To
The Secretary to Government,
EDUCATION AND PUBLIC HEALTH DEPARTMENT.

R.O.C.No.2713-G3/47 dated 5.1.1948

SIR,

Subject: Council question No.350 - (Starred) Capital cost on buildings and equipment for a Govt. Intermediate college and a I Grade college.

R E F: Government Memorandum No. 94779-1/47-A.Edn. dated 8th Decr. 1947.

-0-0-0-0-0-0-

With reference to the Memorandum quoted above, I have the honour to state that there are no type designs for colleges, and that the capital cost of buildings for I and II grade Government colleges will depend upon the accommodation required, which may vary according to the subjects taught in the College. It is not, therefore, possible to give a definite reply to the council question so far as cost of buildings are concerned. It is, however, suggested that the Chief Engineer may perhaps be consulted in the matter, by the Government.

2.The capital expenditure on the provision of equipment for a Government College, Intermediate or first grade, depends on the number of students and the courses of study in the College. The expenditure on equipment will naturally be more, for a college providing courses of studies in science subjects than for one teaching humanities only. Again the expenditure on equipment may be large in proportion to the number of students taking science subjects.

Equipment for a College falls under the three main head:-(i)Furniture (ii) Books, (iii) laboratory apparatus and materials. In every college each student has to be provided with at least 3 sets of seats as he has to move from room to room for instructional purposes. At present the prices of science articles and books are high and further the introduction of practical examination for the Intermediate course entails the supply of more science articles.

Considering all the above factors, the following may be taken to be the rough ordinary capital cost for equipment for a Government Intermediate college with about 100 students and a Government first grade college with about 200 students. The estimates vary according as a College provides for instruction in science subjects or not.

I.
Estimated capital cost for equipment for a Government Intermediate college with 100 students.

	With science subjects.	Without science subjects.
(i) Furniture. ..	Rs.30,000.	25,000(excludes laboratory furn.
(ii) Books.	10,000.	10,000
(iii) Apparatus and chemicals	40,000	..
	Rs.80,000.	35,000.

..2..

II.
Estimated capital cost for Equipment for a Government
I grade College with about 200 students.

	With science subjects. Rs.	without science subjects. Rs.
(i) Furniture. ..	1,24,000	15,000
(ii) Books.	2,500	5,000
(iii) Apparatus and materials	64,500	..
Add total under I above as for Intermediate College. ..	80,000	35,000
Total for a first grade College.	2,71,000	55,000

for DIRECTOR OF PUBLIC INSTRUCTION.
