Grant—Building—Vidyodaya Girls' High School, T. Nagar—Nissen sheds—
construction—inclusion of scheme under Chapter VIII of the Grant-in-aid
Code.

The Correspondent, Vidyodaya Girls' High School, T. Nagar has applied for aid towards the construction of 3 Nissen sheds at a cost of Rs. 9002/- to serve as class rooms for Nursery Hand Crafts etc. The Joint Consulting Architect who was consulted has stated that Nissen sheds are generally regarded as Semi-permanent structures and that with proper periodical maintenance (such as cement washing of the corrugated iron sheets and painting of the steel ~~framework~~ frame work) it may be possible to extend the life of the sheds to 20 years or more. He further reports that authentic evidence regarding the life of "Nissen sheds" for our climatic conditions are not available, as the sheds have been first constructed only during war years.

Buildings for which grants are sanctioned under Chapter VIII of the Grant-in-aid Code ~~Code~~ should be utilised for Educational purpose for not less than 30 years. With reference to the remarks of the Joint Consulting Architect I presume that these "Nissen sheds" may be treated as temporary structures and need not be admitted for aid under Chapter VIII of the Grant-in-aid Code.

Kindly let me know, if my presumption is correct.

Memo. C. No. 1127 Edu. 12-4-49

The DP 9 is informed that his presumption
that in view of the opinion of the Joint Consulting
Architect that 'Nissen sheds' are generally treated
as semi permanent structures likely to last for
about 20 years, Schemes for the Construction of
'Nissen Sheds' in Secondary Schools by local
bodies & private managements need not be
admitted to aid, is correct. If the sheds are
