From

The Director of Public Instruction,
M a d r a s

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George, M a d r a s.

Sir,

R.C.No.1090-K2/47 dated 25th April, 1949.

Colleges--Engineering College, Guindy--Overseer Class--
Continuance of staff.

32843

The sanction accorded in G.O.No.2297-Education dated 30.10.1947

for the employment of one Instructor, four Assistant Instructors and two
peons in the College of Engineering, Guindy in connection with the
opening of Overseer class expires at the end of April 1949. The Overseer
course was actually started in November 1947. The first year course was
continued upto September 1948 and the second year course was started in
October 1948. The Overseer Course is a two year course with only a summer
vacation of six weeks. As there is a definite need for the continuance of
the course in the college, I request that the posts in question may be
continued till the end of the academic year 1949-50 i.e. till the end of
June 1950. The Principal is examining the possibilities of finishing the
second year course by the middle of July 1949 instead of September 1949
by working throughout the Summer vacation with a short break in the
middle and his proposals in this regard are being examined.

2. I am instructing the Principal to continue the posts in
anticipation of the sanction of Government. I request that my action may
kindly be approved.

Yours faithfully,

[Signature]

FOR DIRECTOR OF PUBLIC INSTRUCTION.

Copy of the letter Roc.No.3-105 A/49 dated 23-3-49 from the Principal, College of Engineering, Guindy to the Director of Public Instruction, Madras.

Sub:--Senior Overseer class--Completion before July.
Ref:--My letter dated C.No.3-105 A/49 dated 15-3-49

In my letter referred to above I have explained the necessity for completing the present Senior Overseer class before the commencement of the next college year, the main reasons being not to allow two Overseer classes of the same year running at the same time, and thus creating dislocation of the normal working.

The present Senior Overseer class was started on October 13th 1948 and it should normally end in September 1949. But as already explained in my letter C.No.3-105 A/49 dated 15-3-49, it is proposed to complete the course before the end of July. In order to put in the required number of working days, it is proposed to convert Saturdays also as working days and thus increase the actual available working days for the session as the new Overseer class will not start functioning before 16th July, and if the present class is continued right upto July 16th 1949, the total number of working days, excluding a short summer vacation for two weeks during the latter part of May and the other holidays, will be about 190 days. The examinations will be completed and the session will end by July 16th 1949.

This proposal involves the working of the class during the whole of summer vacation except for the two weeks. It would be a little strenuous to both students and staff. But this will be amply justified by the resulting smooth working of Overseer's class in the succeeding years.

6/5

The opening of Overseer Course in the College of Engineering Guindy was scheduled in P.O. No. 1000 K/47 dated 30-10-47. The new course was started in November '47 instead of in July. In the normal course, the first batch of the second year Overseer students should complete their course by the end of September '49. Admissions to the first year students in 48-49 were however made in July and as the second year class of the second batch of the students admitted the course will commence work in the normal way in July '49. In view of the difficulties involved in completing the second year class of the first batch till the end of September along with the second year class of the second batch the Principal proposes to continue the second year class of the first batch during the summer vacation and complete the course by the middle of July 1949. I am enclosing herewith a copy of the letter No. 3-105 A/49 dated 15-3-49 explaining the desirability as well as the feasibility of the proposal. The Principal is implementing his proposal in anticipation of a recommendation that the proposal of the Principal to complete the course for the first batch of the Overseer students by July 1949 may be approved.

Yours faithfully,

For Director of Public Instruction
