Sub: Colleges - Government - Engineering Colleges -
Admissions in 1948-49 - Report.

I have the honour to enclose herewith the report submitted by the Principal, Engineering Colleges, Guindy, on the admissions made to the Engineering Colleges during the current academic year. I have no objection to the suggestion of the Selection Committee contained in last but two paragraph of the report.

9978

Yours faithfully,

for Director of Public Instruction.

RVR 8/2/-

REPORT OF THE SELECTION COMMITTEE FOR SELECTION OF CANDIDATES FOR ADMISSION TO THE ENGINEERING COLLEGES IN THE PRESIDENCY DURING 1948-49.

****

The last date for receipt of applications for admission to the Engineering colleges was extended from 20th May to 2nd June 1948. Applications continued to come till 2nd June and many were received even after the last date. The late applications were nof considered for admission. All the applications that were received were tabulated and the tabulated results were ready for the Selection Committee by the 25th June 1948.

2. The first meeting of the Selection Committee was fixed for the 25th June and took place as scheduled at the Engineering College, Guindy. Subsequent meetings were held on 26, 27 and 28th June and onwards.

3. All the members of the Committee were present except Prof.A. Viswanath, who attended the meetings only on Sunday and Monday, 27th and 28th June. In the meeting held on the 25th, the Selection Committee went through all the Government Orders relating to the admissions and instructions issued by the Director of Public Instruction about the same. A tentative agrdement was decided as to how the admissions should be made. The orders relating to the linguistic areas, communal representation and district representation were strictly adhered to as far as practicable. The admission for each community was done on merit and on the marks obtained in the Intermediate Examination of the Madras or Andhra University or in the case of other Universities, the total marks reduced to the same grand total of the Madras University.

4. The provisional selection and the allotment to various colleges were completed on 28.6.48 and memos to the selected candidates were sent by registered post with acknowledgements on 28th June. The despatch of all memos was completed by the 3rd July.

BASIC FIGURES:

5. Appendix "A" gives the total number of applications received

(Contd.)

from various districts and communities including the 136 applications which were not eligible. The total number of seats for which candidates had to be selected was 365. 17 seats were reserved for candidates sent by other Governments and States, leaving a balance of 348. 10% of these was reserved for War personnel. This left a balance of 313 seats for students of this Presidency. The above figures and the distribution to the various colleges are given in Appendix "B".

6. Appendix "C" gives the distribution of the 313 seats mentioned in the previous paragraph over the linguistic areas and for the different communities as stated in G.O.No.997 Education dated 22.7.1943 and G.O.No.1254 Education dated 17.5.1948 respectively.

PROCEDURE.

7. Appendix "D" gives the total number of seats which each district must have in order to give equitable distribution on a population basis. The Selection Committee, in making the selection, took candidates from each community by merit, for the entire Tamil area, Telugu afea and the West Coast area separately and totalled up the candidates selected from all communities for each district. The totals thus arrived for each district were more or less the district-war representation and in any case not less than 66%, as adopted in the selection for last year. In the case of Madras City, special weightage was given, and instead of giving 5 seats on a population basis, the number had to be increased to 26. The Committee felt that as there was a large influx of the student population into the various colleges in Madras City and owing to the large number of Government officials and other officers resident in Madras City in connection with their work, Madras City should be given an increased quota. This weightage was given even last year and the Selection Committee followed the same procedure this year also.

8. Appendix "E" gives the number of students actually selected from each district and from each community. The district-war representation on a population basis is also shown in the same Appendix.

(Contd.)

9. The Selection Committee also reserved 25% of the total number of seats of the Andhra area for candidates exclusively from the Ceded Districts and filled up these seats in the same manner as stated above from candidates who had applied from the Ceded Districts. This procedure was necessary as otherwise it was found that adequate representation would not be given to the Ceded Districts. This was done in the selection of candidates last year also.

