Sir,

* Sub: Surplus Stores - 4th Catalogue C.P.M.

[In submitting a copy of letter Rc.38/SK/47 dated 4/5-6-47 and a copy of D.O.letter dated 10-6-1947 from the Principal, College of Engineering, Guindy, I have the honour to state as follows:-]

omit [ ]

2. [The Principal has submitted the indents in quadruplicate for surplus stores in the 4th catalogue C.P.M. and they have been forwarded to the Joint Director of Industries and Commerce.] In his letter referred to above the Principal has explained in detail the difficulties in procuring the surplus stores, from the Director General of Disposals. He has rightly pointed out that the first step should be to make a determined effort at the highest level for obtaining the large requirements of the three Engineering Colleges at Madras, Coimbatore and Cocanada from the Director General of Disposals. With a view to expediting the matter he has suggested that the Director, may request the Government to permit the Director to place the indents of the three Engineering Colleges directly with the Director General of Disposals instead of through the Joint Director of Industries and Commerce as at present. B

A It is also reported that the Public Works Department have been granted such an authority. I endorse the recommen-

P.t.o.

dation of the Principal and request that Government may be pleased to issue orders accordingly.

3 For the reasons stated in paras 11 and 12 of his letter, Dr. Rudra recommended the appointment of Lt. Col. S.Paul, Professor of Mechanical Engineering, as Special Officer to make direct contact with Regional Directors of Disposals and even the Director General of Disposals (and) for the purpose of inspecting insitu the available machine tools and workshop equipment at Calcutta. In view of the assurances given to Dr. Rudra by the Regional Directors of Disposals at Madras and Calcutta and in view of the urgency of the matter, I have permitted Lt. Col. S. Paul to go to Calcutta by train on 11-6-47 so as to be there in time, in anticipation of the sanction of Government.

I request the favour of early orders of Government in the matter.

for Director of Public Instruction.

Copy of the letter Rc.No.38-SK/47, dated 4th June 1947 of the Principal, College of Engineering, Guindy.

****

Sub:; Surplus stores - 4th catalogue C.P.M.

Ref:- Your Pros. Rc.No.573-W1/47, dated 2-5-1947.

The machine tools suggested for the Cocannada College Workshop by the Sub-Committee of the Expert Committee of the Cocanada College are:-- 20 lathes , 2 planning machines, 5 milling machines, 2 Slotting machines, 5 shaping machines, 1 Radial Drilling machine, 2 Vertical Drilling machines, 1 Surface Grinder, 1 Cylinderical Grinder , 2 Floor Grinders, 1 Horizontal Boring Mill and 1 metal Sewing machine making a total of 53 machine tools In addition to these, 11 other machine tools have also been suggested for the Tool Room section of the Workshop making a grand total of 64 machine tools. The present Principal of the Coimbatore college was a number of this sub-committee.

(2) This is not an overestimate as the experts of the Guindy College who have actual experience of training students in the Workshop have suggested a larger number of machine tools. However, the exact number of machine tools required is immaterial for the purpose of this letter, and we may take the number of machine tools suggested by the Sub-Committee as a basis.

(3) Two other colleges viz., the Coimbatore college and the Anantapur College will also require no fewer machine tools , and the total requirements in the three colleges would therefore be not less than 3 x 64 or 192 machine tools

(4) I do not know when, how and at what cost the Coimbatore college has been able, or proposes , to get all the machine tools needed by that college. It is possible to pick up a few odd machine toolsat High Prices and this is unavoidable when youwant to equip a small workshop for dealing with day to day work of the College other than training. I would request you to consider if it is economical for the three colleges to purchase such a large number of machine tools in this manner and whether steps should not be taken to make more economical purchases.

(5) The number of machine tools required by the three new Engineering Colleges is so large that special steps must be taken to obtain them for all the three colleges instead of each college trying to get it in its own way. Besides the large number of machine tools, we ~~what~~ want equipment. for carpentary, Foundry and Smithy.

(6) In my opinion, the first step should be to make a determined effort at the highest level for obtaining these large requirements of the three colleges from the Directorate General of Disposals. According to the existing procedure for obtaining items of surplus stores from the Directorate General of Disposals, indents are sent to the Joint Director of Indistries who consolidates the indents from various Government Departments ans sends them to the Director General of Disposals. The previous authority was the Industrial Adviser to the Government.

