Letter No.7464-B2/49-5 dated 17-5-49.

Sir,

SUBJECT: GESTETNER DUPLICATOR - REPLACEMENT OF BY A
NEW GESTETNER MACHINE DRIVEN BY ELECTRIC
POWER - SANCTION REQUESTED.

The present Gestetner duplicator operated
by manual labour was supplied to this Office by the Superinten-
dent of Stationery in 1946 but is not working satisfactorily
and spare parts had to be replaced thrice.

Circulars to be issued to the Divisional
Engineers(Highways) and the Superintending Engineers(Highways)
and other important communications issued to District Boards
and Municipalities require ~~the volume of such work has~~
~~increased very much~~ stenciling and the volume of such work
has increased very much. Copies taken on the Gestetner
Duplicator by manual labour involve a lot of time and the
copies so taken are also generally illegible. For the quick
disposal of work and to have clear copies, I consider that
electrically operated Gestetner duplicator is quite essential.
A Gestetner Rotary duplicator, electrically driven (Latest
Model 160 T) costs Rs.1895/- F.O.R.Madras, Sales tax extra

2. I therefore request that sanction of Government
may be accorded for the replacement of the Gestetner duplicator
by an electrically driven Gestetner machine and that the
Superintendent of Stationery may be asked to make necessary
arrangements for the supply of the new machine in place of
the existing one which will be returned to the Superintendent
of Stationery.
