No. 1913/48.P-1 dated 28th June 1948.

Sir,

Sub: Tungabhadra Project Staff - Educational facilities for the children of the staff.

p 5 infra

I enclose a copy of the Superintending Engineer's, Tungabhadra Project Headworks Circle, Endorsement No.114 dated 21st June 1948 together with its enclosure on the above subject. One of the main grievances and a genuin one - which the staff working in the Tungabhadra Project Headworks Circle have, is that they are forced to maintain two families and live separated from their children for want of Tamil and Telugu medium of instruction in the school at Hospet. I therefore recommend the Superintending Engineer's proposal, that at least one section, in each medium - Tamil and Telugu - from Form I to Form VI, may be opened in the Municipal High School, Hospet. I also strongly recommend that pending examinations of the financial commitments, and other aspects, an initial grant of Rs.2,000/- may be sanctioned immediately so as to enable the Superintending Engineer, Tungabhadra Project Headworks Circle to get in touch with the District Educational Officer, Bellary, and the local Municipality, and introduce the Tamil and Telugu sections even this year. I request very early orders on the proposals above.

A

3 ③

Copy of D.O.No.714 dated [illegible] Tungabhadra Project Headworks [illegible] Narasimha [illegible], District Educational Officer, Bellary.

This is just to write to you regarding certain facilities [illegible] for the school going children (from 1st Form and above) of the Project staff working at the Headworks and Canal Division, Hospet. You know the vast strength of officials and mechanics working in the Project, most of whom have come from either Andhra or Tamil parts of the Province. Many of them have moved here with their school going children, as they are unable to maintain a separate establishment in their native districts or elsewhere to give education to their children and the children who are to study in the 1st Form and above have necessarily to remain without education now as medium of instruction in the local schools at Hospet is Canarese which is a new language to them. Their plight is pitiable. As far as the school proposed out of the project funds is concerned, there is provision only for an elementary school where education will be imparted in Telugu and Tamil as well. It is out of question to start an independent Secondary or High school in the project area as the cost will be prohibitive and full strength for the classes will be difficult to get. I am enclosing herewith a list of such children who may be attending school in case some arrangements are made to impart lessons in Tamil and Telugu medium. When once the classes are opened more children will be coming in as even those who are maintaining two families for the sake of their children's education will be only too willing to get them over here.

λ school

p 5 [illegible]

I had a discussion on this subject with the Head Master of the Municipal High School at Hospet and the Municipal Chairman sometime back. They were of opinion that Government sanction would be necessary to open classes in any medium other than the Regional language and that if this be obtained, they had no objection to run these classes provided any additional accommodation necessary is arranged for and that the Municipality is not committed to any extra expenditure on this score.

X

It will be cheaper and more feasible to arrange for facilities to impart education in Telugu and Tamil in the local High School itself than for opening a separate school in the Project Camp, as the capital cost on scientific and other equipment, establishment etc., would be considerably minimised.

At least one section in each medium from 1st Form to the VI Form will be required, irrespective of the No. of pupils in the class. The No. of teachers may be limited to a minimum by having 2 English teachers, one in each medium for all the classes, about 4 teachers 2 in each medium to take up all other subjects including mathematics and science. It may be possible to find accommodation in the existing school building itself by providing some temporary partitions in the class rooms or the verandhas. If necessary, even temporary structure may be erected for the purpose. I request your hearty and sympathetic co-operation in the matter, to get Government sanction quickly to the proposal made and to intimate me as to how much grant can be expected from Government in the Education Department by way of aid, and how much financial commitment is likely to be. For the six extra teachers required the monthly emoluments may amount to 6 x 90 or Rs. 540/- or say Rs.600/- and other expenses may come to about Rs.100/- per month or say an annual expenditure of Rs.8,400/- or so may suffice. I am addressing the Chief Engineer (Special) to move the Government to give some grant from the project fund also.

β

λ may

As I am anxious to see that these classes are opened this year itself, I request the favour of your urgent reply.

Encl: 1 statement of school
going children.

(Sd.) A.N. Venkataraman.

4 ④ 5

Copy of Endorsement No.114 dated 21st June 19 8. from the Superintending Engineer, Tungabhadra Project Headworks Circle to the Chief Engineer (Special), Chepauk, Madras.

Copy submitted to the Chief Engineer, Special, Madras for information. I had discussed with you during your last camp on the opening of classes in Telugu and Tamil medium in the local [illegible] School, which is an absolute necessity if we to attract personnel for the project. Such a step will attract many more from other circles to work in the Project, while those already here will be more contented and will continue to work. I request you therefore to talk to the concerned Minister and get his sanction to the opening of these classes urgently so that they may function during this year itself. The approximate total yearly expenditure is estimated by me to be about Rs.8,000/- (Rs. Eight Thousand). Arrangements can probably be made to raise about Rs.500/- to Rs.1,000/- per year from private contributions. The balance of expenditure can be met with by apportioning a portion of school fees towards the cost of establishment and by Government Grant.

I shall give you firm figures after receipt of reply from the District Educational Officer. But if Government provisionally sanction the proposal for at least one year, and sanction initial expenditure upto Rs.2,000/- or so from project funds pending final examination of the financial commitments and other aspects, I can take steps to get the classes started with the help of the District Educational officer and the local Municipality, as soon as possible so that the children need not lose their school study this year.

School - Secondary- Municipal High school Hospet-
Opening of additional sections with Tamil and Telugu
Medium of instruction for the benefit of the children
of the project staff.

From the C.E. (Special) No 1913/48-P-1 dated 28-6-48

Ar 12.7.48

Memorandum No 50183 B1/48-1 Education dated 12-7-48

The Chief Engineer (Special) has proposed that two additional sections with Telugu and Tamil as the medium of instruction may be opened in each of Forms 1 to Vl in the Municipal High school, Hospet, for the benefit of the children of the staff working in the Tungabhadra Project Head circle. It is reported that the Municipal Council, Hospet, has no objection to the opening of the additional sections provided the required additional accommodation is arranged for and the

Xm p3 cf

10

Municipality is not put to any additional expenditure on this account. A copy of the letter from the Superintending Engineer, Tungabhadra Project Headworks Circle, to the D.E.O, Bellary, on the subject is enclosed. The D.P.I. is requested to ~~offer~~ offer his remarks on the proposal. He is requested to furnish an estimate of the extra cost involved on account of the opening of two additional sections in each of the Forms 1 to 111 immediately and whether he recommends the payment of teaching grant on the basis of the entire net cost inrespect of the additional sections or ~~whether~~ the recovery of a contribution ~~may be~~ from the project funds towards one half of the net cost of the additional sections, as the Municipal Council is not in a position to meet its share of the net cost. He is also requested to ascertain and report whether any additional shed will have to be constructed to provide the additional accommodation required and whether the expenditure on the construction of the shed may be debited to the project funds. The Director is requested to treat the reference as specially urgent

Submitted with reference to Government Memo No.50183-B1/48-1 Edn., dated 12-7-1948.

pp 7-8 ante

In regard to the provision of additional accommodation, the District Educational Officer has suggested the construction of 8 class rooms to accommodate 20 pupils each, in view of the small numbers in the proposed Tamil and Telugu Sections. But instead of putting up such small rooms, it will be better to have 4 standard-sized rooms which can accommodate 40 pupils each and to have them provided with temporary sound proof partitions so that when the special sections are abolished in course of time, the class-rooms can be useful for the expansion of the ~~xxxxx~~ Municipal High School, Hospet proper; otherwise, these small rooms may become a waste.

p 10 infra

The other remarks of the District Educational Officer are endorsed.

Ref: Your Nos.1722 G/2-40 dated 20-7-1948.

I. The probable strength of each section as furnished by the Superintending Engineer will be as follows:--

I Form.	Telugu	5	Tamil	13
II Form.	,,	2	,,	3
III Form	,,	2	,,	6
IV Form	,,	4	,,	-

Even IV Form may be opened this year as it will be practically a continuation of the III Form course and no special equipment over and above III Form needs is required.

