Sir,

* Sub: ESTABLISHMENT - Office of the Director of Public Instruction - Creation of Statistical Section and strengthening of the existing Audit Section - Proposals submitted.

Spare Copies ______

I have the honour to submit for the consideration of Government the following proposals in connection with Part II Schemes for 1948-49. At the conference with the Hon'ble Minister for Education in my office on 8-8-1947 the then Director (Mr. Reddi) explained the need for these proposals. The Minister has kindly agreed that the suggestions may be submitted to Government as Part II schemes for 1948-49.

2. Proposal I - Creation of a Statistical Section.- The need for a statistical section for this office is keenly felt. In addition to the usual collection and compilation of statistics for the Public Instruction Report every year, statistics of a special nature are required to be collected in recent years regarding elementary schools, secondary schools, special schools and Colleges (Arts and Professional). The number of pupils receiving different kinds of education and the cost to Government per scholar, classification of scholars according to communities and such other particulars involve a lot of labour and it is not ordinarily possible to organize this work satisfactorily without a separate section and without an officer trained specially in statistical methods. In addition, the work has increased on account of the rapid increase in the number of institutions of various types. The large mass of facts received in this office have to be carefully analysed and classified. This requires expert

p.t.o.

guidance. Moreover, the statistics are not always presented in an attractive and intelligent manner, for instance, the use of graphs and pictorial representation which enhance the usefulness of these statistics cannot be attempted without a specially trained staff. I therefore recommend that a separate statistical section be created in this office to ensure that statistics are accurate and the inferences are correct, to enable the department to deal with statistics in a scientific manner and present them in an attractive and intelligent way.

3. The following staff will be required for the establishment of the Statistical section:-

i. One Superintendent on Rs.190-240.
ii. Two upper division clerks and
iii. Two Lower Division clerks.

The Superintendent shall be a person holding a degree or diploma in Statistics or a degree in which Statistics was ~~as~~ an optional subject.

Proposal II - Strengthening of the Audit Section.-

B

This proposal relates to the strengthening of the Audit section of my office. This is one other section of my office which is of late suffering from inadequate staff and sudden increase in work. The following reasons are some of the main causes that have contributed to this sudden increase in work in this section:-

(a) It has not been the practice so far to inspect and audit Government Colleges. I feel that a regular annual inspection of all Government Colleges and an audit of accounts is very necessary, especially in view of the increased expenditure on these colleges. The opening of three additional Engineering Colleges with huge expenditure on equipment, the need for inspection and audit becomes all the more necessary in order to ensure that money is properly spent and Government instructions are properly carried out. This work cannot be undertaken unless there is a separate section in this office, to undertake the work.

Z

(b) As in the case of schools under private managements and local bodies, schools under the direct management of government have also increased considerably;

(c) the number of offices under the control of the Director has increased in recent years;

(d) the increase in the number of Government institutions of all types and offices has resulted in considerable rise in expenditure from general revenues;

(e) the increase in the number of institutions has contributed to enhanced fee-income rendering rapid growth of the volume of work and other administrative work;

(f) the expansion of education in recent years and its progress every year in the future with the implementation of the five-year plan to eradicate illiteracy in the Province;

(g) the result of classification of expenditure under normal and post-war development schemes, the various budget heads have been duplicated and the figures have consequently to be checked, scrutinized and consolidated in two sets of statements in the place of one.

B

(h) Educational institutions under local bodies are audited by the Local Fund Audit Department. The grants to aided elementary schools sanctioned by the District Educational Officers and Inspectresses are audited by the audit staff of the Accountant-General. The grant-in-aid sanctions of the Director are also audited by the Accountant-General. The institutions under the control of the Dt.Edl.Officers and Inspectresses are regularly inspected by them every year. But Government Colleges which are increasing in number every year and which are under the direct control of the Director are not at all audited. The simple reason being that there is no staff to do this additional work.

It is therefore necessary that to meet the increasing volume of work detailed above and to obviate and prevent irregularities and fraud, a more effective check from the central office is exercised. At present the only check exercised over receipts is the scrutiny of the monthly D.C.B.Statements. In the case of expenditure however the monthly statements of charges submitted in connection with the control of expenditure are useful only for purposes of comparison and reconciliation with the Accountant-General's figures to see that the expenditure is regulated with reference to sanctioned appropiration. It has no value whatever from the audit point of view.

