R.O.C.No.157 K2/49

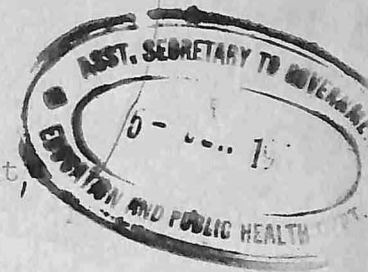

Office of the
Director of Public Instruction
Madras, dated, 31st May 1949.

From

The Director of Public Instruction
Madras.

To

The Secretary to Government,
Education and Public Health Department,
Fort St. George, Madras.

Sir,

Subject:- Government Muslim College, Madras --
Employment of additional staff for the
laboratories.

The Principal, Government Muslim College, Madras, has submitted a proposal for the employment of 2 additional attenders and a sweeper for the Physics and Chemistry laboratories from the beginning of the next academic year. He states that consequent on the transfer of the Intermediate Class from the Presidency College, the work in these laboratories has very much increased and it is not possible for the existing staff including the three additional attenders, and 6 sweepers sanctioned in G.O.No.1253 Edn., dated 17-5-48 to manage the work efficiently from 1949-50 when there will be full compliment of strength in both the Intermediate Classes.

2. There are at present 6 attenders and 3 sweepers in the Chemistry Department and 5 attenders in the Physics department. These are allotted in the following manner:-

CHEMISTRY

Laboratory No.1.	... 1 Attender and 1 sweeper,
Gas House	... One attender.
Laboratory No.2.	... One attender
-do- No.3.	... -do- 1 sweeper
-do- No.4,	... -do- and 1 sweeper
Stores	... One Attender.

The Principal points out that Laboratory No.3 is the biggest in the College which caters for 240 students of the Intermediate with 16 hours of work per week and that it should have 2 attenders and one sweeper all to itself. At present the sweeper does work both in laboratories 2 and 3. One more attender and a sweeper are necessary for the laboratory.

PHYSICS.

1. B.Sc. -- Properties of Matter and Heat Laboratory.	... 1 Attender.
2. -do- .. Electricity and Magnetism Laboratory...	...
3. -do- -- Lighting and Sound Laboratory.	... 1 Attender
4. Intermediate (Lab) Old.	... 1 Attender
5. -do- New.	... 1 Attender

It is reported that the one attender in charge of No.5 where 60 students work at a time is not able to do things alone. Specially attending to the demands of 60 students doing different experiments at the same time becomes impossible and this leads to confusion and indiscipline in the laboratory. One more attender is needed for this laboratory. This new laboratory was built and equipped only in the current year. There was only 8 hours of practical work. With the transfer of the Senior Intermediate Class in July 1949 the number of hours of practical work will be increased by 8 hours and it will not then be possible for one attender to manage the entire work.

3. In the circumstances I request that Government may kindly sanction the employment of 2 attenders in the scale of Rs.24-35 and a sweeper for a period of one year from the beginning of the academic year 1949-50.

Yours faithfully

[Signature]