The uneconomic numbers will have to be ignored as this is school started under Extraordinary circumstances. V and VI forms are no desirable, at present, as the introduction of optionals which are to vanish shortly will require separate complicated Equipment which will not be in demand in the coming years and those students who will have fairly grown up can study elsewhere till the experimental forms become stabilized.

II. Accommodation:- The Engineering Department alone can finish up additional buildings quickly. They may be of a semi-permanent material such as Zinc sheet duly inlaid by heat proof materials of cement asbestos sheets etc., as this school will perhaps cease to have existence after a decade when the Engineering Establishment on the present large scale would have been disbanded.

8 class rooms to accommodate 30 and having a superficial area of 250 ft. and 2 multi-purposes rooms will have to be provided adjacent to the Existing Municipal High School-Building, as it is over crowded even for the existing numbers. The burden of putting up sheds will be that of the Engineering Department. Immediately it may cost about Rs.10000/- for these sheds and there is enough vacant space at the disposal of this school.

III. Equipment. The existing high school will be able to provide the Laboratory and the English Library and the craft equipment. Telugu and Tamil Library will have to be purchased and this may cost about a Rs.1000/-. Dual desks, chairs and Tables are required. This means about Rs.2000/- as the present school has not enough to meet its requirements.

Staff: The 2 sections (Tamil and Telugu) of each of the 1 to III Forms, may require 6 secondary grade teachers.

6 x 45 Rs. per month ..	270 x 12.	Rs.3240
One Telugu Pandit Rs.60/- and Tamil Pandit. Rs.60/-	120 x 12	Rs.1440
Two Hindi teachers.	100 x 12.	Rs.1200
		Rs.5880/- or Rs.6000/-

(N.B. The present teachers in the high school have already enough work. Hence these additional posts are required and they also require the knowledge of the language of the pupils (i.e.) Telugu and Tamil.)

The Drawing, Physical Training and Craft Instructors of the Municipal High School, may be available for these subjects and so no special staff under these subjects is necessary.

The average cost in course of years will be more for the staff, as they go on earning increments. Perhaps, a special allowance will have also be paid to attract Telugu, and Tamil teachers from a far off land, as this is a Kanarese country. It is ordinarily difficult to get Telugu and Tamil staff at Hospet.

Thus the additional non-recurring cost will be

Temporary building	Rs.10000/-
Library (Telugu and Tamil)	Rs. 1000/-
Equipment (Furniture)	Rs. 2000/-
	Rs.13000/-

It is reasonable that full non recurring cost is borne by the Engineering Department.

As for the recurring cost on the staff about Rs.6000/- including contingencies, half of it may be paid by Government in the Educational Department and the remaining from the Project Funds as the Municipal Council is unable to bear any extra expenditure on this account.

If IV form is also opened this year.

4 L.Ts:- 1 Telugu History L.T. and 1 Telugu Science and Ma-

P.t.O.

Mathematics L.T.)
and One Tamil - do -) will be required in addition which means 4 x 75 ...300 x 12...Rs.3600/-.
1 Tamil History L.T.)

This is necessary because the medium of instruction will be Telugu and Tamil.

(True copy)

for Director of Public Instruction.

Schools - Secondary - Municipal High School Hospet - Opening of an additional section in Form I with Tamil as the medium of instruction for the benefit of the children of the project staff

Memo No: 50183 - B1/48-4 Edn dated 5-1-49

5/1/49

The Commissioner Hospet Municipality is informed that in view to provide educational facilities to the children of the staff of the Tungabhadra Project it has been suggested that an additional section may be opened in Form I with Tamil as medium of instruction and that the cost of employment of a Secondary grade teacher for the Tamil section may be met entirely by Govt. It is estimated that the strength of the Tamil section will be about 13. The Commissioner Hospet Municipality is requested to report whether

Sir,

Sub :- Secondary - Municipal high school, Hospet - opening of an additional section in I Form with Tamil as the medium of instruction for the benefit of the project staff.

Ref :- Government memorandum No.50183-B.1-48-4 Edn., D/ 5 - 1 - 1949.

..oOo..

While submitting the particulars called for by the Government in their memorandum cited above, I beg to state the matter of providing educational facilities to the children of the staff of the Thungabhadra project was discussed by the Superintending Engineer, Tungabhadra Project with the Divisional Inspector of schools, Anantapur and the District Educational Officer, Bellary when the two Officers happened to visit the Dam Site for inspection of schools there at on 14-2-49.

pages 13-14

Expressing gratitude to the Government for the directions issued to the Municipal Commissioner to submit particulars for the opening of an additional section in Form I with Tamil section, the Superintending Engineer, Tungabhadra Project has represented to the said two officers of the education department that an additional section in form I with Tamil medium cannot meet the needs of all the children of the staff partly on account of the fact the majority of the members of the staff are Andhras and partly due to the fact that even amongst the Tamil as well as Andhras and the others there are children studying in different forms who are to be provided with similar educational facilities as the Government is pleased to contemplate in respect of the Tamil children studying in I Form. He further stated that provision for Tamil & Telugu sections from I Form upto VI Form is necessary in view of the fact the construction of the dam will last for 5 more years and the staff working at the dam who almost consist of Andhras and Tamilians have to remain there for the period above mentioned. He concluded he will move the matter with the Chief Engineer and submit a report to the Government and to the Municipality. His report will be submitted to the Government on its receipt with my remarks.

R

As regards the accomodation for the additional section in Form I the headmaster, Municipal high school has reported that he is submitting proposals for the working of the school during 49_50 in shift system which if approved no extra accomodation is necessary for the Tamil section in I Form. Incase the proposals are not accepted a shed costing about Rs.2500/- has to be erected. The headmaster states that Rs.50/- worth of books and seven duel desks costing about Rs.300/- is necessary. I may submit it is not possible to secure the services of a Tamil Secondary Grade teacher in these parts.

project and dearness allowances of the project staff

Copy of the letter No.497CE dated 9-4-49 from the Superintending Engineer, Tungabhadra Project Headworks Circle, Via Hospet, to the Addl.Chief Engineer for Irrigation, Chepauk, Madras.

Sub:-Schools - Municipal High School, Hospet Opening of parallel Telugu and Tamil Sections in Forms I to VI for the benefit of the children of Project staff.

Ref:-Your Memo.No.1913/48.P.10 dated 5-2-49. 14

In my letter No.114 dated 21-6-48, on which the present orders of Government communicated with your Memo.cited above, are based (vide also your No.1913/48.P-1 dated 28-6-48) I had recommended that parallel sections for Telugu and Tamil should be opened for forms I to VI in the Municipal High School, Hospet for the benefit of the children of the Project staff.

As such, the present proposal to open an additional section for 1 Form and that too for Tamil only will not touch even the fringe of the problems.

3. As already reported, the Project staff, in view of paucity and dearth of experienced men in the ceded districts had necessarily to be drawn from the Tamil and Telugu areas. The Supervisory technical staff as also skilled men are also similarly from the Tamil and Telugu areas. For the efficient and speedy execution of the Project, the need for the maintenance of a reasonably contented and carefree staff cannot be gainsaid., and towards this end, the provision of educational facilities for the children of the project staff, which is an elementary need, seems imperative.

4. The project staff have their children in different age groups and hence reading in various classes varying from I to VI Form, so far as secondary and higher educational classes are concerned. At present, in view of the absence of educational facilities in their respective mother tongue at Hospet, the project staff are either forced to maintain separate establishment in their native districts for the education of their children or keep them here without imparting them any education. The emoluments including project and dearness allowances of the project staff are hardly adequate in most of cases to permit them to run a second establishment. Even in the case of those who maintain a second establishment it is done under considerable financial strain and hence they naturally are always on the look out for the earliest opportunity to release themselves from the Project work. People belong to other than Ceded Districts, who are posted newly to the project come with great reluctance in spite of project allowance and other amenities now provided and join here only after all efforts to avoid their posting have proved unsuccessful.

