U.S. NO. 381/49 dated 1101 May, 1949.

131b: Statistical tables and notes on the publications registered under the Trade and Registration of Designs Act of 1907, in the Madison Presidency, during the calendar year 1918.

00-4-41 dated 06/4/70, on 0.2. 00-4-41 dated 06/4/70, on 0.2.

I beg to furnish below statistical tables and notes on the published statistics registered under the Press and Propaganda of the Ministry of the Interior, in the Province of Pinar del Rio, during the calendar year 1907. Amongst the literary activity in the province, we judge from the language, with certain exceptions, and number of the books, and particularly during the year.

1992-1993

	1943	1944	1945	1946	1947
Boats	8117	8178	8176	1000	1704
Particulates	506	700	677	664	644
Total	8623	8878	8853	1664	2348

The above table gives a comparative estimate of the literary activity in the province during the past quinquennium. The figures given therein in respect of periodicals represent the actual number of different periodicals registered and do not include the numerous issues of the same periodical. Whereas there has been an increase of only 30 books over the number for the previous year, an increase of 12 per cent is recorded in respect of periodicals. A steady increase in the number of periodicals registered has been noticed in the past few years, which indicates the increasing interest evinced in journalistic activity in the Province.

three sub-heads: 'Original Publications', 'Re-editions', and 'Translations'. On a comparison with the position in the previous year, there has been, during the year under report, an increase of 8 per cent under 'Original Publications', and fall of 46 per cent under 'Translations'. There is no appreciable change in respect of the publications under 'Re-editions'.

The above table gives the figures of the total literary output in the different districts of the Province in the year 1943. The City of Madras records an increase of 134 over the figures for the previous year and as usual, leads the other districts in this matter. Guntur, which occupied the second place in the year 1942 yields its place of merit to Tanjore, which registers an increase of 40.5 % over the figures for the previous year. Among the other districts, those with an output of more than 100 publications to their credit are arranged in the descending order as follows:-

South Canara, Krishna and Tiruchirappalli. Madura, Malabar, South Arcot, Chittoor and East Godavari have an output ranging between 100 and 50 publications, while the rest have less than 50 to their credit. The district of Chidambur has no publications to its credit.