P

The present staff doing this important branch of work consist of 4 clerks. This strength of 4 clerks and a Superintendent was sanctioned as far back as 1925 when the scheme for the control of expenditure was introduced. The total expenditure when the scheme was brought into effect was about 1.98 crores. Since then the increase in expenditure has been very rapid

p.t.o.

and in 1946-47 the expenditure had risen to 5.90 crores.

In the above circumstances I request that the following additional staff may be sanctioned for this section:-

1 Superintendent,
1 Upper Division Clerk and
1 Lower Division Clerk.

In case, the Government accept the above proposals, the total additional staff that will be required are as follows:-

Z

2 Superintendents.
3 Upper Division Clerks and
3 Lower Division Clerks.

In G.O. No. MS. 448 Education, dated 10-3-1947, the Government deferred my proposal that a post of Joint Director of Public Instruction may be created in this Office. I have the honour to request that Government may be pleased to reconsider their order and sanction the creation of the post from 1..4..1948.

'P'

pp.1-2 & 5-6a of (u)

I have explained fully the need for this post. The work of the Director of Public Instruction has considerably increased and relief is quite necessary and urgent.

p 6a (u)

At the suggestion of Government, I agreed as a temporary measure that one of the posts of Deputy Directors may be converted into the post of Joint Director of Public Instruction. Now I feel that such a proposal cannot meet the problem of the increasing work in all directions. There will be enough work for the three Deputy Directors at present in my office, the~~y~~ one for partly undertaking the responsibility of the Office of the Commissioner for Government Examinations about which I have written in my letter R.O.C.No.308-A/45 dated 28..9..1947 as Commissioner for Government Examinations and also for a Joint Director of Public Instruction.

In the first mentioned reference the technical difficulties that the Director of Public Instruction is experiencing as the head of an A. class office and the same person as Commissioner for Government Examinations ~~have~~ having a B. class office under him were explained at length to Government; although these two offices are designated differently the Commissioner's office is the examination branch of the Education Department of which the Director of Public Instruction is the head. As the two offices are at present of two different classes it is not possible to effect mutual transfers of persons from one office to the other as the scales of pay in the two offices are different.

A

The work of the Commissioner's office has been becoming year after year more and more onerous. The number of students appearing especially for the S.S.L.C. examination has increased far beyond expectations during this year and the difficulties of getting the examination work done efficiently and in time have become a major problem as was seen very clearly at the time when a re-examination had to be undertaken. At that time Government recognised the necessity of a Special Officer being appointed for that purpose.

(P.T.O.)

12

When I consulted the Vice-Chancellor of the University of Madras whether according to their previous decision they would not take up having their own entrance examination to the University, the Vice-Chancellor told me that in view of the large numbers and complex arrangements that are necessary for the examination, they have postponed the idea of starting an entrance examination to the University.

A

Since I took charge as Director of Public Instruction I have observed that the work of the Director of Public Instruction's office as well as that of the Commissioner's office, has been increasing every year. The stress of work especially during the period of the S.S.L.C. re-examination of 1947 has made it quite clear to me that it will be impossible for the Director of Public Instruction to be able to look after the increasing work in his office as well as that in the office of the Commissioner although in the recent change in the Secondary Education Board, the Deputy Director in charge of Secondary Education is an ex-officio member of the board and thus is able to keep himself in touch with the various resolutions of the Board. Still in view of the fact that there are numbers of papers dealing purely with the examination side which have still to come to the Commissioner for orders and do not have to go to the Deputy Director in charge of secondary education, leading to increase of work for the Director, I have recently ordered for better efficiency that most of these papers should go to the Deputy Director in charge of secondary education, although technically he has nothing to do with the work of the Commissioner's office. I feel that the proper solution of the whole matter is that the Deputy Director in charge of secondary education should also be a Deputy Commissioner for Govern-

omit pp 5-8 [illegible]

Government Examinations and that the work he is now doing, namely, budget work and secondary education, should be separated and a separate Deputy Director to look after finance, audit, and audit inspections of the subordinate offices should be created. As I have already mentioned in my letter C.No. 636-F/47 dated 7..9..1947 the accounts of the Government institutions and offices have got to be audited by the Head Office according to programme. As the number of secondary schools is increasing year after year I think the Deputy Director in charge of secondary education who would also be Deputy Commissioner for Government Examinations will have enough work if the Director is relieved of the work relating to S.S.L.C. T.S.L.C. and other Government Examinations. The Director of Public Instruction as Commissioner for Government Examinations will however continue to pass orders on policy papers relating to the conduct of the examinations.

