the agreement with the contractor the entire block of 59 treble rooms should have been completed on the 15th of June 1945, ready for occupation by the Overseer students in July 1945. Intimation of this construction was given to the Executive Engineer as early as in February 1945, when the work was started. However due to the difficulty in securing iron and other building materials as also the supply of waggons for transporting the materials, the entire work could not be completed as per agreement. As mentioned earlier, in the portions that were completed, the Overseer students were accommodated.

Till the actual completion of the buildings-due to the uncertainty of getting materials like iron and timber--preparation and submission of the plans and estimates had to be deferred. With the decision of the authorities that the blocks should be completed early with such materials as were readily available instead of waiting indefinitely for supplies of iron and timber, the temporary blocks were completed in December 1946 with palmyrah rafters and Mangalore tiles.

In March 1947 in Letter No.12222, the University requested sanction of Rs.76,000/- the amount actually spend in putting up this temporary structure. And in response to G.O. No.945 dated 7th May 1947 detailed plans and estimates of this temporary block, the final bill and completion certificate were sent to the Executive Engineer for scrutiny and issue of the completion certificate.

Under these circumstances, I request that Government will be pleased to give their most sympathetic consideration and sanction the full cost incurred on putting up the temporary hostel built to provide accommodation for the students of the Overseer Course.

NOTE FOR THE CABINET.

Sub:- University - Annamalai Road Construction and Minor irrigation Overseers course- Grant for Hostel Building.

The Annamali University opened, from 1945-46, at the instance of Government, a diploma course in the University College of Engineering, for the training of candidates for road construction and minor irrigation Overseers. The course extended to two years and provided for the training of 100 candidates each year. The Registrar Annamali University, applied for financial assistance (recurring and non-recurring grants) towards the cost of the course. The estimated net recurring expenditure was Rs.44,000/-; the non-recurring expenditure under equipment was estimated at Rs.98,250/-, and on the construction of a hostel for 200 students and quarters for residential staff, at Rs.1,75,000/-. The Government sanctioned the payment to the Annamali University of an annual fixed grant of Rs.40,000/- towards the recurring expenditure of the course. The above subsidy was restricted to the first 3 years, so as to cover the training of 2 batches for the two years' course. As the course was to continue only for two batches in the first instance, covering a period of only three years, the Government considered that it was not necessary for the University to incur any expenditure on buildings and no grant was therefore sanctioned for the construction of buildings. The Government however sanctioned a lump sum grant of Rs.30,000/- towards the cost of equipment. Fresh applications for the course have not been invited for 1947-48.

2. The Registrar has brought to the notice of the Government that the University, out of sheer necessity, had to construct blocks of rooms to provide accommodation for the Overseer students and that the actual expenditure incurred on the work was Rs.76,000/-. In view of the actual expenditure incurred on buildings on account of the cours , started at the instance of the Government, the University has requested for a full grant to cover the above expenditure. It has been pointed out that these buildings which were erected urgently to meet a specific demand cannot be used permanently as hostel buildings, and that but for the Overseer students, these blocks would not have been built at all. The University did not, however obtain the specific approval of Government for the construction of the above temporary buildings. But as the University had to provide accommodation urgently for the students who had to attend outdoor and practical classes like Survey, early in the morning, residential facilities had to be found within the University campus. It was therefore proposed to sanction a half grant (that is, Rs.38,000) towards the expenditure incurred on the construction of buildings. Finance agreed to the proposal for a half-grant and suggested that the plans and estimates for the buildings already constructed be obtained from the University and got scrutinized by the Consulting Architect. H.M.(Edn.) and H.M.(Finance) have passed orders agreeing to the proposal.

3. The plans and estimates were obtained from the University and the Consulting Architect who was consulted in the matter, has reported that it is not possible to make a scrutiny of the estimate and plan with the limited particulars furnished by the University. He however considers that as the buildings have already been constructed; no useful purpose will be served by calling for the above particulars now, and that the rates accepted by the University may be adopted and has suggested for the consideration of Government the grant of only a half grant instead of the full grant, as applied for by the University.

The proposal for a half-grant of Rs.38,000/- is a "New Service" and as such it was placed before the Standing Finance Committee. The Committee at its meeting held on 28-2-48 discussed the above proposal and decided as follows:-

"The University should first be asked to state why the prior approval of the Government to the construction of the hostel was not obtained and why the necessary plans and estimates were not sent to the Government for scrutiny and approval."