5. Hence it would be in the interest of project work to create conditions at the camp which would be conducive to and enable the staff to live with their children and avoid additional expense involved in the maintanance of a second establishment in their own native districts for the education of children. Such conditions will tone up their morale and keep them in a carefree condition resulting in better outturn and efficiency in the project work.

6. The alternative inevitable course adopted at present by the Project staff i.e., keeping the children at home with them denying them education is also harmful from a long range point of view, as a section of the future citizens of the country however a small percentage they may form, will go without education, which the Government are so anxious to spread.

7. The disabilities set out above, will ~~be~~ not be solved by opening of I form for Tamil only, as the staff who have children reading in higher Forms in Telugu will have necessarily to provide for them otherwise. I enclose a statement showing a forecast of the No. of children of project staff likely to join the various Forms I to VI Tamil and Telugu Sections if facilities for such education are given in the Municipal High School at Hospet

p.t.o.

from the next academic year. This includes the children of the Project staff of Canals Division, at Hospet, whose colony is close to the High School. Of course, the smallness of number in ecah class should not deter us from opening all the classes all at once, instead of Form by Form, as it will be only an elementary amenity which we will be providing. Besides its long term effect should not be lost sight of as the fact that such facilities have been provided will serve as an attraction for future recruits to the Project.

8. The project will last only for another 3 to 4 years and as such the need for such parallel classes will cease with the completion of project. It is therefore necessary to provide all the additional classes from now for the duration of the Project construction.

9. In this connection I would like to invite your attention to the recommendations of the Committee constituted to enquire into the lack of educational facilities for Telugu children in Schools in the City of Madras (vide page 3 of Indian Express dated 24-3-49). The Committee has recommended that now that mother tongue has been given the predominant place in the education by local Government and the Government of India, the billingual classes should be abolished and instead these clas-ses should be divided off into Tamil and Telugu sections and that whatever be the strength of such Telugu section when formed, they should be kept on for 3 years to come so that people may have sufficient time to make adjustments in the meantime. It has also recommended that parallel Telugu sections be opened in all classes and forms in the Model High School, attached to Teacher's College, Saidapet and that Wesley High School, Royapettah be induced to open parallel Telugu sections as an experimental measure for 3 years. The Government have not taken a decision on these recommendations but the recommendations would appear to be applicable in a full measure to the project conditions.

A

10. I have since had a full discussion with the Commissioner of Hospet Municipality and the Headmaster of the High School in regard to the feasibility of opening such parallel sections in forms I to V immediately and the Form VI next academic year and the financial commitments. A copy of the scheme drawn up by the Headmaster is enclosed for your information. I agree with the proposals made therein except in the matter of accommoda-tion, which appears rather too liberal. The Educational Department-rules require $9\frac{1}{2}$ sq.ft. per pupil and as I do not think that the total strength of pupils for which such special provision is called for, would exceed 50 in the first year, a floor area of about 500 sq.ft. would appear sufficient for a beginning. This area built in a long hall could be divided by movable partition into rooms of such sizes as may be warranted by the strength of the different classes. The building may be a temporary structure with dwarf walls alround, Trellis work above and light asbestos roof, constructed in the compound of the Hospet Municipal High School. The cost of the structure which I estimate at Rs.4,000/- may be met from Project funds, the building remaining the property of the project and removed finally when no longer required. The other non-recurring expenditure is towards cost of furniture etc., which would amount to Rs.4200/- The recurring expenditure towards salary of additional staff, purchase of library books year to year, annual repairs to buildings will amount ~~will~~ to Rs.17,000/- vide details furnished separately. A part of the recurring charges will of course, be met with from the school fees collected from the pupils.

pp 6-7 infra

p 6 infra

11. In the light of the above, I request that the question may be taken up with the Government and orders obtained early on the following:-

X (i) to open parallel sections for Form I to V and VI if necessary for Tamil and Telugu from the academic year 1949-50 and to recruit the additional staff required in time.

(ii) To offer the Tamil and Telugu teachers the same con-cessions as extended to the Project Non-Gazetted staff i.e., Project allowance of 30% of pay without amenities or 15% with amenities, as it would be difficult to get these teachers on the usual terms.

(iii) To admit girls also in the proposed new sections. 15

(iv) to provide a conveyance, lorry or station wagon to take the children to and fro from dam site to School and back at project cost.

(v) The recurring expenditure on the working of the new sections to be met half by Educational Grant from Government and the remaining half from the Project funds.

(vi) the non-recurring expenditure towards the cost of the additional building proposed and the initial equipment by ~~way~~ way of Tables, Chairs etc., to be met from project funds and to remain as project property.

12. In this connection, I invite your attention to my letter No.1120 C.E. dated 3-8-48 wherein I have already reported that the Hon'ble Minister for Education, Sri Avinasilingam Chettiar, during his visit here on 31-7-48 agreed with most of the suggestions, now proposed.

13. I would also like to recall to your memory the following passage in the Low Level Canals report drafted by you as Spl. Executive Engineer, wherein you had already envisaged the necessity for making special provision for educational facilities for the children of project staff. " it is also necessary that the Educational Department must be moved to introduce Tamil in the School at Hospet for the period of dam construction, as otherwise, the education of children of Tamil Officers and subordinates on the dam work would suffer" vide p.p.29 of L.L.C. Report.

I understand that, recently the Government have issued orders permitting opening of parallel sections in other than regional languages provided a minimum No. of pupils are available. It may be that in certain forms, this minimum may be available in our case, but where it is not, it should not be insisted on in view of the special project conditions.

Copy of the letter of the Headmaster, Municipal High School, Hospet, dated 22-2-49.

Sub:-Opening of tamil sections - requirements for opening of Telugu and Tamil sections in I form to V form during 1949-50 requested.

As promised yesterday, when you were here to discuss the above proposals, I am herewith furnishing the required particulars.

1.ACCOMMODATION: For the 10 classes, 10 rooms each to accommodate about 20 students i.e., rooms of 16' x 12' I have already represented to construct 3 more rooms (each 23' x 21') for the expected sections (Kannada medium) during 1949-50.

2.FURNITURE: 10 Chairs, 10 tables, 10 black boards, 10 cup boards, and 60 duel desks, say at 6 for each class.

3.LIBRARY AND TEXT BOOKS: Tamil library books and text books (in Tamil and Telugu) worth about Rs.200/- for 49-50.

4. STAFF REQUIRED: One Tamil Pandit.

Note:- It may be possible to continue the Telugu students with the existing Telugu students who take Telugu as second language, if syallabus are same for Telugu as first language and tamil as second language.

5

(2) One hindi Teacher knowing both Tamil and Telugu and then ~~the~~ sections can be combined; otherwise 2 Hindi teachers are necessary.

(3) One Manual Training Instructor (qualified to teach gardening and agriculture both in telugu and tamil).

(4) 2 Secondary Grade (Telugu) teachers.
(5) 2 -do- (Tamil)
(6) 2 L.T. Teachers (Telugu ~~one to teach~~ History and another Science.).
(7) 2 L.T. Teachers (Tamil-one to teach History and another Science.)

16

Note:- The Science teachers may be allowed to handle elementary ~~mathematics classes~~.).

Thus for the 10 sections, it may be possible to distribute the work among only 8 class teachers. It may also be possible if the strength of the tamil and telugu sections are small, to combine them for drawing and physical training classes with the other (Kannada medium) of the School ~~classes.~~

2 Attention is invited in this connection to Director's reply to Government, Rc.No.1722-G2-48 dated 23-8-48 and also the Govt. Memo. No. 50183-B1/48-4 Education dated 5-1-49 addressed to the Commissioner, Hospet Municipality.

3 The statistics of probable strength furnished by the Superintending Engineer shows that only the Tamil Section in Form I will have economic strength while the Telugu Sections in the same form and the Tamil and Telugu sections ~~in~~ Forms II to V will be uneconomic, the sections in Form VI having no strength as estimated at present. But in view of the circumstances explained by the Superintending Engineer, it seems desirable to permit the opening of both the Tamil and Telugu Sections in all the Forms I to V and also in Form VI when and if found necessary and the fact of some of them being uneconomic may be ignored since these sections are being started under extraordinary circumstances.