I am including the proposal in Part II of the Budget Estimate for 1948-49.

The additional ultimate expenditure involved by the proposal will be about Rs.11,700/- per year as indicated below:-

Average pay of a Deputy Director in the scale of 600-100/2-1000	849 x 12	=	10,188
Special pay	50 x 12	=	600

From the D.P.I. No. 636 F/47 dated 7-9-1947.

In connection with Part II estimates for 1948-49 the D.P.I. has submitted the following proposals.

(1) Strengthing the audit section of his office - 1 Supdt.
- 1 U.D.Clerk.
- 1 L.D.Clerk.

(2) Creation of a statistical section in his office 1 Supdt.
2 U.D.Clerks.

(1) above

The present staff doing this branch of the work consists of 1 Supdt. and 4 clerks, which was sanctioned long ago. The Director has fully explained the need for the additional staff. His proposal may be accepted. [Attention is invited to H.M's note on pp 1-2 ante.]

(2) above:

In the circumstances stated the proposal may be accepted.

The file may be sent to the Finance department for remarks.

AGM.

At 'Z' on page 6 cf, the Director says that it has not been the practice so far to inspect and audit Govt.Colleges, that a regular annual inspection of all Government colleges and audit of accounts is very necessary and that this can be undertaken only if there is separate section in his office for the purpose. He, therefore, asks for an additional Superintendent and two clerks (1.U.D. and 1 L.D.). But he has not made clear how the employment of ~~their~~ this staff will help matters. He has not stated who is to inspect the colleges, how often, etc. The Director has not stated whether the Superintendent will be asked to inspect and audit the accounts and whether he will be qualified to audit the accounts, unless he has had special training. It is for orders whether the Director, may be requested U.O. to explain the position fully before the matter is considered further.

At 'P' on p.7 ~~He~~ has indicated that the present method of audit is not satisfactory;- but the proposals do not contain any suggestions for an ~~afferna~~ alernative, and only seem designed to strengthen the staff for dealing with the increased work according to the existing method. The D.P.I. may be requested to offer his further remarks on this point also.

Government was not addressed for a Gazetted Officer exclusively for Audit. In Director's letter RC.No.664/F/47 dated 29-9-47 proposals were submitted for the creation of the post of an additional Deputy Inspector in which it was suggested that Finance and Audit should be separated from Secondary Education work which latter should go with the Deputy Commissioner in charge of Government Examination. Thus one Deputy Director will be in charge of Finance and Audit and the other in charge of Secondary Education and Government Examination expecially S.S.L.C.

Office of the D.P.I.,
Madras,

Resubmitted.

There are about 20 Government colleges under the control of the Director. A regular programme of audit of the colleges will be drawn up every year. The Audit staff consisting of 1 Superintendent, 1 Upper division clerk and 1 Lower division clerk will form a separate section and this staff will go to each college and audit the accounts, both revenue and expenditure, in addition to quasi official funds maintained in the college. The Audit report pointing out the various defects and iregularities will be submitted to the Director for scrutiny and after approval will be forwarded to the Principals of colleges concerned for explanation and rectification of various objections raised in the report. Suggestions for the improvement and avoidance of mistakes will be issued in the follow up correspondence on the report. As the accounts of one academic year, both revenue and expenditure have to be scrutinized at least 10 days may be required for each college. The preparation of the report for Director's approval may take another 5 days and time will also be required for each report, xxxxx by way of further correspondence. This may take another ten to fifteen days for this small staff now proposed for the work. In case the post of the Joint xxxx Director of Public Instruction is sanctioned he or one of the Deputy Directors - vide in this connection my letter to Government C.No.664 F/47 dated 29th September 1947 would visit the colleges towards the conclusion of the audit and make a further investigation on the spot into the more serious irregularities.

As regards qualifications of the staff, it may be seen that mere technical knowledge will not be enough for this work. A thorough knowledge of the educational rules and practical experience of the working of the colleges are essential. The Superintendent and the upper division clerks of my office are perfectly qualified to take up this work in virtue of their having passed the departmental te

I had sent a note some months back about strengthening the audit staff of the D.P.I.'s Office. The Govt. colleges have increased a great deal in recent years and many of them are given only test audit nowadays. This test audit has not proved very effective. More regular audit is necessary. I had suggested that we may strengthen the audit staff in the D.P.I's Office by the addition of one supdt., and one u.d. clerk. That file ought to have gone to finance and returned by this time. Explanatory Note

The D.P.I has subd proposals for the employment of an addl Dy D.P.I and the strengthening of the audit section ~~in~~ his office.

