I have the honour to request you to be good enough to recommend the acquisition of R.S.No.161-1B/2 (3 acres 53½ cents) in the Village of Kothangudi, East of the Railway Station, at Chidambaram in Chidambaram taluk. The portion is marked green in the plan enclosed. The land is required in connection with accommodating a Technological Institute just east of the Railway Station at Chidambaram. The portions occupied by Umapati Sivacharyar Mutt and the access thereto to the tank have bee excluded.

585

This site was proposed to be acquired in October 1926. [illegible] application was made to you for the acquisition of this site as pa the scheme of locating the Sri Minakshi Sanskrit and Tamil Colleges. Every other site in the area was acquired or privately purchased but th site was given up as it was then considered possible to omit this s without considerably inconveniencing the Colleges proposed. The ne Technological Institute would require more space and hence the requ

The details of the Technological Institute will be [illegible] in the course of a few months; but as acquisition proceedings usually take long, I have to request that as a special case speedy action be taken to have the site acquired.

The site has to be acquired as private negotiations may not be possible and as the site belongs to the Umapati Sivacharyar Mutt and only acquisition will enable a valid title passing on to the University.

Sub: Acquisition of lands for technological Scheme;
Ref: Application by the University d.18-5-1944.

Sir, p 3 ante

As instructed by the Syndicate at its meeting on the 30th October, 1944, I have the honour to renew my request for acquisition of the site, R.S.No.161-1B/2 (3 acres 53½ cents) in the Village of C.Kothangudi, just east of the Chidambaram Railway Station.

The University has a scheme of Technological studies at the University to begin from July, 1945. Laboratories and workshops have to be begun almost immediately. With the lands now at the disposal of the University and the Founder, it may be possible just to make a beginning. To work out a proper lay-out, an idea of the lands to be acquired in the immediate future is necessary. As some amount of time is required for the proceedings under the Land Acquisition Act, I request proceedings for acquisition be started as no private negotiation is possible with the Mutt that owns the property and no valid title will pass even if a private negotiation succeeded.

I have the honour to be,
Sir,
Your most obedient servant,

M Viswanatha
Registrar.

Sir,

Sub: Land Acquisition - Annamalai University - Chidambaram taluk - C.Kothangudi and Tiruvakulam villages - extension of technological institute etc., interim report -

Refce:- (1) Government Memo No. 52878-C.2 dated 16-11-44 and No. 59933-C1 (Edn.P.H.) dated 5-2-45. (2) Exchange reminder from the Board of Revenue dated 1-3-45 and this office reply dated 10-3-45.

-R-V-V-V-

The Revenue Divisional Officer, Chidambaram reports that the acquisition of R.S.No. 161/1B of C.Kothangudi village for the University purposes is not possible as it contains a temple (Sivachar Mutt) of substantial structure and a rice mill. The rice mill is said to be under the management of ~~one~~ Naina Naidu. It supplies raw and boiled rice to the rationed area and also to deficit districts through the Grain Purchase Officer, Chidambaram. There is also another Rice mill belonging to one Markandam Pillai on a site leased by the University near the site proposed to be acquired. The dislocation of any of the mills is expected to affect

the supply position of rice seriously. Further an objection petition has been received from one Subbia Pillai stating that most of the lands belonging to the Mutt were given in exchange to the university in 1925, that only a small extent has been left over for mutt purposes and that the University without utilising the portion in exchange for its purposes leased a portion of it to one Markandam Pillai for the location of a rice mill. Subbia Pillai strongly objects to the acquisition of mutt properties.

2. I propose to inspect the site by the end of the first week of April during my camp at Chidambaram. I shall submit a detailed report soon after.

I have inspected the lands proposed by the University for acquisition.

p 8 ante

2. In his letter dated 24-11-44 the Registrar has applied for the acquisition of R.S.Nos.161-1B(3.53½ Ac) and 16 cents in R.S.No.161-3B of C.Kothangudi village to locate the Technological Institute - though in his letter dated 4-11-44 to Government he applied for S.No 161-1B alone. R.S.No.161-1B contains a temple (Sivachar mutt) of a substantial structure and a rice-mill. The rice-mill is working hard and is essential for the supplies of rice both for this district and for export. There is also another rice-mill closeby and the lease expires in 1946. This second mill is supplying rice to Chidambaram rationed area. The acquisition of the sites will affect the supply position of rice and I consider that the acquisition of this site is impossible till the food situation changes completely. There is an idol in S.No.161-3B.

p 9 ante

25

The acquisition of this field which measures only 21 cents for the location of the Sree Meenakshi Oriental and Sanskrit College was considered in 1929 and was dropped. There is no necessity to acquire this field now.

3. In his letter 6172 dated 26-12-44 the Registrar has applied for the acquisition of several fields in C Kothangudi and Tiruvakkulam villages. I enclose two sketches showing the fields proposed for acquisition.

As for the location of the technological institute there is a block of 20.78 acres either belonging to Raja Sir Annamalai Chettiar or to the University near the rice mills. The block consists of S.Nos.156-1A, 1B, 2, 157-1, 2A, 2B, 158-, 159-1, 2, 3, 160-1, 161-1A, 1C, 2 and 3A. The Technological institute can be located in this block. If this block is considered insufficient I would suggest an alternative block of 28.88 acres consisting of S.Nos. 172, 173, 174, 175, 176 and 177 of C.Kothangudi village and S.No.102 of Usuppur village. The Registrar may be instructed to apply for the acquisition of such of the fields as do not belong to the University in this block if this block is absolutely necessary.

4. The University Representative who accompanied me during my inspection stated that the urgent demand was for a parade training ground for about 100 cadets at one time. They do not at the moment require anything like the number of fields they have asked for. I suggest a block of 65.02 acres consisting of S.Nos. 169, 164, 150, 138, 165, 149, 139, 137, 136, 134(portion) 133(portion), 166, 148, 140 and 141 (except subdivision 10). Of this block, acquisition will be necessary only for 15.39 acres.

5. The other fields proposed for acquisition for staff quarters are really for purposes of slum clearance Slum clearance cannot be considered essential at the moment and can be deferred till after the war.

6. I do not therefore consider that the acquisition of all the fields referred to in the Registrar's letter dated 26-12-44 to be essential.

p 26 ante

Sir,

With reference to your letter No.52878 C-5 dated 18-5-1945, I submit that the lands at the disposal of the University are for certain ear-marked purposes, namely, play-grounds, water-supply, staff quarters, menials' quarters, lecture halls for the Arts, Science and Oriental Faculties and that the lands now required are for the new Faculty of Engineering and Technology, for play-grounds, staff quarters, menials' quarters and hostels for the students and staff of this Faculty.

I may be permitted to instance the question of the need for the play grounds. A plot of ground behind the Science Block of the University has been ear-marked for play-grounds; much of it was lowground; it was raised, made level and utilised for purposes of sports. In the centre a Sports Pavilion was provided. The need for extensions of the Science Laboratories was met by an encroachment on the playgrounds. Consequently new playgrounds had to be chosen in the immediate vicinity for the students of the Arts, Science and Oriental Faculties; for the programme that is attempted at the University is a play-for-all programme. The playground was intended to serve about 500 to 600 students, the strength of the University then. What with the increase in number of students to 1,400 and the encroachment made by the Science Laboratories on the grounds available, the play grounds had to be extended for the Arts, Science and Oriental Faculties. In addition the new Faculty of Engineering and Technology which will ultimately require provision for play space for more than 800 students may need an equally good play ground. And this need is proposed to be provided by the acquisition of 33.72½ acres detailed in pages 3 & 4 of enclosures to this office letter No.6329 d.5-1-45 to the Revenue Divisional Officer. Chidambaram

by how much?

P

The site for the lecture halls, laboratories, workshops, etc. for the Engineering and Technology Department is in the village of C.Kothangudi near the Chidambaram Railway Station. Only 5 acres of land which do not belong to the University now have to be acquired, partly because the sites belong to a Mutt and a private family place of worship.

In this Kothangudi site of 50 acres the Raja Saheb of Chettinad, the Founder Pro-Chancellor of the University, has already purchased from his own funds 26 acres, and the University is in possession of other sites acquired originally for housing the Samskrit and Tamil Colleges. By permission of Government the said sites were not utilised for those colleges as it was thought proper to have the Samskrit and Tamil Colleges also by the side of the Arts and Science Colleges. The original Samskrit and Tamil College site will now be utilised for purposes of the Engineering and Technology buildings. The Engineers who visited the site in March last felt that the whole site was needed for the immediate location of the laboratories, workshops, lecture halls and the expansion that might be needed in the years to come.

Q

The other two sites proposed to be acquired are in the village of Tiruvetkalam, where the professors', lecturers' and the Pandits' and menials' quarters have already been located. The new professors of the Engineering College will be lodged in buildings to be put up in continuation of the present professors' and lecturer quarters. 19.93 acres of land listed on page 4 of the enclosure to my letter 7 5.1.45 are the lands adjacent to the Professors' and Pandits' quarters. By the term Pandits' quarters is meant a cheap type of house with only 4 rooms suitable for people on the lowest grades of salaries.

addition to coll

Again, the hostel has been built in an area walled off for the purpose so that all the students might be in one place and might be supervised effectively. The present provision is for 650 students. In the enclosure already made provision for no more than 150 students in addition could be made. The remaining 600 students of the existing three faculties and about 1000 student of the new faculty of Engineering and Technology should be lodged in places contiguous to the present hostels. The space immediatel adjacent is not enough. The necessity has therefore arisen to mark out another area for purposes of the hostels. One of these hostels will be for the Engineering and Technology students and it will be as near the Engineering college buildings as possible.

Thus it is because the lands now acquired are insufficient for purposes of the new faculty that acqusition has been started of about 55 acres. These 55 acres exclude such lands as are in the possession of the Raja Saheb of Chettinad, the founder of the Univer sity by virtue of his private purchases.

Some of the lands earmarked for the staff quarters, playgrou etc. could not be immediately occupied for want of finance. This I have represented already and government have been pleased to permi me to retain those lands for use in the future by the University. Those lands cannot be put to the purposes of the new Engineering

Engineering college, for the need to occupy them for the purposes for which they have been acquired will arise immediately the finances improve either because of the generosity of the government or the donations of the public.

R

I may take leave to point out that with the Rs. 7.5 lakhs of Building and Equipment grant that government were pleased to sanction in 1929, Buildings and Equipment to the extent of Rs 28 lakhs have been provided.

The water supply scheme, for instance, cannot be worked out to the full for want of materials, though near three forths of the work has been done and filtered water has been supplied to the streets. Again in the case of the Drainage scheme, sanction has been obtained but the scheme could not be put through for want of building materials, and because of the embargo placed on buildings; a research scheme cannot also be attempted though funds have been provided by government in answer to an application made by the University. So, lands intended for the drainage scheme, the research scheme etc. cannot be safely put to other uses. They have to be kept earmarked to those other uses so that the schemes might be worked out in the years to come as materials get to be available.

A

I have submitted these details to the Collector of South Arcot in an inspection that he made of the sites on the 27th of May. It is because of all these that the lands already at the disposal of the University have to be considered insufficient for its requirements and further acqusition is deemed necessary.

I have the honour to be,
Sir,
Your most obedient servant,
Viswanathan
Registrar.

Sir,

Land Acquisition - Annamalai University.
Ref: Government Endorsement No. 52878/C-6 dated 5-7-45.

The following statement shows the extent of lands acquired by the University under the Land Acquisition Act and the extent left unused:

| Date of acquisition | Village | Area acquired<br>A C | Purpose of acquisition. | Extent to which the purpose has been carried out |
|---|---|---|---|---|
| Award No2 dated 14-2-1931 ~~xxxxx~~ | Kothangudi South | 3.07 | College and Laboratories | Fully built upon |
| Award No 10 D/ 1-9-1931 | Thiruvetkalam | 0.32 | Staff quarters | do |
| Award No.11 dated 7-9-1931 | Kothangudi N North | 1.85 | College and Workshops | do |
| Award No.17 dated 22-6-32 | Thiruvetkalam | 13.54 | Storage of water | Fully utilised |
| Award No.5A dated 28-10-32 | do | 20.53 | Playground | do |
| Award No. 21 dated 20-7-33 | do | 97.44 | Staff quarters -east of temple | Not built upon low lying lands to be filled up |
| | | 97.78 | Drainage farm | Not utilised low lying lands drainage scheme recently sanctioned. |
| Award No.20 dated 19-9-33 | do | 1.65 | Land for disposal-of dirt | Fully utilised |
| | | 9.58 | Staff quarters - north and south of main road | Only about 3 acres built upon-Rest low lying lands-to be filled up |
| do | Kothangudi North | 15.60 | Staff quarters | About 6 acres built up. Rest (9.60 Acres) low lying lan to be filled up |
| do | Usuppur | 4.46 | Staff quarters | About ½ acre built upon: rest 4 acres not utilised |
| Total acrea acquired under the Land acquisition Act | | 265.82 | 50.42 acres utilised fully:<br>215.40 acres not utilised. | |

Only 19% of the lands acquired under the Land Acquisition Act have been fully used, and 81% have yet to be used. This is the main objection to the further acquisition applied for, but the unused lands are all low-lying lands which cannot be utilised for the purposes for which

37

they were acquired without raising their level and reclaiming them.

2. Besides the 215.40 acres, unused out of the area acquired under the Land Acquisition Act there are also lands alienated in favour of the University (10.19 acres) and private lands of the Rajah of Chettinad which have been or will be gifted to the University(28.72 acres) which still remain to be utilised. My predecessor expressed the opinion in paras 3 and 4 of his letter Roc. B4-20276/44 dated 16-4-44 that the College of Engineering and Workshops etc might be located in some of these lands, and that the fresh acquisition applied for was unnecessary.

5/3/8

H 24-25 ante

3. I understand from the Registrar of the University that the suitability of the lands for the Engineering College buildings has been tested by experts after digging trial pits and that R.S.No.161/1B of C.Kothangudi village has been selected as the best ground. This adjoins the railway line and is good building site. In view of its having been selected as the best site from an engineering point of view, I am of opinion that no objection need be raised to its acquisition under the Land Acquisition Act after excluding certain portions from it. The temple dedicated to Saint Umapathi Sivacharyar, and the adjoining Rice mill and its grounds and the road leading from the temple to the Vellakulam tank and another temple close by should be excluded. The University authorities are particularly desirous of stopping the rice milling because of the bad smell: they say that every visitor to the University makes adverse comments on the existence of rice mills so close to the University grounds. But for sometime at least, this and the neighbouring rice mill cannot but be allowed to continue. The rice position in the district has become very difficult and even by making all the 17 mills in this taluk work it is not found possible to convert a sufficient quantity of paddy into rice. The Registrar points out that Sri.Naina Nayudu who owns the adjacent rice mill owns another mill about 3 miles off, but this mill also is being made use of to convert paddy into rice to keep up the supply of rice in the statutorily rationed municipal towns and the informally rationed taluk of Cuddalore. Until the food position becomes normal with the restoration of the pre-war import of rice from Burma, every rice mill has to be kept going, and the two rice mills in this area have to continue. It will not be practicable for many reasons to dismantle the

B

mills and put them up elsewhere; after the restoration of the normal conditions the University authorities may apply for the acquisition of the excluded areas except the temples and the road leading to the tank. As shown in the enclosed sketch, there will be adequate room in R.S.No. 161/1B for the construction of the College of Engineering and the Workshops and Stores etc even after excluding the rice mills and temples. R.S.No. 161/3B is a small plot which contains a temple but is used as a smithy; the object of acquiring the plot is not to make use of it ~~for any structure~~ for purposes immediately connected with the Technological Institute but to get rid of the smithy which, situated on the approach road to the University gates, is certainly an eye sore. The smithy, however, is at the moment useful and may be allowed so long as the rice mills continue on the spot. I recommend that the University authorities may be informed that the rice mills grounds, temples, road leading to Vellakulam from the main temple and R. S.No. 161/3B should not be acquired now. The acquisition of the rest of R.S.No. 161/1B may be sanctioned, and the University authorities permitted to enter on the site in advance.

