Extract from the letter dated 3rd July, 1947, from the Indian Chamber of Industries and Commerce, Bezwada to the Honourable the Minister for Industries, Government of Madras, Fort St. George, Madras.

In this connection, we also beg to state that even in matters of supreme importance concerning trade, commerce, and industry, information pertaining to the said questionnaire /Trade has not been communicated to Chambers of Industries and /Organisations which represent commercial and industrial interests and augment the efforts of the Government in that direction. However, we have issued circulars to all our Members, who embrace different shades of Industry, trade and commerce of our Province, soliciting their opinion, with a view to submit a consolidated report. Under the circumstances explained above we hope, that the Honourable Minister will enable us to contribute our share, in shaping that Industrial future of our Province, by extending the time limit and also kindly arrange to forward us all the Circulars and communiques issued by the various departments. We are now receiving circulars only from the Food Department and Civil Supplies.

Sir,
I am directed to state that under this Ministry's
Overseas Scholarship Scheme 1945-46 the Government of Madras
had sponsored Mr. V. Baliah for studies in Applied Chemistry-
Commercial Solvents in the United States of America. The
scholar has been in the United States of America since
the 28th December, 1948, and has now returned to India.

The Government of Madras are unable to offer him
any suitable employment under them. The Government of India
are, therefore, exploring the possibilities of securing such
employment for him, as will put to profitable use the training
he has received under Government auspices. In this connection
Employment Form with enclosures in respect of the scholar is
forwarded herewith.

I am to request that the Provincial Government may
kindly consider whether Mr. V. Baliah's services could be
suitably utilized by them. This Ministry will be pleased to
furnish any further particulars that may be required in
connection with the employment of the scholar.

February 7, 1949.

To
The Premier,
Government of Madras,
Fort St. George, Madras.

The Education Minister, Government of India, in reply to a question in the Indian Parliament on February 4 stated that 960 Government scholars were sent abroad for higher studies and out of them, 461 have returned so far. It is now well known that the various Governments sponsoring them are too slow in placing them in suitable employment. I am one of the Madras Government scholars and I returned to India about 4 months ago after completing my studies in U.S.A. Most of us, when going abroad, resigned our jobs. We naturally expected that we will be provided with opportunities to work on our return. It is now a sad experience for us all to spend months and months with more and more disappointment, awaiting a government call. If the Government cannot utilise the services of some of them they should release such scholars from the executed bonds in about a month after their return. All people cannot be expected to face long periods of unemployment without undergoing many inconveniences. The situation seems all the more embarrassing when we know that India needs more trained personnel and it is in this same country there roam hundreds of such trained personnel unemployed. We hear every leader pleading for more hard work so as to increase the country's production. Yet we see thousands clamouring for opportunities to work. So what is wrong? I hope our ministers know the answer. Why not they act immediately?

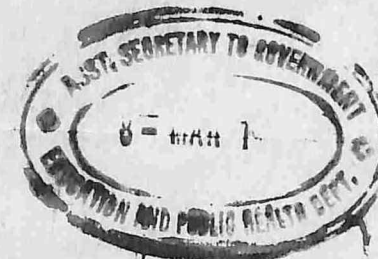

"Plan, pattern, and design are there in abundance."
But is not solid substance rare? We badly need this last commodity and let us all work to have more of it.

OFFICE MEMORANDUM

The undersigned is directed to state that under this Ministry's Overseas Scholarship Scheme 1955-56 the Government of India had sponsored Mr. V. Balish for studies in Applied Chemistry in the U.S.A. The scholar had been in the U.S.A. since December 1955 and has now returned to India. The Government of India are unable to offer him any suitable employment under them. The Government of India are, therefore, exploring the possibilities of securing such employment for him, as well as to provide him the training he has received under government auspices. In this connection his Employment Form with enclosures is forwarded herewith.

The undersigned is to request that the Government of Scientific Research may kindly consider whether Mr. Balish's services could be suitably utilized by them. This Ministry will be pleased to furnish any further particulars that may be required in connection with the employment of the scholar.

Sir:

30125

I was 1945-46 Madras Government scholar, sent to the U.S.A. for advanced studies in chemistry. On completion of my studies, I returned to India in October, 1948. After three months of waiting for employment I was asked to wait for two more months (Memorandum No. 86394-C2/48-3 - not put up Edn. dated 16th December 1948). During this extended period you seem to have corresponded with the Government of India (Memorandum No. 82935-C2/48-4, Edn. dated 24th January 1948). Since then I have not heard anything from you.

Apparently there is difficulty in locating a suitable post for me. Though the Government do not guarantee employment to the scholars, it is not a wise policy to make them wait for months and months and offer nothing at the end. The training of the scholars is highly specialised and it would be a tragedy if they cannot be used properly. This is especially so when India needs every bit of available talent. The scholars themselves may find suitable employment but it would certainly take time. The Government should appreciate their difficulties during the waiting period and act more efficiently not to keep them in suspense for such long periods.

I spent abroad three long years, working extremely hard to learn many things. I would be most unhappy if I fail to use my knowledge — this cannot be done anywhere and everywhere. I may make a suggestion as to how best I can serve our province. I understand that plans are being worked out to reorganise the Presidency College so as to make it an ideal teaching institution and a good research centre. I think that I am best fitted to work there. If there should be a chance of my being employed there, I can assure you of outstanding service.

