 The Health officer Anti-Malaria Scheme, Angur has applied for supply of warm clothing to the five peons and one watchman working under him. The scale

The Supply of clothing proposed by the H.O. is too heavy and any order or provision we may accept is the Director's recommendation.

of Supply proposed by him to each of these subordinates is as follows:-
 a pair of trousers
 one cap
 and one blanket.

But the Superintendent of Stationery recommends that the scale of supply in the present case may be the same as that sanctioned to the coolies in the G.O. at (A) Viz.,
 One blue serge coat
 One Woollen jersey
 One Cumbley } for each.

It is not known how the cost of clothing proposed by the Superintendent of Stationery compares with that suggested by the Health Officer. If the clothing proposed by the Health Officer costs less than that recommended by the Superintendent of Stationery, we can as well accept the scale of supply of the former in stead of adopting that of the latter as is proposed in the draft order on p.1. above. EPH may perhaps consult the Superintendent of Stationery on this point and revise the draft, if necessary. The period of wear may however remain at 2 years as proposed by the Supdt. of Stationery on p.3. CF.

The draft order on pp 1-2 and is accepted in 2.
