Sri G.S.RAMASWAMY, B.E.(Hons).,C.E.(Hons)
M.S.(Cal.Tech).,C.E.(Cal.Tech)
Instructor in Civil Engineering,
College of Engineering,
K A K I N A D A.

23--12--48.

To
The Secretary to the Govt.,
Department of Education and Public Health,
GOVERNMENT OF MADRAS.

Through
The Proper Channel.

Sir,

Sub:- Engineering College - Kakinada- Sri G.S.Ramaswamy-
Instructor in Civil Engineering -- Regularization
and higher initial pay requested.

(G) / 15 Ref:- G.O.M.S.2110- Education dated 24th August 48. *fy*

11.48
I had submitted a petition to the Director of Public Instruction on 28-8-48, requesting him to consider my special qualifications in fixing my initial pay. But since my appointment was made under emergency rules, I was informed in the Proceedings of the Director of Public Instruction, Madras R.C.No. 2910 C-1/48 dated Sep. 7, 48 that the rules did not permit the granting of a higher initial pay and that I was entitled only to the minimum of Rs. 260/- in the scale 260 - 40/2 - 500 - 50/2 - 700.

12.48
During the recent visit of the Honourable Minister for Education, to this College, I had the honour of making a personal representation of my case to him. The Minister was good enough to instruct me to submit a petition to him through the proper channel.

I was selected by the Government of Madras in 1945 for specialized training abroad in "Structural Engineering." I took the B.E. Degree of the Madras University, with Honours, in 1944.

P.T.O.

2
3

Soon after graduation, I entered the Public Works Department as a temporary Supervisor. On successful completion of a year of Practical Training, I was awarded the Diploma of the College of Engineering, with Honours, in 1945. In the same year, I was selected by the Madras Public Service Commission as a supervisor. I could not, however, accept the appointment as, in the meanwhile, I was awarded the Government Scholarship to go abroad. I may also mention that at the time I left India, I was scheduled to appear for the Indian Railway Service Competitive Examination held that year, where, judging from my previous career, I had a good chance of success.

Towards the close of 1945, I was sent to the California Institute of Technology, in the United States of America, for specialization in structural Engineering. In June '47, I was awarded the degree of Master of Science in Engineering. Since I was fortunate in securing a very high rank among the students who received the Masters(Degree, my Professors recommended to the Government that I should continue my research work for the advanced Professional Degree of C.E.(Civil Engineer). My scholarship was extended by the Government for six more months to enable me to finish my courses and research for the Degree. In June '48 I received the C.E. Degree. I may mention in this connection that only two candidates received this degree in '48.

In addition to my academic training, I underwent intensive practical training with the United States Government Bureau of Reclamation, first at their design office at Denver, and later at the various dam-sites, where work was in progress.

My academic and practical training were supplemented by an extensive study tour round the various leading laboratories and research centres in the U.S.A., where important work is being done in my specialized field of study.

On my return to India, I was appointed to officiate as Instructor in Civil Engineering at Kakinada under 9 (a) (i) rules. Accordingly, I joined duty here on September 22, 48. Between the date of my appointment and date of joining, two laboratory Assistants at the College of Engineering, Guindy, were promoted to the rank of Instructors and were given the same pay and scale as was offered to me.

I request that in view of my qualifications, my appointment may be regularized immediately and my initial pay fixed at Rs. 340/- and necessary seniority given to me so that I can aspire for the Professor's place, when the next chance arises.

In this connection, kindly permit me to make a submission. It is now generally recognized that the Professors in Technical Institutions should be men of high academic qualifications who are engaged in research themselves, if the future engineers of our country are to be efficiently trained. The direct recruits to the Education Department who have been specially trained for their jobs at enormous cost should be given top seniority and promoted as Professors, whenever vacancies arise in order that they may continue in the Educational Service, even when their contract period is over. I may also be permitted to point out that candidates who are similarly qualified as I, are employed in Central Government and outside the Government on

P.T.O.

ST
5 4
--4--

salaries ranging from Rs. 500/- to Rs. 750/- So my request for an initial pay of Rs. 340/- is very moderate.

I hope that my application will receive favourable Consideration.

Thanking you,

Faithfully Yours,

G. Namalwamy.

Office of the Director of Public Instruction, Madras.

F.O.C.No.2910-51/48 dated 10th January, 1948.

MADRAS EDUCATIONAL SERVICE--Sri G.S.Ramaswami, Temporary Instructor in Civil Engineering, College of Engineering, Kakinada--Regularisation of temporary appointment and grant of higher initial pay.

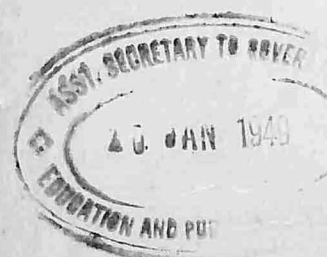

Reference:-Endorsement 4022-A/48 dated 23.12.1948 of the Principal, College of Engineering, Kakinada. *p. 5 ante.*

Submitted with reference to para 3 of G.O.No.Ms.

2110-Education dated 27.8.1948. *G/15*

2. Sri G.S.Ramaswami, Overseas Scholar, took charge of the post of Instructor in Civil Engineering, College of Engineering, Kakinada on 23.9.1948 F.N. So far as academic qualification is concerned, he, possesses not only the B.E.(with Honours) Degree of the University of Madras but also the degrees of Master of Science and Civil Engineer of the California Institute of Technology, *P.24 of BK.113* and thus satisfies item 4(b)(i) of the Annexure to the Special Rules. But he does not possess "practical experience of the work relating to the subject concerned for not less than four years" prescribed in item (ii) *ibid* as he has had only about a year's experience in the P.W.D. from July 1944 to 1945 in the capacity of a temporary Supervisor, before his deputation abroad for advanced studies. In view of his studies and training in the U.S.A. Government may kindly relax the rule prescribing four years' practical experience, in favour of Sri G.S.Ramaswami and appoint him regularly to the post of Instructor in Civil Engineering in the College with effect from 23.9.1948.

3. Sri G.S.Ramaswami has also requested that he be granted an initial pay of Rs.340/- in the scale of Rs. 260-40/2-500-50/2-700. The question of starting the Overseas scholars on a higher initial pay cannot be considered individually as that of regularisation of temporary appointment. It has to be considered as a general one applicable to all overseas scholars. None of the other scholars

4055

p. 24 of BK.113

has applied for the grant of higher initial pay. It seems that these scholars cannot justifiably claim higher initial pay on the strength of their foreign qualifications which have been acquired at the cost of Government only.