Addl Dy D.P.I

The gazetted staff in the Director's office consists of the following ~~gazetted~~ officers excluding the Director:-

1) Dy D.P.I (Personnel)
2) Dy D.P.I (Secy Edn and Tr)
3) Dy D.P.I (Ely Edn)
4) PA to the D.P.I (Central Circle)

The Director is also the Ex-officio Commr for Govt Examinations and is assisted by a Secretary.

During the last few years work has increased enormously in the Director's office including the office of the Commr for Govt. Examinations and all the officers are overworked. The Director has therefore proposed the appointment of ~~[illegible]~~ an Addl. Dy Director. Regarding the need for the post ~~[illegible]~~ he has stated as follows:-

Explanatory Note.

The Director of Public Instruction has submitted proposals for the employment of an additional Deputy Director of Publ~~l~~ic Instruction and the strengthing of the audit section in his office.

Additional Deputy Director of Public Instruction.

The Gazetted staff in the Director's office consists of the following officers excluding the Director:--

p.t.o.

1) Deputy Director of Public Instruction(personnel)
2) Deputy Director of Public Instruction(Secondary Education and Finance)
3) Deputy Director of Public Instruction(Elementary Education)
4) Personal Assistant to the Director of Public Instruction.
5) Inspectress (Central circle)

The Director is also the Ex-officio Commissioner for Government Examinations and is assisted by a Secretary.

During the last few years work has increased enormously in the Director's office including the office of the Commissioner for Government Examinations and all the officers are overworked. The Director has therefore proposed the appointment of an Additional Deputy Direcotor. Regarding the need for the post he has stated as follows:--

" The work of the Commissioner's office has been becoming year after year more and more onerous. The number of students appearing -- especially for the S.S.L.C. examination has increased far beyond expectations during this year and the difficulties of getting the examination work done efficiently and in time have become a major problem as was seen very clearly at the time when a re-examination had to be undertaken. At that time Government recognised the necessity of a Special Officer being appointed for that purpose.

When I consulted the Vice-Chancellor of the University of Madras whether according to their provious decision they would not take up having their own entrance examination to the University, the Vice-Chancellor told me that in view of the large numbers and complex arrangements that are necessary for the examination, they have postponed the idea of starting an entrance examination to the University.

Since I took charge as Director of Public Instruction I have observed that the work of the Director of Public Instruction's office as well as that of the Commissioner's office, has been increasing every year. The stress of work especially during the period of the S.S.L.C. re-examination of 1947 has made it quite clear to me that it will be impossible for the Director of Public Instruction to be able to look after the increasing work in his office as well as that in the office of the Commissioner although in thr recent change in the Secondary Education Board, the Deputy Director in charge of Secondary Education is an ex-officio member of the board and thus is able to keep himself in tough with the various resolutions of the Board. Still in view of the fact that there are numbers of papers dealing purely with the examination side which have still to come to the Commissioner for orders and do not have to go to the Deputy Director in charge of secondary education, leading to increase of work for the Director, I have recently ordered for better efficiency that most of these papers should go to the Deputy Director in charge of secondary education, although technically he has nothing to do with the work of the Commissioner's office. I feel that the proper solution of the whole matter is that the Deputy Director in charge of secondary education should also be a Deputy Commissioner for Government Examinations and that he work he is now doing, namely, budget work and secondary education, should be separated and a separate Deputy Director to look after finance, audit, and audit inspections of subordinate offices should be created. As the number of secondary -- schools is increasing year after year I think the Deputy Director in charge of secondary education who would also be Deputy Commissioner for Government Examinations will have enough work if the Director is relieved of the work relating to S.S.L.C., T.S.L.C. and other Government Examinations. The Director of Public Instruction as Commissioner for Government Examinations will however continue to pass orders on policy papers relating to the conduct of the examinations.

