Grants - Teaching - Secondary Schools under local bodies - 1947-8

Memo. No 80328 B/1/27-3 dated 10/12/47

The S.P.S. has recommended that a provision of Rs 7790 may be made in the B.E. for 1948-9 for the payment of teaching grants to the following three ~~new~~ middle schools newly opened in the current year.

Name of the School.

Amount of grant to be provided for Rs

1	Board Middle School, Sidhavattam (Cuddalore)	3,610
2	" " Podoli (Nellore)	1,780
3	" " Hiramandalam (Vizag. Dist)	2,400
		<u>7790</u>

As the proposals for the opening of these schools were included as a Part II Scheme for this year and as provision has been made in the current year's budget

12
for payment of teaching grants to these institutions, the Director is informed that an advance teaching grant of Rs 1500 for each school may be made in the current year and that the balance will be provided in Part I of the B.E. for 1948-9. Provision will be made in Part II for the remaining 34 schools newly recognised in the current year

Prior to 1947, the Government were paying fixed lump sum subsidies towards the cost of maintenance of certain secondary schools opened by local bodies before 1930. This system was abolished as from 1-1-47 and the system of payment of teaching grants to all recognised schools under local bodies on the basis of half the approved net cost of maintenance of the institutions in the preceding financial year was introduced instead. Thus secondary schools under local bodies were brought into a line with aided secondary schools under private managements and it was ordered that the grant should be assessed according to the procedure laid down in rule 32 of the Grant-in-Aid Code as in the case of aided secondary schools.

2.The procedure followed in respect of aided secondary schools is to consider the question of providing for the payment of teaching grants to the schools newly recognised by the Director during a year in connection with/budget for the ensuing year as the teaching grant for the year ~~in~~ in which the school is newly opened is payable only in the next year. Following that procedure, the Director of Public Instruction has recommended that provision may be made in the next year's budget for payment of teaching grants to 34 secondary schools under local bodies newly recognised by him during the current year. The grant is made up of one-half of the estimated net cost of maintenance of the institutions in the current year, the compensation for the loss of fee income on account of the grant of fee concessions to backward classes under rule 92 of the Madras

14
-2-
Educational Rules and one half of the cost of scholarships awarded in accordance with the schemes approved by the Director under rule 32 of the Grant-in-Aid Code as in the case of aided secondary schools.

3. This Department accepts the Director's recommendation and recommends that a provision of Rs. 67,200 may be made in the next year's budget as shown in the summary at the top.

Grants - Teaching - Secondary Schools under local bodies - Part II Scheme for 1948 - 1949.

.....

The Government were hitherto paying only fixed lump sum subsidies amounting to 8.59 lakhs towards the cost of maintenance of certain secondary schools opened by local bodies prior to 1930. This system has been abolished from 1-1-47 and the Govt. have introduced instead the system of payment of teaching grants to all recognised schools under local bodies in accordance with the procedure laid down in rule 32 of the grant in Aid Code. i.e. on the basis of half the approved net cost of maintenance of the institutions for the preceding financial year. Vide - para 2 of G.O. No. 975 Education dated 10-5-1947.

2. The D.P.I. has recommended that provision may be made in Part II of the B.E. for 1948-49 for ^{net}paying of teaching grants to

(1) all the recognised secondary schools under local bodies opened in 1946-47 and previous years which were maintained without any aid from Govt. and

(2) Secondary schools newly opened by local bodies during the current year and recognised by the Director.

On a reference made by the Director, he has already been informed that provision in respect of the secondary schools coming under category I should be made in Part I of the B.E. for 1948-49 as this is an existing commitment. Vide Memo No. 73772 B1/47-2 Edn. dated 4-10-47. The provision of Rs 370560 suggested by the D.P.I. for teaching grants to institutions recognised in previous years may therefore be made in Part I.

