Waiver of.

Sir,

I am directed to refer to your letter No.

35953-2/48-A Edn., dated 10th August 1948 and to say that

the Government of India are grateful to the Government of Madras for so kindly agreeing to waive the capitation fees in the case of South and East African students admitted to the Medical and Engineering colleges in their province, provided their parents or families originally belonged to the province of Madras. The Government of India feel however that in practice it will be difficult to fulfil the last-mentioned requirements in most deserving cases and consequently the purpose with which the concession is granted will not be met to the extent desired. The case of native African students is even more deserving as they are backward educationally and poorer economically and any assistance to them will be calculated to promote goodwill between the natives and the resident Indian community in East and South Africa. It is in fact with this object that last year the Government of India awarded five scholarships to East African native students for prosecuting their studies in India and are contemplating the award of more scholarships in future. All other Provincial Governments concerned

Colleges - Eng. and Medical - Admission of South and East African Students.
The Govt have reserved 2 seats in the Eng. colleges and two seats in the Medical colleges for South and East African Indian students. These students were required to pay tuition fees at double the rates paid by Madras students. Recently it has been decided, in response to a request from the Govt of India, that these students may be treated as students of this Province, in the matter of payment of fees, provided their parents or their families originally belonged to this Province.
The Govt of India now point out that in practice it will be very difficult to fulfil the last mentioned requirements in most deserving cases, and consequently the purpose with which the concession is granted will not be met to the extent desired. They therefore suggest that these requirements may be waived. It is also stated that all other Provincial Govts concerned have agreed to the arrangement. There seems to be no objection to agreeing to the suggestion so long as the reserved seats are not exceeded. For orders. Finance may see before circulation.