(7) When I was Principal at Coimbatore, I submitted a number of indents to you from the various Disposals Catalogues and I presume that they were forwarded to the authority concerned. So far, not a single article indented for has become available and I do not know if any article indented for in the previous indents as well as in the present indent will become available through the usual channel, thatis to say , through the Joint Director of Industies.

(8) We are not the only people who have drawn a blank from the surplus ~~not~~ stores. Other institutions have had a similar experience. The Education Department of the Government Of India ~~and~~ had appointed a Special Officer to forward indents ~~for~~ from Educational Institutions other than Government Institutions to the Director-General of Disposals. I have been informed by this Officer that his experience had been similar.

(9) The question is whether it is wise for the new colleges to buy second hand machine tools. The fact that we are not able to get them shows that other people are buying them up. They are not unwise people but are hardheaded and shrewd businessmen who propose to utilise them for purposes of production. The Colleges need machine tools mostly for instruction of students in the principles of operation of machine tools, and not purposes of production of for making students highly skilled technician. The college can therefore do with machine tools which a businessman may not be eager to have, and most certainly with machine tools that he is prepared to buy. A visit to older Engineering Institutions in India and abroad will show that there are machine tools

P.T.O.

30 to 40 years old which are still utilised for instruction of students I have not come across any institution which has scrapped in machine tool. It cannot therefore be said that second hand machine tools are of no use for the Colleges. Considering the large number (192) of machine tools required by the Colleges, and the large number in the surplus list, we must make an attempt to get them from surplus stores for economy and expediency.

(10) I therefore suggest that the Director may request the Government for authority to place indents directly with the Director-General of Disposals. Such authority has been granted to the P.W.D. who were formerly dealing through the Industrial Adviser to the Government . There are strong reasons why it should be granted to the Director of Public Instruction, considering that ~~thesm~~ three new Engineering Colleges have already been started by the Government and they are very badly in need of a large number of machine tools and other Workshop Equipment.

(11) It would also be necessary to depute an officer to make direct contact with Regional Directors of Disposals and even the Director-general of Disposals and to visit various places where surplus stores are located. Disposals catalogues contain very little information about stores . It is not possible to say without inspection the condition of the stores. Personal inspection is absolutely essential before purchasing machine tools. A great many machine tools are concentrated in certain areas and it may not be necessary for this officer to go to too many places. A visit to places round about Madras, Bombay, Calcutta and Cochin may be enough.

(12) I have spoken to the Regional Director of Disposal, Madras, with regard to our requirements. He has asked me to give him a list of our requirements and has promised to do his best. I have also contacted the Regional Director of Disposals, Calcutta, and have received a list of machine tools that are available with him. He has also promised to send me further lists. It is most important to appoint the Officer suggested above immediately so that he could inspect the available machine tools before the end of the summer vacation.

(13) In this connection, I recommend the appointment of Rao Bahadur Lt. Col. S.Paul, Professor of Mechanical Engineering, as the Special Officer suggested above. He has been lecturing on machine tools and workshop practice for many years and has worked as Junior and Senior Workshop Instructor in the College as well as the Chief Instructor in the Technical Training Scheme . In my opinion, he is the most suitable person for selecting machine tools and workshop equipment.

(14) I suggest that the requirements of machine tools and other workshop equipment from all the colleges may be obtained. These may be consolidated and the consolidated list handed over to the proposed officer for necessary action. The appointment of the proposed officer need not wait the receipt of the lists from the various colleges. These are not likely to differ materially from each other and we pretty well know what the requirements of the colleges are.

(15) The appointment of the proposed officer need not even await the sanction of powers by the Government to the Director of Public Instruction for indenting directly on the Director-General of Disposals. The most important and urgent matter is to find out what machine tools are available, where they are located and to stake our claim on them. The Government will not be committed in any way. If you decide not to buy these machine tools, no harm is done as there are plenty of eager buyers for these machine tools.

(16) I am resubmitting herewith the indent from the Fourth catalogue with a request that it may be forwarded to the Joint Director of Industries so that it may not lose anything by default although I am afraid we are not likely to get any of the articles in the indent.