3. The total provision recommended by the Director in respect of the 37 secondary schools newly opened from the current year and recognised by the Director falling under category (2) in para 2 above is Rs. 74995. This includes the three middle schools newly opened in taluks in which there are no such schools for which the Govt. have already undertaken to pay subsidies after considering it as a Part II Scheme for 1947-8. The provision recommended for the three schools is 7790. The D.P.I. has apparently included this in Part II as the teaching grant for 1947-8 is payable only

1948-9. As provision has been made in the current years' budget for payment of grants to these new schools, the D.P.I. may be asked to make an advance grant of Rs. 1500 for each school and the balance may be ~~provided~~ in Part I. If this is done, the provision to be made for teaching grants to schools newly recognised by the Director in the current year will amount to Rs. 67,205 or 67,200 roundly ~~excluding the three schools referred above~~.

4/3. The procedure followed in respect of aided secondary schools is to consider the question of providing for the payment of teaching grants to schools newly recognised by the Director during a year in connection with the budget for the ensuing year as the teaching grant for the year in which the school is opened is normally payable only in the next year. As secondary schools under local bodies have also been brought into a line with aided schools in the matter of aid, the question of payment of teaching grants to secondary schools under local bodies newly recognised in the current year will have to be considered as a Part II scheme for 1948-9. As the schools were started on the understanding that the entire net cost should be met by local bodies, it is for consideration whether the Govt. should under ^{take} this liability of payment of teaching grants on half the net cost basis to these new institutions. It may be noted in this connection that the question of payment of grants as a special case on the full net cost basis to four middle schools and 2 high schools to be ^{newly} opened ^{by local bodies} in taluks not served by such schools is under separate consideration as a Part II scheme for 1948-9.

5/4. The remarks of Finance may be invited U.O.

14.10.47 A above Attention is invited to para 2 of G.O. 975 Rs. 15.10.5.47. The idea is that for all recognised secondary schools under local bodies, ^{the} management should be paid ~~every year~~ grant in aid as laid down in the order. The order does not preclude or restrict its operation to schools which were in existence on the date of the order or 1.1.47. Further the object of the revised system of grant-in-aid is to enable the local bodies to meet the additional expenditure involved in adopting the revised scales of pay for teachers in secondary schools. It is therefore incumbent on Govt. to undertake this liability in respect of new institutions as well. If not, the local bodies will not be tempted to open such institutions, not at that, they will not open any new schools also. The cost of opening such schools and maintaining them at Govt. cost will be more and this should be considered.

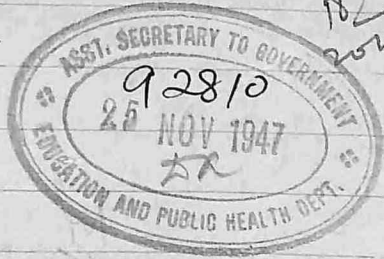

A above should be accepted.

Prior to 1947, the Govt were paying fixed lump sum subsidies towards the cost of maintenance of certain secondary schools opened by local bodies before 1930. This system was abolished as from 1.1.47 and the system of payment of teaching grants to all recognised schools under local bodies on the basis of half the net cost of maintenance of the institutions in the preceding financial year was introduced instead. Thus secondary schools under local bodies were brought into a line with aided secondary schools under private management and it was ordered that the grant should be assessed according to the procedure laid down in rule 32 of the Grant-in-Aid Code as in the case of aided secondary schools.

prmf

2. The procedure followed in respect of aided secondary schools is to consider the question of providing for the payment of teaching grants to schools newly recognised by the Director during a year in connection with the budget for the ensuing year as the teaching grant for the year in which the school is newly opened is payable only in the next year. Following that procedure, the D.P. has recommended that provision may be made in the next year's budget for payment of teaching grants to 34 secondary schools under local bodies newly recognised by him during the

current year. The grant is made up of one half of the ^{estimated} net cost of maintenance of the institutions in the current year, the compensation for the loss of fee income on account of the grant of fee concessions to backward classes under rule 92 of the Madras Educational Rules and one half of the cost of scholarships awarded in accordance with the Schemes approved by the Director under rule 32 of the Grant-in-Aid Code as in the case of aided secondary schools.

3. This Dept accept the Director's recommendation and recommend that a provision of Rs 67,200 may be made in the next year's budget as shown in the summary at the top.
