In my letter to Government R.C.No.1204-B1/46, dated 20-1-1947, the introduction of Basic Education in the first grade in 34 elementary schools in and around Coimbatore was proposed and the same was approved by Government in their order quoted above. But, for the reasons given below, the number had to be reduced to 17.

A/15 cf. remark

(1) The Basic Education Advisory Board in its meeting held on 24-5-1947 resolved that at least 3 teachers trained in Basic Education might be appointed to each school for its efficient working (concluding portion of para 1 of its Proceedings dated 24-5-1947 - extract enclosed).

p 6 infra

(2) The number of teachers trained during 1946-47 was only 61. A single Basic Trained teacher or two in a Basic school would find it rather difficult to change the atmosphere of the school to Basic line, and if the Headmaster also is not basic trained, the scheme may not work successfully. Hence a minimum of 3 teachers per school is considered quite necessary. As far as possible, schools which could be staffed entirely with Basic Trained teachers have been selected. In the case of aided schools which deputed one or two teachers only, this principle could not strictly be followed. More Basic Trained teachers will be appointed to these schools during the succeeding years.

(3) The availability of adequate accommodation and space for gardening was also considered and some schools had

/P.T.O.

6

had to be rejected for want of these facilities.

(4) The availability of 3 or more Basic teachers in each school will help good deal for introducing the scheme in the 2nd grade during next year and in the other grades during the following years without any anxiety to find qualified teachers for handling these classes.

2. Under the above circumstances, I request that the reduction in the number of schools for the introduction of Basic Education from 34 to 17 may kindly be approved. The revised list of 17 schools was approved by the Hon'ble Minister for Education during his recent tour in the Coimbatore District.

3. All the 17 schools now selected are in a contiguous area. The managements concerned are being instructed to introduce basic education in these schools without delay. No management of the selected schools will be given the option to defer or delay the introduction of the new system of education in these schools.

** ** **

It was finally resolved that 3 teachers might be appointed to each school bearing in mind the important principle that a Basic School should aim at efficiency. If more trained teachers were available, they should be appointed in the new basic schools to be opened. It was also suggested that the Training Schools should render necessary help, advise and supervise in the matter of actual allotment of trained teachers in the Basic Schools.

In continuation of my letter RC.No.1656-B.1/47 dated 20-8-1947, I have the honour to report that the estimated cost of equipment for each grade was checked by the Basic Educational officer and he is of the opinion that the estimates are quite reasonable and that they require no revision.

2. In grade I, Basic Education will be taken up systamatically according to the syllabus. In the higher grades which are in charge of Basic Trained teachers a beginning will be made in the craft work part of the Basic syllabus. For this purpose some equipment is necessary and Rs.100/- per section of 30 pupils may be sufficient. Now that the number of Basic Schools selected has been reduced from 34 to 17, the savings accrued may, with advantage, be utilised for the purpose of purchasing equipment for these higher grades. It is requested that the Government may sanction that the savings be utilised for the purpose of purchasing equipment for these higher grades.

ASST. SECRETARY TO GOVERNMENT
7 - NOV 1947
EDUCATION AND PUBLIC HEALTH DEPT.

To
The Secretary to Government,
Education and Public Health Department,
Fort St.George, Madras.

Sir,

SUB:- Basic Education = Opening of Basic Schools by Government = Coimbatore compact area.

88580

REF:- Your D.O.No.51031 B.2/47-1 Education, dated 25th June 1947.
My D.O. letter No.1460 B.1/47 dated the 26th September 1947.

I have the honour to report that Basic Education has been introduced in 17 schools in the Coimbatore compact area during the current year. Of these 17 schools, 2 are under the Municipal Council, Coimbatore, 9 under the Coimbatore District Board and 6 under aided agencies. Of the 6 under aided agencies, one is run by the R.C.Mission. The Mission wishes to retain the management of the school and to run it as a Basic School.

2. It is proposed to take over the management of all these schools under Government and I am asked to formulate definite proposals and to report the extra cost to Government. It is also stated that the local bodies may be asked to contribute the present cost of their schools to the Government. Hence the extra cost will be the difference in the scales of pay adopted by local bodies and the Government and also a small excess under incidental and contingent charges. In the case of aided schools, the excess over the teaching grant paid from Provincial Funds will be the extracost to Government. The extra cost involved in the proposal is shown in the statement annexed.