The Registrar, Annamalai University, was accordingly addressed in the matter and his reply is extracted below:-

xx xx xx

"At the time of opening the new Engineering and Overseer courses in July, 1945, the maximum residential accommodation available at the University was for 865. The strength rose to 1184 after the admission of the first batch of students to the newly started courses and in view of the very limited accommodation the University had to provide for about 60 students of the arts, science and Oriental Faculties in Chidambaram Town. As the overseer students had to attend out-door practical classes like Survey early in the morning, residential facilities had necessarily to be found within the University campus and to meet this urgent need, special arrangements were made to put up with the utmost speed a separate block of rooms and most of the overseer students were provided with accommodation from July, 1945 in the portions of the temporary blocks that were completed. With the admission of the second batch of students in 1946-47, all the overseer students (about 200) were provided with hostel accommodation, as the temporary hostel blocks were completed in December, 1946. These blocks as they had to be raised specially and speedily to meet this urgent demand, built with palmyrah rafters and Mangalore tiles in order to ensure speedy execution in the face of acute shortage and difficulty in getting iron, timber and other building materials - are not of a kind that can be used permanently as hostel buildings. It may be added that but for the Overseer students this block would not have been built at all".

The subject was placed before the Standing Finance Committee again. The Standing Finance Committee at its meeting held on 29-9-48 approved the proposal to make a grant of Rs.38,000/- to the Annamalai University towards the construction of the hostels built for the students of the Road Construction and Minor Irrigation Overseers course, during 1948-49. The proposal is now placed before the Cabinet for its decision.

26/8/47

28-8-47

In para 5 which seeks to give the Budget provision, it does not help if the total budget provision for education is given for this. What will be more helpful is to give the budget provision for the Annamalai University. That may be done.

Finance (Exp A)

(Last Finance note at the foot of page 3 above.)

Please see the minute of H.M. Education and the further note of Exp H. on p. 4 above.

2. The total Budget provision under the major head of account, "37 Education" has ~~required~~ to be furnished in the draft note for the Standing Finance Committee according to the instructions in Finance U.O. note No. 46058 B.G.-1 dt. 1.8.47 which ~~was~~ were issued ~~after after approval by~~ with reference to the minutes of the Hon'ble the Prime Minister. Though, in the present case, it ~~might be~~ is possible to give the budget provision for the Annamalai University, as there is ~~a~~ separate ~~provision~~ made for it in the Budget every year, it ~~might~~ may not be possible to ~~give~~ do this ~~separate provision~~ generally in respect of other new schemes which may come up before the Finance Committee. It is therefore submitted that there is ~~there seems to be~~ no need to modify the existing instructions for the preparation of draft notes for the Finance Committee ~~which~~ according to ~~[illegible]~~ the total budget provision under the major head ~~in regard to the paragraph relating to budget provision~~ concerned ~~to~~ should be given in the Note.

From the Registrar, Annamalai University, No. 332 dt-8/4/48.

Please

G3

Please see the letter from the Registrar, Annamalai University, on p.p. 25-29 c.f. He states that in view of the urgency for providing accommodation for the Overseer class students, special speedy construction had to be put up, as the students had to attend Survey and other practical classes in the morning. He states real till the completion of the buildings - due to the uncertainty of getting materials like timber and iron - the prepation and submission of the plans and estimates had to be deferred. He requests the Govt. therefore to give a full grant for the scheme viz. Rs. 76,000/- Attention is in this connection solicited to the University's letter on p.p. 1-2 c.f. of (S) and the notes on p.p. 3-4 n.f. of (S), regarding the ~~urgency of the~~ urgent necessity for the provision of residential accommodation for the overseer class students. The course was opened by the University at the instance of the Govt., and the University was therefore bound to provide all facilities for the students. As in the case of the cost of equipment and the recurring expenditure for which also no prior sanction of Govt was obtained, the University would have anticipated that the grant ~~on building construction~~ for the hostel building would also be allowed to them. ~~as in other cases.~~ With reference to Finance note on p.6 ante, a supplementary note for the S.F.C. enclosing the University's letter is submd. for approval. May be sent to Fin u.o. for acceptance before circulation.