Strengthening of audit section:

The present staff doing this work consists of the superintendent and 4 clerks which was sanctioned long ago. About the need for strengthing the staff for audit the Director has stated as follows:--

This proposal relates to the strengthening of the Audit section of my office. This is one other section of my office which is of late suffering from inadequte staff and sudden increease in work. The following reasons are some of the main causes that have contributed to this sudden increase in work in this section :--

(a) It has not been the practice so far to inspect and audit Government Colleges. I feel that a regular annual inspection of all Government Colleges and an audit of accounts is very necessary, especially in view of the increased expenditure on these colleges. The opening of three additional Engineering Colleges with huge expenditure on equipment, the need for inspection and audit becomes all the more necessary in order to ensure that money is properly spent and Government instructions are properly carried out. This work cannot be undertaken unless there is a separate section in this office, to undertake the work.

(b) As in the case of schools under private managements and local bodies, schools under the direct management of Government have also increased considerably;

(c) the number of offices under the control of the Director has increased in recent years;

(d) the increase in the number of Government institutions of all types and offices has resulted in considerable rise in expenditure from general revenues;

(e) the increase in the number of institutions has contributed to enhanced fee-income rendering rapid growth of the volume of work and other administrative work;

(f) the expansion of education in recent years and its progress every year in the future with the implementation of the five-year plan to eradicate illiteracy in the Province;

(g) the result of classification of expenditure under normal and post-war development schemes, the various budget heads have been duplicated and the figures have consequently to be checked, scrutinized and consolidated in two sets of statements in the place of one.

(h) Educational institutions under local bodies are audited by the Local Fund Audit Department. The grants to aided elementary schools sanctioned by the District Edcational Officers and Inspectresses are audited by the Audit staff of the Accountant-General. The grant-in-aid sanctions of the Director are also audited by the Accountant-General. The institutions under the control of the Dt. Educational Officers and Inspectresses are regularly inspected by them every year. But Government Colleges which are increasing in number every year and which are under the direct control of the Director are not at all audited, the simple reason being that there is no staff to do this additional work.

It is therefore necessary that to meet the increasing volume of work detailed above and to xxxxxxx obviate and prevent irregularities and fraud, more effective check from the central office is exercised. At present the only check exercised over receipts is the scrutiny of the monthly D.C.B.Statements. In the case of expenditure however the monthly statements of charges submitted in connection with the control of expenditure are useful only for purposes of comparision and reconciliation with the Accountant-General's figures to see that the expenditure is regulated with reference to sanctioned appropriation. It has no value whatever from the audit point of view.

Both Hon'ble Minister (Education) and Hon'ble Minister(Finance) have also pointed out the need for propoer audit of accounts in Government Colleges.

This department recommends that the Director's proposals may be accepted and provision as shown in the summary at the top may be included in the Annual Estimate of Expenditure for 1948-49.

Secretary to Government.

I understand that in Government Colleges there is no regular inspection and audit. Only test audits are conducted by the Accountant-General once in four or five years. There is no check or looking into the accounts of the Colleges at present by any of the people. I understand that in many colleges there are unrecognised funds for which no proper accounts are maintained & audited. Especially now that the number of Govt. colleges are also increased, it is necessary that we must keep the accounts of these colleges on a sounder footing.

I have had a talk with the D.P.I. over the matter. He also thinks that we must arrange for the audit through the Dept. and if that is to be done, the audit section of the D.P.I.'s Office must be strengthened by one u.d. clerk and by one l.d. clerk.

Audit is very impartant and this ~~sta~~ small

2. The following remarks seem called for on the above proposals.

Proposal 1) Appointment of a Joint Director of Public Instruction (1200-1500):- ~~This~~ proposal is supported for the reason that the work of the Director of Public Instruction has considerably increased and relief is quite necessary and urgent and that the suggestion of the Govt to convert one of the posts of Deputy Directors into the post of Joint Director ~~has~~ will not ~~worked~~ work satisfactorily to meet the problem of the increasing work in all the directions. The same proposal was considered in detail in January and this deptt suggested that the proposal to create the new post of Jt Director of Public Instruction may be postponed until the Reorganisation Committee has reported, (Please see pp 2-5 N.F. of G.O. 448 Edn Ds 10.3.47) and it was accepted in circulation also. The D.P.I now states that the above orders should be reconsidered. But he has not adduced any new reasons now in support of his proposal. Further it does not seem ~~to be~~ adviseable to create new posts, ~~before~~ ~~the~~ ~~[illegible]~~ before the Retrenchment and Reorganisation Committee ~~[illegible]~~ makes its recommendations to the Govt. In the circumstances this deptt may suggest that the proposal may be deferred.

