Enclosures: Rc. No. 474 A/48 dated 15-9-1948

Sub:- Equipment Grant - Loyola College, Madras -
Indent for books, Furniture, Science Articles
and Gas Tank - Application for inclusion in the
approved list for 1949-50.

I have the honour to submit herewith the Equipment grant application of the Loyola College, Madras, for the purchase of books, furniture, Gas Tank and Science articles required for the new courses of studies opened in the College at an estimated cost of Rs.48,931-3-6. The application was first deferred by me with reference to the policy of Government set out in para 3 of the Press Communique No.16 dated 13-7-48 according to which no aid can be given in respect of the new courses of studies. The Principal now requests that the scheme may be admitted for the reasons explained in his letter No.D/40/48-49 dated 24-7-48. In the circumstances represented by the Principal, I am submitting the application for favourable consideration. The B. Com. Honours Course, as well as the Natural Science course in the Intermediate deserve special consideration for the reasons given by him. The Principal, Presidency College, Madras, to whom the application, was referred for remarks has disallowed certain unapproved items amounting to Rs.7,247-2-6. The cost of the scheme works out to Rs.41,684-1-0. The scheme may kindly be included in the approved list for 1949-50 at a cost of Rs.41,684/-

Encls:

Yours faithfully,

For Director of Public Instruction.

Direct that the scheme relating to equipment grant for the Loyola College, Madras, should be deferred.

It is in this connection informed that ^{scheme for} ~~the~~ erection of a gas tank should be treated as part of a building scheme and not as ~~one of equipment scheme.~~

To me D.P.I. (incl. encl - A - scheme)

E.&P.H.(G.3)

GRANT - Equipment - Loyola College, Madras - Indent for books, furniture, science articles and gas tank - application for inclusion in the approved list for 1949-50.

C.No.69749/48

From the D.P.I., Rc.No.474-F.A./48 dated 15.9.48.

Please see the letter from the D.P.I. on p.1 c.f. He has forwarded an application from the Principal, Loyola College, Madras, for a grant for the purchase of books, furniture, gas tank and science articles required for the new courses of studies opened in the College. The application was first deferred by the D.P.I. with reference to the policy of Govt. set out in the Press Communique of 1945 regarding grants to new colleges and new courses of studies. For the reasons mentioned in his letter on p.p.91-93 of (A), the Principal requested reconsideration of the case. The D.P.I. has therefore recommended the inclusion of the scheme in the approved list for 1949-50.

2. The Principal of the College states in his letter on p.91 of (A) states that he requires grant for the following three items of equipment, viz.,

- (i) Books, furniture, etc. for the B.Com(Hons) course.
 - (ii) Laboratory, furniture and equipment etc. for the Natural Science course in the Intermediate classes.
 - (iii) Gas tank for all the science Departments.
- As regards item (i) above, the B.Com(Hons) course in the Pachaiyappas and Loyola Colleges was started at the instance of the Govt., and the colleges are eligible for additional teaching grant for this purpose - Vide G.O.No.4329 Devt., dated 20.8.48. As regards building and equipment grants, please see this Deptt. notes p.3 n.f. of G.O.No.4329 Devt., dated 20.8.48 where the

question was specifically raised and left open. As regards the present application for an equipment grant, it may be submitted that with reference to the limit recently fixed for equipment grants to Colleges, the maximum of such grant payable to a college should be deemed to be Rs. 10,000/- in a year. Loyola College has already applied for a grant for the purchase of certain equipment and it is proposed in the linked file to provide for a grant of Rs. 10,000/- for the college for ^{certain} items of equipment, under Part II of the Budget for the next year. The College may not therefore be eligible for any more grant in 1949-50. In this view, the application in this file may perhaps be deferred, except ~~that~~ ^{the} scheme relating to gas tank dealt with in the next item.

It will be seen that the proposals in the current file include a request for a grant for the erection of a new gas tank which is to serve all new courses and the older ones. The cost of this is stated to be Rs. 18,965/-. This item has been included in the proposals as an item of equipment. This does not seem to be correct, as the erection of the gas tank should more appropriately be part of a building scheme. If this view is agreed to, the D.P.I. may be asked to inform the College authorities accordingly.

After orders are passed, Finance may see before circulation.

The scheme relating to the erection of a gas tank may be included in the list of Part II schemes for building grants for Arts colleges. The grant payable will be one half of the estimated cost mentioned above, viz. Rs. 9483. H.M. (Edn) may see.

The Gas tank need not necessarily go into the building scheme. That may be treated as equipment & be approved, as it is a necessary equipment. The wonder is how they got along so long without it. Equip must grant not exceeding ten thousand may be sanctioned.

E. & P.H. (G.3)

Please see the minutes of H.M. (Edn) on p.2 ante.

As brick work and fixing of cast iron pipes etc. are involved in the ~~erection~~ ^{erection} of the gas tank in the Loyola College, Madras, it has been taken as a building scheme, on the analogy of the practice followed in ^{respect} ~~other~~ ^{of other schemes} ~~of other schemes~~. The scheme for the erection of a gas house in the Kumbakonam College was ~~taken~~ ^{treated} as a building scheme last year; the ~~xxx~~ expenditure is met from the appropriation under '50-Civil works'. This year, the D.P.I. has submitted a proposal for the erection of a gas tank in the Queen Mary's College, Madras, and it is proposed to debit the ~~xxx~~ expenditure to '50-Civil works'.

The file may now be referred to H.M. (Edn). Following this practice the construction of gas tank proposed in this case was treated as a building scheme. It may be seen again.

I thought this may be included as equipment grant. Now it has been pointed out to me that it may be treated as building grant. We have already promised to pay Rs.50,000 for building grant. I think perhaps that may do for this year. This need not be done in addition.

The funds are on disposal is very limited & will have to be distributed to as many institutions as possible.