4 It is stated that the School will be run in shifts during the next year and as such it can be hoped that there may not be any difficulty for accommodating these sections. If however additional sheds are found necessary these sheds should be put up by the Engineering Department, ~~meeting~~ the expenditure being met from the project funds.

5 As regards the extra~~ct~~ cost on this account, the whole of [illegible] expenditure including that on providing additional [illegible] from Project funds and

33

while of recurring expenditure, half may be borne from Provincial funds, the other half being met from the project funds.

I invite reference to my letters read above. The school is to be re-opened shortly and the project staff have to decide even now about the arrangement to be made for the education of their children at Hospet or elsewhere. I therefore request that very early orders may please be issued in the matter.

2. I may add that unless favourable orders of Government are issued and that too immediately, another year will be lost leaving one of the main grievances of the staff unredressed.

3. May I arrange for advertising for necessary staff, in anticipation of Government approving the proposal to open the sections this year itself? Unless advertisements are issued immediately it will not be possible to get suitable teachers in time.

Yours sincerely,

(M.S. THIRUMALE IYENGAR)

Copy of letter from the Additional Chief Engineer for Irrigation dated 28th April 1949 Letter No:1913/48.P-12.

- - -

Sub: Schools - Municipal High School, Hospet - opening of parallel Telugu and Telugu sections in forms I to VI for the benefit of the children of the project staff.

- - - -

In inviting reference to the Government Endorsement No.4304SI 48-11 dated 18.1.49, I enclose a copy of Superintending Engineer's Thungabhadra Project Headworks Circle letter No.497 CE dated 9.4.49 together with its enclosures on the above subject. As stated by the Superintendent Engineer the modified proposal of Government as made out in their Memo No.50183-B1/48-4 (Education and Public Health Department) dated 5.1.49, communicated with Government endorsement read above, will not touch even the fringe of the problem. I therefore request Government to approve of all the suggestions made by the Superintendeng Engineer in para (11) of his letter.

I request very early orders of Government on the subject so that the suggestions may be given effect to atleast from the academic year 1949-50.

. . . .

Copy of the letter No.497CE dated 9.4.49 from the Superintending Engineer, Tungabhadra Project Headworks Circle, Via Hospet, to the Additional Chief Engineer for Irrigation, Chepauk, Madras.

----------

Sub: Schools - Municipal High School, Hospet - opening of paralel Telugu and Tamil Sections in Forms I to VI for the benefit of the children of Project staff.

Ref: Your Memo. No.1913/4' P.10 dated 5.2.49.

- - -

In my letter No.114 dated 21.6.48, on which the present orders of Government communicated with your Memo. cited above, are based (vide also your No.1913/48.P-1 dated 28.6.48) I had recommended that parallel sections for Telugu and Tamil should be opened for forms I to VI in the Municipal High School, Hospet for the benefit of the children of the Project staff.

As such, the present proposal to open an additional section for I form and that too for Tamil only will not touch even the fringe of the problems.

3. As already reported, the Project staff, in view of paucity and dearth of experienced men in the ceded districts had necessarily to be drawn from the Tamil and Telugu areas. The Supervisory technical staff as also skilled men are also similarly from the Tamil and Telugu areas. For the efficient and speedy execution of the Project the need for the maintenance of a reasonably contented and carefree staff cannot be gainsaid., and towards this end, the provision of educational facilities for the children of the project staff, which is an elementary need, seems imperative.

4. The Project staff have their children in different age groups and hence reading in various classes varying from I to VI Form so far as secondary and higher educational classes are concerned. At present, in view of the absence of educational facilities in their respective mother tongue at Hospet, the project staff are either forced to maintain separate establishment in their native districts for the education of their children or keep them here without imparting them any education. The emoluments including project and dearness allowances of the project staff are hardly adequate in most of cases to permit them to run a second establishment. Even in the case of those who maintain a second establishment it is done under considerable financial strain and hence they naturally are always on the look out for the earliest opportunity to release themselves from the Project work. People belong to other than ceded districts, who are posted newly to the Project come with great reluctance in spite of project allowance and other amenities now provided and join here only after all efforts to avoid their posting have proved unsuccessful.

5. Hence it would be in the interest of project work to

P.T.O

42

create conditions at the camp which would be conducive to and enable the staff to live with their children and avoid additional expense involved in the maintenance of a second establishment in their own native districts for the education of children. Such conditions wil tone up their morale and keep them in a carefree condition resulting in better outturn and efficiency in the project work.

6. The alternative inevitable course adopted at present by the Project staff i.e., keeping the children at home with them denying them education is also harmful from a long range point of view, as a section of the future citizens of the country however a small percentage they may form, will go without education, which the Government are so anxious to spread.

7. The disabilities set out above, will not be solved by opening of I form for Tamil only, as the staff who have children reading in higher forms in Telugu will have necessarily to provide for them othewise. I enclose a statement showing a forecast of the Number of children of project staff likely to join the various forms I to VI Tamil and Telugu sections if facilities for such education are given in the Municipal High School at Hospet from the next academic year. This includes the children of the Project staff of Canals Division, at Hospet, whose colony is close to the High School Of course, the smallness of number in each class should not deter from opening all the classes all at once, instead of form by form as it will be only an elementary amenity which will be providing. Besides its long term effect should not be lost sight of as the fact that such facilities have been provided will serve as an attraction for future recruits to the Project.

8. The Project will last only for another 3 to 4 years and as such the need for such parallel classes will cease with the compl tion of project. It is therefore necessary to provide all the additional classes from now for the duration of the Project construction.

9. In this connection I would like to invite your attention to the recommendations of the Committee constituted to enquire into the lack of educational facilities for Telugu children in schools in the city of Madras (vide page 3 of Indian Express dated 2[illegible]). The Committee has recommended that now that Mother tongue has been given the predominant place in the education by local Government and the Government of India, the bilingual classes should be abolished and instead these classes should be divided off into Tamil and Telugu sections and that whatever be the strength of such Telugu section when formed, they should kept on for 3 years to come so that people may have sufficient time to make adjustments in the meantime. It has also recommended that parallel Telugu sections be opened in all classes and forms in the Model High School, attached to Teacher's College, Saidapet and that Wesley High School, Royapettah be induced to open parallel Telugu sections as an experimental measure for 3 years. The Government have not taken a decision on these recommendations but the recommendations would appear to be applicable in a full measure to the project conditions.

10. I have since had a full discussion with the Commissioner of Hospet Municipality and the Headmaster of the High School in regard to the feasibility of opening such parallel sections in forms I to VI immediately and the form VI next academic year and the financial commitments. A copy of the scheme drawn up by the Headmaster is enclosed for your information. I agree with the proposals made therein except in the matter of accommodation, which appears rather too liberal. The Education Department rules required 9½ sq. ft. per pupil and as I do not think that the total strength of pupils for which such special provision is called for, would exceed 50 in the first year, a floor area of about 500 sq. ft. would appear sufficient for a beginning. This area built in a long hall could be divided by movable partition into rooms of such sizes as may be warranted by the strength of the different classes. The building may be a temporary structure with dwarf walls alround, Trellis work above and light asbestos roof, constructed in the compound of the Hospet Municipal High School. The cost of the structure which I estimate at Rs.4,000/- may be met from Project funds the building remaining the property of the project and removed finally when no longer required. The other non-recurring expenditure is towards cost of furniture etc. which would amount to Rs.4200/- The recurrin

---

43
25

penditure towards salary of additional staff, purchase of library books year to year, annual repairs to buildings will amount to Rs.17,000/- vide details furnished separately. A part of the recurring charges will of course be met with from the school fees collected from the pupils.