10. Special consideration was given as usual to candidates who had applied from Agency Tracts in order to give addquate representation to these districts. Due to some mistake (perhaps accidental), a candidate not selected by the Committee was directed to be admitted into the Engineering College at Kakinada. This mistake was discovered and was subsequently set right by admitting the candidate selected by the Selection Committee. It is not known how this clerical error occurred except for the fact that this candidate was next in the order of merit and his case was considered by the Selection Committee. His ineligibility for selection was due to the fact that he belonged to a different community.

11. The Selection Committee completed their provisional selection on 28.6.1948 and as stated above memos were despatched to the respective candidates immediately. The list of selected candidates was put up on the College Notice Board on 28.6.48 and published in the Fort St. George Gazettee Part I.B. Education dated 6th July 1948.

RESERVE LIST.

12. Every year it is usual to find that quite a few of the candidates provisionally selected do not turn up at the time of the interview. The Selection Committee therefore prepared a Reserve List of names for filling up such vacancies. In making this selection, the same procedure that was followed in the provisional selection was followed. The number selected for each community was about 25% of the actual number of seats available for each community in each area. The candidates so selected

(Contd.)

were allotted to the different colleges in the same manner as the provisionally selected candidates. Special instructions for filling up the vacancies from among the reserve list, as given below were issued to each of the Principals.

13. "The casual vacancies in any college caused by the selected candidates not turning up shall be filled up by candidates from the Reserve List for that College prepared by the Selection Committee.

2. The vacancies shall be filled on the following principles:-

(a) Vacancy in any linguistic area shall be filled by candidates from that area;

(b) Vacancy in any community shall be filled by a candidate from that community as far as possible;

(c) If a vacancy in any community cannot be filled by a candidate from that community, this vacancy shall be filled up from Reserves according to Principal's discretion."

14. Appendix "F" gives the numbers, names, districts and the communities and the colleges of the provisionally selected candidates. In making the allotment to the colleges, every consideration was given to the request of the candidates for allocation to the particular colleges.

15. Appendix "G" gives the total number of candidates of the various communities selected from each linguistic area. It would be seen that 320 candidates were selected instead of 313 that is 7 more than the available seats. 5 from the Tamil area and 2 from the Andhra area. This was due to the fact that quite a number of candidates when applying for admission had not given all the particulars, especially their University Register number. The columns against such candidates in the tabulated register had therefore to be left blank, as no marks could be entered against their names. There was, however, a frantic rush for furnishing this information even after the Selection Committee had made their selection. The Selection Committee condoned such

(Contd.)

lapses and considered for admission such candidates who came within the marks of candidates already selected. The admission of the candidates already selected was not cancelled as it was anticipated that there would be vacancies on the day of the admission. These 7 seats and their distribution to the various communities were considered along with the vacancies arising in the Harijan Community as explained in a later Para. Hence this excess number was allowed to stand.

15. Appendix "H" gives the list of candidates selected for each college from various communities for each linguistic area. It will be seen that the Principle mentioned in Government Memo No. 36907 A/47-1 Edn. dated 30.4.47 read with para 2 of the Director of Public Instruction's letter has been followed as far as practicable. Coimbatore Engineering College having a majority of candidates from the Tamil area and the Anantapur and Cocanada Colleges having a majority of candidates from the Andhra area and Guindy College having candidates from all areas in the same proportions as per Government Memorandum.

16. There were 11 Harijan applicants from the Tamil area and 7 Harijan applicants from the Andhra area and no Harijan applicants from the West Coast. All the Harijan applicants who were eligible for admission were selected irrespective of whether they had secured first class or whether they had passed the Intermediate examination in parts. The quota for Harijans was 45. The actual number that could be selected was 13, leaving a balance of 32 to be distributed among the other communities.

17. 10% (i.e.) 35 seats of the total number of available seats were reserved for war personnel. Of the ex-service personnel only 10 were eligible and they were selected. There were thus a balance of 25 seats available for distribution to other communities as detailed below:-

18. The 25 seats available from seats reserved for War Personnel were distributed by the Selection Committee as follows:-

	N.B.	N.B.BACK.	B.	M.	I.C.	H.
Tamil	2	6	2	-	2	-
Andhra	4	3	2	-	-	-
West Coast	1	-	1	-	1	-

(Contd.)

