Presidency College,
Madras.
10-12-47.

To
The Honourable Minister for Harijan Uplift,
Government of Madras.

Through
The Professor of Chemistry, Presidency College
The Principal, Presidency College, Madras,
and
The Director of Public Instruction, Madras.

Sir,

I, S. Chinnaswamy, a peon in the chemistry department and Adi Dravida by community, humbly beg to submit the following for your kind consideration.

I have been in service as peon since 1923. I had passed the II form when I joined service. Subsequently in order to qualify myself for the post of an attender I joined a night school and passed the VIII standard. I could not join a regular High School for the purpose as I could not afford it and as it was not possible because of my duties in the laboratory.

As per G.O. No. 1680 dated 16-3-43, one who has passed the VIII standard is to be considered as having passed the III Form and is eligible for Higher Elementary Training for Teachers. The copies of certificates enclosed, from a member of the District Educational Council and the Headmaster of a premier high school in Triplicane, substantiate the above fact. On the strength of the above I have been applying for attenders posts when vacancies arose, but every time the authorities rejected my application refusing to consider pass in VIII standard as equivalent to pass in III Form, though the successive professors of the department recommended me for appointment. Further, there are cases in this college of peons without the prescribed qualifications having been promoted as attenders, as for example in the Botany Department.

Finding that my chances in this college would be remote, I applied for an attender's post in the Chemistry Laboratory attached to the Government Museum. In 1942 I was appointed to fill an attender's vacancy caused by the incumbent taking up war service. On his return to his permanent post in 1946, I was reverted to my post as peon in this college.

Subsequent to this, vacancies arose in the chemistry department. But I was not considered eligible in spite of my previous appointments as attender in the Museum (vide Proc. Dis 3097/46 dated 2-12-46). Recently I applied for reconsideration of my case in connection with a vacancy, but again it was rejected.

In view of the above mentioned facts namely--
(1) my 24 years of service in this laboratory to the full satisfaction of the Professors concerned,
(2) the policy of the Government showing special consideration and granting concessions to the members of the backward community to one of which (Adi Dravida community) I belong,
(3) my appointment in the Museum as attender for a period of FOUR years,
(4) my service in the A.R.P. organisation which is equivalent to war service, and
(5) that such concessions have been shown to peons in the other departments of this college,

I pray that my case may be favourably considered and I be given promotion as attender, which is the only prospect open to me.

I beg to remain,
Sir,
Your most humble servant,

S. Chinnaswamy.
(S. Chinnaswamy
Peon- Chemistry Dept.
Presidency College,
Madras.)

Forward herewith the application
Chinnaswamy, S. for reconsideration
available. In view of this connection
refer to my previous endorsement
in his application. In the light of this
as stated above, there can be no
doubt as to his legitimate
claim of the applicant and his best interest
I have been duly promoting him as

Recommended.

Submitted for favourable consideration. I have recommended twice on both the occasions, my interpretation of the rule & recommendation have not been accepted. It is a hard case, fit for re-examination of the position again.

S. N. Ramaswami
Principal.

21.12.47

NRC 890/46
d 22-12-47

Chemistry Department,
Presidency College, Madras.
22-12-48. 18-1-49

To
The Hon'ble Minister of Education,
Government of Madras,

Through
The Professor of Chemistry, Presidency College,
The Principal, Presidency College, Madras,
and
The Director of Public Instruction, Madras.

Sir,

I beg leave to place before you the following facts relating to my service with the earnest hope that they would receive kind consideration and redress in your hands.

I was entertained as a peon in the Department in 1923 and when I joined service my qualification being a pass certificate of the II form. Realising that it would not fetch me an attender's post, I joined a night school and passed the standard VIII, as I could not afford being a regular student of the Third Form in a High School due to dire poverty and onerous duties in a laboratory. As per G.O. 1680 dated 16-9-43, one who has passed the VIII standard is considered as having passed the III Form and eligible even for undergoing the Higher Elementary Training for Teachers. The above statement is further substantiated by the enclosed copies of certificates from the Headmaster of a Premier High School and from a member of the District Educational Council, then in existence. Supported by the certificates referred to, I have been persistently applying for the posts of attenders falling vacant from time to time, strongly recommended by the Professors under whom I have been working, but I have been unsuccessful in getting the post of an attender, the Department turning down my application on the score that the VIII th standard of a night school is not equivalent to III Form.

Finding that my chances of getting an attender's post, in the Department were remote, I applied for an attender's place in the Chemical Laboratory attached to the Government Museum, falling vacant through the incumbent, taking up a temporary job in 1942 during the war. I had to revert to my permanent place in 1946, in the College as a peon. My service in the Museum as attender did not help me in getting any of the subsequent vacancies or posts newly created in the Chemistry Department, though I had four years of service as an attender. The only course open to me now is to apply for a general exemption from educational qualifications (if VIII standard is not recognised as equivalent to Third form) usually given to all classes of Government servants for hard and satisfactory service work coupled with long service in a Department.

I beg to request, humbly, therefore that this my application for exemption may be considered favourably so as to enable me to get the attender's post which is the highest open to servants working in a laboratory. I further request that the following facts may be taken into consideration in granting the exemption:-

- (1) Twenty four years of service in the laboratory to the entire satisfaction of the Officers in the Department,
- (2) My service as an attender in a Chemical Laboratory for four years in another Govt. Department where my qualification was deemed sufficient for the post,
- (3) My service in the A.R.P. organisation which is considered as equivalent to war service,
- (4) My being a member of the ADI DRVIDA community, whose interests the benign Government are interested in promoting, by granting special concessions to members of this community.