11. In the light of the above I request that the question may be taken up with the Government and orders obtained early in the following:

1. to open parallel sections for form I to V and VI if necessary for Tamil and Telugu from the academic year 1949-50 and to recruit the additional staff required in time.
2. to offer the Tamil and Telugu teachers the same concessions as extended to the Project Non-Gazetted staff ie. Project allowance of 30% of pay without amenities or 15% with amenities as it would be difficult to get these teachers on the usual terms.
3. to admit girls also in the proposed new sections.
4. to provide a conveyance, lorry or station wagon to take the childrento and from from dam site to school and back at Project cost.
5. the ~~re~~curring expenditure on the working of the new sections to be met half by Educational Grant from Government and remaining half from the Project funds.
6. the nonreuurring expenditure towards the cost of the additional building proposed and the initial equipment by way of Tables, chiars etc. to be met from the Project funds and to remain as project property.

- -

12. In this connection, I invite your attention to my letter No.1130 C.E. dated 3.8.48 wherein I have already reported that the Hon'ble Minister for Education. Sri Avinasilingam Chettiar during his visit here on 31.7.48 agreed with most of the suggestions, now proposed.

13. I would also like to recall to your memory the following passage in the Low Level Canals report drafted by you as Special Executive Engineer, wherein you had already envisaged the necessity for making special provision for educational facilities for the children of project staff. "IT is also necessary that the Educational Department must be moved to introduce Tamil in the School at Hospet for the period of dam construction, as othewise the education of children of Tamil officers and subordinztes on the dam work would suffer vide p.p.29 of L.L.C. report.

I understand that, recently the Government have issued orders permitting opening of a parallel sections in other regional languages promided a minimum number of pupils are available. in our case, but where it is not, it should not insisted on in view of the special project conditions.

----

4. 2. Secondary Grade (Telugu) teachers.
5. 2. -do- (Tamil)
6. 2. L.T. Teacher (Telugu - one to teach History and another science)
7 2. -do- (Tamil - one to teach History. and ~~anteach~~ another science)

Note:- The Science teachers may be allowed to handle elementary mathematics classes)

Thus for the 10 sections, it may be possible to distribute the work amont the only 8 teachers. It may also be possible if the strength of the Tamil and Telugu sections are small, to combine them for drawing and physical training classes with the other (Kanada)medium) of the School.

Sub: Opening of tamil sections - requirements for opening of telugu and Tamil secpions in I form to V form during 1949-50. requested.

- - -

As promised yesterday, when you were here to discuss the abobe proposals, I am herewith furnishing the required particulars.

1. ACCOMMODATION: For the 10 classes, 10 rooms each to accommodate about 20 students i.e. rooms of 16' x 12' I have already represented to construct 3 more rooms (each 23' x 21') for the expected sections (Kannada medium) during 1949-50.
2. FURNITURE: 10 charis, 10 tables, 10 black boards, 10 cup boards and 60 duel desks, say at 6 for each ~~class~~.
3. LIBRARY AND TEXT BOOKS: Tamil library books and text books (in Tamil and Telugu) worth about Rs.200/- for 49-50.
4. STAFF REQUIRED: One Tamil Pandit.

Note: It may be possible to continue the Telugu students with the existing Telugu students who take telugu as a second language, if syllabus are same for telugu as first language and tamil as second language

(2) One Hindi Teacher knowing both Tamil and Telugu and then the sections can be combined; otherwise 2 Hindi teachers are necessary.

(3) One Manual Training Instructor (qualified to teach gardening and agriculture both in telugu and tamil)

P.T.O.

2/44

expenditure towards salary of additional staff, purchase of library books, year to year, annual (recurring) [illegible] to Rs. 17,000/- vide details furnished separately. A part of the recurring charges will of course be met from the school fees collected from the pupils.

11. In the light of the above, I request that the question may be taken up with the Government and orders obtained early in the following:

(i) to open parallel sections for form I to V and VI if necessary for Tamil and Telugu sections, [illegible] recruit the additional staff required in time.

(ii) to offer the Tamil and Telugu teachers the same concessions as extended to the project staff, i.e. Project allowance of 30% of pay with free quarters and other amenities as it would be difficult to get these teachers on the usual terms.

(iii) to admit girls also in the proposed new sections.

(iv) to provide a conveyance, lorry or station wagon to take the children to and from dam site to School and back at project cost.

(v) the recurring expenditure on the working of the new sections to be met half by Educational Grant from Government and the remaining half from the project funds.

(vi) the non-recurring expenditure towards the cost of the additional building proposed and the initial equipment by way of Tables, Chairs etc. to be met from the project funds and to remain as project property.

12. In this connection, I invite your attention to my letter No.1120 C.E. dated 3.8.48 wherein I have already reported that the Hon'ble Minister for Education, Sri Avinashilingam Chettiar during his visit here on 31.7.48 agreed with most of the suggestions, now proposed.

13. I would also like to recall to your memory the following passage in the Low Level Canals report drafted by you as Special Executive Engineer, wherein you had already envisaged the necessity for making special provision for educational facilities for the children of project staff. "..It is also necessary that the Educational Department must be moved to introduce Tamil in the School at Hospet for the period of dam construction, as otherwise, the education of children of Tamil officers and subordinates on the dam work would suffer" vide p.p.29 of L.L.C. Report.

I understand that, recently the Government have issued orders permitting opening of parallel sections in other than regional languages provided a minimum number of pupils are available. It may be that in certain forms, this minimum may be available in our case, but where it is not, it should not be insisted on in view of the special project conditions.

bhadra Project Staff - Educational for the children of the Staff - proposals.

the Spl C.E. letter no. 1913/48P-1 D/ 28.6.48

ase see the Spl C.E.'s letter on p. 1 c.f. and ne on pp 3-5 c.f. S.E. Tungabhadra dworks circle has suggested the opening instruction in Telugu and Tamil medium in the Municipal High School, Hospet for the benefit of the children of project staff and considers that such a step will attract more personnel from other circles to work in the Project and those already there will be contended and willing to continue to work. In consultation with the D.E.O, Bellary he has worked out details and it is reported that the total yearly expenditure would be about Rs. 8000/- that about Rs. 500/- to 1000/- could be raised by way of contribution and that the balance of expenditure could be met by apportioning a portion of school fees towards the cost of estt and by Govt. grant. The ~~DE~~ D.E.O. Bellary has been asked to furnish correct figures. In the meantime it has been proposed to obtain the sanction of Govt. for initial expenditure upto Rs. 2000/- from the project funds. The Spl C.E. in forwarding the S.E.'s proposal has pointed out that the project staff are forced to maintain two families and live separated from their children for want of Tamil and Telugu media of instruction in the school at Hospet. He has recommended to Govt. that pending examination of financial commitments and other aspects an initial grant of Rs. 2000/- might be sanctioned. In the circumstances, it is for consideration whether

A on p. 5 c.f.

B on p. 3 c.f.

p. 1 c.f.

3/

30

the SplCE's proposals to Sanction an initial grant of Rs. 2000/- for the purpose of ~~opening~~ introducing Tamil and Telugu sections ~~for~~ in the Municipal High School, Hospet, for the benefit of the children of Tungabhadra Project Staff may be accepted. LA, E&PH & Fin depts. may see for remarks.

7/7/48

[It is also for consideration whether orders may be issued in E&PH after the proposals are accepted]

May be considered at the stage of issue of orders.
5.7.48

3.7.48

~~[illegible]~~

The C.E.'s proposal to have addl. sections opened in the Municipal High School Hospet for instruction in Tamil & Telugu media may be supported in this dept. The C.E. has asked for "an initial grant of Rs 2000". It is not clear how this amount will be applied to the scheme. Perhaps E&P.H. Dept. may have the necessary instructions issued to the ~~[illegible]~~ Commr. Hospet Municipality and sanction the grant that he may ask for in due course from the Education Dept. budget. For the present the new sections may ~~will~~ be opened only for Forms I, II & III — vide statement at the foot of p.5 c.f.