B
This [illegible] permissible. vide extract from [illegible] III, p. 538 - at
A

4. As regards the other lands applied for, it has to be admitted that the needs of the University are growing fast and that most of the lands already acquired cannot be used for the purpose for which they were intended without spending a considerable sum of money on raising their level and on laying roads. The reclamation is going on in parts but with the rapid increase in strength the need for the expansion of the hostels has become urgent. Both the boys' and girls' hostels require urgent extension, and for the health of the students it is necessary that the dwelling houses of villagers which now almost touch the staff quarters should recede farther away. In the case of a residential University I think it is necessary that there should be open lands between big blocks of buildings and it is not desirable that because lands acquired for the construction of buildings have not been built upon pending their reclamation, sanction should be refused for the acquisition of lands for other purposes. At the same time it is not unlikely that the University authorities may take their own time to make use of the lands already acquired unless some pressure is brought to bear on them. I would therefore suggest that, while according sanction for the acquisition of R.S.No. 161/1B excluding the portions mentioned above, the University authorities may be told

A

that the acquisition of the other lands cannot be sanctioned until satisfactory progress is shown in utilising the lands in their possession for the purpose for which they were intended and that if, however, the proposals for acquisition are restricted to lands required for such urgent purposes as expansion of hostels etc they will be considered. Many of the lands now applied for are shown to be required for staff quarters, but over 100 acres of lands already acquired for staff quarters still remain to be built on.

5. The Registrar's letter No. 1968 dated 12-6-45 is resubmitted.

Collector.

Land acquisition - Annamalai University - Technological Institute

From the Collr. of S. Arcot, Roc No. 20276/44 d 9.11.45.

Memo No. 52878 C/44-11 22.12.45

The Govt. agree with the Collr. of S. Arcot that it would be sufficient for the present, to proceed with the acquisition of R.S. No 161/1B of Kothangudi village, excluding the temple dedicated to Saint Umapathi Sivachariyar, the adjoining rice mill and its grounds, the roading leading from the temple to the Vellakulam tank and another temple close by. He is requested to submit necessary notifications under the Land Acquisition Act, at an early date.

Land Acquisition – Government Memorandum No. 52878 C/44-12 d. 22-12-1945.

cp 40 ante

Sir,

As directed by the Syndicate at its meeting on the 9th January, 1946, I beg to place the following points for reconsideration in the matter of the acquisition of sites for the Engineering and Technological Institute, its lecture halls, laboratories, stores, gas house, power house, etc. in the area between the Chidambaram railway station and the District Board Road to Sivapuri and for hostels, staff quarters, menials' quarters and playgrounds in the area to the east of the said District Board Road.

p 40 ante

According to Memo 52878 C/44-12 of 22-12-1945, draft notifications are being prepared for the acquisition in Kothangudi, Chidambaram Taluk, of R.S.No.161/1B1 (48 cents); 161/1B3 (68 cents) and 161/1B4 (69 cents), excluding R.S.No.161/1B2, an extent of 2.15 acres for the Temple, the approach from Vellaikulam and the mill. In the portion reserved for the temple ample provision for the temple and prakarams round it has been made; in addition, a big slice occupied by the mill has also been excluded. I submit that a mill does not serve the main purpose of a temple and may serve to distract the work in an educational institution in the immediate neighbourhood. Further, the proprietor of the mill is only a tenant for a period of years terminating in April, 1946. The superstructure alone is his and he has agreed to remove the superstructure and leave the land vacant at the expiry of the lease. He will therefore not be much inconvenienced by his having to quit especially in view of the fact that he has a rice mill in Vallampadugai, only 4 miles off, and can supply the needs of the rationing area of Chidambaram, even from Vallampadugai. I therefore request that the area occupied by the mill be also acquired for the reasons I have already stated.

One other area, R.S.No.161/3B in Kothangudi, measuring 16 cents is also sought to be acquired. It is supposed to be the site of "Alaganachiamman temple" belonging to a family of Pandarathars. One of the owners, Sonachala Pandarathar, sold his portion of the temple to Pakkiriappa Mudaliar who resold it to a banker in Chidambaram. The other owners, namely, Sarangapani Pandarathar, Rajanga Pandarathar and Thangavelu Pandarathar, have, in their letter d. 2-1-1945, proposed an exchange of their share to the University if an extent of 4 cents is retained for the "temple". The actual sale by Sonachala Pandarathar, the proposed exchange, and the fact that it is occupied by a smithy today, indicate that acquisition of the site should not be considered impossible. I may also adduce the fact that in a previous acquisition in the year 1931, the total extent of the site, viz. 68 cents was said to be a temple site and 52 cents were actually acquired with the consent of the parties. I have therefore to request that this site be also acquired for the University's Engineering and Technological buildings, in order that the University might save itself the noise of a smithy under outside control.

If the mill site in R.S.No.161/1B and the "temple site" in R.S. No.161/3B are acquired, the needs of the Technological Institute would have been met. For the hostels, staff quarters, menials' quarters and playgrounds, the area east of the District Board Road has to be used. The sites for these several uses by the staff and the students of the Engineering ~~Emik~~ and Technological Institute have necessarily to be very near each other. The University has some lands acquired already for several purposes, one of them being staff quarters, farther to the east. But those sites are distant from the Technological Institute and cannot therefore be used for this purpose.

For staff quarters of the three faculties of Arts, Science and Oriental learning, the University has already acquired about 100 acres of land and built 197 houses for use by the staff and servants in these three faculties, whose number today is 300 and over. In the 15 years of depression and war when this University was handicapped for want of materials, the high cost of such as were available and the paucity of funds, the building of 197 houses cannot be said to be poor progress. Not one year has passed without four at least of the smaller building being put up for the staff. Against a Government grant of Rs.7.5 lakh for all buildings inclusive of hostels, lecture halls etc. the University has spent more than Rs.28 lakhs in all, out of which Rs.5 lakhs and over have been spent for staff quarters. In the year 1945-46, in addition to the small quarters put up already, work at building a big sized house for the Head of the Department of Engineering and Technology by the side of the Vice-Chancellor's house has been commenced, and one more big house will be built by July, 1946. The quarters here put up have necessarily to be costly ones in keeping with the style of the Vice-Chancellor's bungalow. Other quarters contemplated in 1946-47 are: 12 lecturers' quarters, 4 Clerks' quarters and 24 menials' quarters, costing in all near Rs.2.5 lakhs. In view of the fact that in the 100 acres in east Tiruvetkalam 40 quarters for menials and scavengers have already been built in one corner, the work done in the already acquired area so far and the progress contemplated in the years 1945-46 and 1946-47, I submit satisfactory progress has been made in utilising the land already in possession of the University. The low level and slope of the site already acquired, the hollows and ponds that abound therein, the need there was to build high basements to prevent the inconvenience of floods that this area is subject to, the prevalence of hurricanes necessitating terraces in preference to comparatively cheap sloping roofs, have all been handicaps in the task of working out the building programme. It has been the experience of this University that when a new building to get over the existing congestion is planned, the need for more buildings makes itself felt even before the buildings planned are completed.

It is only because the Engineering staff quarters and Engineering hostels have to be near the Engineering and Technological Institute that the area immediately east of the District Board Road and north of the existing lecturers' quarters in C.Kothangudi has to be acquired.

In asking for a neighbouring site the University wants to economise in cost of cables, roadways and water-mains, for only when the quarters are situated in a compact space will the cost of these amenities be minimised.

The order of the 22nd December 1945 invites proposals for acquisition of fresh lands for the extension of hostels, for the present hostels for men and women students are much overcrowded and the space that is left free today in the Men students' block will not suffice even for a small extension. The number of students provided for in the hostel is only 650; the actual number today would require accommodation for at least 1,050 students more. If to it is added the additional number in the 3 Engineering classes to be added ~~xx~~ in the course of next three years, the provision has to be for near 2,500 in all, i.e. 800 more. A large area therefore has to be acquired. To prepare the low ground in this area and fill the hollows and ponds therein and make it fit for building on, it may be necessary to spend heavy sums and allow some time for the ground to settle and then make roads, lay pipes and cables.

To afford enough play-space for the 2,500 students, other equally large areas have to be acquired. What was intended originally for playgrounds has had to take the science buildings, the Music College and the extensions to the laboratories.

So for the expansion of the present hostels (both for men and women students) and for playgrounds, the lands scheduled in my application d.4-6-1945 are quite necessary.

Situated in rural surroundings, one of the original objects of the University was the promotion of agricultural studies. With a new Technological Institute added on the University requires vast spaces. I may be permitted here to instance the extent of the campus of some Universities and Colleges in India and point out that the campus of this University will lag far behind even after acquisition of the 55 acres for the Engineering and Technological Institute.

| | | |
|---|---|---|
| Benares Hindu University. | ... | 1,300 acres. |
| Osmani University. | ... | 1,605 ,, |
| Aligarh Muslim University. | ... | 900 ,, |
| Roorkee Engineering College. | ... | 330 ,, |
| Madras Engineering College. | ... | 280 ,, |
| Madras Christian College. | ... | 440 ,, |

I have therefore to request the favour of Government being pleased to acquire further:

1) the mill area in S.No.161/1B1 in C.Kothangudi, occupied by a temporary tenant of the Sri Umapati Sivacharyar Temple authorities, i.e., C.Kothangudi, R.S.No.161/1B1 = 1.30 acres;

2) the "Alaganachiamman Temple site", owned by Pandarathars willing to exchange it for another site in the farthest east of the University area: C.Kothangudi: R.S.No.161/3B = 0.15 cents.

3) the area behind the Kothangudi Staff quarters comprised in S.Nos. detailed in the annexure, in C.Kothangudi, for hostels, playgrounds for the Technological and Engineering Institute: 33.72½ acres;

and 4) the areas in Tiruvetkalam village behind the Professors' quarters and the hostels comprised in S.Nos. detailed in the annexure, for staff quarters, extensions to the Women's hostels and the Men's hostels: 19.93 acres;

that is, an extent of 55 acres for the several purposes of the University inclusive of the Engineering and Technology Institute.

I have the honour to be,

Sir,

Your most obedient servant,

N. Viswanathan

Registrar.

Roc. B.4-20276-44 d/- 29-5-46.

From

Sri Rao Sahib
D. Madhava Rao Nayudu B.A.,
Collector of South Arcot.

To

The Secretary to Government,
Education and Public Health Dept.
Madras.

ASST. SECRETARY TO GOVERNMENT
1 - JUN 1946
EDUCATION AND PUBLIC HEALTH DEPT.

Sir,

LAND ACQUISITION - Annamalai University - Technological Institute etc - proposals further report - submitted.

Read:- Government Memo No. 52878-C-44-11 dated 22-12-45 and 52878-C-44-14 dated 24-1-1946.

42 c/f

29222

--ooo--

40 ante

In their memorandum first cited, the Government directed that R.S.No.161/1B of C.Kothangudi village should be acquired for the Annamalai University excluding the temple dedicated to Saint Umapathi Sivachariar, the adjoining ricemill and its grounds, the Road leading from the temple to the Vellakulam tank and another temple closeby. A copy of the Government memo was sent to the Revenue Divisional Officer, Chidambaram on 2?-12-45 for submission of draft notification under the Land Acquisition Act. In the meanwhile objection petitions were received against the acquisition of R.S.No.161/1B. The Registrar, on the other hand, in his letter dated 20-1-46 addressed the Government to reconsider their orders and has urged the necessity to acquire the portion covered by the mill in S.No.161/1B and the Alaganachiamman temple in R.S.163/1B besides two blocks in C.Kothangudi and Thiruvakkulam villages. These were also referred to the Revenue Divisional Officer, Chidambaram for report with the connected records. The Revenue Divisional Officer, Chidambaram considered that the objections for the acquisition of R.S.No.161/1B were valid and recommended that the acquisition proposals might be dropped. As the suggestion was against my predecessor's recommendation, I inspected the locality on 25-5-46.

p.p 76 & 81 c/f

75 c/f

p. 105 to 108 c/f

p. 51 infra

2. An extract of my notes of inspection relating to S.Nos. 161-1B and 161-3B is sent herewith along with several objection petitions received, the Registrar's letter dated 20-1-46 addressed to Government and other connected records. It will be seen from the copy of my notes of inspection that the entire extent of R.S.No.161/1B (now subdivided as 161-1B1 to 161-1B4) is required for communal or other public use and that no portion of it can be acquired. The question of acquisition of the portion of this field originally proposed may therefore be dropped.

3. As regards the acquisition of R.S.No.161-3B, attention is invited to paragraph 2 of this office letter Roc.B.4-20276-44 dated 16-4-45. The Registrar's contention that there is now a smithy at the site has already been met in the concluding portion of paragraph 3 of my predecessor's report dated 9-11-45. The University has not put forth any fresh ground to re-open the question.

25 c/f

4. In his application dated 20-1-46 to the Government, the Registrar of the Annamalai University proposes the acquisition of an extent of 33.72½ acres in C.Kothangudi village for the purpose of play fields and hostels for the engineering and technological institute and another extent of 19.93 acres in Thiruvakkulam village for the purpose of extension of hostels and staff quarters. I have inspected the locality. There is a vast area of about 215 acres lying idle in the possession of the University authorities. Though there is no objection to the acquisition of these lands, still there seems to be no immediate necessity for their acquisition. If the acquisition is now pushed through an extent of 53.65 acres of cultivable lands has to remain waste in addition to an extent of about 215 acres already acquired and remaining waste in the possession of the University authorities in these days of food crisis. I therefore recommend that the question of taking up the acquisition proceedings may be considered later on when the University authorities show sufficient progress in the utilization of the lands already acquired.

Extract:

Notes of Inspection dated 25-5-46.

--

The Registrar of the Annamalai University asked for the acquisition of R.S.No.161/1B excluding (i) the temple portion and (ii) path leading to Vellakulam but including the rice mill put up by Naina Nayudu (2) R.S.No.161/3B; (3) R.S.162 and (4) 19 acres 93 cents in Tiruvakulam for Staff Quarters Extension, for Women Hostel, Men's hostel, etc.,

Inspected.

R.S.161/1B. Portion of this S.No. is occupied by a rice mill about 4 acres. The rice mill cannot be interfered with in these days of food scarcity. It must contimue to function. This is a fairly big mill with a large drying yard, which is serving in the present food crisis.