Enc. - Indents in quddruplicate and 4th catalogue.

Duplicate 37 5

D.O.

College of Engineering, Guindy.
Dated: 10th June 1947.

Dear Dr Saver

In my letter Rc.No.38.SK/47 dated 4/5 June 47 (copy enclosed) (4) I have drawn your attention to the very large number of Machine Tools (192) required by the 3 Engineering Colleges, besides other workshop equipment. I have pointed out in this letter that, although we have placed indents worth lakhs of rupees on the Directorate General of Disposals, we have not been able to get a single item so far. I have also pointed out the advisability of obtaining these Machine Tools from the Surplus Stores and have suggested a special step suggested to be taken to obtain our requirements of Machine Tools etc. The first step suggested in this connection is to depute Rao Bahadur S.Paul, Professor of Mechanical Engineering of this College, to inspect the Machine Tools available from the Surplus Stores.

para 12 on p4 In my above letter, I have pointed out that I was in correspondence with the Regional Commissioner (Disposals), Calcutta who had sent me a list of Machine Tools available and have promised to send further lists. He is a very old friend of mine and I am confident that he will give us every possible assistance in obtaining the Machine Tools under his control.

In my last letter to him, I had returned the list of Machine Tools sent by him indicating therein the items in which we are interested without, of course, any commitment whatsoever. I have mentioned in my letter to him that I was requesting you to depute an Officer to inspect the Machine Tools before purchase. I have received the following telegram from him this morning in reply to my letter.

> " YOURS JUNE 4TH REGARDING MACHINE TOOLS. IMPORTANT YOUR REPRESENTATIVE ARRIVES HERE LATEST 16TH TO INSPECT AND CHOOSE MACHINE TOOLS. OTHER LISTS WILL ALSO BE AVAILABLE BY THIS DATE."

In requesting you to sanction, in anticipation of the approval of the Government, the deputation of Rao Bahadur S.Paul to proceed to Calcutta, I would say that the cost of Machine Tools and Workshop equipment needed by the various Colleges would be of the order of Rs.12/; lakhs if purchased new and they would probably be available from the Surplus Stores, if we are lucky, at about half the cost. Not only this, but we cannot hope to get such a large number of Machine Tools etc., sooner than from the Surplus Stores. The expenditure on the deputation of the Officer would be insignificant compared with the gain in time and money that we may get.

I may add that we are now dealing with the 4th Disposals Catalogue.

6

This appears to be the last Catalogue from the Disposals Directorate. Hereafter only short lists will be issued in a magazine. This means that most of the articles in the Disposals Directorate have already been sold and we should not lose any time in getting whatever little is left over.

I would therefore request you to issue an order immediately authorising Rao Bahadur S.Paul to proceed to Calcutta forthwith and inspect the Machine Tools available with the Regional Director (Disposals), Calcutta. Rao Bahadur S.Paul must arrive in Calcutta by the 16th June, at the latest and he may be authorised to go to Calcutta by air if there is a delay in the issue of orders or if I Class accommodation is not available.

The Officer will not make any commitment, nor is it necessary for him to do so. All that he will do is to select the Machine Tools which would be useful to the Colleges and get them reserved pending an indent from the appropriate authority of the Government of Madras.

Yours sincerely,

To.

Dr. S.R.U. Savoor
Director of Public Instruction
Madras.

Ref:- From the Director of Public Instruction No. 573 W1/47 dated 13-6-47.

Extracts of the letter of the Director of Public Instruction cited above, and its enclosure are forwarded to the Joint Director of I & C. As great delay is experienced in obtaining military surplus stores and as it is essential to equip the Engineering Colleges expeditiously, it is suggested that the usual procedure of sending indents for military surplus stores to D.G.D. thro. the J.D. of I. & C. may be dispensed with and that the D.P.I. may be authorised to place the indents for the stores required for the Engineering Colleges on the D.G.D. directly. The J.D. & I.C. is requested to state very urgently whether he has any objection to the proposal.

30 OCT 1947

Roc.No.573 W1/47 dated 29-10-1947.