E & P.H Deptt (B1)

Please see the reference from the Chief Engineer (Special) on p1 c.f. and the note of the P.W. Deptt on pp 1-2 above. From the letter of the Superintending Engineer, Tungabhadra Project Headworks Circle, to the D.E.O. Bellary, it is seen that the ~~Mlty~~ Council, Hospet has no objection to the opening of two additional sections in Forms I to VI, provided that the Mlty is not put to any additional expenditure on that account. Submitted that the D.P.I. may, in the first instance, be consulted in the matter. ~~and an~~ estimate of the extra cost to Govt may also be called for from him. A draft Memo is submitted for approval.

From the D.P.I.; Rc. 1722 G2/48 d 23/8/48 E&PH Deptt (B1)

p 1 cf

The proposal in the file relates to the opening of two additional sections with Telugu and Tamil as the medium of instruction in each of the forms I to VI in the Municipal High School, Hospet, for the benefit of the children of the staff working in the Tungabhadra Project Head Circle. Attention is invited to the remarks of the D.E.O. Bellary, on pp 10-12 cf and those of the D.P.I. at p 9 c.f. The opening of two additional sections in forms I to III to begin with, may be agreed to in this Deptt.

A

The DEO, Bellary, has given details on p10 cf. His suggestion that forms I to III may be opened, may be supported, the other forms may be opened later on, if necessary.
4-9-48

2/. The total non recurring cost is estimated at Rs 13,000/ as detailed at X on p 11 c.f. and the recurring cost involved is Rs 6000/ per annum. As stated by the D.E.O., it seems reasonable that the entire non-recurring cost should be borne by the Engineering Deptt. As the Ml. Council, Hospet, has expressed its inability to meet any extra expenditure on account of the opening of additional ~~sl~~ sections for the use of the children of the Project staff, one-half of the recurring cost may be debited to the project funds & the other half met by Govt. ~~in the Education~~

Finance (Exp A)

The proposal in the file relates to the opening of new classes in each of the Forms I, II and III with instruction in Tamil and Telugu media in the Municipal High School, Hospet, for the benefit of the children of the Tungabhadra project staff. The total ~~nonrecurring~~ cost involved in the proposal is estimated at Rs 13,000/- nonrecurring and Rs 6000 p.a. recurring. As the Municipal council

A on p 3 above

X on p 11 cf.
& Y on p 11 4

72 32

has expressed its inability to meet any portion of the expenditure, it is proposed by E & P.H. to meet the entire expenditure from provincial funds, partly from ~~between~~ the Education budget and partly from the Project funds. P.W. agree to the proposal.

B on p 3 above

C - do -

p. 4 above

2. Ordinarily such a proposal as the one now under consideration should be brought forward as a Part II scheme ~~for~~ in connection ~~1949-50~~ with the next year's budget proposals.

It has been decided that in view of the continued and pressing need for economy, no new schemes should be proposed as a Part II scheme unless ~~they falls within~~ they satisfy one of the following ~~classes:~~ criteria:

G.O. 765 Fin
6/8/48
P4 p (1)

(a) schemes included in the programme of five year post-war Devt. schemes or schemes that can be treated as modification of such schemes;

(b) G.M.F. schemes;

(c) Schemes that are fully remunerative and (d) schemes that are imperatively and immediately essential for the proper running of the Department.

In the present case it cannot be said that the proposed scheme is imperatively and immediately essential for the proper running of the Engineering Department.

Please see below
18/9/48

The total ~~probable~~ strength of ~~the classes~~ each section all the Forms I to III is reported to be 13 in Telugu and 22 in Tamil, and therefore it cannot be said that the need ~~is~~ is so great as to justify the large expenditure involved.

p. 5 cf.
& p. 10 cf.

P.T.O.

6

In the above circumstances, Finance may advise that the proposal may be deferred. If E&H wish to press their proposal they may take orders in circulation including HM Finance.

AA
19.9.48

[illegible]
17.9.48

It is proposed to open two new sections, one in Tamil and another in Telugu, in each of the Forms I to III in the Municipal High School, Hospet, in order to provide instruction to the children of the Tungabhadra Project staff, at a cost of Rs 13000 non-recurring and Rs [illegible] recurring. The anticipated strength of children in each of the forms [illegible] is given below:

M

I Form	Telugu	5	Tamil	13
II Form	„	2	„	3
III Form	„	2	„	6
Total		9		22

p 10 CF

The fee income will not thus be appreciable. The DEO is of the opinion that economic numbers will have to be ignored as the classes are proposed to be opened under extraordinary circumstances, i.e. to provide for instruction in Tamil and Telugu in a locality where Canarese is the regional language for the children of the Project employees who will otherwise remain without education at Hospet, unless arrangements are made for their education elsewhere by [illegible] the [illegible].

ibid

The details for the recurring and non-recurring expenditure are given at Z and X ~~[illegible]~~ respectively on page 11 C.F.

It will be observed that the proposed staff includes two Hindi Teachers. [illegible] that no allowance has been made for the D.A. to be paid in addition to pay. If the D.A. also is taken into account the extra cost will be [illegible] than Rs [illegible]. It will be further increased if [illegible] allowance [illegible] to be paid to these teachers [illegible]

(29)

33

7

[illegible] contemplated by the DEO at 15 on page 11 CF.

It seems necessary to provide for the education of the children, but at the same time the cost involved ~~[illegible]~~ seems to be out of proportion for the purpose. The PWD may be requested to ask the CE whether it will not be cheaper to sanction an allowance to the Project staff in order to arrange for the education [illegible] of Hospet, [illegible] also [illegible] [illegible] [illegible] [illegible] [illegible] if it is [illegible] that [illegible] [illegible] proposed, [illegible] for 1949-50 [illegible] [illegible] a year [illegible]

1 [illegible] 26.8.[illegible] not

p. 11 CF.

[illegible] The cost may be apportioned between the Project [illegible] [illegible] at B and C on page 3 [illegible]

18.9.48

I suggest that only one additional section be opened in Form I for the 13 Tamil students in that form & one Secondary teacher may be sanctioned in addition & the whole cost on his account be borne by the [illegible]. [illegible] the school will be able to manage without any additional accommodation if only one new section is to be opened.

A

As regards the other students there are only 18 on the whole & the parents may be given a small additional allowance to arrange for their education elsewhere. This may be examined in detail & comparative costs worked out.

B

Govt. servants ~~[illegible]~~ employed on the project are given a Project allowance [illegible] [illegible] [illegible]

8

of children they may have to incur. In any case it is wasteful expenditure to open separate sections for 2 or 3 students.

20.9.48. P.W.D. (SI)

A.S.

Please see the notes of Fin. from the bottom of p. 4 ante: This deptt. may perhaps agree with the views of Fin. Secy at 'A' on p. 7 ante. As regards 'B' it is for consideration whether in view of the greater Concessions allowed in G.O. Ms. 587 P.W. d/ 20.2.48, the question of granting an additional allowance for the purpose of educating the children should be taken up (vide para 3 above) for orders.

The file may be returned to E. & P.H. for further action on 'A' on p. 7 ante

34 50

P. W. D. (S.I).

To A.D.S:

Please see the notes of E.& P.H. on p.8 ante. They have returned the file for action with ref. to para.2 of their note which relates to the suggestion of Finance Secy. at 'B' on 7 ante. While suggesting for the grant of a small addl. allowance to the parents employed on the project for educating their children (above Form I) who have Tamil & Telugu media of instruction, Finance Secy. has at the same time indicated that the Government servants employed on the Project are given a Project allowance and that should ordinarily be sufficient to meet the addl. expenditure on the education of their children that they have to incur. At present certain greater concessions are granted to the staff employed in the Tungabhadra project. -Vide G.O.Ms. 587 P.W. d/ 20-2-48. In the circumstances it is for orders whether the matter should be taken up with the Special C.E. to work out comparative cost for the purpose of granting any addl. ~~staff~~ allowance to those parents who have to educate their children (above ~~the~~ Form I).

(only upto Form III Form I Telugu [illegible])

Copy at (N)

This probably takes into account the need for the keeping of two families on acct of children's education. Please look into the orig G.O.