In making the above distribution the Committee took into consideration the fact that a minimum standard should be maintained for each community taking the selection for the Presidency as a whole.

20 The Government in their Order No.1494 Edn. dated 5.6.1948, have stated that refugees should be treated in the same manner as applicants from this Presidency except for domicile. There were 7 regular applications from refugees of which only 6 were eligible. Following the same standard that was adopted for candidates for Madras Presidency, three were selected, and allotted one to the Arthur Hope College of Technology, Coimbatore, one to the Cocanada and one to the Guindy Engineering College. The Committee did not consider that it was fair to select more than this number from the refugee candidates, as the standard of marks obtained by the balance was poor.

21 The 17 reserved seats were allotted to the various colleges according to the orders of the Government. These have been duly filled up by candidates sent by the various Provinces and States. No information was sent to the Selection Committee about the 4 Indonesian students posted to the Engineering College at Kakinada. It is understood that they did not report for admission.

22 In accordance with the post copy of telephonic message from the Director of Public Instruction, Madras dated 12th July 1948, the number of seats for the Anantapur College was increased from 65 to 75. The Selection Committee distributed these seats in the same proportions as before. The seats allotted for the various linguistic areas were distributed among the various communities as follows:-

	N.B.	N.B.BACK.	B.	I.C.
Tamil	2	2	1	1
Andhra	1	2	1	-
West Coast	-	-	-	-

No seats were allotted to the Harijans and Muslims, as there were none available from the former community and of very poor standard from the later.

(Contd.)

23. In G.O.No.Ms.1960 Education, dated 6th August 1948 the number of seats in the Cocanada Engineering College was increased from 100 to 105. These seats were expected to be distributed by the Selection Committee in the proper manner. The Principal, Engineering College, Cocanda, however did not refer the matter to the Selection Committee nor did he take any instructions as to how these seats were to be filled up. In reply to a letter from the Selection Committee, the Principal of the Cocandda College has stated that he has filled up these seats in the following manner. - Vide Appendix "O". These seats and the four Indonesian seats when they did not join should have been allotted in consultation with the Selection Committee to the various linguistic areas according to Government Orders and the number of available seats distributed to the various communities according to the communal G.O. by the Selection Committee. It is regrettable that the Principal of Kakinada College did not consult the Committee before filling up these vacancies. He stated that he had powers to fill them. The Selection Committee gave instructions to the Principals to fill up only in the casual vacancies and these were not casual vacancies.

24. To avoid these irregularities in filling up the reserve vacancies, the Selection Committee recommends that in future the Selection Committee may send the reserve list to the Director of Public Instruction, who will fill up the vacancies in the same order of merit from the respective communities and linguistic areas as vacancies arise. This will perhaps meet a fairer treatment than actually existing at present., especially in filling up seats from the Reserve lists, in casual and additional vacancies." N.B — Have special Note please see Covering letter."

25. In conclusion the Selection Committee feels that the admission to the Engineering Colleges and the selections for same have been fair and square. In interpreting the orders of the Government and the instructions of the Director of Public Instruction, it is felt that no community has been adversely affected, if the spirit of the G.O.'s and the instructions of the Director

(Contd.)

of Public Instruction are read with the orders themselves. The Committee, however, feels that a great deal of the work of the clerical staff and the Selection Committee would be minimised if applications for admission to the Engineering Colleges are called for only after the publication of the Intermediate examination results. If this is accepted the number of applications received for admission to the Engineering Colleges would be about half the number that is received at the present time.

26. The Committee wishes to place on record the hard work done by the clerical establishment of the Guindy College in preparing all the data necessary for the Selection Committee. The selection Committee last year recommended that an honorarium of Rs.1000/- may be paid to the staff employed for this work. The Committee makes the same recommendation this year also.