Sir,

Sub: Deputation of Prof. K.Srinivasan to Calcutta in connection with the selection of materials - Surplus stores - Section C.P.M.

------

p7-8 ante

In continuation of para 2 of my letter Roc.No.573-W1/47 dated 25-6-1947, I have the honour to state that the extra cost to Government involved by the deputation of Prof. K.Srinivasan to Calcutta will be as follows:-

Trainfare. ..	Rs.479-8-0
Mileage. ..	9-0-0
Daily allowance (3-7-47 to 16-7-47) .. (10 days at Rs.11-4-0 and 4 days at 3/4rate viz. Rs.8-7-0)	146-4-0
Actual expenses ie. Taxi hire charges.	244-8-0
Total.	Rs.879-4-0

p.t.o.

21

It was pointed out to me ~~kmx~~ at the outset that the Professor had to travel over widely scattered areas in visiting the various Depots and I therefore permitted him to engage taxis and to claim the actual expenses incurred by him in taxi hire charges. This accounts for the expenditure of Rs.244-8-0, and the same may be admitted as a special case in view of the peculiar nature of the work.

A|

2. I request the favour of your early orders approving the deputation of Professor K.Srinivasan in order to enable me to pass his T.A.bill.

p7-8 c.f.

In his letter dated 25-6-47 read above, the D.P.I. has stated that he has asked two Professors K. Srinivasan and K.N. Ramanathan to proceed to calcutta to inspect the surplus stores available there, whereas, in his letter dated 29-10-47 read above, reference is made only to one Professor viz K. Srinivasan. The D.P.I. is requested to state whether the other Professor K. N. Ramanathan has not eventually gone to Calcutta, as stated first.

Surplus stores with the D.G.D. – Indent for Engg. Colleges.

C. No. 49317 A(47), From the DPI, No. 573 W1/47 d/ 13-6-47.

11

Pl. see the letter from the DPI on pp1-2 cf. The present procedure for forwarding indents for surplus stores to the D.G.D is that the head of the Dept. should send the indents thro' the Jt Director of Industries and Commerce. The DPI now requests that this procedure may be dispensed with in the case of the stores required for the 3 Govt. Engg. Colleges and ~~the~~ he may be permitted to place the indents for the Engg. Colleges direct with the D.G.D. It may be noted here that PWD (Dis) noted in another connection that no indent should be forwarded to the D.G.D. unless financial sanction exists for the expr. involved on the purchase of the stores. If the Director were to be permitted to place indents for the Engg. Colleges direct with the D.G.D, he should also be instructed to see that every indent, he forwards, has the financial sanction of ~~this~~ Govt.

A

PWD (Dis) and Fin. may see for remarks. PWD (Dis) may be requested to return the relevant papers referred to by the DPI at 'A' on p 1 cf.

N.

~~As regards~~ ~~Lt.Col.~~ S. Paul's deputation to Calcutta to make out a list of surplus stores reqd for the Engg. Colleges, the DPI may be asked to furnish the information on the details of the expenditure cost to Govt. on account of the deputation. The Director's action in having deputed the officer in anticipation of the sanction of Govt. may be approved after the details referred to are recd.

B

The draft T.M. on p 2 cf is for approval. After issue, the file may be sent the Depts concerned for remarks.

Surplus stores with the P.W.D.
Indent for Engg. Colleges

D.S.

P.W.D.(B)

please see the E&P.H. U.G note ~~on~~ page 1 ante. The file has been sent to this depart. for remarks vide A on p. 1 ante.

It is submitted that no separate orders have been issued in this department permitting the Heads of Departments under P.W.D. to place indents directly on D.G.D. as stated by the Director of public instruction, at A on p. 1 cf.

The usual procedure is to place indents of all the C.Es under P.W.D. through C.E (Spl), the Focal Officer. In Dev. Memo no. 96249 IA/46-2 d/17-1-1947 (a copy of which has been communicated to all departments of the Secretariat) it is stated that all Heads of Departments, other than Chief Engineers, should send their indents for surplus military stores to the Joint Director of Industries and Commerce for being forwarded to the D.G.D. Before sending their indents to the Joint D.I&C, they should verify that necessary financial sanction exists for the purchase of the stores indented for by them. In view of this it may be pointed out that the procedure now suggested by the D.P.I. is a deviation from the usual procedure. With these remarks the file may be passed on to Finance U-G.