Proposal 2) Appointment of an additional Deputy Director of Public Instruction (600–1000). This proposal is intended to give relief to the D.P.I on the examination side and also for attending to the regular audit of the accounts of the educational institutions in the province. ~~It may however be [illegible]~~ In the linked file below E.P.H deptt have stated that in view of the proposals for the reorganisation of the Secondary Education now under consideration of the Govt. it is likely that the work in the office of the Commissioner of Government Examinations will also be reorganised. Further the Deputy Director ~~of~~ in charge of secondary Education who is also an ex-officio member of the Secondary Education Board and is in direct contact with the various resolutions of the Board, should ~~[illegible]~~ certainly have relieved of the D.P.I, at least of a ~~[illegible]~~ portion of the work relating to the Secondary Edn: Board resolutions. As already pointed out by this deptt, the present time does not seem to be ~~an~~ appropriate ~~time~~ for sanctioning addl staff. So this deptt may suggest that pending the Report of the Retrenchment and Reorganisation Committee, the proposal may be deferred.

Proposal 3 & 4. Employment of one Superintendent ~~and~~ one U.D clerk and one L.D. clerk for audit section & the creation of a statistical section with 1 Supdt ~~and one U.D~~ two L.D and [illegible] L.D:– The proposal for the employment of one Superintendent ~~and~~ 1 U.D clerk and one L.D ~~[illegible]~~ clerk has emanated from the minutes of HM (Edn) on p 1 above. This ~~was~~ is proposed for ensuring better auditing of the accounts of the various colleges and to keep the accounts of these colleges on a sound footing. As against the suggestion of HM (Edn) that for this purpose the audit section of the D.P.I's office must be strengthened by one U.D clerk and one L.D clerk, the D.P.I has suggested the employment of one Superintendent, one Upper Division clerk and one L.D clerk. Together with that the D.P.I has proposed the ~~employment~~ creation of a statistical section in his office with 1 Supdt and 2 U.D clerks and 2 L.D clerks to deal with statistics in a scientific manner. In this connection it may be mentioned that the D.P.I submitted proposals for the employment of additional staff in his office for the general increase of work and this deptt have accepted ~~to~~ the ~~employment~~ of 2 Junior Superintendents, 4 Upper Division clerks and four Lower Division clerks. The ~~file~~ connected file, it is ascertained is ~~[illegible]~~ awaiting the decision of the Standing Finance Committee. If that is accepted, then with the above mentioned additional staff and by a better redistribution of work, in the D.P.I's office, the necessity for the employment of the additional staff now proposed ~~will~~ can be ~~very much~~ lessened. In the circumstances explained there does not seem to be a strong case for the employment of any additional staff. ~~at all~~. However if it is considered that some relief should be given to the audit section, this deptt may suggest that ~~one~~ Upper Division clerk and one Lower Division clerk as originally suggested by HM (Edn) may be appointed. The extra cost will be Rs. 2650 roundly p.a.

With the above remarks the case may be returned to E.P.H.

The proposals in this file are as at A on page 5 ante

The Fin dept suggest that proposals (1) & (2) may be deferred. As regards proposals (3) & (4) that dept state that as they have already agreed to the appointment of an addl staff ~~of~~ two Supdts, ~~[illegible]~~ four 4 U.D. clerks and 4 L.D. clerks in a separate file there may not be ~~[illegible]~~ need for any further staff. S

Proposal (1) In the circumstances stated by Finance the proposal to appoint a joint D.P.I may perhaps be deferred. For orders. Wf

Proposals (3) & (4) The addl staff of 2 Supdts and 8 clerks referred to at S above is ~~are~~ intended to cope with the normal increase of work. The addl staff asked for in this file is ~~are~~ intended to strengthen the audit section in the Director's Office and the creation of a statistics section. These are practically new items of work and the staff agreed to by Finance cannot be diverted for these purposes. If these items of work have to be undertaken the appointment of the addl staff proposed will have to be sanctioned.

But the proposal to open the Statistical Section is not very urgent and may, it seems, be postponed. Audit of accounts of colleges stands on a different footing and Finance consider it as very urgent. The Govt are spending lakhs of rupees on colleges, both Arts and Professional, and it is quite essential that proper audit of accounts in these institutions [illegible].
