Edm. J. P. H. (B.H.) Dept.

Please see the Legislative Assembly question on page 1 of. Orders in regard to the selection of 50 schools for the introduction of bifurcated Courses were issued in G.O. no 1504, Edm. of 7.6.48. The number of schools in which 'Agriculture' & 'Engineering' have been introduced is 8 and 10 respectively. In Madurai District 'Agriculture' has been introduced in the Pazhamalai High School, Madurai and 'Engineering' has not been introduced in any of the schools in that district.

Bifurcated courses in schools.

* 575 Q.—SRI K. RAJARAM NAYUDU: Will the Hon. the Minister for Education be pleased to state—

(a) in how many schools bifurcated courses have been started in the Province;

(b) of those, how many are for Civil Engineering and Agriculture;

(c) in what districts these have been started; and

(d) if they have been started in Mathurai, in what schools?

THE HON. SRI B. GOPALA REDDI (on behalf of the Hon. the Minister for Education):—“(a) Fifty schools.

“(b) to (d) A statement^a furnishing the information is placed on the table of the House.”

^a Printed as Appendix II on page 435 infra.

[21st January 1949]

SRI S. NAGARAJA MANIGAR:—“Sir, in view of the fact that we have to progress very speedily in the matter of technical education I do not know why only in these few centres these courses have been started taking into consideration that there are a number of high schools in the Province?”

THE HON. SRI B. GOPALA REDDI:—“The hon. Member must remember that it is difficult to get material and machinery for starting these technical courses in the high schools we have, and so we have to content ourselves with opening the Engineering course in ten high schools and Agricultural in eight schools for the present.”

SRI S. NAGAPPA:—“Sir, from the statement placed on the table of the House I find only three schools in Rayalaseema, Anantapur and Cuddapah. May I ask why the Government have not selected some of these high schools out of these eighteen schools from Kurnool, Bellary and Chittoor and why the Government have neglected the claims of these three districts, when they could have opened at least one school in each of these districts? Will the Government consider opening at least one school in each of these three districts during the course of the next year?”

THE HON. SRI B. GOPALA REDDI:—“As I said, we have opened these bifurcated courses in Engineering ten and in Agriculture eight and in other schools other courses must have been opened.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I know the period within which the Government expect to complete the scheme? I mean the opening of at least two such schools in each district?”

THE HON. SRI B. GOPALA REDDI:—“Last year we opened fifty schools and more will be opened this year and so year by year we will be doing that.”

H. S. HUSSAIN SAHIB BAHADUR:—“Besides Engineering and Agriculture, what are the other courses of training which the Government propose to start in the Province as bifurcated courses?”

THE HON. SRI B. GOPALA REDDI:—“Why, there is the Secretarial course and other such courses.”

SRI K. BOKKAI GOWDER:—“I find from the statement placed on the table that no school has been started in respect of this bifurcated course of training in the Nilgiris district. May I know the reason why the Nilgiris has been neglected?”

THE HON. SRI B. GOPALA REDDI:—“A separate question might be put.”

SRI T. VISWANATHAM:—“Is it not a fact that it is not the Government that starts these courses but it is the institutions in

which necessary material is available that start these courses and the Director of Public Instruction gives them the necessary permission.”

THE HON. SRI B. GOPALA REDDI:—“It is not only the permission.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I know, Sir, whether apart from the civil engineering course, the Government have opened courses in mechanical engineering, electrical engineering and other engineering courses as well?”

MR. SPEAKER:—Is it the Government that start these courses or private institutions which are receiving grants?”

THE HON. SRI B. GOPALA REDDI:—“We will have to finance the entire machinery and equipment whenever they start these courses in the high schools.”

“Regarding the question put by my hon. Friend Mr. Hameed Khan, I suggest to him that a separate question may be put.”

SRI B. S. MURTHI:—“May I know, Sir, if the Government are prepared to finance such of those institutions that come forward to start other courses of engineering in the mufassal?”

THE HON. SRI B. GOPALA REDDI:—“Yes, Sir.”

SRI D. V. RAMASWAMI:—“May I know whether the Government will consider the desirability of opening at least one bifurcated course of training in at least one school in North Vizagapatam district?”

THE HON. SRI B. GOPALA REDDI:—“Last year the courses were opened in fifty schools and more will be opened this year and we will consider the desirability of opening the course at least in one school in North Vizagapatam district.”

APPENDIX II.

[Vide answer to starred question No. 575 asked by Sri K. Rajaram Nayudu at the meeting of the Legislative Assembly held on the 21st January 1949, page 409 supra.]