(only upto Form III Form I Telugu [illegible])

2.As regards the suggestion of Finance Secretary at 'A' on p. 7 ante, which is also agreed to by E. & P.H. it is presumed that the orders will be issued by that Department. E. & P.H. may perhaps consider the question of issuing this order/itself now as some time will be taken to work out comparative costs mentioned above, if it is decided so.

5/10/48

6.10.48

EPH may kindly issue orders re: para 2 above immediately as it will go some way to help the children of the Project Staff to secure instruction in tamil. It is presumed that the addl section can be opened with advantage now although over three months in the school year ~~are~~ have run out.

The file may be returned to this Deptt after the issue of orders by EPH, for further action re B on p 7 ante.

7/10/48. EPH

18 OCT 1948
7880

P.W.D. U.O. 4304 SI/48-5
7-10-48

Please see the remarks of the P.W. Deptt. on page 9 ante. It is not possible to open an additional section for 13 pupils in Form I in the Municipal High School Hospet in the middle of the school year. Such additional sections are always sanctioned from the commencement of a school year as the pupils joining the new section may receive full instruction. In this particular case, the DEO has already reported that it will be difficult to secure the services of a qualified Tamil Secondary grade teacher to serve in that place as it is predominantly a Kannada tract. Further there is the question of purchasing the necessary furniture, books and other teaching appliances required for the addl. section. It will therefore be possible to open the proposed additional section in Form I only from the commencement of the next school year. The Commissioner, Hospet Municipality, may be asked to report whether it will be possible to provide the accommodation required for the addl. section in the existing building and if not what will be the approximate cost of constructing an additional shed for the purpose. He may also be requested to furnish an estimate of cost on the purchase of furniture, books etc. for the addl. section.

2. It may be mentioned in this connection that the opening of a Tamil section in Form I in 1949-50, will involve the opening an additional section in Form II in ~~1949-50~~ 1950-51 & in Form III in ~~1950-51~~ 1951-52 if to provide for further instruction for the pupils who are promoted from Form I atleast up to Form IV and there is no use in opening an addl. section in Form I only. The strength in the higher forms will be less than in Form I as all the students may not be promoted to the higher forms. It may also be noted in this connection, that in connection with the resoln. of the Govt of India on the medium of instruction, it has been suggested that a minimum strength of 15 or 20 pupils should be fixed for such special arrangement for pupils who are in a minority who have to receive instruction through the medium of language other than the regional language and that no final decision

(31)

35

has yet been arrived at. The present case will have to be treated as an exception.

A draft memo to the Commissioner Hospet Mty. is submitted below for approval. After issue the file may be sent to ~~[illegible]~~ for taking action with reference to B on page 7 ante.

AS,

With refce to the memo issued to the Commissioner Hospet Municipality by the E of H, ~~it has been~~ a as Rdr memo is submd. as no reply has been received.

2. With refce. to 'x' on p. 9 ante, attention is invited to 'y' on p 9 ante, and para 2 of notes at p 11 ante. The original of G.O. 587 PW 20.2.48, which is now available, is put up at (Z). In connection with the provision of education facilities to about 18 students, who are the children of the Tungabhadra Project Staff, Fin. Secy suggested that these parents might be given a small additional allowance to arrange for their children's education elsewhere and that this might be examined in detail and comparative costs worked out. While suggesting this, Fin Secy also indicated that the Govt. servants employed on the Tungabhadra Project are given a Project allowance and that should ordinarily be sufficient to meet the additional expenditure on the education of children they might have to incur. G.O. Ms. 587 PW d 20.2.48 allows certain greater concessions to the staff employed in the Tungabhadra Project and this dept that thought that these allowances might take into account the need for the keeping of two families

on account of children's education. It will be seen from the original papers of G.O. Ms 587 d 20/2/48 that the enhanced concessions were granted on the basis of the note by C.S. at pp 1-4 of (Z) ~~though~~ There is no specific mention of the point that the concessions are also intended to meet the need for keeping two families. But the concessions were granted ~~for~~ as an inducement for the staff to proceed to the Project area & stick on there. Perhaps the intention of the Govt was that the enhanced concessions allowed were ~~to~~ for meeting expenses on the maintenance of two families. In view of the enhanced concessions given already, it is for consideration whether the matter should be taken with the Addl C.E. (I) to work out comparative costs for the purpose of granting any addl allowance to those parents who have to educate their children (above form I)

Perhaps Fin. may see again for remarks

PW(S)

The proposal in this file relates to the provision of educational facilities with Tamil & Telugu media of instruction, to the children of staff working in the Tungabhadra Project. The S.P.C.E. submitted proposals for providing educational facilities in the Municipal High School, Hospet for forms I to VI. E&P.H. deptt examined the proposals in consultation with the D.I. & the D.E.O., Bellary. It has been suggested that the classes might be opened to begin with in forms I to III only. The strength of the children for these forms ~~were~~ has been worked out as follows:

		Telugu	Tamil
I	form ..	5	13
II	"	2	3
III	"	2	6
	Total	9	22

Fin deptt proposed that an additional section might be opened for Form I Tamil students and that, in respect of other students, they suggested that the question

ASSISTANT SECRETARY TO GOVERNMENT

of giving any additional allowance to those parents who have to educate their children, might be examined. As regards this suggestion, the position was examined with refce. to G.O. Ms. 587 Pw d/ 20.2.48 and Fin. deptt agreed that the matter be dropped as concessions allowed in G.O. Ms 587 Pw d/ 20.2.48 might be deemed to cover all such expenses.

2. In respect of the proposal to open a new Section for Tamil Students of form ~~I~~ I, numbering in all 13, E&P.H. took up the matter with the Commissioner Municipality. Attention is in this connection invited to the memo at pp 13-14 c.f. and the Commissioner's reply at p. 20 c.f. In the circumstances reported by the Commissioner, E&P.H. consider that the proposal will have to dropped. It is for consideration whether this deptt may agree with E&P.H. | A

3. It is also evident from para 2 of the Commissioner's letter that the S.E. TB project would submit fresh proposals for providing educational facilities in Forms I to VI with Tamil & Telugu media of instruction.

The file may be passed on to Fin after orders are passed on 'A' above.

31/3/49

'A' above has to be agreed to as no other course seems possible at present. However, the further report promised by the Ml Commr in para 1 on p 20 c.f. may be awaited before final orders are issued.

~~examined and a modified one has been submitted in April 1949.~~ The Addl. C.E has submitted revised proposals in April '49. The S.E., Headworks Circle, while submitting revised proposals has taken into consideration all the aspects and had also a full discussion on the subject with the Commissioner of Hospet Municipality and the Headmaster of the High School in regard to the feasiblity of opening parallel sections in Forms I to V immediately and in the Form VI from next academic year. The S.E. considers that it is necessary to provide all the addl. classes from now till the duration of the project construction. The necessity for opening separate classes for the children of the project staff is explained by the S.E. in paras. 4 and 5 of his letter. He is of the opinion that in the interest of the project work and to keep up the morale of the staff, their children should have education facilities as proposed by him. The Addl. C.E. has recommended the proposals of the S.E. which are detailed below:

(i) to open parallel sections for Form I to V, and VI if necessary, for Tamil and Telugu from the academic year 1949-50 and to recruit the additional staff required in time.

(ii) To offer the Tamil and Telugu teachers the same concessions as extended to the project Non-Gazetted staff i.e. Project allowance of 30% of pay without amenities or 15% with amenities, as it would be difficult to get these teachers on the usual terms.

(iii) To admit girls also in the proposed new sections.

(iv) to provide a conveyance, lorry or station wagon to take the children to and fro from dam site to School and back at project cost.

(v) The recurring expenditure on the working of the new sections to be met half by Educational Grant from Government and the remaining half from the Projec

(vi) the non-recurring expenditure towards the cost of th additional building proposed and the initial equi ment by way of Tables, Chairs etc. to be met from project funds and to remain as project property.