Copy of letter No.R.C.5-284-B/48 dated 16.9.48 from the Secretary, Selection Committee to the Principal, College of Engineering, ~~Guindy~~ Kakinada.

Sub: Colleges of Engineering - Admissions - 1948.
Ref: Your letter No.50/2893/48 dated 2.9.48.

The Selection Committee desires to be clarified regarding the following points.

(1) In para (1) of your letter No.325, M.V. Kannan, among the Tamil Brahmins has been selected for admission by you. He is No.3 in the Reserve list. The Selection Committee desires to know how this boy has been preferred over the first two boys.

(2) In para Nos.5 and 6 of your letter, you have quoted my letter No.5-284-B/48 dated 12.7.48. My letter does not show the selection as given by you in para 5 of your letter. My letter speaks only of the contents of para 2 of your letter.

(3) From para 6 of your letter, it is found that No.282 Bodda Ramasubba Rao, who is No.9 in the list has been selected and you have mentioned that Nos.122, 2086 and 449 have not replied to you. In para 7 of your letter, it is seen that No.722 viz., A.T. Raghupathi Raju, who is No.4 in the list has been admitted. Is this admissin made after the admissions in para 5 and if so, is it to be taken that this boy also did not reply before No.282 was admitted.

(4) In your letter dated 14th August 1948 to the Director of Public Instruction, copy sent to me, it is found that you have selected Ch. Subbarayudu and now you state in para 7 of your letter quoted above that you have selected No.722, A.T. Raghupathi Raju. Which am I to take to the correct?

Kindly let me have a reply on these points as early as possible.

(Sd) xx xx
Secretary, Selection Committee.

Copy of letter No.50/3098/48 dated 21st Seotember 1948 from the Principal, College of Engineering, Kakinada, to the Principal, College of Engineering,Guindy, Madras.

Sub: Admission to Engineering College - 1948.
Ref: Your letter No.5-284-B/48 dated 16.9.48.

I clarify the points raised by the Selection Committee below:-

Point 1: 819 was made an offer to seat; but no reply was received. Later, a telegram was sent to him, but no purpose. 1206 the next candidate on the reserve list did not reply to our intimation placing him on the reserve list, hence his name was not considered. No.325 was therefore selected.

Point 2: I am sorry the reference given in my letter was wrong. The correct reference is to the last para of your letter No.5-248-B/48 dated 19.7.48.

Point 3: I regret some mistake has crept in my letter 121 has been repeated. Once in para 1 and a second time in para 4, and the name of Ch. Subbrayudu (1939) has been completely omitted from the list.

In para four No.722 has to be inserted for 121, which is a repetition.

In para 7, 1939 (Ch.Subbrayudu) has to be substituted for 722.

This alteration answers both the 3 and 4th points raised. I am greateful to you for pointing our discrepancies to me.

****

With reference to your proceedings quoted above the report of the Selection Committee for 1948-49 is submitted herewith in duplicate. It took sometime to compile the same in the midst of routine work and the draft was further delayed over two months by the non-official members of the Selection Committee to whom it was sent for approval. It was received back by me on Monday, the 24th inst., The delay is very much regretted.

It will be noticed that the last but two para is specially marked. This para is the opinion of the non-official members and does not represent the view of the other memebers.

Roc.No.942 K2/48 dated 3-5-1949

Sir,

Sub: Colleges - Engineering - Admissions in 1948-49 - Report of the Selection Committee.

Ref: Government Memo No.9978-1/49-A Edn., dated 11-3-49 and
2) My letters Rc.No.942 K2/48 dated 26-3-49, 2-4-49 and T.M. dated 25-4-49.

With reference to the last paragraph of the report of the Selection Committee recommending a remuneration of Rs.1,000/- for the ministerial staff of the College engaged in the additional work connected with the selection of candidates for admission to Engineering Courses, I have the honour to enclose herewith a copy of the letter Rc.No.4 B/49 dated 25-4-1949 from the Principal, College of Engineering, Guindy explaining the need for the grant of remuneration to the staff engaged in the work and recommend his suggestion for grant of a remuneration equivalent to 50% of the emoluments of the staff, which is quite reasonable.