There are still vacant sites to the west of R.S.161/1B which belong to the University. There are small sheds in it and a small building. This vacant area can be put to use by the University before they think of expanding to the east into S.No.161/1B. The University can also ask the B.O.C. to move and can expand upto the Railway line. This would give them S.No.161(3 acres 12 cents) for expansion.

Inside 161/1B on the northwest Umapathi Sivachari Mutt exists and people congregate here in large numbers for Bhajana and religious festivals. The vacant space in front of the Mutt must be allowed to exist for the Bhaktas to stay and offer their prayers.

The remains of an Adi-dravida Saint, Pathan Samban, are interred in the northwestern corner of this plot and Adi-dravidas visit this place and offer their worship here. Caste Hindus also visit and worship here. Kumbabhishekam and Yagna Gundam are done in front of the temple and so that space is necessary to the temple. At the extreme south is the Ganesa Temple. I consider that the entire vacant site in R.S.No.161/1B to the south of the temple site and Sivachari Mutt must exist to serve the needs of the religious public and should not be interfered with.

R.S.No.161/1B3. (proposed subdivision). This is a Nandavanam for the temples and the Mutt. The nandavanam is for raising flowers for offering to the Gods in the temple and the Mutt. This cannot be acquired. I have to mention here that R.S.161/1A measuring 0.92 cents and R.S.158 measuring 3 acres and 65 cents which are the property of the University are lying waste and vacant immediately to the north of 161/1B. These are lands which are fit to be built upon but nothing has been done here by the University and the sites are left vacant with a few tamarind trees. There is much opposition locally for the University trying to acquire areas belonging to temple and Mutts and I consider the objection to be very reasonable and cannot be thrown aside.

R.S.No.161/1B4 (proposed subdivision measuring 0.69 cents). This is a small strip running along the southern bound of the rice mill. This is serving at present as a cart track for carts laden with paddy to have access to the rice mills existing in R.S.161/1B and 161/1C. Further when carts arrive in large numbers during the harvest season they are unyoked and parked in this cart-track space. This area is also servin as access to the Technological Buildings from the Sivapuri road side. If this area serving the purpose of a cart track is acquired and delivered over to the University, carts will have no proper access to the two mills existing in R.S.161/1 and 161/1C and they will block the Sivapuri Road. So I do no consider acquisition of this area to be desirable.

R.S.No.161/3B. This was already decided in the year 1929 as a site which should not be acquired and interfered

*The same reasons hold good.*

SECRETARY, EDN. AND Engineering
26 JUN 1946
GOVERNMENT OF MADRAS

OFFICE OF THE BOARD OF REVENUE
28 AUG 1946
MADRAS

I-1876/46.

New site: Extent, 50 acres,

Bordered by:
Railway line on the west;
Natarajapuram Road on the north
Sivapuri Road on the east;
New Goschen Road made by the University, on the south.

In between, a tank vested, old in the District Board and now in the University.

To the north of the tank there is a mutt in a site of 4 acre. It is dedicated to the memory of Umapati Sivacharyar and occupies only the north-west corner of the site. Extent 3/4 acre only Towards the south-east of the site there is a mill occupying in all 2.85 acres. The previous owner of the mill got a lease of the site with permissi to put up sheds and brick-floors to be removed at the end of the period of the lease. The present owner of the mill also contra with the mutt authorities to extend the lease up to 1946. See the University was putting up its Engineering College buildings the neighbourhood, he concluded another contract extending the period of lease to 1950 even before the original lease was concl ed.

To obstruct acquisition, new shrines have just sprung up. Images unfit for worship because of architectural defects have be set up in a hurry and kumbhabishekam was performed in April, 1946 all after the needs of the University were known. 2.85 acres ou of the 4 acres are used as mill site. Amongst the new images se up is one representing Pethan Samban. It is doubtf were interred in the site. The tradition embodied in a verse is that he passed away in a village 5 miles away. Defective new deities, false traditions and preposterous claims which cannot bear a moment's scrutiny have been set up before the Collector.

Another site said to be Azhaganachiamman Temple site is also required by the University. These two are the only two sites measuring 4.21 acres within the block of 50 acres the Universit needs for its lecture halls, laboratories, workshops, stores etc. The 21 cents of this supposed temple are occupied by a smithy. In one corner there is a piece of iron as a symbol of the God. The place is kept unclean. It is owned jointly by a family of Pandarathars. Before 1929 it was claimed to be the site of a temple which would soon have a stone-structure; till 1946 there has been no building on the site except the smithy.

The site has been sold and resold; it has passed several hands; speculation is rife. The owners can be persuaded to sel to the University. But the claims set up in a previous acquisi- tion that it was a temple, makes the University unwilling to conclude private negotiations, as a perfectly valid title may not pass where a claim as God's grounds has found a place in Governmental records.

Other sites further east required for play-grounds, hostel and staff quarters, have also to be contiguous to this college block of 50 acres. The University has sites farther in the east They are all ear-marked for the Arts, Science and Oriental faculties. All the sites could not be occupied immediately for want of funds, building materials and transport facilities to bring them to the site. Such portions as can be cultivated wi the permission of the Collector under the Grow more Food campai are being cultivated from year to year

The progress made in the occupation of the University si will be seen to be very great indeed by any casual visitor of visiting it today. This is the only site where a siding from railway station could be easily arranged for the heavy equipment that might be needed for a modern Engineering College.

For the Arts, Science and Oriental Faculties, there are playgrounds of over 100 acres to give facilities for all the students to play at the same time and to work a compulsory scheme of physical education. More spaces are being got ready for play; a boating canal is now in use. A swimming pool is in the forefront of the programme; but laboratories, and lecture classes have had to encroach on the playground. For the new faculty, for training in the I.A.T.C. and U.T.C. more and more spaces are needed.

1) About 200 houses for the staff of 300 in Arts, Science and Oriental Faculties, 2) lecture halls, laboratories, 3) hostels and dining halls, bath-rooms for 750 out of the present strength of 1,750 students in the 3 faculties only have been already erected. The number of students is increasing every year; the University cannot cope with the demand as it should, to fulfil the expectations of the only residential University in Tamil Nad.

Submitted to the Government with reference to their Memoranda cited above.

P40 ante 2. The Board invites the attention of the Government to their Memo No.52878 C/44-11 dated 22--12--1945. The Registrar of the Annamalai University has urged for the reconsideration of this order and pressed for the acquisition of the following lands:--

(a) R.S.Nos.161/IB and 161/3B of C.Kothangudi village measuring 3.30 acres (covered by a Mill, smithy, Nandavanam etc) for the location of the Engineering and Technological Institute; and

(b) various lands scattered over the University area required for (1) the playground and hostels for the Engineering and Technological Institute, and (ii) extending the women's hoste and staff quarters generally. The Collector of South Arcot, after inspection of the sites in question was not in favour of the acquisition. In view of the importance of the matter, the Board considered that local inspection by one if its members was desirable. Accordingly, the Commissioner of Land Revenue (Mr. S.Ranganathan) inspected the site on 25-10-1946 with the Revenue Divisional Officer, Chidambaram and the Registrar of Annamalai University. The owner of the Rice Mill in R.S.No. 161/IB one of the lands proposed for acquisition was also prese

3. The Board submits the following recommendations as a result of the inspection by the Commissioner:

5 The Board agrees with the Collector that the entire extent of S.No. 161/IB is required for communal or other public purpose, and that no portion of it can be acquired till the foo situation becomes easier. The Mill serves a public purpose.

Similarly the acquisition of S.No.161/3B is also unnecessary.

4. The Collector objects to the acquisition of the lands for staff quarters and play-grounds as the University ha

has much land (atleast 150 acres) which has not been developed. The Board considers that the Collector has taken a very narrow view of the matter. A rough sketch showing the university area and the lands proposed to be acquired is enclosed. It will be seen therefrom that the lands of the University have developed in a lop-sided manner. The western half has developed; while the Eastern half remains undeveloped. In the developed zone, the play grounds lie in the northern portion, occupying 1/3 to 1/2 of the area. The rest is earmarked for University buildings, staff quarters and women's hostel; much of it has been built upon or earmarked as they are inevitably required for set purposes. The staff quarters can therefore be properly extended only on the land near the existing quarters, and this remark applies to the Women's hostel also. The Board submits that in the light of the above facts it will be seen that the request of the University is not unreasonable. Besides, the Engineering and Technological blocks are rising in the North West of the University area. The play grounds for them have to be in those blocks and not in the far east in the undeveloped zone. The Board therefore, recommends the request of the University for the acquisition of lands under item (b) in para 2 above, subject to the following modifications:

(Y)

It is not in favour of acquiring R.S.Nos.114 and 115 in the North and R.S.Nos.217 and 218 in the South. The former two are required to give certain private lands owners access to the nearest road and the latter two are a nattam site and a land which is cut off from the women's hostel zone by the aforesaid nattam.

A

In the circumstances, the Board recommends that the directions given in the Government Memorandum No.52878 C/44-11 dated 22--12--1945(Education and Public Health Department) may be suitably modified.

P 40 ante

for JOINT SECRETARY.

To
The Secretary to Government,
Education and Public Health Department with encls.

PVd/2-11-

Copy of Letter from Sri Rao Sahib B.Madhava Rao Nayudu B.A., Collector of South Arcot Roc.B.4.2076-44 dated 20--8--1946

----

Land Acquisition - Chidambaram taluk - C.Kothangudi village - Lease for Annamalai University - Technological Institute - Further report - Submitted.

Board's Reference No.I.1876-46-1 dated 22--7--1946.

----

The copy of the letter from the Registrar of the University recevied with the Board's reference is resubmitted.

2. The several points raised by the Registrar of the University are dealt with below:--

(a) The Registrar compares the areas of ~~the~~ campus available for several Universities. This is not the criterion for starting acquisition proceedings. It may be that state land was available and alienated to the Universities mentioned by the Registrar. Further, he has given no information as to the courses of study and the number of students in the Universities mentioned by him with a view to find out whether the extent available in the Annamalai University compares favourably with the other Universities.

(b) The existence of the rice mill on the site dedicated to Umapathi Sivashariyar covers an extent of 4.0 acres

in all. The Registrar alleges that the lease deed in the case was current upto 1946 and that it has been extended upto 1950 seeing that the University requires it. A major portion is used as Mill site. The rice mill was inspected by three Collect All of them have unanimously expressed the opinion that the rice mill cannot be disturbed till the Food situation improves. The argument of the Registrar that the lease period was got extended only on knowing the requirement of the University is not sound. The decison to postpone the acquisition was taken long ago.

(c) The Registrar adds that new shrines not fit for workship because of architectural defects have been set up in a hurry in April 46 and "Kumbabishegam" performed with a view to obstruct acquisition.

(d) As regards the shrine of Pethan Samban it is doubtful if his bones were interred in the site as a tradition embodied in a verse is that he passed away in a village five miles away.

(e) Defective new dieties, false traditions and preposterous claims which cannot bear a moment's scrutiny have been set up before the Collector.

As regards the points raised under (c) (d) and (e) above, I have to point out that we are not concerned about the issue whether the remains of Pathan Samban were interred there or not. There is popular faith and belief and worship is going on. This cannot be meddled. The site that now exists is considered necessary for worship and cannot be interfered with.

(f) The site said to be Alaganachi Amman temple is also required by the University and the extent of 0.21 cents of the supposed temple is occupied by a smithy. There are transactions of several sales on this site and the University can get it by private sale but this is not done as a perfectly valid title may not pass where a claim as God's ground has found a place in the Government records. The necessity for the smithy as an adjunct to the rice mill was already made clear in para 3(concluding portion) of this office report Roc.No.20276-44 dated 9-11-45. The Registrar states that this site has been sold and resold several times and that the University can get it at private sale but for the fact that it is supposed to be temple property. But the smithy continues to be there all the same and it is found to be a necessary djunct to the rice mills. The question of acquiring this field has also to be deferred till the acquisition of the site covered by the Mill is taken up.

(g) Other sites further east measuring about 50 acres forming a block are also required by the University for play grounds, hostels and staff quarters to be continguous to be College and

(h) All the vacant sites could not be occupied immediately for want of funds, building materials and transport facilities.

The two points referred to under (g) and (h) are self contradictory. If the University cannot find funds and building materials to be construct quarters on sites already acquired, it is not clear how it will find funds for acquisiting 50 acres and for constructing buildings for technological institute etc , and quarters for staff.

(i) The vacant portions can be occupied with the permission of the Collectorunder the Grow More Food Campaign. The Registrar states that after acquisition, the sites will be brought under cultivation under the Grow More Food with the Collector's permission. It is thus clear that the University does not propose to utilise the sites immediately after acquisiti for building purposes. It may therefore apply for acquisition as and when necessity arises and need not acquire large blocks.

(j) The number of students is increasing every year.

P.T.O.

65

It is true that the number of students in the University has increased and several new courses of studies have been opened. But it is for consideration whether the University has established its necessity. Land Acquisition proceedings have to be initiated only when land is actually required for public purposes and not for requirements at a future date.

3. A copy of this report Roc.No.B,4.20276-44 dated 9-11-45 called for by the Board is enclosed. The application of the Registrar dated 20-1-46 referred to was submitted to the Government as an enclosure to this office Roc.No.B.4.20276/44 dated 29--5--1946 and it is not therefore available with me. A copy of the Government Memo No.52878-C/44-13 dated 24-1-46 is also enclosed.

JUL 1947
AND PUBLIC HEALTH

Sir,

Land Acquisition - Chidambaram taluk - Annamalai University - Technological Institute etc. temporary staff - proposals submitted.

Memorandum from Government (Education and Public Health) Madras No. 52878/G.3/46-20 Edn., dated 19-3-47

56068

P68 ante

In their memo cited above, the Government have called for the necessary notifications under the Land Acquisition Act for the acquisition of land measuring about 42.71 acres in the villages of Kothangudi and Tiruvakulam of Chidambaram taluk for the construction of hostel and quarters and for use as play-grounds for the students of the Annamalai University. The Registrar, Annamalai University has sent the revised application with land plans and schedules to the Tahsildar Chidambaram on 1-6-47

2. The lands proposed to be acquired lie in two ~~pa~~ villages and the extent involved is about 42.71 acres. The Revenue Divisional Officer Chidambaram reports that there are about 18 land acquisition references including the present one pending in the Taluk office Chidambaram. Having regard to the large number of land acquisition references already pending in the taluk and the volume of additional work involved, the Revenue Divisional Officer, Chidambaram considers that the employment of an additional clerk and a Special Revenue Inspector is necessary. In view of the urgency of the matter, I recommend that the Board may be pleased to obtain the sanction of the Government for the employment of two lower division clerks one to work as clerk in the Taluk office Chidambaram and the other to work as a Special Revenue Inspector for the work, for a period of three months from the date of appointment.

for Collector.