E. & P.H. Dept. who examined the original proposals in the ligh of the D.P.I's remarks, referred the present modified proposa to him and he has reported that barring Tamil section in Fo I which will have economic strength, the others will be unec mic. But having regard to the report of the S.E., the D.P.I

p.t.

considers that it is desirable to permit the opening of Tamil and Telugu sections in Forms I to V and also in Form VI, when and if found necessary. It is also hoped that much difficulty may not be experienced for accommodating the new sections proposed. As regards the financial commitment, the D.P.I. considers that the whole ~~N.R.~~ Non-Recurring expenditure including that of providing addl. accommodation if any, may be borne from the project funds and the recurring expenditure shared equally between the project and the provincial funds (Educational Grant). Even though the strength in Forms I to V proposed to be started will be uneconomic, it appears that the E. & P.H. Dept. proposed to concur in the views of the D.P.I. It is for consideration whether this Dept. also may concur in the views of the D.P.I.

2 - JUN 1949

Finance E1.

(Previous Finance note on the bottom of p. 16 ante)

The typed notes from the bottom of p. 18 ante. Sets out the case in detail.

2. ~~[illegible]~~. The proposals of the P.W.D at A on p. 19 ante involves an extra cost of Rs. 17,000 p.a recurring and Rs 8,200 x non-recurring towards the cost of temporary structures, ~~and~~ furniture etc and call for the following remarks.

x Rs 4000 for temporary structure
Rs 4200 for furniture etc
para 10 p 23 cf.

3. The following statement shows in one view the forecast of the strength in each class.

(30)

40

Form.	TAMIL MEDIUM.		TELUGU MEDIUM.	
	Boys.	Girls.	Boys	Girls.
I Form	13	7	5	3
II ..	5	3.	-	–
III ..	1	4	-	2
IV	1	1	1	–
V	1	–	1	1
VI	-	-	–	-

It ~~may~~ will ~~therefore~~ be observed from the above statement that the strength expected is very low and that the expenditure that will have to be incurred is very high. It may be mentioned in this connection that the Project work will continue for three or four more years only and as such it may be very difficult to get qualified teachers also for appointment in the Project area in view of the purely temporary nature of the work. [illegible]

As the strength ~~is~~ will be about 20 pupils in Form I (Tamil Medium), this Dept may suggest that a class may be opened in Form I only. (in the Tamil Medium). In this connection

4/6/49

attention is invited to Secy's note at A on p. 7 ante. The extra cost will be Rs. 5200 p.a. on account of a secondary grade teacher assuming that accommodation for a new class can be found by adjusting the existing classes. If P.W. accept this suggestion orders can be issued after taking orders in circulation including H.M. (Edn.)

If, however, the P.W.D. press ~~[illegible]~~ their proposal, they may be requested to obtain orders in circulation, including H.M. (Fin). As the cost exceeds Rs. 5,000, p.a, the case should be placed before the S.F.C & Cabinet.

3/6/49 3.6.49

Please see the summarising note of this deptt. at pp 19-20 ante, the Fin. Deptt. note at pp 21-22 above and the Addl. C.E's D.O. letter at p.34 c.f.

2. For the reasons explained in the Addl. C.E's letter at pp 21-24 c.f. this deptt may strongly urge that the proposal for the opening of Tamil and Telugu sections ~~from~~ in Form I to V and also in Form VI if found

X Pl see next page

X on p 20 ante

---

necessary, in the Municipal High School at Hospet may be sanctioned instead of opening a Tamil Section for Form I only as suggested by the Fin. Deptt.

X Pl see below

3. In view of the urgency of the matter (as the school will re-open shortly) as indicated in the Addl.C.E's D.O. letter at p. 34 c.f. this deptt. may suggest that the procedure for extremely urgent cases may be followed in this case and orders obtained in circulation to H.M.(P.W.), H.M.(Edn.), H.M.(Fin.) and H.Pr.

4. In para 3 of his D.O. at p. 34 c.f. the Addl. C.E. has asked for permission for arranging for advertising for the necessary staff in anticipation of the sanction of the Govt. to the proposal, as unless the advertisements are issued immediately, it might not be possible to get suitable teachers in time. This Deptt. may support the Addl. C.E's suggestion. He may perhaps be permitted to advertise for the necessary staff pending the issue of final orders on the proposal.

Let him wait a little. We can get our orders quickly by treating [illegible] at any stage.

ascertained and [illegible] have to issue orders

5. The file may be returned to E. & P.H. Deptt. for necessary action.

P.K.M.
6/6/49

Mr. A.R. Venkataraman the S.E. Headworks Circle who is at Madras today spoke to me emphasising the necessity & urgency of the proposal. It appears he represented matters to H.M. (Edn.) Hon'ble Sri K. Madhava Menon & H.M. has promised to look into the case & pass orders immediately.

SECRETARY TO GOVERNMENT
6 JUN 1949
EDUCATION AND PUBLIC HEALTH

The proposal at X on pp 22-23 above is however too uneconomical even allowing for the fact that the Project staff deserve special consideration. It would perhaps meet the case for the present if Tamil sections are opened in Forms I to III, and Telugu section in Form I only.

EPH may be requested to take orders in circulation as indicated in para 3 above.

6.6.49

Pl see Statt at top of p 21 ante. We cannot discriminate between Tamil & Telugu. We my fully support the Addl. C.E's proposal

6.6.49

24 B1 43894

Secy. E. & P.H. Dept:

When I had recently been to Thungabhadra Dam site, all the officers and staff working there represented to me that a majority of them are Tamils and Telugus and that they have to send their children for education to Hospet where the medium of instruction is Kanarese. It seems Sri Avinashilingam Chettiar had promised them that in one school in Hospet, provision would be made for imparting education with Tamil ~~x~~ or Telugu as the medium of instruction. Kindly see whether this can be done and if so, this may be done immediately as the schools are re-opening very soon.

DEPT. SECRETARY TO GOVERNMENT, EDUCATION AND PUBLIC HEALTH DEPT.

SECRETARY, EDN. AND P.H. DEPT. 4 JUN 1949 GOVERNMENT OF MADRAS

Notes from page 18 ante (typed) may be read.

The main point for decision in this case is whether inorder to provide facilities for the education of the children of the project staff additional sections with Tamil and Telugu medium should be opened in the Municipal High school Hospet in Forms 1 to V1 even though the strength is very uneconomic. — Vide SE on p 21 ante. The Superintending Engineer ~~Headquarters~~ Headworks Circle Tungabadra project is strongly infavour of provision of the facilities and the D.P.I. also recommends. — pp 32-33 cf. As pointed out in the P.W.Dept's note it would seem sufficient to permit the opening of additional sections with Tamil and Telugu medium in Forms 1 to 111 in the Municipal High school and consider the question of providing facilities in the higher forms after experience is gained of the working of separate sections with Tamil and Telugu medium in the lower forms. Finance have agreed to the opening of addl sections with Tamil medium in Forms I to III + Telugu medium in Form I only

Finance The proposal ~~is to~~ debit the recurring ~~xxxxxx~~ expenditure to project funds and the Provincial revenues (education budget) on the basis of 50 : 50 and the non-recurring expenditure ~~to be~~ ~~debited~~ entirely to the project funds as proposed by the D.P.I. — para 5 on pp 32-33 cf and accepted by P.W.D. and Finance. — (p 22 ante)

In view of the urgency the file may be circulated to H.M.(Edn)

---

25 (38) 42

H.M.(P.W.) H.M.(Fin) & H.Pr for orders as to

(1) whether the opening of additional sections with Tamil & Telugu media in the Municipal High School Hospet in the current year may be confined to Forms I to III or whether the additional sections with Tamil medium may be opened in Forms I to III and an additional section with Telugu medium in Form I only. — this being dependant upon the availability of qualified teachers for employment for the addl sections

(2) whether the expenditure on the opening of addl sections may be shared as proposed by the DPI and accepted by the departments concerned (P.W.D., F. & E.P.H.)

KSN
6.6.49

7.6.

May agree to the opening of Tamil and Telugu sections in the Municipal High School, Hospet for the convenience of children of the employees on the Tungabhadra Project, the recurring cost being met equally by the Project and Educational funds and the non-recurring cost entirely by the Project funds.