2. With regard to the suggestion contained in the last but one para of the report, I would invite attention to my letter Roc.No.942 K2/48 dated 2-4-49.

Yours faithfully,

for Director of Public Instruction

KHR.4-5.

Copy of letter Rc.No.4 B/49 dated 25-4-1949 from the Principal College of Engineering, Guindy to the Director of Public Instruction, Madras.

In the last para of the Admission Report of the Selection Committee for the year 1948-49, which I have submitted with my letter Rc.No.5-282 B/48 dated 27/30-1-49, it was recommended that an honorarium of Rs.1000/- be paid to the ministerial and other staff who were engaged in the work connected with the admissions. The work connected with the admission of students to the four engineering colleges in the Madras Presidency requires in my opinion a special staff consisting of one Upper Division Clerk, 4 Lower Division Clerks, 1 typist and 2 peons for a period of two months. This work is now being done as an extra duty by the Ministerial staff of this College who have in addition to their own work to carry on the work of admissions without any delay. If delay is to be avoided and if the routine work should go on normally without holding up unnecessarily important communications, it is necessary for these clerks to work from morning 9'o clock to about 9 or 10 in the nights. Last year, as much as 7531 requisitions were received in this office for application forms and prospectuses. The number of applications registered for the engineering and overseer courses was 2456 and 435 respectively. Requests for application forms start coming in as early as March and continues to come even till after the last date for the receipt of applications is over. It would be seen from the above that a large number of candidates are merely anxious to get information but are not intending to apply. It was on account of this reason that it was specially recommended to the Director that applications would be considered only after the publication of the Intermediate results. Pending formal orders from Government, every requisition that is now being received in this College is being replied to by furnishing all the information that a candidate required without sending any application form or prospectus. A copy of the form used for replying to these requisitions is enclosed herewith for your information.

As soon as the applications are received in this office which according to last year's records started to come in by the 1st of May, they are registered and given a serial number. Invariably, it is found that these applications are incomplete and on an average three more communications are further received in order to make the applications complete. The work of consolidating these applications without making any mistake has been found to be a laborious task. In several cases, applicants had to be asked to furnish information which they had forgotten to give. In order to prevent representations and appeals at a later stage by a candidate, that his application was not considered and that he was not selected though eligible, every possible care is taken to see that a candidate has a fair chance of having his application considered and his application is not rejected for want of the required particulars.

The applications which are received are now retabulated according to area, districts and communities and the marks obtained by each candidate are entered. In the case of the Madras and Andhra Universities' candidates, the marks books are obtained direct from these Universities and there is no difficulty about the authenticity of the marks of these Universities, but in the case of candidates whose qualifications are to be taken as equivalent to the Madras University Intermediate, every candidate has to furnish a certified copy of the marks obtained by him. In any case, this tabulation done by the Ministerial staff is very carefully checked by responsible members of staff and the Principal in order to ensure that no mistake of any kind has crept in. It is to be credit of the Ministerial staff that no mistakes were found in the tabulation done by them during the last admissions. There has been a certain number of slips made by the Selection Committee due to the want of information furnished by the candidate in spite of communications sent to him for furnishing the same. However, the Selection Committee as explained in the admission report, were able to rectify these mistakes on the representations made by the candidates

62

98

63

From the explanation given in the preceding paragraphs, it would be very clear that from the beginning of May right upto the middle of July till the admissions were completed, the staff have got a very laborious task which they have to do in addition to their own duties. But, the duties connected with this admission work are not merely extra duties, but the magnitude of it is such that it warrants of the appointment of a special staff to deal with this admission work for a period of two months as explained previously. However, as long as the Ministerial staff of this College are willing to work hard and see that the work connected with the admission is not held up, it is only fair that their willing co-operation in this matter should be adequately compensated. The Selection Committee has recommended an honorarium of Rs.1000/- but I give below my recommendation based on the usual practice followed for such kind of work. It is usual for the Head-Clerk section to take charge of the admission work, but the work is of such magnitude that it is necessary to requisition some clerks of the other sections also to see that the work is carried out efficiently and expeditiously.