PRIME MINISTER 25 JUL 1947 GOVT. OF MADRAS

SECRETARY TO GOVERNMENT 26 JUL 1947 EDUCATION AND PUBLIC HEALTH DEPARTMENT

4482

Honoured Sir,

60542 We the undersigned, residents of Annamalainagar, Thiruvakulam Vattam, Chidambaram Taluq, South Arcot District, beg to submit the following for your honour's kind consideration and favourable orders:-

About 500 acres of wet and dry fields, sufficient enough for the construction of buildings for the use of the Annamalai University, are at the disposal of the University authorities. Out of this extent, the area occupied by buildings is about 270 acres and there is still an area of 230 acres as cultivable lands and waste lands. Besides the above, in C.Kothangudi village, there is an area of 150 acres acquired for the University for the erection of University Buildings, up to the railway road. While thus the University is in possession of the abovesaid extent, it has been notified on 20-6-47, for the acquisition of R.S.Nos. 155, 163, 177 and 179 for University purposes, all comprised in Thiruvakulam village. We object to the above notification as hereunder.

R.S.155 of the village is Gramanatham while the rest forms the village side. In this area, at present there are about 120 families. We have been living in the village from a long time past. Further, we have given our wet and dry fields for University purposes, either by acquisition or exchange or sale. The site which the University now seeks to acquire, is the place where our families have been living from time out of mind and owing to the increase of population, there is congestion in the village. We are contemplating for the acquisition of sites for our own residential purposes as we richly deserve the same. We submit that Government would afford us the extension sought for herein.

At the time when our lands were acquired for the use of the College, the Chancellor of the University Raja Sir Annamalai Chettiar, has promised that he would never ask for acquisition of the land now asked for, for the use of the University.

If any site is really necessary for the University, the site comprised in C.Kothangudi limits, is enough for their purposes. It is not justifiable to acquire sites where we have been living from time immemotial, by evicting us, for the cause of education while the University has got vast extent of land for the purpose as stated above.

We therefore most humbly pray that your honour will be pleased to inspect the site in person and remedy our grievances. We also submit that till the disposal of our objection petition all actions regarding the acquisition of the sites, survey and the fixation of prices, may be suspended and stay granted to us.

We have authorised Sri S.A.Krishnaswami of our village to represent the matter on our behalf to Government and request that he may be communicated in this behalf.

Thiruvakulam,

3-7-47.

To

The Hon'ble Premier, Government of Madras,

Madras.

63

Hon'ble the Premier
Government of Madras

Asst. Secretary, Education and Public Health Dept.
9 - APR 1948

Secretary, Edn. and P.H. Dept.
7 - APR 1948
Government of Madras

Respected Sir,

We, the undersigned villagers of Thiruvetkalam, Chidambaram Taluk, South Arcot District beg to submit the following for kind perusal and favourable consideration.

We come to understand through the Revenue Officials of this division that we are directed by the Government of Madras to submit our opinion in our village as a whole ( house-site patta and Natham ~~xxxxxx~~ lands including the street) being acquired for the use of the Annamalai University.

26068

First of all, Respected sir, We beg to state that we have been sincere and broad minded enough to sell a good deal of our own patta lands on which the present University Buildings stand, to the Pro-Chancellor the Rajah Saheb of Chettinad, for the sacred purpose of founding the Meenakshi College. Later When that college was converted into the Annamalai University we have been very magnanimous to part with our patta lands even while most our very vulnerable plots of our property was acquired. During the last acquisition when we pleaded for reasonable rates in the High Court of Madras the Pro-Chancellor has promised us that he would never meddle with our village proper in future.

Secondly we beg to ~~pin~~ point out ~~out~~ that when the authorities of the Annamalai University including the Pro-Chancellor tried to change the name of this holy village Thiruvetkalam to Annamalainagar in November 1929, we protested against the idea for the reason that this village is in existence from the time immemorial and the Government were pleased to pass orders directing the authorities to restrict the new name Annamalainagar to the University area only and to continue the original name of the village Thiruvetkalam unaltered in the Government records.

Now, when we are asked to leave the very village in which our ancestors have been living from the remotest past, it seems Respected Sir

113

~~35~~ 114

64

that they are conspiring to erace out our village by tolling the knell, the acquisition.

The very names of our families such as "Peria pannai, Chinna pannai, Vadthiar vahaiara and Munsifdar valavu " which comprise now the whole village bear testimony to the respectable decency and antiquity of our village, crimpled and surrounded today by latrines.

Further, we are in no way a hinderence to the University at all times and the whole village is much reduced and set aside to one corner as pointed out in the plan attached.

Besides, a large number of fields and plots of land in the suberbes of Usupur, the whole of C. Kothangudi and in many parts of our village acquired some 15 years back in the name of the University, is even today either cultivated or kept vacant which spots may best be utilised for the very purpose acquired for. When compared to the spaces lying vacant the area of the village proper is so small that it cannot play a great and important part in the use of the University.

It is stated that they acquire our village for the extension of the Staff quarters and Ladies hostel. We beg to present that for the construction of staff quarters there are ample spaces elsewhere towards the west and north of Annamalainagar and the Ladies' hostel may be extended in all dimensions behind the present Ladies' club.

Kindly permit us Respected Sir, to point out that all the plots of land they indicate for the transportation of this village are not at all suited to human living as the water obtainable in those places is too sour to drink. Moreover during the winter the whole area would be flooded and the some of them are always either marshy or wet-lands. Of late the Revenue Divisional Officer during his personal inspection of these plots has also recorded our objections to the acquisition and difficulties in the transportation. We regret that we were not all aware of the visit of the Member, Board of Revenue who is said to have come recently for this purpose. Had we been informed of his visit here, somehow or other we would have lodged our very strong objection in this matter.

Finally, we humbly request that we the villagers may also be allowed in the name of Justice to enjoy the benefits of the proposed village Reconstruction scheme instead of our ancient village being done away with, once for all, lead by the notions and motives of a few individuals

So, we with all humility and humbleness beg to state therefore, that our village should never be acquired at any cost and we may kindly be permitted to live in peace.

We beg to remain,
Sir,
Yours most obediently,

Thiruvetkalam,
20-3-1948.

Draft 4(i) noticication fpr the acquisition of 24-33 acres in Kothangudi village and 11-35 acres in Thiruvakulam village, Chidambaram Taluk for the construction of a hostel, quarters etc of the Annamalai University was submitted to the Secretary to the Board of Revenue along with this office Roc A6.20276/44 dated 12-4-48.

2. The ryots of Thiruvakulam raised objection to the acquisition proceedings and their objection was dealt with in detail in para 2 of this office letter cited above. They have again repeated the objection in their petition to Government, a copy of which has been received along with the memo No.52878/G3/48-23 Education and Public Health dated 17-4-48. As already reported by me thier objections may be ignored.

3. The Revenue Divisional Officer, Chidambaram brings to my notice that the Hon'ble Minister for P.W.D. inspected the sites in question on 6-6-48 and observed that the fact of his inspection may be indicated in the report. A copy of the representation received with the Government memo cited above is enclosed for Board's perusal.

Submitted to the Government.

2. The proposal relates to the acquisition of land for the construction of a hostel, and quarters for staff of the Technological Institute of the Annamalai University. The site was inspected by the Commissioner of Land Revenue ( S. Ranganathan Esq., OBE., ICS.,) in November, 1946. In its reference I.1876/46-3 dated 2-11-1946, the Board recommended the acquisition subject to the exclusion of certain S.Nos.(161/1B, 161/3B, 114, 115, 217 and 218) which it was not considered necessary or desirable to acquire. The Collector has now submitted a revised draft 4(1) notification in the light of the remarks of the Board referred to above. The Board considers that there is no substance in the objection petitions received against the acquisition, and recommends that the 4(1) notification may be approved and ordered to be published in the Fort St. George Gazette.

Sub:- LAND ACQUISITION - Chidambaram Taluk - Tiruvakkulam and C.Kothangudi villages - Annamalai University - Technological Institute Staff quarters etc. - Draft Notification under Section 4(1) of the Act - Submitted.

p68 ante

Ref:- Government Memo.No.52878-C-3-46-20, Education, dated 19-3-47.

---

pp62-63 ante

The Registrar, Annamalai University has applied for the acquisition of 42-71½ acres of land (30-37 acres in C.Kothangudi and 12.34 acres in Tiruvakkulam) for the construction of a hostel, quarters etc. of the Annamalai University. He has left out the S.Nos. mentioned in the Board's reference No.I.1876/46 dated 2-11-46, viz. R.S.Nos.161/1B, 161/3B, 114, 115, 217 and 218 of Tiruvakkulam, in his application. The Revenue Divisional Officer, Chidambaram has submitted draft 4(1) notification for the acquisition of 35.78 acres (24.43 in Kothangudi and 11-35 acres in Tiruvakkulam) after eliminating poramboke lands and such of the fields as are already registered in the name of the University or Raja Sir Annamalai Chettiar. The proposals involve the following categories of ~~xmdx~~ lands.

| | Classification | No. of fields |
|---|---|---|
| Tiruvakkulam | Natham poramboke | 21 |
| | Government dry | 6 |
| | Government wet | 5 |
| | | 32 |
| C.Kothangudi | Inam wet | 1 |
| | Inam dry | 1 |
| | Government wet | 16 |
| | Government dry | 14 |
| | A.W.Dry (Labour) | 10 |
| | | 42 |

2. OBJECTIONS: The ryots of Tiruvakkulam put in petitions to the Government raising objections to the acquisition of R.S.No.155/1C and 155/2B (Natham-Poramboke) of Tiruvakkulam The Revenue Divisional Officer, Chidambaram was requested to examine these S.Nos. on 2-3-48. In his notes of inspection (copy enclosed) he has dealt with the several objections. The objections raised by the inhabitants of these S.Nos. are (i) that if they are evicted from their place, they will have no suitable site for occupation any where in the area and (ii) that in R.S.155/1C there is a temple. The temple is a small tiled building where there is no idol. It is only a bhajana Matam(x) There is no sanctity attached to this temple and there is therefore no religious sentiment to be wounded by the proposed acquisition of this alleged temple.

pp151-152 infra

(x) and any building can be used as a bhajana Matham.

The residents in R.S.Nos.155/1C and 155/2B are mostly depending on the University for their livelihood. They get money by supplying milk etc. to the staff of the University and by doing manual labour. It is therefore natural that they are reluctant to go out of their present place which is very near to the University.

They first agreed to part with their lands if R.S.100 (a land at the disposal of the University) was given to to them in exchange. At the time of the Revenue Divisional Officer's enquiry, they did not want even this land. The University authorities offered some other lands under their control as substitutes. The objectors would not have any of them on the grounds that (i) good drinking water is not available and (ii) the fields would be water-logged during rainy season.

The Registrar of University says that the Board Member had inspected this area in 1946. The same objections were said to have been raised even at that time and they were considered by the Member. The Revenue Divisional Officer, Chidambaram considers the objections not worthy of consideration. He says that the existence of private bulding close to the University is inconsistant with the atmosphere of a University and that the owners should go out of the area. As recommended by him, the objections may be ignored.

3. OWNERSHIP: The names of owners so far ascertained have been furnished in the draft notification. Those of others, if any, interested in the lands will be furnished, in the draft declaration after enquiry under Section 5-A.

4. VALUATION:- The Revenue Divisional Officer, Chidambaram promises to report the correct valuation after inspection when submitting the Draft Declaration. The value of buildings has to be estimated by the P.W.D. and this will be done before the submission of Draft Declaration. There are also trees in some of the fields concerned and their value will be included in the total cost of acquisition There are no tombs. There is one temple & a bhajana manthiram (referred to in para 2) in R.S.No.155/1C of Tiruvakkulam.

p147 ante

5. In his application for acquisition of lands, the Registrar has stated that the objections of the owners have been duly considered and the selection of other suitable sites less open to objection was found impossible. He has also stated that provision has actually been made in the budget for the cost of acquisition. The University has to agree to the ordinary and special conditions subject to which the land will be alienated, to it after acquisition. A nominal contribution of one anna may be contributed from the Provincial funds towards the cost of acquisition.

6. I request that the draft notification under Section 4(1) submitted herewith may be approved and published in the Fort St.George Gazette.

7. The objection/ petitions received from the Government are submitted herewith. A topo sketch showing the lands ~~now applied for is also enclosed along with the~~ of the University and the lands now applied for is also enclosed along with the records of enquiry made by the Revenue Divisional Officer, during his inspection on 2-3-48.

## Copy of notes of Inspection of the Revenue Divisional Officer, Chidambaram, dated 2nd March, 1948.

-:o:-

1) Inspected on 2-3-48. The village officers, the Revenue Inspector, Head Clerk of the Annamalai University and a large number of ryots are present.

2) Objection has been taken to the acquisitionof R.S.No.155/1C and 155/2B . These two fields are behind the staff quarters and the ladies club of the Annamalai University. Only a street separates them.

3) Objections raised by the inhabitants in R.S. Nos. 155/1C and 155/2B chiefly are (1) that if they are evicted from that place, they will have no suitable site for occupation anywhere in the area (2) that in R.S.No. 155/1C there is a temple. I inspected this building. It is a tiled one. There is no idol in it. There is no sanctity or history attached to the temple. It is practically a building like a bajanai mandiram. Any building can be used as a bajanai mandiram. In these circumstances there can be absolutely no justification for any religious sentiment to be wounded. I see absolutely no objection to the acquisition of the alleged temple. ~~I see absolutely no objection~~ Any other building can also be used for the purpose for which the villagers are using it.

pp15-27

4) The residents in R.S. No.155/1C and 155/2B cultivate lands about 50 acres in all to the east of their dwelling houses. University is very close to them and they must certainly be making money by supplying milk etc. and labour and earning wages. Necessarily therefore, they are reluctant to go out of this place which is very advantageous to them from every point of view. The village is on sandy high ground and not easily liable to be water logged. It is close to the road, temple and kulam. Their lands are almost within a stone's throw. On the top of this they ~~from~~ form almost part of the University premises. Apprehending that all these advantages will be lost to them, they object to the acquisition and press that if they are evicted they cannot get any site from which they can conveniently cultivate their lands.

5) I have not been furnished with a copy of the inspection notes by the Hon'ble Member. The Registrar says that the Hon'ble Member did inspect the area. The existence of these houses so close to the University premises cannot but be a pest. The existence of private buildings in any case is wholly inconsistent with the atmosphere of a University. I think it is ~~not~~ but proper that these private individuals should be knocked out from the area.

A

6) The University authorities offered a number of fields under their control as substitutes for the fields now proposed to be acquired. The villagers who wanted R.S.100 are not now willing to accept that field. They state that it is low lying and liable to be waterlogged and unfit for human habitation. As the University authorities indicated that they were not willing to part with R.S.100 I asked them to show some other field which they are prepared to give. R.S.No.148 belonging to the University was pointed out. The villagers represented (1) that the field is saline in soil and will not be possible to have good drinking water in it. (2) that during rainy season the approach road which the University authorities indicated they would allow through R.S.No.160,,158 and 149 will be immersed under water and unfit for use and (3) that R.S. No.148 also is liable to be waterlogged during rainy season.

7) It is quite possible that at least during rainy season the approach road to R.S. No.148 will be unfit for use being waterlogged though R.S.No.148 which is fairly on a higher level will not be affected to the same extent. The soil of R.S.No.148 is however unfortunately saline. The ryots therefore represent that it will not be possible to strike good drinking water in this field and expressed that they are not in favour of settling on this field.

