E. & P. H. Dept. 2
EDN., DATED 20-3-48

Educational Statistics.

Complete statistics relating to elementary education as on 1-7-47 were not available even in March 1948. It is not understood why there should be such delay in getting the statistics. The D.P.I. is requested to make arrangements for obtaining statistics relating to 'Education on a six months' basis from Dt. Offices in future soon after 1st July and 1st April.

Secretary, E.& P.H.

In the note supplied to me for Budget speech by the Office, figures on elementary education on 1-7-47 are not available in our Office. The D.P.I. may be asked to report why figures are not available even at such a late stage as today. The D.P.I. may be informed that statistics on a six month basis should be arranged for to be received from Dt. Offices.

ENCLOSURES

PIEP 9 (M)

Sub: Educational statistics - Mass Education. C 69286
REF: Government Memorandum No. 17989-A.1 Edn., 30.3.48
dated 20th March 1948.

SPARE COPIES _____

In the Memorandum cited above, Government have ordered that the statistics relating to "Education" should be obtained from the District Educational Officers on six months basis soon after 1st July and 1st April of each year.

Previously the statistics were called for from the subordinate inspecting officer twice in a year for the half yearly statistics" and these related to the half years ending 31st March and 30th September. On account of difficulty in regard to paper heavy work involved as a result of compulsory elementary education etc. the submission of the statistics by the subordinate officers on half yearly basis has been ordered to be suspended and the statistics are now required to be submitted only on annual basis, i.e. for the year ending 31st March.

With regard to the Government Memorandum under reference I am to state that the Department does not call for statistics as on 1st July of any year. For statistical purposes our year is from 1st April to 31st March and in March of any year the latest statistics available will only relate to the period ending with the March of the previous year. Hence the statistical particulars for the year ending on 31st March either for the year or the half year will not be available on the 1st April immediately following. Normally the particulars for March will be available with the subordinate inspecting officers on the 1st May following and the consolidated particulars are expected to reach the Director by about 15th of May. Further it is not possible to divide the year on 1st July and 1st April.

If the statistical particulars should be obtained on half yearly basis as was previously in force then the statistics should relate to the half years from 1st April to 30th September and from 1st October to 31st March. I request the orders of Government.

Yours faithfully,

for Director of Public Instruction

Ram. 20/7.

Memo No 359SSA-1 Dated 9.8.48

Educational Statistics - Preparation

Ref: - Letter from the D.P.I. No 770 B/48 d 1976

The D.P.I. is informed that the statistical particulars relating to Boleyn should be obtained from the ~~Salisbury~~ inspecting officers on half yearly basis as was previously in force. The statistics should relate to the half years from 1st Oct to 30th September and from 1st October to 31st March.

as suggested in the last para of his letter cited above the Director is requested to take action accordingly.

I am sorry that many figures that we get are anti-diluvian. We are in 1948-49. But the latest figures that we are able to get seems to be only 1946-'47. Even figures as to the number of schools in 1947-48, number of women teachers employed etc., are not available even though we have passed 2 months after finishing the year. With regard to the number of women teachers employed in elementary schools in 1947-48, it is enough if we take statistics somewhere even in December and take it as the figure for that financial year. The delay in getting these figures defeats their purpose and so we should devise ways and means for getting these figures sooner. The D.P.I. may be asked to suggest ways and means for getting these figures sooner.

C.No.53999-A/48, From the D.P.I., No.770 B1/48, dated 19th July 1948.

Please see the D.P.I.'s letter on p.1 c.f. The letter is ~~presumably~~ with reference to the Memo on page 1 of (M) and also the minute of H.M.(Edn.) above, though no specific reference is made to it. The Director has separately proposed the employment of additional staff in his office to form a statistical section for the collection of statistics more promptly. The proposal is being sent to Finance for remarks. Meanwhile this file may be sent to H.M.(Edn.) for orders on the proposal in the last para of the Director's letter.

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George, Madras.

R.C.No.984-F-5/48 dated 26th Novr. 1948.

SIR,

Availability of latest statistical information.

Reference:-Copy of note of the Hon'ble Minister
(Education) dated 14.5.48 sent u.o.
by you.

At present the main source of statistical
information is the annual returns received from the
subordinate officers and from other institutions not
directly under the control of this department such as,
local bodies, university colleges, colleges and schools
under the control of other departments. Though a schedule
as regards time of receipt of these returns has been
drawn up it takes a very long time to get all the
returns with the result the whole programme of work
is upset and delay in consolidation of statistics
becomes inevitable.

Apart from the fact that the particulars have
to be got from institutions not under the control of
this department, the subordinate officers are unable
to get through the work of consolidation owing to the
increase of work in their office and to the dearth of
trained clerks. Further in my office itself the work of
collection and consolidation of figures is attached to
a section and I consider that unless a separate
statistical section is sanctioned and placed under the
charge of a specially trained staff it may not be
possible to expect much improvement in the matter of
intelligent work under collection tabulation and use
of statistics. With this in view I have submitted a
proposal under Part II for the sanction of a separate
statistical section in my office (Vide my letter No.G.
No.656-F4/47 dated 16.9.1948).

In spite of these difficulties I have been taking
all possible measures to get the figures and consolidate
them with the least possible delay.

Yours faithfully,

D. O. Sankarabharathi

For Director of Public Instruction.

ks. 29x1.

Edmund

This report has been
by the D.P.'s with reference to

12/11
on page 10 of go no: 692 Edu & 30.3.48. The
Director's proposal for a statisticians section in
his office is being treated as a part II scheme
for 1949-50. ~~it may be decided~~ that the position
may be better after this section is formed. May
be filed with this go.