If the exemption is granted, the barrier for my promotion is removed and I request once again to consider my application favourably in view of the hardships I have been put to.

Forwarded and kindly recommended
As per order now has been attached
M. V. S. Ramaswami.
14.1.49

I beg to remain,
Sir,
Your humble servant,

S. Chinnaswamy.

(S. Chinnaswami, Peon, Chemistry Dept.)

SCHOOL LEAVING CERTIFICATE
(Granted under the orders of the Director of Public
Instruction, Madras)

Awarded to S. Chinnaswami of Chintadripet the son of Mr.
Subbarayan.

This is to certify that I examined his class, being the Eighth
standard class and placed him third out of seven pupils.

I considered his attainments to be fair.

The date of his birth according to the school register was 5-6-1905
(fifth June nineteen hundred and five)

He bears marks of vaccination.

School Indian Youngmen's Union Adi Dravida night school,
Chintadripet.

Headmaster Mr. C.R. Narasimharaghavan (See T.T.C.

Madras, 28th February 1935.

This is to certify that S. Chinnswami, an ex-student of the I.T.M.U. Adi Dravida Night School, passed his eight standard examination in the year 1933. According to G.O. No. 1680, dated 16th September 1933, he is to be treated as having passed the III form (Third form) of a Secondary School and he is eligible for admission into a high school in IV form. This student is eligible for higher Elementary Training as according to above mentioned G.O. all students who have passed III form and studied upto S.S.L.C. are eligible for the same.

C.R. Narasimha Raghavan
Head Master.
I.T.M.U. Adi Dravida
Night School.

Headmaster.

19 Hindu High School
Triplicane
February 28, 1935. 6 9

It is a common thing for pupils who have completed the Eighth Standard Course in Higher Grade Elementary Schools to seek admission to Form IV in a Secondary School. I know cases where such pupils were admitted to Form IV. The certificates possessed by S. Chinnaswami distinctly show that he can confidently approach the Head master of a High School with the request that he may be admitted to the Fourth Form. The Headmaster, if he chooses, may admit S. Chinnaswami to Form IV even without the formality of an examination and no one can question his discretion.

Sd/-P.A. Subramania Ayyar,

Roc. No. 890/46.

Presidency College, Madras No. 5,
24th January 1949.

238-249
20 JAN 1949

Reference: Application dated 18-1-1949 from S. Chinasswamy, Peon, Chemistry Department, Presidency College, Madras, - Exemption from possessing III Form pass qualification for promotion as attender - application addressed to the Hon'ble the Minister of Education.

9

Submitted to the Director of Public Instruction, Madras.

2. The applicant, S. Chinasswamy, peon, Chemistry Department, Presidency College, Madras, requests that he may be exempted from possessing the III Form pass qualification, as required by the service Rules for attenders, so that he may become eligible for promotion as attender of a laboratory, considering the following facts.

- (i) that he has put in 24 years of service in the laboratory to the entire satisfaction of the officers of the Department.
- (ii) that he had served for four years as attender in Archaeological Chemistry Department of the Government Museum, Madras.
- (iii) that he has A.R.P. service at his credit.
- (iv) that he belongs to a Harijan Community.

3. The Professor of Chemistry states that S. Chinasswamy, though a peon attached to his laboratory, he is attending to the work of an attender and that, to his satisfaction, he has expressed that due to his long service in the laboratory S. Chinasswamy will do well as an attender. The head of the Archaeological Chemist of the Government Museum, Madras, under whom he served as an attender for more than 4 years, has also spoken well of his work. The Chemistry Laboratory requires only such attenders who are quite conversant with the chemicals and also delicate instruments that are used by students and the teaching staff, instead of raw recruits, possessing the required general educational qualifications.

5. In view of the long experience in the laboratory and also of the backwardness of the community to which the applicant belongs, S. Chinasswamy deserves sympathetic consideration in the hands of Government, and deserves the exemption applied for. Now the present policy of the Government is also towards the uplift of the Harijan community.

6. Under the above circumstances, I recommend that S. Chinasswamy peon of the College, may be exempted from possessing the required qualification of III Form pass for promotion as an attender; and be allowed to be promoted as an attender in the next chance.

Presidency College, Madras.

p3ant
In submitting herewith the petitions dated 10-12-1947 and
18-1-1949 from Sri S. Chinnaswamy, Peon, Chemistry Department of
the Presidency College, Madras, I have the honour to state that
Peon S. Chinnaswami had passed II form when he joined service as
~~SEX~~ Peon and later on improved his qualifications by attending a
Night School and passing VIII standard. According to the qua-
lifications prescribed in the Special Rules, a person for appoint-
ment to posts of Attenders in Government Colleges, must have
passed the III form in the recognised school. As a pass in the
VIII standard in a Night School could not be considered as a
pass in III form for purposes of appointment as Attender, the
Peon's earlier requests for promotion as Attender were not
complied with.

p15 ante
2. In view of the recommendations of the Professor of Che-
mistry and in the special circumstances explained in the Endt.
ROC.No.890/46 dated 24-1-1949 of the Principal, Presidency College,
Madras(submitted herewith) I request that the Government may be
pleased to grant, as a special case, exemption from possession of
the prescribed educational qualifications in favour of Sri S.
Chinnaswamy, with a view to his being promoted as attender in the
College. In this connection, I invite the attention of Govt.
to their Order No.Ms.2707 Edn and P.H. dated 13-11-1937 wherein
similar exemption has been granted to Sri P. Rajagopal, an Attender
of the Presidency College.

Yours faithfully,

P. M. i

for Director of Public Instruction.