~~-2-~~ 6

In the area this is the only field which is best suited for the objectioners to settle. It is not very far away from the University or from the lands which these people cultivate. It is also very easy to form an approach road to it. There is a mariamman temple in the field which the settlers can worship. In R.S.No.142 which is close by there is apring water which the villagers can very well use. The objectors are very adamant and do not want this field.

9 Next the villagers were shown R.S.139. They raised practically the same objections as for R.S.148. Then the objectors were shown R.S.No.247, 248, 249, 240 and 250. The objectors have stated that none of these lands are suitable to them. Please see their statements enclosed. I do not think, that it can be considered to be a valid objection raised under the provisions of the Land Acquisition.x Act. That after an acquisition, the party will find it difficult to obtain land for xoccupation or cultivation legally therefore the objections raised cannot be held to be valid. It is only on compassionate grounds, outside the scope of the Act, that the objections raised may be given some consideration. It is because getting the sites for occupation is a problem, and construction of new buildings will be very costly, that one has to consider how these objectors will get on if they are asked to get out from their place. Unfortunately they are agriculturists and have to be within a reasonable distance from their lands. In the area the University owns almost a substantial portion of the lands. When they are prepared to give sites for occupation, the objectors should have had the good sense to accept. Unfortunately they are determined not to do so.

--2--

The construction of this temple is very recent. No deity has been installed in it, and the Aravan's head and parts of the Koothandavar's mud chariots may easily be removed to any other public place without wounding the sentiments of the people of the locality. When the villagers expressed their willingness in statements before the Tahsildar, they did not urge any objection to the removal of this temple.

Your obedient servant,

Ag. Registrar.

No. 7818
From 1710
THE REGISTRAR,
ANNAMALAI UNIVERSITY,
ANNAMALAINAGAR.

9th Octo

18 OCT 1948

To

The Secretary to Government,
Education and Public Health Department,
Fort St. George.

75275

Sir,

PP162-164 infra I am enclosing herewith a copy of my letter addressed to the Collector of South Arcot in regard to acquisition of lands for University purposes.

R.S.No.161/1B, of C.Kothangudi Village, is required for the Engineering Department of the University. The Objection taken on the ground that the said piece of land is required for religious purposes is not valid; for the land has been used for commercial purposes.

R.S.No.161/3B, said to be a Temple site, has passed on to private individuals by sales. The University has got an exchange from these individuals and purchased 17 cents out of 21 cents. The present Trustees have agreed not to utilise the remaining 4 cents in a manner prejudicial to the working of the classes of the University, but it is possible that in course of time the exchange of land already made is questioned by any new Trustee and thus the title to the field will become valid only if the land is acquired.

R.S.Nos.114, 115, C.Kothangudi, Nos.217,218, Tiruvetkala and Nos.175, 176, 177 of C.Kothangudi and No.102 of Usuppur, are in the three corners of the block to be formed of the University lands Nos.175, 176 and 177 are needed for extension for the Engineering Hostel as the residential rooms put up this year south of Goschen Road to accommodate 99 students will require considerable extension immediately as the total number of Engineering students to be acco modated is expected to be not less than 500.

The Women Students' Hostel now accommodating 110 stud has already annexed the Ladies' Club buildings. This hostel als clamours for extension. The need for privacy for this hostel in special, has been pointed out in a recent report of the Committe enquired into the affairs of the University. Now that additions to staffs of all grades have to be made and the housing problem for the staff has been most pressing here as elsewhere, the acquisition of Nos.217, 218 has been rendered immediately necessary.

The Municipal Council, Chidambaram, has agreed by Resolution No.146 dated 9-6-1948 to relinquish R.S.No.128, of Kothangudi, and it may be alienated to the University for use as playgrounds for the Engineering students.

I request that Government might be pleased to help the University in the acquisition of these plots.

Yours faithfully,

S. Satcitdanand Pillai

Registrar.

K.V.8-10.

Enclosure: 1.

E & PH (G3)

Please see the letter on pp 1-2 ante and its enclosures on pp 3-8 infra. [The main file on the subject has been subd. separately for orders] ~~The Collector's report on the letter on pp. 3-4 infra may be awaited till 30/10/48.~~

This will be added to the main file & dealt with on its return.

THE REGISTRAR,
ANNAMA
ANNAMALAINAGAR.

To

The Collector of South Arcot,
Cuddalore N.T.

88

Sir,

I am thankful that a draft notification under Section 4(1) of the Land Acquisition Act has been sent to Government. I notice that 35.78 acres (24.43 in Kothangudi and 11.35 acres in Tiruvetkalam) have been notified for acquisition. I have to request the favour, by order of the Vice-Chancellor, of proceedings being instituted in respect of the following fields also, for the reasons specified below against each.

R.S.No.161 1/B of C.Kothangudi Village has been excluded possibly on 'religious' objections by Sri Kumara Devar Mutt of Vriddhachalam. If this land had been used exclusively for religious purposes the University would have acquiesced in dropping the proposal. As a matter of fact buildings are being put up for commercial purposes. There is a recent addition of an electric oil mill to the existing rice mill. In addition, cattle sheds and other structures for mill purposes have been put up and the entire area has been walled off with mud walls as intimated by me in my letter No.5893 d. 25-10-1945 (copy enclosed for convenience and ready reference). The lease of the superstructure for the originally stipulated period of 3 years from 1939 seems to have been extended, first for 2 years and then for 3 years. The improvements in the area in the shape of masonry are made by the temporary lessee, and not by the owner of the mutt. The temporary new structures for apparent renovation of shrines with stone specimens mutilated in parts, have all disappeared, and no trace of any puja offering for the new idols consecrated on the eve of the Revenue Divisional Officer's visits is found today. I have therefore to request that the Temple premises be used for cultural purposes and as much of the 4 acres as is reasonable be acquired for the University. The Saiva Siddhanta School or Library talked of by the authorities of the Mutt has taken no concrete shape.

r mill by

of the site in Vellampadugai within 4 miles of Chidambaram, the reasons advanced in 1944-45 may not operate now. I request the favour of necessary recommendations for the site being acquired.

noted

R.S.No.161/3B, said to be Alagainachiamman Temple site, has passed by sales to private parties. As submitted in No.4274 dated 2-9-1946, the University has got an exchange and purchased 17 cents out of 21 cents. The "trustees" of the said temple have undertaken not to utilise the 4 cents remaining with them in any manner prejudicial to the interests and the proper working of the classes of the University, it is possiblethat the exchange is questioned in course of time by any new trustee, and therefore the title will become valid only if the land is acquired. It is therefore requested that these lands in C.Kothangudi in R.S.No.161/3B be also acquired under the Land Acquisition Act.

R.S.No.114, 115, C.Kothangudi, Nos.217, 218 Tiruvetkalam and Nos.175, 176, 177 of C.Kothangudi and No.102 of Usuppur, are in the three corners of the block to be formed of the University lands. Nos.175, 176, 177 are needed for extension for the Engineering Hostel as the residential rooms put up this year south of Goschen Road to accommodate 99 students will require considerable extension immediately as the total number of Engineering students to be accommodated is expected to be not less than 500.

The Women Students' Hostel now accommodating 110 students has already annexed the Ladies' Club buildings. This hostel also clamours for extension. The need for privacy for this hostel in special, has been pointed out in a recent report of the Committee which enquired into the affairs of the University. Now that additions to staffs of all grades have to be made and the housing problem for the staff has been most pressing here as elsewhere, the acquisition of Nos.217, 218 has been rendered immediately necessary.

The Municipal Council, Chidambaram, has agreed by Resolution

சமுகத்துக்கு

20 JAN 1946 CHIDAMBARAM

**சிதம்பரம் வாசிகளின் வேண்டுகோள்.**

சிதம்பரத்தில் ஸ்ரீ உமாபதி சிவாச்சாரியார் மடம் என்பது சிதம்பரம் ரயில்வே ஸ்டேஷனுக்கு கீழ்புரத்திலிருக்கிறது. மேற்படி மடம் ரொம்பவும் புராதனகாலம் தொட்டுள்ளது. மேற்படி உமாபதி சிவாச்சாரியார் சைவ சித்தாந்த மதத்திற்கு பெரிய தலைவர். அவர் தில்லை மூவாயிரத்தவர்களில் ஒருவர். மேற்படியார் பல்லவ அரசர் காலத்தில் ஸ்ரீ நடராஜப்பெருமானின்னருள் வெளிப்படையாகத் தெரியும்படி, தான் மெய்யடியார் என்பதை பெற்றான் சாம்பானுக்கும் முள்ளி செடிக்கும் முக்தி கொடுத்தவர். மேலும் ஸ்ரீ நடராஜர் உற்சவம் கொடியேறுமிருந்த, கொடிக் கவி பாடி, கொடியை ஏறும்படி செய்தவர். ஆகையால் மேற்படி மடமானது சைவ மதத்தின் உறைவிடமானது. வருஷந்தோறும், மாதந்தோறும் குருபூஜைகளும், அடியார்க்குக்கு அன்னமளிப்பதும் நடந்து வருகிறது. இப்போது இருக்கப்பட்ட இடமானது, மடத்துக்கு இரண்டு சன்னதிகளும், பிரகாரமும் நந்தவனமுமாகவிருக்கிறது. சன்னதிக்கு நேரேயுள்ள இடம் குருபூஜை காலத்தில் டெம்பரரி பந்தல் போட்டு சாப்பாடு போடுவதற்கும், மத சம்பந்தமானவர்கள் வந்து கூடுவதற்கும் முக்கியமான இடமாயிருக்கிறது.

இப்பொழுது மேற்படி இடங்களை அக்விசிஷன் செய்யப் போவதாகத் தெரிகிறது. அப்படிச் செய்வது மதவிஷயத்தில் தலையிடுவதாகவிருக்கிறது. மேற்படி மடத்தின் டிரஸ்டியோ, கவர்மெண்டாரோ எந்தக் காரணத்தை முன்னிட்டும் மேற்படி மடம், கோவில் நந்தவனம் முதலான இடங்களை அக்விசிஷன் அல்லது பரிவர்த்தனை செய்வது சட்டத்திற்கும் நியாயத்திற்கும் விரோதமானது.

ஆகவே தயவு செய்து மேற்படி இடங்களை அக்விசிஷன் செய்யாமலிருக்கும்படி வணக்கமாய்க் கேட்டுக் கொள்ளுகிறோம்.

சிதம்பரம் தாலுக்கா வீர சைவ மகா ஜனங்களின் விண்ணப்பம்.

சிதம்பரம் கொத்தங்குடி தோப்பில் ஸ்ரீ உமாபதி சிவாச்சாரியார் மடம் ஒன்று இருந்து வருகிறது. மேற்படி ஸ்ரீ உமாபதி சிவாச்சாரியார் எங்கள் மதத்தில் பெரிய ஆசாரியார். தில்லை மூவாயிரத்தவர்களில் ஒருவர். மேற்படி மடாதிபமானது எங்கள் குரு பரம்பரையின் ஆதீனத்துக்குள்பட்ட நிர்வாகத்திலிருக்கிறது. நாங்கள் தினசரி வந்து பூஜித்துக்கொண்டிருக்கிறோம். புலவர்சிட்டிக்கு மேற்படி மடத்துக்குள்ள இடங்களை அக்விசிஷன் செய்யப் போவதாக கேள்விப்பட்டோம். மேற்படி மடாதீனத்துக்கு இப்போது இருக்கப்பட்ட இடங்களே போதுமானதில்லை. ஏற்கனவேயிருந்த ஆதீனத்தால், மேற்படி மடத்துக்குச் சொந்தமாக இதர இடங்களை பரிவர்த்தனை செய்ததே தவறு. இப்போதிருக்கப்பட்ட இடம் குருபூஜை காலங்களுக்கும், உத்சவ காலங்களுக்கும் போதுமானதாக இல்லை. சந்நதிக்கு நேரே கொஞ்சம் இடம்தான் இருக்கிறது. குரு பூஜை காலத்தில் பந்தல் போடுவதற்கும், சாப்பாடு போடுவதற்கும் அது அவசியம் தேவையாயிருக்கிறது. மடத்தின் தெற்கிலிருக்கும் மூலவர் சன்னதியும் கிழக்குப் பார்க்கவிருக்கும் வீரபத்திர சுவாமி சன்னதியையும், பிள்ளையார்கோவில் சன்னதியையும் ரோடு வரையில் பொது ஜனங்களின் தரிசனத்துக்கு முக்கியமானது. மேற்படி இடங்களை அக்விசிஷன் செய்ய வேண்டிய அவசியமேயில்லை. புலவர்சிட்டிக்கு, வடக்கு, தெற்கு, மேற்கிலும் ஏராளமான காலியிடங்கள் இருக்கின்றன.

ஆகையால் மேற்படிஇடத்தை தாங்கள் நேரில் பார்த்து அக்விசிஷன் செய்யாமல் இருக்கும்படி கேட்டுக் கொள்ளுகிறோம்.

To

The Revenue Divisional Officer,

Chidambaram.

Revenue Divisional ... 2 JAN 1948 CHIDAMBARAM

Objection to acquisition of land submitted by Sri La Sri Subramania Sivaprakasa Pandara Sannadhigal, Head of Kumaradevar Matam, Vriddhachalam.

1. The plot of land in S.No.161/B of C. Kothangudi village, Chidambaram Taluq of the area of 4 acres belonging to the above Mutt of which Subramania Sivaprakasa Pandara Sannadhi is the present Adhinakartha.

2. In the plot abovementioned, there is a Mutt called the Umapathi Sivachariar Mutt in which, is installed a stone image of the saint and to whom the daily puja is performed. There are also other deities in the said Mutt of Pillayar and Veerabadraswami. There is a separate Pillayar Temple in the said plot.

3. The Mutt above mentioned and the temples are ancient institutions devoted mainly to the worship of the famous Saint Umapathi Sivacharyar, and worshippers from all places in the Tamilnad resort to the said Mutt and temple to worship the Saint.

4. The Annamalai University has acquired all lands between the Chidambaram Railway station and the University buildings except the piece of land belonging to the Mutt. From out of the lands owned by this Mutt, about 10 to 12 acres of land have been originally parted with with the consent of both the parties and now there is a vacant space of over 50 acres of land so acquired. While so, there is absolutely no need for the University for any additional area. Under any circumstances, there is no justification for the acquisition of any part

19

The acquisition proposed, is detrimental to the communal and religious interests of the public.

5. The authorities of the University, have been making attempts to acquire the plot also with the desire of having in their exclusive ownership the entire land east of the railway station and their attempts did not succeed till now.

6. Recently revenue officers came and sub-divided the plot with a view to acquire patches of the said plot leaving out the temples and a narrow passage and I was informed of it.

7. The University has lands everywhere to the west and north and south wherein they can erect suitable buildings and the plot of land in question need not be cut to pieces and acquired for the University. It will cause destruction of the Mutt and the temples by narrowing the space required for assemblage of pilgrims by obstructing the Sannadhi and by causing irreparable damage to the institution.

8. The contemplated acquisition is more to satisfy the prestige of the University than for a public purpose. The portions proposed for acquisition are hatched in pencil in the sketch annexed. The northern patch measures about 48 cents. The western patch which extends in a zig zag manner on the northern site of the rice mill measures about 69 cents. Another patch measuring 68 cents is absolutely necessary for Nandavanam of the Sri Sivacharier temple and a road from the temple connecting the Sivapuri road. It is for consideration if such patches will really be useful to the University. On the other hand, the acquisition of these patches will be detrimental to the interests of the Mutt.

