Does not
recommend
continuance

The post sanctioned for the Government Secondary and Training School for women, Karur was not utilised during the current school year for want of a qualified candidate. The Inspectress reports that the playground space in the school is inadequate for two Physical Training Instructresses. In view of the fact that no qualified hand is available for the post and in view of the inadequate playground space in the school, further continuance of the post is not necessary. In regard to the other schools there is need for the continuance of the posts as may be observed from the strength of the schools and I therefore request that Government may be pleased to sanction their continuance for a further period of two years from the school year 1949-50.

In the Government Secondary and Training School for women, Vellore there is only one Physical Training Instructress. The strength of the school is 788 and it is reported that the Physical Training Instructress of the school finds it difficult to manage such a large number of girls single handed. As one Physical Training Instructress is expected to handle only 250 girls, the employment of an additional Physical Training Instructress is necessary in the interests of efficiency. I therefore request that Government may be

pleased