3. The extra cost, immediate and ultimate, are worked out on the basis of the revised scales of pay for teachers in Government and Local Body Schools and the enhanced rate of teaching grant for aided elementary schools. Since there is not much difference in the scales of pay mentioned above, the extra cost by way of establishment charges is not high. Rent, contingencies, and other miscellaneous items of expenditure in the case of local body schools have not been taken into account, as the amount spent by the local bodies on these items is expected to be collected from them as contribution. However, a rough estimate of this expenditure is given just for information. No provision is made for furniture, as these articles are not required in Basic Schools. No additional provision is made for the supply of equipment, as the full cost should always be met by the Government, and provision therefor has already been proposed to Government in connection with the Part II Estimates for 1948-49.

~~3~~ 17

= 2 =

4. Three aided schools are held in rented buildings and the monthly rent paid is Rs.22/- or Rs.264/- per annum. A provision of Rs.800/- per annum may be made at Rs.20/- per teacher to meet contingent charges. A further provision of about Rs.500/- to Rs.800/- may also be made to meet unforeseen items of expenditure.

5. The question of payment of pension or gratuity has not been considered in the present calculations. The extra cost is worked out on the assumption that the Municipal Council, Coimbatore and the District Board will credit to Government the money they are now spending on their respective schools proposed for transfer to Government control. The extra cost per annum is estimated at Rs.4,500/- per annum immediate and Rs.10,000/- ultimate, as shown in the Annexure.

The Basic Education Board has recommended that as an experimental measure for the present all the Basic Training Schools in the area round about Periyanaickenpalayam in which basic education is introduced may be taken over by Govt., ~~now~~ as they are under various Managements such as Local Board and Aided Agencies, and we may not have sufficient control. The cost involved may not be much. Such of those aided agencies, [illegible] who would like to conduct the school ~~as an experimental measure~~ may be allowed to do so. The other schools are run by Dt. Board and Municipality. At present there is not much difference in pay and emoluments to the teachers employed in these two agencies. The Dt. Board may be asked to contribute the money that they are already spending on these schools; the rest may be borne by the Govt. Definite proposals may be formulated and put up. I do not think it is necessary for us to get the permission of the Cabinet because it ~~may~~ will not cost any large amount of money. If it is necessary that also may be done.

Action may be taken immediately on this note as the schools will have to begin very soon.

Please see the letter dated 29.8.47 from the D.P.I. on page 9 of the current file. The D.P.I. reports that the cost of supply of equipment to the different grades of Basic school, as originally estimated by him ~~has~~ been checked by the Basic educational officer and the estimate does not require any revision.

p.2 of (A)

2. The Govt. sanctioned an expenditure of Rs.5600 in the current year on the provision of equipment to the first grade in 34 El. Schools proposed for conversion into Basic schools. The Director since reported that the No. of schools should be reduced to 17 and his proposal has been accepted. He therefore requests that the savings that may be anticipated ~~to~~ in the allotment referred to above may be utilised for the purchase of equipments to Higher grades in these schools. In view of the note of the Finance department on pages 10 to 11 of the note file to the G.O. at (A)

p.15 of (A)

pp.5-7 of

it does not appear that the proposal of the D.P.I. can be accepted.

Fin: May advise.

3. It may be noted that the H.M. has raised the question that the Basic schools opened in the Belt area should be taken over by the Govt. and run ~~by~~ under direct Govt. management. The remarks of the D.P.I. have been called and his reply is awaited. He may be reminded. The proposals now made by the Director may perhaps be considered on receipt of his reply to the D.O. for orders.

~~For orders~~. Finance may see ~~before circulation~~ after issue of the draft do. below.

Fin. The present proposal cannot be accepted.

Please see the notes on pp. 4-5 above.

When submitting proposals for the conversion of 34 elementary Schools in and around Coimbatore into basic schools, the Director calculated the extra cost on account of supply of equipment to each section of the basic schools on the following scale:-

1st grade.... Rs 100 per Section.
2nd " .. 207 "
3rd " .. 338 "
4th " .. 338 "
5th " .. 338 "

p.15 of (A)

A | The Govt. considered that the estimate of the Director was high and ~~that~~ he was asked to check up the figures again. Pending receipt of the D.P.I.'s report, the Govt. sanctioned provisionally the conversion of the Elementary Schools into basic schools during 1947-8 and a non recurring expr. not exceeding Rs 5.600 on the payment of subsidies to local bodies and grants to aided agencies etc. for the purchase of the craft equipment required in 1947-8 for the First Grade, to be introduced in these Schools.

W.r. to A on p.5 above, the D.P.I. now States that ~~he~~ the estimates already submitted by him are quite reasonable and that they require no revision.

2. The number of basic Schools (in the current year), since have been reduced (for reasons stated on pp.1.2 c.f.) from 34 to 17. The D.P.I. enquires whether the savings accrued ~~on~~ account of the reduction in the number of Schools can be utilised for the purpose of purchasing equipment for the higher grades.