Please see the notes in pages 1-2 above.

In the circumstances stated by the P.W.D., it does not appear necessary to adopt a different procedure in respect of the indents to be placed by the D.P.I. alone. It seems desirable to adopt a uniform procedure in respect of all Govt. indents.

2 The proposal of E&P.H.

If deviation for special reasons is deemed necessary proposals should be submitted to Govt in good time ~~and in~~ [illegible]

(P40) Lodged

at B on page 1 above regarding the deputation of the officer may be agreed to.

EDUCATION AND PUBLIC HEALTH DEPT.

Edn and P.H. Dept

Notes from page 1 ante may be read with reference to the notes of P.W.D and Fin above it is subd that the D.P.I is already aware of the procedure to be followed in respect of indents to be placed for surplus military stores. In accordance with this procedure he has ~~already~~ sent the indents to the Joint Director of Industries. What he now wants is permission for deviation from this procedure. The letters of the D.P.I and the Principal contain the reasons why this permission is asked for.

p 1 cf

The new Eng: colleges were opened at short notice and it will be difficult to run them efficiently without proper equipment. A number of Students in the Arthur Hope College of Technology failed in the last University examinations and when the Principal was asked to explain he said that he had not got all the equipment. The Principal, Guindy College has pointed out that though the dept had placed indents worth lakhs of rupees on the Director-General of Disposals they have not been able to get a single item so far. The Expert Committee appointed by Govt. to advise on matters relating to the new Eng colleges has said

Separate file

p 5 cf

that no delay should occur in the supply of necessary equipment to the new colleges. The Committee even suggested that an officer might be deputed to U.S.A. to purchase the equipment required for the colleges. The Govt did not accept the suggestion.

In the circumstances it is very important that the proposal of the D.P.I should be accepted. The Director may however be informed that no indents should be forwarded to the D.G.D. unless financial sanction exists for the expenditure involved.

w/ A

Finance agree that the action of the D.P.I in having deputed Lt. Col. Paul to Calcutta for the selection of the stores may be ~~[illegible]~~ approved. The Director has since deputed two more Professors of the Eng colleges to Calcutta for selection of stores concerning their depts. This also may be approved. The report promised by the Director in regard to the details of extra cost on account of the deputation of the Professors may be awaited.

(Previously seen in Finance on pp.2-3 and p.5 above).

pp. 1.2 cf.

The proposal in this file now relates to the request of the D.P.I. for permission to place indents for stores for the Engineering Colleges direct with the Director-General of Disposals. The C.E(Spl.) and the Joint Director of Industries & Commerce are the two focal officers for this Govt. to deal with the indents for surplus military stores from all Heads of Departments. The C.E(Spl.) is the focal officer in regard to the requirements of all the

cf. pp 17-19 cf. of G.O. 701 Dev. Dt 13.3.47 at (e)

Chief Engineers and the Joint Director of Industries & Commerce is the focal officer in regard to the requirements of all Heads of Departments other than the C.Es. For the reasons stated in his letter at pp.1-2 CF., the D.P.I. has requested that he may be permitted to place the indents of the three Engineering Colleges directly with the Director-Genl. of Disposals instead of through the Joint D. I & C. as at present.

cf. pp 17-19 cf. of ⓔ received in P.W.

2/ This department has already advised against the request of the D.P.I. as it did not appear necessary to adopt a different procedure in respect of the indents to be placed by the D.P.I. alone, and suggested that, if any deviations for special reasons is deemed necessary, proposals should be submitted to the Govt. in good time. For the reasons stated in their notes at pp.3-4 above, E.P.H. however propose to press for the acceptance of the D.P.I's proposal. The main ground on which E.P.H. press their proposal seems to be to avoid delay in securing the necessary equipment for the new Engineering Colleges.

p. 2 above

3/ In the circumstances now stated by E.P.H., Finance need not object to the D.P.I. being permitted to place indents for stores for the Engineering Colleges direct with the Director-General of Disposals. E.P.H. may, however, be requested to consult the Joint D. I. & C. before issuing orders in this case.
