Clause (a) of the question : The scheme of compulsory elementary education has not been extended during the year 1948-49. The D.P.S. has pointed out that the scheme of compulsory elementary education already introduced during the years 1945-46 and 1947-48 is not working well and before taking the question of the scheme extending to other areas, the defects noticed in the working of the scheme should be first remedied. The Director was asked to review the whole question and to submit comprehensive proposals in the matter. His reply has been received recently. The file has been noted on and submitted separately.

2. It may be pointed out that the Govt. have decided to utilise the allotment sanctioned for the expansion of Basic Education. H.M. (Edn) has recorded that the view that in future compulsory elementary education should be on the lines of Basic Education. The question as to the period within which the scheme of universal compulsory Basic Education should be introduced is to be discussed by the Cabinet.

Clause (b) of the question: Even though the scheme of compulsory elementary education was not extended in 1948-49, additional pupils may become enrolled in the year 1948-49 under the scheme introduced during the years 1945-46 to 1947-48. The number of such children may be over lakh as indicated below:

Years	Number of pupils.
In the areas selected for compulsion during 1945-46	34,000.
" " " 1946-47	40,000.

The answer to (b) "about a lakh of children may have been newly enrolled during 1948-49" is no good. I think by this time we may have some figures. I think we ought to give them figures. That may be more exact.