With reference to the note of the E.P.H. dept. at 'X' on pp. 4-5 above, it is submitted that the suggestion of Finance on pp. 10-11 N.F. of G.O. 1474 Edn., dated 8-7-47, was that proposals of the D.P.I. involving an expenditure of Rs 73,976 by way of grants-in-aid during the 5 years 1947-52 should not be sanctioned without reference to the S.F.C. and the Cabinet and that proposals for the continuance of the subsidies proposed for 1947-8 for the rest of the 5-year period mentioned above should be treated as a Part II scheme for 1948-9. Finance agreed to a non-recurring expenditure of Rs 5,600 on the payment of subsidies to local bodies and private managements for the purchase of craft equipment required in 1947-8 for the I grade in the 34 basic schools in and around Coimbatore. The proposal now made is apparently to sanction expenditure on subsidies for the ~~for the~~ purchase of equipment for higher grades also (2nd to 5th grade) so as to make a beginning with these grades also. If this is done, the Govt. will be committed to expenditure in respect of all the grades in future years and the ultimate liability will be large. As the total liability was estimated at Rs 73,976 for 5 years, it is necessary to treat this proposal as a 'New Service', if it is to be introduced in the course of the current year. As the proposals do not seem to be so urgent that they cannot wait till 1948-9, Finance may advise that the proposals may be brought forward as a Part II scheme for 1948-9 explaining the financial implications fully.

Two points are raised in this file.

(1) Taking over under ~~first~~ Govt management Basic Schools in and round Coimbatore.

(2) Supply of equipment for higher grades in the schools converted into Basic schools.

(An expenditure of Rs 5600 has been sanctioned for the supply of equipment for ~~the~~ first grade in these schools.)

p1 c.f.

p6 ante

(1) above:

The D.P.I. has been addressed in the matter and he may be reminded. The draft below is for approval.

(2) above.

The Finance Department has pointed out that the expenditure already sanctioned is for the supply of equipment for ~~the~~ first grade only. As ~~proposals for~~ the supply of equipment to higher grades will entail ~~recovering~~ recurring additional commitment to Government, the expenditure should be treated as on 'new service'. (~~Its~~ The proposal should be placed before the Standing Finance Committee and the Cabinet, if necessary and a supplementary estimate of expenditure should be obtained). It may be noted that the Director has ~~submitted~~ separately proposals for the inclusion of ~~the~~ necessary provision in the Budget Estimate for 1948-49 for the supply of equipment for higher grades in the schools converted into Basic Schools. The proposal is being considered as a Part II Scheme. No action is necessary in this file in regard to the provision of equipment for ~~these schools~~ higher grades etc in 1948-49. Orders of H.M. may be obtained whether equipment should be supplied for higher grades in these schools in the current year itself as proposed by the D.P.I.

SECRETARY, EDN. AND P.H. DEPT. 3 - NOV 1947 GOVERNMENT OF MADRAS

The file may be circulated to H.M (Fin) for approval of the proposal at A on page 7 ante. The D.P.I has reported that the extra cost involved in the current year can be met from the allotment of Rs. 5600 made for the supply of equipment to the first grade.

The Finance department has indicated that the new service procedure should be followed. i.e. the matter should be placed before the Standing Finance Committee. As no additional expenditure is involved in the current year and as the proposal to supply equipment to Higher grades in Basic schools in future years is being ~~be~~ treated as a Part II scheme, it does not appear ~~that~~ the matter need be placed before the Standing Finance Committee. The Finance department will, however, be consulted in the matter and further action taken ~~on H.M (Fin)'s approval~~ after H.M (Fin) accords his appl.

A draft memo to the D.P.I. is submitted for approval. 2. H.M. expressed the desire that the Basic schools spread around Perianaickenpalayam should be taken over and conducted under direct Govt. management. The D.P.I was asked to submit proposals in the matter. The Director's reply is on pages 15 to 17 of the current file. From the reply received it is seen that the extra cost on account of the proposals works to Rs ~~3400~~ 4500 immediate and Rs. 10000 ultimate. This estimate takes into account that the local bodies will be compelled to make contributions to the Govt. equal to the expenditure which they are now incurring on the basic schools. There is provision in the Local Boards Act and in the Dt. Municipalities ~~Mpl~~ Act to enforce the payment of such contributions. It appears that the proposal for taking over the Basic schools under Govt. should be considered as a Part II scheme for 48-49. After the issue of the draft memo, the file may be sent to L.A. & Finance depts ~~may see~~ ~~for remarks~~. They may be requested to treat ~~this~~ the case as ~~a~~ special ~~case~~.