9. I therefore pray that an enquiry may be held that the plot may be inspected and that a report may be sent to the

Government to drop the proceedings.

The above was read and explained to me in Tamil and I declare that what is stated herein is true to the best of my information and belief.

Vriddhachalam,
21-1-1946.

To

The Collector of

South Arcot, Cuddalore N.T.

COLLECTOR'S OFFICE
22 JAN 45
SOUTH ARCOT

Objection to acquisition of land submitted by Sri-La-Sri Subramania Sivaprakasa Pandara Sannadhigal, Head of Kumaradevar Matam, Vriddhachalam.

1. The plot of land in R.S.No.161/B of C. Kothangudi village, Chidambaram Taluq of the area of 4 acres belonging to the above Mutt of which Subramania Sivaprakasa Pandara Sannadhi is the present Adhinakartha.

2. In the plot abovementioned, there is a Mutt called the Umapathi Sivachariar Mutt in which, is installed a stone image of the saint and to whom the daily puja is performed. There are also other deities in the said Mutt of Pillayar and Veerabadraswami. There is a separate Pillayar Temple in the said plot.

3. The Mutt above mentioned and the temples are ancient institutions devoted mainly to the worship of the famous Saint Umapathi Sivachariyar and worshippers from all places in the Tamilnad resort to the said Mutt and temple, to worship the Saint.

4. The Annamalai University has acquired all lands between the Chidambaram Railway station and the University buildings except the piece of land belonging to the Mutt. From out of the lands owned by this Mutt, about 10 to 12 acres of land have been originally parted with with the consent of both the parties and now there is a vacant space of over 50 acres of land so acquired. While so, there is absolutely no need for the University for any additional area. Under any circumstances, there is no justification for the acquisition of any part of R.S.No.161/1B. The acquisition proposed, is detrimental to the communal and reli

interests of the public.

5. The authorities of the University, have been making attempts to acquire the plot also with the desire of having in their exclusive ownership the entire land east of the railway station and their attempts did not succeed till now.

6. Recently, revenue officers came and sub-divided the plot with a view to acquire patches of the said plot leaving out the temples and a narrow passage and I was informed of it

7. The University has lands everywhere to the west and north and south wherein they can erect suitable buildings and the plot of land in question need not be cut to pieces and acquired for the University. It will cause destruction of the Mutt and the temples by narrowing the space required for assemblage of pilgrims by obstructing the Sannadhi and by causing irreparable damage to the institution.

8. The contemplated acquisition is more to satisfy the prestige of the University than for a public purpose. The portions proposed for acquisition are hatched in pencil in the sketch annexed. The northern patch measures about 48 cents. The western patch while extends in a zig zag manner on the northern site of the rice mill, measures about 69 cents. Another patch measuring 68 cents is absolutely necessary for Nandavanam of the Sri Sivachariar temple and a road from the temple connecting the Sivapuri road. It is for consideration if such patches will really be useful to the University. On the other hand, the ~~a~~ acquisition of these patches will be detrimental to the interests of the Mutt.

9. I therefore pray that an enquiry may be held, that the

plot may be inspected and that a report may be sent to the Government to drop the proceedings.

The above was read and explained to me in Tamil and I declare that what is stated herein is true to the best of my information and belief.

Vriddhachalam,

TWELVE ANNAS 12A

Before the Revenue Divisional Officer, Chidambaram.

No. of 1946.

Petitioner N.A.Nayana Naidu, Proprietor, Sri Ram
Rice-Mill, C.Kothangudi, Chidambaram.

...

wt up Conected
papers and
[illegible]
immediately

Petitioner begs to bring to your honour's kind attention that there are certain proposals for acquisition of certain portions in and around petitioner's mill premises, for the Annamalai University. Petitioner has been using the mill premises from 1918 onwards by himself and his predecessor in title. The said place belongs to Sri Komaradevar Mutt, Vriddhachalam. Near the mill premises, is the famous Sri Umapathi Sivachariar Mutt, where the remains of the famous Sri Umapathi Sivachariar are ~~entered~~ interred and daily puja etc is being done for the Sivalingam there. The mill premises has been leased out from 1918 onwards to petitioner's predecessor and the petitioner by the successive Madathipathis and on the strength of that lease, large sums of money have been invested in erecting and installing the rice mill machinery etc there.

At present petitioner has a lease-hold right over the
n by virtue of the rental agreement dated 24-5-43 executed
and petitioner and the Madathipathi under the terms of which
titioner is entitled to continue in possession till 1950
h an option of renewal. Having regard to the big capital
respect of the business, the site is absolutely neces-
r the petitioner for the mill premises with a formal
of rental agreement from 1950.

Certain places in and around the mill premises are now
oposed to be acquired for the Annamalai Universit

connection, petitioner begs to invite your honour's attention to the fact that large tracts of land which have been acquired for the purpose of the University, have not yet been used till now for the purpose for which they were acquired years ago and the University authorities, are attempting to acquire the other sites also merely out of considerations of prestige and with a view to possess all the tracts of land to the east of the rail line, and thereby excluding all private ownership over the said tracts

The plots now proposed to be acquired are absolutely unnecessary for University purposes from any point of view. A perusal of the previous files relating to this matter, will clearly go to show that your honour's predecessor Mr. Vaidyanatha Iyer, who inspected the spot, found that the sites in question are absolutely unnecessary for any University purpose and the said opinion was approved by the then Collector of South Arcot Mr. Bennett, who also personally inspected the sites.

If your honour is pleased to inspect the site person after notice to the petitioner, petitioner will clearly s stantiate his grievance that none of the proposed sites in any way necessary for any University purpose. But on other hand, they will be causing a good deal of trouble inconvenience to the petitioner as also causing irrep loss and injury to the trust itself. In this connec petitioner has already submitted his statement o to the proposed acquisition last week, which pet may be treated as part and parcel of this petition

---

versity should requi

of lands in between the various plots of the mill ises as well as the mutt and its Nandhavanam as well as the pathway leading to the Mutt. It is only an attempt on the part of the University authorities to have the mill as well as the machinery etc removed and hand over the entire site to the University which is absolutely unnecessary for them for any purpose whatsoever.

One other point to be mentioned in this connection is that there are several rice mills situated in and around the locality and having regard to the fact that Chidambaram is a large paddy growing area exporting rice and paddy and having regard to the position of the town surrounded on three sides by wet fields, the only place where these mills could be installed and run without any danger or harm to the health of the public in Chidambaram town, is by locating them on the sites now in question and nearby and the area is also declared to be a heavy industrial area especially for the purpose of running the rice mills there.

Large tracts of land which had already been assigned to the University, are lying waste. If the sites now in question are acquired for the University and these mills are dislodged, it will cause great dislocation and stoppage of paddy and rice export which is of far greater importance than acquiring these sites for the University.

Petitioner finally requests that your honour may be ased to personally inspect the site after notice to peti- oner so that your honour may feel convinced about the objec- ons of the petitioner to the proposed acquisition being very asonable and just. A plan of the locality is herewith which may be

Petitioner therefore most humbly prays tha may be pleased to inspect the site after notice to tioner and drop further proceedings in respect of the proposed acquisition.

Chidambaram,

1st March, 1946.

Petitioner.

Put up
Corrected
Recd
27.2.46

From

Sri. La. Sri. Subramaniya Sivaprakasa Pandara Sannadigal,
Sri Kumarada Devar Mutt,
Vriddhachalam.

To

The Revenue Divisional Officer,
Chidambaram.

Honoured Sir,

In C.Kothavangudi village near Annamalai Nagar is a temple dedicated to saint Umapathi Sivacharya one of the ancient 3000 -- Dhikshathars who did puja to Sri. Nataraja. The Samadhi of the saint is inside the temple where idols Sri. Virabadra Swami --- Vinayagar are also installed. Saint Umapathi Sivacharya was the - chief founder and exponent of Siva Siddantha. There is a Mutt also close by. Periodically large concourse of bakthas and pilgrims visit this place and attend festivals and gurupujas and for that purpose stay in the Mutt. In days gone by there were extensive properties dedicated to this shrine in and around it.

2. The history of the institution can be traced to fairly to 500 years. Over the entire period the shrine and the Mutt and the properties belonging to it have been in the exclusive management of the Swamigal of Sri. Kumara Devar Mutt Vriddhachalam in the capacity of Adinakarthar.

3. It appears that when the Annamalai University was founded Raja Sir Annamalai Chettiar obtained about [illegible] acres of land --- belonging to the Mutt from the then Swamigal leaving barely 4 acres in and around the temple and Mutt of Saint Umapathi situated in R.S.No[illegible]/B. As the income from the charity properties belonging to the Mutt was disminished and the expenditure increased, the -- then Adina Karthar leased out a portion of the vacant space by the side of the shrine and Mutt to a rice mill owner. The space now available besides the mill area is barely necessary for the temple purposes, the temple flower garden and the space for accommodating

large number of pilgrims who gather in the temple periodically.

4. To the north of R.S.161-B is situated 161-A which is private property of Raja Sir Annamalai Chettiar. To the south of R.S.161-B is R.S.161-C which also belongs to Raja Sir Annamalai Chettiar wherein also is a rice mill located. Across the Sivapuri Road to the east are extensive areas belonging to Raja Sir Annamalai Chettiar. To the south western corner of R.S.161-B is a big tank known Vellaikulam. A detailed plan also is attached herewith. To the west also Raja Sir Annamalai Chettiars own properties.

5. Last month we were informed that the temple alone is left out; and the rest of the space now occupied by the flower garden and the frontage of the temple and a strip of land to the south of the temple proper situated to the west of Mill premises and another strip of land to the south of the rice mill were measured and sub-divided by the Revenue authorities at the instance of Raja Sir Annamalai Chettiar who is said to have initiated land acquisition proceedings. We immediately addressed this court that there has been no notification or even notice to our Sannadhi and that the action of the authorities is likely to wound the religious ~~susce~~ susceptibilities of large section of people.

6. We again wish to impress upon this court that the proposed acquisition is neither necessary nor beneficial. On the other hand it is detrimental to the interests of an ancient institution the preservation of which must be the interest of one all concerned. large area is available in close proximity to the university itself. There is nothing but spite which induces the Raja to insist on getting this particular piece of land-

7. We wish to urge that consideration of prestige or personal spite is no ground for acquiring a property which is neither necessary nor beneficial and also to the detriment of an ancient religious institution.

8. It is therefore requested that the proposal to acquire the said site R.S. 161-B be dropped altogether.

We remain,

Statement of objections submitted by N.A.Nayana Naidu, Proprietor, Sri Ram Rice Mill, Chidambaram, with respect to the proposed acquisition of portions of properties belonging to Sri Umapathi Sivachariar Mutt, C. Kothangudi, Chidambaram.

...

1. In respect of the abovesaid proposed acquisition of the properties of the Mutt in C.Kothangudi, Chidambaram Taluq, I beg to submit that I am a lessee of the properties of the Mutt in C. Kothangudi on which my rice mill is situated and as per the registered lease deed entered into between myself and the Madathipathi, I am to continue in possession of properties as lessee under the Mutt till January 1950 with an option of renewal in my favour.

2. In the course of the proposed acquisition, a site to a width of 10 links within the mill compound and to the east of the Mutt has also been measured and marked out for purpose of acquisition. I beg to submit that the said place is absolutely necessary for the purpose of passage of carts to and from our mill godowns and there will be no ingress or egress to our godowns if that place is acquired. Since it is absolutely necessary for our purposes, I beg to submit that that site should not be acquired.

3. Another portion which contains a building situate to the north of our mill and adjoining the Mutt Nandhavanam is also included in the portion leased out to me and the place is used as a godown for storing paddy etc and it is also absolutely essential for our mill purposes. The said site also should not be acquired.

4. Both the sites proposed to be acquired are not at all necessary for any purpose of the University since extensive tracts have already been acquired/~~and~~ which have not yet been put to any use by the University. Either of the sites now proposed to be acquired are sought for by the University not out of any necessity but merely with a view to have all the lands east of the railway line up to the University without any reference to the needs or necessity, but merely out of consideration of prestige. Having regard to the fact that portions of the properties proposed to be acquired are absolutely necessary to the Mutt itself and the portions are absolutely necessary for purposes of running our rice mill, I strongly object to the proposed acquisition.

Chidambaram,

23-2-1946.

COLLECTOR'S OFFICE
26 APR 1946
SOUTH ARCOT

Sir,

Sub: Land Acquisition - Chidambaram taluk - C. Kothangudi village Technological institute - Annamalai University - [illegible] report submitted -

Reference: Your Roc. B4.20276-44. dated 28-12-1945 and 12-4-4[illegible]

---

In this office Roc.10945-44 dated 10-[illegible] predecessor reported that it was not possible to acquire R.S.161/1B which contains a temple of substantial structure and a rice mill also containing a pucca building besides the mechanical installations and that the residual area to be acquired in this field would be negligible. The Government in their memorandum No. 52878-C-44-11 dated 22-12-45 (Education and Public Health Department) ordered that it would be sufficient for the present to proceed with the acquisition of R.S.161/1B excluding the temple dedicated to saint Umapathi Sivachariar, the adjoining rice mill and its grounds, the road leading from the temple to the Vellakulam tank and another temple closeby.

2. Proposals with draft notification under Section 4 of the land Acquisition Act, draft declaration sub division records records of enquiry and valuation statement by the Tahsildar alone were received from him with his D. Dis. 82. 358-46. dated 15-3-46. The Sub Division records containing plotted sketches and sub division statements are submitted for reference.

3. The following objection petitions have been received along with the proposals of the Tahsildar and separately.

The residents of Chidambaram have presented a petition dated 16-1-1946. They say that the mutt is an ancient institution. As festivals and puja are done monthly and annually the space opposite to the Sannadhi is used for assembling persons at the time of the Gurupuja in Chitrai and that to acquire any portion of the land is to interfere with the religious susceptibilities of a section of the public.

The residents (Vira Saivites) of Chidambaram taluk in their petition dated 16-1-1946 state that they are daily offering puja to the mutt, that the existing sites for the mutt are inadequate for its purposes, that it was improper that certain lands belonging to the trust were already alienated to the Founder of the University, that the existing vacant sites are absolutely required either for Sannadhi or during Guru Puja or the annual festival to accommodate and feed devotees.

Sila Sri Subramaniya Sivaprakasa Pandara Sannadhigal Head of Kumaradevar Mutt, Vridhachalam in his petition dated 21-1-46 says that out of the lands owned by the mutt, about 12 acres have been originally parted with to the Rajah Sir Annamalai Chettiar and there is no justification to acquire any part of R.S. 161/1B

Though the mill grounds have been excluded from the acquisition, Sri N. A. Navana Nayudu says that the mill premises including the other vacant plots have been leased out to him from 1943 to 1950 with an option of renewal, that on the strength of the lease, large sums of money have been invested in erecting and installing the rice mill. The acquisition of the vacant sites causes not only trouble to the petitioner but loss & injury to the trust. From the lease the mutt is deriving an income of Rs.500/- and a free contribution of Rs.100/- annually. The portions now proposed to be acquired are said to be necessary for the purpose of the mill as they are also included in the lease deed.