R E C O M M E N D A T I O N S.

SECTION	NAME OF THE MEMBER	TOTAL EMOLUMENTS PER MONTH	AMOUNT RECOMMENDED FOR 2 MONTHS.
Headclerk Section	1. R.Venkatarama Iyer.	120/-	120/-
	2. V.Balakrishnan.	80/-	80/-
	3. M. Chandramowli.	83/-	83/-
Accounts Section.	1. V. Naganatha Iyer.	111/-	111/-
Stenographer.	1. K. Sundararajan.	120/-	120/-
Librarian, Arthur Hope College of Technology, Coimbatore.	1. Solomon.	80/-	80/-
Despatching Clerk.	1. P.C.Packiaraj.	74/-	74/-
Peons.	Two	98/-	98/-

The individual remuneration recommended for each of the Ministerial and other staff are based on the salary drawn by each. It is usual to sanction only 20% of the substantive pay for any extra duties carried on by any official in the Government Department. But, I consider that the work done by these clerks is not exactly of that nature. The work had to be done without any delay and time was no consideration. The clerical staff who had to work for such long periods had to arrange then and there for their evening tea and night meals as they were engaged in this work till very late at nights. It would therefore be seen that they were out of pocket as far as the admission work was concerned. It is, therefore, requested that the amount recommended for each, representing 50% of the total emoluments drawn by them for a period of two months, making a total of Rs.766/- may kindly be sanctioned and necessary orders passed as early as possible.

Recorded.

2. The Govt. accept the suggestion of the Selection Committee that the reserve list of candidates selected for admission into the Govt. Engg. colleges may be sent to the D.P.I., who will fill up the vacancies in the same order of merit from the respective communities and linguistic areas, as vacancies arise.

3. The Govt. consider that there is no case for addl. remuneration being given to the staff of the Engg. college, Guindy, engaged in the work relating.

P.T.O.

E. & P. H. Dept. (A)

Sub:- COLLEGES - Engineering - Admissions in 1948-49 - Report of the Selection Committee.

Ref:- From the D.P.I. No.942-K2/48, dated 7-2-49, 26-3-49 and 3-5-1949.

The report of the Selection Committee in regard to admissions into the Govt. Engg. Colleges in 1948-49 on p.3-17 c.f. may be perused. In the last three paras of the report, the Committee has made the following suggestions:-

(1) that the reserve list of candidates selected for admission into the Engg. Colleges may be sent to the D.P.I., who will fill up the vacancies in the same order of merit from the respective communities and linguistic areas, as vacancies arise. // The D.P.I. states that he has no objection to this suggestion. It may therefore be accepted by the Govt.

(2) that applications for admission into the colleges should be called for only after the results of the Intermediate examinations are published. // This suggestion has already been accepted by the Govt. and orders issued in G.O.No.1418-Edn., dated 6-5-1949. No further action is necessary in this regard.

(3) that an honorarium of Rs.1,000/- be paid to the staff engaged in the work relating to admissions. // The D.P.I. recommends that the staff may be granted a remuneration equal to 50% of their emoluments, on the lines suggested by the Principal, Engg. College, Guindy at 'K' on p.63 c.f. It has to be noted here that work connected with admissions into the Engg. C was being done by the Guindy Engg. College sta for the past so many years and no extra remuneration ha ever been paid to them so far. It is part of the normal work of the college staff and there seems to be no case for extra remuneration being granted to them for this work. Neither the Committee's suggestion nor the D.P.I.'s recommendation need therefore be accepted.

P.T.O.

to admissions. It was

4. In G.O.No. 1418 Edn. dated 6-5-49, the Govt. have already ordered that the candidates should be instructed to put in requests for appln. forms only after the results of the qualifying examinations are published.