4. In his letter dated 20-1-46 in reply to Government Memorandum No. 52878-C-44. dated 22-12-45, the Registrar of the University points out that in the portion excluded from acquisition for the mutt, ample provision has been made for the temple and prakarams round it, that the mill does not serve the main purpose of the mutt and may serve to distract the work in the Engineering College which is being built immediately west of the compound wall. The Registrar says that the proprietor of the mill is only a tenant till April 1946 and he has agreed to remove the superstructure and leave the land vacant at the expiry of the lease and that he will not therefore be much inconvenienced by his having to quit especially in view of the fact that he has a rice mill in Vallampadugai only 4 miles off and can supply the needs of the rationing area of Chidambaram, even

[illegible]

~~66~~

~~54~~ 63

area be also acquired.
5. As already stated the main source of income for the mutt
is the mill. The lease deed runs up to 1950. Sri Nayana Nayudu
has not agreed to remove the superstructure or to quit the place
The plots of land round the temple proper are required for the
temple and its adjuncts and the other plots are required for the
mill purposes. The necessity for the mill at present in the area
hasbeen conceded and inspite of the exclusion of the mill area
from acquisition theother plots covered by the lease deed are said
to be required for the purposes of the mutt or mill.
6. I inspected the sites again along with the objectors and
representatives of the University on 21-?-1946. On enquiry into
the objections on the spot, the Registrar of the University
suggested that the mutt which was almost in a neglected condition
has been recently made alive with compound walls, new dieties, new
flower garden and new gateways. He has however agreed that a
Sannadhi for themain idol facing South and a flower garden are
necessary. From the plotted sketch it may be seen that the mutt
is in 182 and the flower garden in 183. The Registrar however
suggests that instead of the flower garden in 183, a width of
20 feet on both sides of the Central pathway leading to the temple
from the tank in R.S.160 and a public pathway on the north bank
of the tank connecting the Southern exit fromthe temple premises
with the District Board Road to the East may be allowed while the
flower garden in 183, the mill area south of it and 184 the plot
further south of it may be acquired.
7. Though the temple of the mutt seems to be a shrine
which was insignificant and almost neglected till recently and
though improvements were made to it after the present proposals
to acquire portions of the site, still it cannot be desputed that
it is a temple dedicated to one of the famous saints of South India.
Though the entire extent of site adjoins the Engineering college
of the University, which is being built to the West of the compound
wall, the plots 181, 183 and 184 which can be thought for acquisition
with some hesitation are not compact enough either for the use of
the University or for the purpose of the mutt and the mill. If 184
is acquired along with 183 and 181 there is no public way to the
pathway provided at the Southern exit which falls on the north
bank of the Vellakulam tank. The Registrar says that the public
pathway may be provided on the north bank of the tank connecting
the southern exit and the District Board road in the East. This
will be on the bank of the tank(poramboke) which belongs to Govern-
ment. His request for acquiring the mill area - the site north of
184 and south of 183 is against the instruction of the Government
to exclude it. Not only is the temple or mutt deprived of its source
of income but also the purpose of the mill is jeopardized. There
are no pathways for carts to come and go out of the mill area if
the plots to the west, south and north of it are acquired. As the
mill has been in existence long before the proposed construction
of the Engineering college, the Registrar cannot now plead that the
mill could be a nuisance to the College. He ought to have thought
about the aspects before selecting the site for the College.
8. There is another mill to the South of the mill of Sri
Nayana Nayudu. The site of the mill belongs to Rajah Sir Annamalai
Chettiar who has leased it temporarily for the purpose of a mill
to Sri Markhandam Pillai. It is stated that this site may be used
as necessary adjuncts to the Technology and Engineering buildings.
I don't see any reason why the University authorities should not
utilise their own site first before they think of the property of
others. In all fairness the University authorities should utilise
first their own sites and the sites already acquired for or belonging
to the Founder. Instead of doing so, it is not proper that they should
think of acquiring the portions round about a temple.
9. As stated in paragraph 1 of this report the residual area
of 1.85 acres comprising three plots in three different places within
the compound of 4 acres of R.S.161/18 may be considered negligible.
This is probably the reason why the Registrar now suggests the
acquisition of the mill area also. I am not in favour of this.
10. The Registrar's letter contains reference to R.S.161/3
South Eastern corner, supposed to be the site of Alaganachi Amman
temple. I have inspected it. The so called temple has no structure
a stone and an iron rod are planted under two trees while east of it
is located a smithy. My predecessor has [illegible]
[illegible] nothing to do with [illegible] about it

BATTAI
STREET.

Field 161/B
C.Kothangudi
Chidambaram Taluq.

To

The Board of Revenue,

Madras.

The humble petition submitted by Srilasri Subramania Sivaprakasa Pandara Sannadigal of Sri Komaradevar Mutt, Vriddhachalam, Madathipathi Sri Umapathi Sivachariya Swamigal Mutt, C.Kothangudi, Chidambaram Taluq:-

Petitioner begs to submit this statement of his objections in respect of certain proposals for acquisition of portions in the plot of land in R.S.161/B in C.Kothangudi village, Chidambaram Taluq, of the total area of about 4 acres.

The said plot forms part of Sri Umapathi Sivachariya Swamigal Mutt, a very ancient institution. In the said Mutt there is the Samathi of Sri Umapathi Sivachariya Swamigal, one of the 3,000 Deekshitars, who did puja to Sri Nataraja and there is also installed the idols of Sri Veerabadraswami and Vinayakar in the said Mutt premises. The said Swamigal was the chief founder and exponent of Saiva Siddhantha and periodically large number of pilgrims attend and worship the saint in the said Mutt. There is also a separate Pillayar Temple in the said plot. The Mutt abovenamed and the temples, are ancient institutions devoted mainly for the worship of the famous saint Sri Umapathi Sivacharia Swamigal and worshippers from all places in the Tamil Nad, resort to the said Mutt.

When the Annamalai University was founded, about 13 acres of land belonging to the Mutt was acquired for the same from the then Swamigal of the Mutt, leaving a small extent of 4 acres in and around the Mutt in R.S.161/B. As the income from the properties belonging to the Mutt was rather small and heavy expenditure had to be incurred, a portion of the plot near the

Mutt temple premises in R.S.161/B about 1 acre 25 cents, was leased out to a Mill Owner and the income derived from him was utilised for the purposes of the Mutt and the temple. The plot now available besides the mill area, is hardly sufficient for the temple purposes, the temple flower garden and the space for accommodating a large number of pilgrims resorting to the Mutt periodically. To the north of R.S.161/B is situate 161/A which is the private property of Raja Sir Annamalai Chettiar. To the south of R.S.161/B, is R.S.161/C which belongs to Raja Saheb, wherein also a rice mill is located. Across the Sivapuri road to the east, are extensive areas belonging to the Raja Saheb and in the south western corner of R.S.161/B, is a big tank "Vellakulam". To the west also there are Raja Saheb's other properties. A plan of R.S.161/B was submitted showing the portions proposed to be acquired along with objections before the Collector of South Arcot.

The authorities of the University have been making attempts to acquire the plot with the desire of having in their exclusive ownership the entire land east of the railway station and their attempts did not succeed till now. A kind perusal of the previous files relating to the acquisition proceedings, will clearly go to show that the claims of the University for acquiring any portion out of the 4 acres now remaining with the Mutt and Temple, were repeatedly and successively turned down by the Revenue Department on the ground that they were not necessary for University purposes and also that the Mutt and the Temple, should not be deprived of even the very small extent now in their possession. The proposed acquisition is neither necessary nor beneficial. On the other hand, it is detrimental to the interests of an ancient institution and it is only considerations of prestige that make the University authorities repeatedly press for acquisition of portions in the small plot of land now in the possession

of the Mutt and temple and there is absolutely no public purpose involved in the same. The plot now in the possession of the Mutt and Temple will be mutilated by the proposed acquisition and even then, since the temple and the Samathi etc cannot be touched, the proposals if carried out, will only serve to practically close the institution without in any way adding to the convenience and having a continuous row of buildings for the University.

The buildings which the University have put up, were constructed only about 7 or 8 months ago and they have been so constructed mainly with a view to force the authorities, to close down the Mutt and the Temple and to acquire the other portions in the possession of the Mutt and the Temple and absolutely no useful purpose will be served by having any construction even on the portions proposed to be acquired and in view of the fact that neither the temple nor the Samathi and the premises can be touched in any manner or on any account whatsoever.

It is therefore prayed that the proposals to acquire any portion of the site in the said R.S.161/B, C.Kothangudi village, Chidambaram Taluq, be dropped altogether.

I beg to remain,
Honoured Sir,
Your most obedient servant,

Chidambaram,
27-11-46.

Sd. ...

(True copy)

Filed before the Board of Revenue on 30-11-46.

Vakil.

Before the Board of Revenue, Madras.

The humble petition submitted by N.A.Nayana Naidu, Proprietor, Sri Ram Rice Mill, Chidambaram, submitting his objections to the proposed acquisition of portions of property belonging to Sri Umapathi Sivachariar Mutt in R.S.161/B, C. Kothangudi village, Chidambaram Taluq.

The petitioner begs to bring to your honour's kind attention that the proposals for the acquisition of certain property in and around the rice mill premises and the Sri Umapathi Sivachariar Mutt and Temple in C.Kothangudi village, Chidambaram Taluq, for the Annamalai University, are objectionable from every point of view.

Petitioner has been using the mill premises from 1918 onwards by himself and his predecessors in title. The place forms part of the famous Sri Umapathi Sivachariar Mutt where the remains of the famous Sri Umapathi Sivachariar are interred and daily puja is being done to the Sivalingam there, and is attached to the Sri Komaradevar Mutt, Vriddhachalam. The mill premises have been leased out from 1918 to the petitioner's predecessor in title and the petitioner by successive Madathipathis and on the strength of the same, large sums have been invested in erecting a rice mill and machinaries there, at a cost of about a lakh of rupees.

At present, the petitioner has a lease hold right over the same by virtue of the rental agreement dated 24-5-43 executed by the petitioner and the Madathipathi, under the terms of which, petitioner is entitled to continue in possession till 1950 with an option of renewal. Having regard to the big capital sunk in the business, the site is absolutely necessary to the petitioner for the mill premises with a formal renewal of rental agreement and the other portions are absolutely necessary for the Mutt. A plan of the plot proposed to be acquired in R.S.161/B, was also submitted along with objections before the Collector of South Arcot.

In the course of the proposed acquisition of site, a plot of land to a width of 10 links within the mill compound and to the west of the Mutt has been measured and marked for purposes of acquisition. The said place is absolutely necessary for passage of carts to and from the mill godown and if that plot is acquired, there will be no ingress or egress to and from the mill godown. Another portion marked out for being acquired, contains a building situated north of the mill and the adjoining Mutt Nandavanam is also included in the portion and the building is used for godown and it is absolutely essential for our mill premises. These places were inspected by several high officers of the revenue department who have repeatedly turned down the proposals of the University for acquisition both on the ground that it is not necessary from the point of view of University and also that it would be detrimental to the interests of the Mutt, Temple and the rice mill. The plots now proposed to be acquired are absolutely unnecessary for the University from any point of view. There have now only recently put up buildings in and around the plot with a view to force acquisition proceedings and since the mill premises and the Mutt and the temple are in possession of only about 4 acres left, any portion of the said plot if acquired, will not be in any way convenient from the point of view of having a continuous row of buildings to the University since in any event, the temple and Mutt have to be left out: on the other hand, it will only result in practically closing down the mutt and the temple, a very ancient institution, which has been only recently renovated and Kumbabishekam done at a great cost.

In this connection, petitioner begs to invite your honour's attention to the fact that large tracts of land which have been acquired for the purpose of the University, have not yet been used for the purpose for years together and the University authorities are trying to acquire other sites merely out of considerations of prestige and with a view to possess all the tracts of land and thereby excluding all private ownership over the said property. The fact that there are no bonafides in the claim put forward on behalf of the University for the acquisition of the site in question, will be absolutely clear from a perusal of the previous files, the notes of inspection and the orders passed by successive high officials of the Revenue Department. The proposed acquisition will only result in irreparable loss and injury to the ~~tm~~ trust and also to the petitioner who has sunk very heavy sums in the mill installations. It is inconceivable why the University should acquire small strips of lands in between the mill premises as well as the mutt and its Nandavanam as well as the pathway leading to the Mutt. It is only an attempt on the part of the University authorities to have the Mill and the machinery removed and hand over the site to the University which is absolutely unnecessary for any purpose whatsoever.

One other point to be specially mentioned in this connection is that there are several rice mills situated in and around the locality and having regard to the fact that Chidambaram is a large paddy growing area exporting rice and paddy and having regard to the position of the town which is surrounded on three sides by wet fields, the only place where these mills could be installed and run without any danger or harm to the health of the public of Chidambaram town, is by locating them on the site now in question and nearby, the area also having been declared to be heavy industrial area specially for the purpose of running rice mills there.

Large tracts of land which had already been assigned to the University, are lying waste. If the site now in question are acquired for the University and mills are dislodged, it will cause great dislocation and stoppage of paddy and rice export which is of far great importance than acquiring these sites for the University.

Petitioner therefore humbly prays that the proposals for acquisition of certain plots in R.S.161/B, C.Kothangudi village, Chidambaram Taluq, may be dropped.

30-11-46.

To

The Revenue Divisional Officer,
Chidambaram.

Sir,

Ref: A.6.20276-44 d.4--2--46 from the Collector of South Arcot regarding acquisition of No.155/1C and No.155/2B.

---

Most of the residents have agreed to part with their land and houses provided suitable sites are given to them in exchange. When the Member of the Board of Revenue inspected the place they expressed the same view; many of them have also given written statements before the Tahsildar to that effect.

S.No.100 is not suitable for the following reasons:

1. The land is low. To make it suitable for house site, raising to the extent of 3 feet is required and it will cost an enormous sum.

2. The creation of a slum very near the temple tank, the only tank available for the students and others in the locality and now maintained in good condition ny the temple authorities and the founder is not desirable.

3. A High School and an Elementary School are situated just on the northern bank of the tank and it is not desirable to create a closely built-up hamlet close to this.

In the interests of the temple and of the Schools, it is necessary to keep this field belonging to the University always vacant.

Three other sites belonging to the University have been suggested. Some of them are within a furlong of the grama natham and are at a fairly high level and quite suitable for putting up houses. You may inspect these sites and select one of them which you consider most suitable.

The temple in S.no.155/1C is not shown in the village plan while all other temples like Mariamman, Pillayar, Viran, Aiyanar etc. are shown. The construction of this temple is very recent. No deity has been installed in it, and the Aravan's head and parts of the Koothandavar's mud chariots may easily be removed to any other public place without wounding the sentiments of the people of the locality. When the villagers expressed their willingness in statements before

the Tahsildar, they did not urge any objection to the removal of this temple.

(True Copy)

23.4.48

---

To

The Revenue Divisional Officer,
Chidambaram.

Sir,

Sub: Acquisition. of No.155/1C and No.155/2B.

----

In continuation of my letter No.11091 dated 2--3--48, I have to state as follows:

At the time of the Revenue Divisional Officer's visit of the locality, the villegers seem to have now changed their attitude. Before the Tahsildar most of the ryots were agreeable to part with their present site, if they were permitted to occupy S.No.100 Tiruvekulam belonging to the University.

Now in the presence of the Revenue Divisional Officer they have given statements that S.No.100 and other sites suggested by the University authorities are not suitable and therefore they are not agreeable for the acquisition of the grama natham. The reasons urged for the unsuitability of the sites are:

1. There is no approach to the proposed sites;
2. They are low and
3. There are no drinking water facilities.

In regard to No.(1), if the site where Mariamman temple is situated is selected, there will be no difficulty of access, as a road can easily be made in University land from the District Board road starting from a point where the scavengers colony is located.

The site at Thidavale north of the river has got an existing road. If the site on the other side of the river is selected, a bridge may be necessary and District Board may be approached to provide it.

In regard to No.2. namely that the sites are low lying, I have to say that the sites mentioned are the only sites available in the University limits which are fairly high and I cannot think of any other alternative. The Annamalai University Colony is surrounded on two sides by Uppanar and owing to lack of proper drainage facilities, during some parts of the year when there is heavy rain, many of the places in the University get water logged for a short time and

(P.T.O.)

the sites now suggested are better situated. We cannot think of any site which is so high as to be unaffected during abnormally heavy rains though the straight cutting of the Uppanar has improved the situation a little.

In regard to (3) I have to state that a deep well may be provided close to whichever site villagers select and I am sure it will meet their requirements as the regular inhabitants of the village will not be more than 100. More than half of the population now occupying the natham are people connected with the University in capacities such as peons, servants etc., and they will be provided with quarters in due time by the University.

I have also to state that in the village the Pattadars who own more than five acres are very few and the rest of the people depend for their livelihood by supplying milk to the University staff and hostel. It cannot therefore be said that by shifting the Grama Nathams the agricultural interest will suffer.

Annamalai University,
Annamalainagar,
2nd March, 1948.

Ag. Registrar.

Endt of the D.P.I., R.C. No. 373D/44
d 22.5.44

Land acquisition – Annamalai Univy. Technological Institute.

The Registrar, Annamalai Univy, requests that a piece of land (measuring 3 acres 53½ cents) in Kottangudi village may be acquired under the Land Acquisition Act. The land is said to be required for accommodating a Technological Institute. No details regarding this institute have been furnished. The present policy of the Govt is not to undertake land acquisition work unless it is urgent. This for orders whether the Registrar may be told that the proposal should be deferred or whether full particulars relating to the scheme of the Technological Institute should be called for.

The Annamalai Univy has applied for the acquisition of ~~a site, R.S. No. 161-1B (3 acres 53½ cents)~~

(1) a site, R.S. No. 161-1B (3 acres and 53½ cents) for the location of the Univy Engineering College; and

p 3 c.f

(2) several sites in C. Kothangudi and Tiruvakkulam villages for extensions to staff quarters, playing fields and Univy Officers Training Corps.

pp 1-5 c.f
Linked file

The Collr's remarks on the subject are at pp 24-25 c.f.

Proposal (1) above

The Collr states that this site contains a temple (Sivachar mutt) and a

p 24 c.f

---

a rice-mill. He considers that there is no necessity to acquire this field. It is ~~sl~~ submitted that Govt may agree with the Collr.

p 25 c.f

Proposal (2) above

(6)

The Collr says that there is a block of 20.78 acres either belonging to Raja Sir Annamalai Chettiar or to the Univy and that the Engineering College can be located in this block. If this block is considered insufficient the Collr suggests an alternative block (28.88 acres) and says that the Univy may be asked to apply for the acquisition of such fields in this block as do not belong to the Univy, if the fields are quite necessary.

p 25 c.f

During the Collr's inspection it was mentioned to him that the urgent demand of the Univy was for a parade training ground. For this purpose the Collr suggests a block of 65.02 acres, of which acquisition will be necessary only for 15.39 acres.

p 25 c.f

The Collr's opinion is that the acquisit of all the fields applied for by the Un is not essential. For orders whether the suggestions of the Collr may be communicated to the Univy and the Univy asked to apply for acqn of the sites which are absolutely necessary.

Draft for consideration.

18. 5. 45 18/5/45.

[Issued as Letter No. 52878 C-5 d 18-5-45]

pp 26 cf

C 26737 From the Registrar, Annamalai Univy. No. 1968 d 12-6-45

pp 28-30 cf

It is seen from the Registrar's letter at pp 28-30 cf. that the new College of Engineering will be located in the village of C. Kothangudi. Of the

the site here, which is 50 acres, 26 acres are owned by the Rajah Sahib of Chettinad. The Univy. has also in its possession other adjacent sites which were originally acquired for the Sanskrit and the Tamil colleges but were not utilised for that purpose.

p 29 cf

Certain lands acquired by the Univy for staff quarters, playgrounds, drainage scheme, Research scheme etc have not yet been used by the Univy for these purposes. ~~Thus~~ the Univy has already large areas of land in its possession. Attention is also invited to the Collr's letter on pp 24-25 c.f. ~~There seems no immediate necessity to acquire further lands. For orders.~~

p 30 cf

The Registrar's letter is rather too general: he does not say how much land is now used as play ground P, Q & R in his letter would not indicate urgent need for acquisition. The ~~matter can be done~~ Coll? may nevertheless be asked perhaps

It is observed that the Collector inspected the sites on the 27th May and that the Registrar has explained the details to him. ~~For orders~~ whether the Registrar's present letter may be referred to the Collector for remarks

5. 7. 45

[Issued as Endt No: 52878C-6 d 5. 7. 45]

pp 36-39 cf

C. No: 51378C From the Collector of South Arcot Roc No: 20276/44 d 9. 11. 45

Please see the Collector's reply on pages 36-39 cf

C p 36 cf

It is observed that out of 265. 82 acres of land already acquired under the Land Acquisition Act only 50.42 acres have been utilised fully. ~~and~~ But the unused lands are reported to be all low-lying lands. which cannot be used for the purposes for which they were acquired without raising their level and reclaiming them. Besides the unused land of 215.40 acres, the University has at its disposal another extent of land measuring 38.91 acres which remain unutilised. p 36 cf p 37 cf

The previous Collector was of opinion that the College of Eng: and workshops &c. could be located on lands already at the disposal of the University and that the University could apply for acquisition of fresh lands if absolutely necessary. For the reasons ~~the present Collector~~ stated in his letter on pp 36-39 cf the present Collector states that there is no objection to the acquisition of R.S. 161 1 B of C. Kothangudi village after excluding certain portions, for the construction of the Eng College and workshops &c. and that the University may apply for the other lands after the return of normal conditions. He would also ~~say~~ insist that fresh acquisition (except for urgent buildings – that these be specially waived for) cannot be sanctioned until ~~the University~~ satisfactory progress is shown in utilising the lands in the possession of the University for the purposes for which they were intended. p 25 cf – p 37 cf × p 3 cf p 38 cf

For orders whether the Collector may be asked to proceed with the acquisition of R.S. No: 161.B of C. Kothangudi village except the areas to be excluded and the University informed on the lines of the Collector's letter. Rev may see before circulation.

May be done.

C no 29222/46. From the Collector of South Arcot

Roc no B.4. 20276/44 – dt 29.5.46

p 48 cf

In Memo no 52878 C/44-11 Edn dt 22.12.45, the Govt agreed with the Collector of S. Arcot that it would be sufficient for the present to proceed with the acquisition of R.S. no 161/1B. of C. Kothangudi village excluding the temple dedicated to Saint Umapathi Sivacharya, the adjoining rice mill & its grounds the roads leading from the temple to the Vellakulam tank and another temple close by. In his letter on p 43 cf, the Registrar Annamalai University has

10

pointed out that the mill area measuring 1.30 acres may also be acquired. The collector of S. Arcot after a personal inspection of the site reports that the entire extent of R.S. no 161/1B. is required for communal or other public use and that no portion of it can be acquired. He recommends that the acquisition may be dropped. He is also of opinion that the question of acquisition of 0.15 acres in R.S. no 161/3B. known as the "Alaganachiamman Temple site" now utilised for a smithy need not be reopened.

We may agree with the Colr.
18.6.46

3 In his letter dated 20.1.46 the Registrar, Annamalai University, has applied for the acquisition of an extent of 33.72½ acres in C. Kothangudi village and another site to the extent of 19.93 acres in Thimmakkulam village for play fields & hostels for the Engineering & Technological Institute. The Collector recommends that this may be taken up later after the University Authorities show sufficient progress in the utilisation of the lands already acquired as it will reduce further the extent of cultivable lands in these days of food crisis. Attention is solicited to the letter to the Registrar on p 41 cf. The Collector's recommendation may perhaps be accepted.

p 46 cf

I quite agree. ~~They have~~ ~~[illegible]~~ over 250 acres of univers. land at their disposal.
18.6.46

3 The collector has sent a copy of his letter to the Board of Rev. The Board may be asked to offer its remarks before the University is asked to submit ~~afresh~~ proposals if necessary.

pp 62-63 cf [From the Bd. of Revenue, No 1. 1876/46 3 dt- 2/11/46]

Please see the ~~recommendation~~ letter of the Board of

ue at pages 62-63 c.7. The Board agrees with
Collr of South Arcot that no portion of R.S.
161/1B and 161/3B of C. Kothangudi village
quired for location of the Engineering and Techno-
gical Institute need be acquired at present.
e Board however disagrees with the views
the Collr in respect of the acquisition
f the lands (about 53.65 acres in extent) proposed for
playground and hostels for the Engineering and
echnological Institute and for extending the women's
hostel and staff quarters generally. For the reasons
stated by it in paragraph 4 of its letter on
ages 62-63 c.7, the Board recommends the
cquisition of these lands excluding ~~certain~~ ~~R.S. Nos.~~
rtain ~~portions of them~~ fields (R.S. Nos. 114 and 115 in the
rth and R.S. Nos. 217 and 218 in the South). It is
or orders whether the Board's recommendations
ay be accepted and the Collr of South Arcot
ked to take steps for the acquisition of these
ands only.

para 3, p.62
para 4, p.63
& (para 4, p.56

~~The case may be sent to Rev. w.o. for remarks~~
~~ior to circulation.~~

Please see the minutes on p9 ante and the
memo on p 40 c.7. The Board now recommends
1.47
(1) a modification of the orders in the memo
i.e. R.S. No 161/1B (excluding the portions mentioned
therein) need not be acquired; (2) that the lands
required for playfields and hostels for the College
in the villages of Kothangudi and Tiruvetkalam —
R.S. Nos as in the list on 48 c.7 (excluding
R.S. Nos 114 and 115 of the former village and R.S. Nos 217 and
218 of the latter village) may be acquired.
The total extent proposed for acquisition is (30.37 + 12.34)
42.71 acres.

(1) above - Cancellation of previous orders

The acquisition of R.S. No 161/1B

---

A. G3 165 13

was ordered previously by the Govt for the reasons
reported by the Collector (Sri Rao Bahadur K.P. Krishna Nayar) in para 3 on pages 37-38
c.7. His successor Sri Rao Sahib [illegible] Rao
Naydu has however held a different view and
the member Board of Rev who inspected the
plot in question agrees with his view that
R.S. No 161/1B is required for communal or
other public purpose and that no portion of it
can be acquired till the food situation becomes
easier. In the circumstances the orders issued for
the acquisition of the land may be cancelled unless
it be that Hon (Edn) wants to inspect the site
and decide the question once for all.

A wl
[illegible]

(2) above Acquisition of lands for hostels etc.

Please see para 4 of the collector's report on
pages 38-39 c.7, the letter to the Registrar on p 41 c.7 and
his reply on pages 42-46 c.7. In view of what is reported of the Board as a result of inspection
of the Board member, the proposal to acquire
about 42.71 acres for playground, hostels, quarters
may be agreed to.

Are any suitable alternative arrangements for their living made? ~~alternative sites being given to the owners of those lands?~~

O.P.R.
28/9

28 SEP 1948

E & PH (G3)

Please see the minutes of HPr above. ~~A draft memo to the Collector of S. Arcot is subd. for approval.~~

4/10/48

The case relates to the acquisition of lands for the staff quarters of the Technological Institute etc in the Annamalai University. After prolonged consideration and an inspection by a member of the Board of Revenue, the Collector was asked to submit proposals for

pages 68-69

for the Requisition of 42.71 acres of lands adjoining the University premises, for the purpose. The Collector has forwarded for publication by Govt. the preliminary notification under Section 4(1) of the Land Requisition Act, ~~in respect of~~ the Requisition of the lands required by the University for Staff quarters etc. This notification is now pending a consideration of the Objections raised by the Residents of R.S. Nos. 155/1C and 155/2B to the requisitions of these lands. It is observed that the objectors are at present cultivating some lands near their places of residence and also make a living through the University. It is presumed that Hon'ble the Premier, in his minute on the previous page wants only to consider the question of finding alternative sites for the persons who will have ~~been~~ to give up their lands now.

pages 153-157 G.

para 4 on p 151 G.

2. As regards the above question, attention is invited to the inspection notes of the Revenue Divisional Officer on pages

pages 151-152 cf, giving an account of the efforts so far made in the matter of providing the villagers with alternative sites for their residence. It is observed that 8 sites have been shown to them and they are not prepared to accept any of them. Of these sites, one appears to be suitable, namely R.S. No. 142, as there is spring water nearby. It is clear that the villagers' attitude is obstructive and unreasonable.

p152 G

para 2 on p152 G

The R.D.O. has stated that the objections cannot be considered valid under the Land Requisition Act. This view is correct. The owners will ~~also~~ be awarded due compensation for the lands which will include 15 per cent solatium. It does not appear that anything else is possible especially in view of the attitude of the villagers.

p152 G

This for orders whether any reference should be made to the Collector and if so, exactly on what point, or whether the draft order below, may be issued.

C.No.75275/48. From the Registrar, Annamalai University No.7518 dated 12.10.48.

-----

Please see the letter from the Registrar, Annamalai University, on p.p.160-161 c.f., and the copy of his letter to the Collector of S.Arcot, on p.p.162-164 c.f. He states that the R.S.Nos.161-1.B, 161-3 B, 114, 115, C.Kothangudi, Nos.217, 218 Tiruvetkulam, and Nos. 175, 176 and 177 of C.Kothangudi and No.102 of Usupour, ~~xxx~~ which have not been included in the lands proposed to be acquired in ~~the~~ the Collector's draft notification are also necessary for the University and that the Govt. may sanction their acquisition also. He states that the Municipal Council, Chidambaram, has agreed by a resolution dated 9-6-48 to relinquish R.S.No.128 C.Kothangudi and requests that it may be alienated to the University for use as playgrounds for the Engineering students. Attention is in this connection solicited to the minutes of H.Pr. above. In view of this order, the question of the acquisition of these lands required for the University, which has been pending from 1944, will be dropped – ~~In the circumstances, ~~we~~ it does not appear that any action need be taken on the ~~xxxxx~~ present request of the University.~~ The file may now be circulated to H.M.(Edn), H.M.(Rev) and H.M.(P.W.D.) ~~xxxxxxxxxxxxxx~~ for perusal of the minutes of H.Pr. above.