Yours faithfully,

V. Baliah

Sir,

Ref: Memorandum No. 82935 E2/48-8, Education, dated 17-6-1949.

As per your advice I applied for both the posts referred to in your letter. I have not heard anything since then either from the Lucknow University or from the Bombay Public Service Commission. Perhaps it is time for me to give up hopes for both.

I would like to impress on you that some of the scholars who have returned from abroad are left in a tragic state. They worked day and night when they were abroad and acquired useful knowledge. They thought that they would be able to contribute their share for the prosperity of India. But on returning, they find that nobody appreciates their worth.

For example take my case. I passed all examinations in I class. People also say that I had a very bright academic career. For some years I taught in a college and I was considered as a very successful lecturer. I worked as a research man and my achievements were supposed to be significant. Recently a distinguished scientist of America, writing to me, said "You have made an exceptional reputation at this university and it is a serious matter if the Government does not see that your services are not properly utilized." But what use is all that! I am frustrated and wasting the best years of my life. I still hope that I can make myself useful ere long.

Yours faithfully,

V. Baliah

Education - Overseas scholarships-Scholars selected in the year 1945-46 - 1946-47 & Employment of their return from abroad.

A list of scholars selected for overseas study during 1945-46 and 1946-47 with information regarding their subject of study, approximate date of return etc. is enclosed herewith. It is the intention of Govt. that as many of these Scholars as possible should be absorbed in Govt. Service, or other similar establishments, as they come back. Though some posts exist in which they can suitably be appointed, the rules and regulations require that the Public Service Commission should be consulted before appointing them to the posts. To obviate this difficulty, orders have been recently issued G.O.1685 Education dated 2-7-48, dispensing with the necessity to consult the Commission, in appointing the overseas scholars. Issued as Memo no 82935 C/48-1 Edn 2 of 17.11.48 pp 9-10 CF

A above: The scholar returned to India towards the end of October. We have already stated that they do not require his services in the Education Dept. It was therefore thought that if after consulting the D.P.I. this Govt could not offer him a suitable job, the Govt could be finally consulted as to his absorption under them.

A draft letter to the Govt is now submitted for approval.

Letter no 82935 C/48-2 Edn 1 of 1.12.48 pp 11-12 CF

25 CF Cmo 92000/48. From the D.P.I. no. 3642. C/48 of 12.11.48

The D.P.I. has stated that no suitable post is vacant in his own dept in which the services of Sri V. Bahiah can be utilized. He however states that if the scholar is willing to accept a non-gazetted post he may be appointed as an Asst Lecturer in Chemistry under emergency provision when a vacancy arises.

This Govt have consulted the Govt of Madras whether they require Sri Bahiah's services and their final reply has not been received yet. They may be asked for their reply. A draft letter is submitted for approval.

From the Secy, Government of India
to P.O. 11/5.20/48 - Secy to Govt. of India

The Secy, I desire to know the results of his efforts to place Mr. Baliah in employment.

2. Sri Baliah returned to India on 13.2.48. The efforts to place him in a suitable employment have not so far been successful. At the instance of the Secy, I, this Govt. have asked the scholar to apply to the Registrar, Lucknow University for the post of lecturer in Organic Chemistry and to the Bombay Public Service Commission for the post of Senior Organic Chemist, Deptt of Pharmacology, Haffkine Institute, Bombay. It is not known whether the scholar has succeeded in these directions. He may be asked to report the result of his applications. A draft memo is submitted for approval.

3. Though the 5 months 'period of waiting' is over, the scholar has not specifically asked for release from his bond. The question of release may be considered if the scholar asks for it.

[Memo no. 82935 E2/48-6 Edu 7 17.6.49]

From Sri V. Baliah dated 24-6-1949.

Sri V. Baliah was selected in 1945-46 as a sponsored scholar for advanced studies in "Applied Chemistry - Manufacture of commercial Solvents" with the intention to absorb him in industries (Government or private enterprise) on return. He returned to India on 13-10-'48 after completion of his studies. On enquiry regarding the absorption of the scholar, the Director of Industries reported that there was no ~~gazzetted~~ suitable post for him in his department. The D.P.I. also stated that there was no gazetted post suitable for the scholar in the Education Department. The Govt. of India were therefore consulted whether they could utilise the services of the scholar. The Ministry of Education consulted other ministries, all the other Provincial Governments, the Universities etc. So far, none of them has made any definite offer of a post to the scholar. The post of Lecturer in Organic Chemistry in the University of Lucknow was vacant and the scholar was asked to apply. So also, he was asked to apply to the Bombay Public Service Commission for the post of Senior Organic Chemist, Department of Pharmacology, Haffkine Institute, Bombay. The scholar now reports that he applied for both posts but has not heard anything from either of the bodies. The Council of Scientific Industrial Research has, at the instance of the Govt. of India, registered the scholar's name for the post of a Senior Technical Assistant and Junior Research Officer in the National Chemical Laboratory. Selection for this post will, however, be made only in September 1949 when the Selection committee is expected to be constituted. The scholar himself suggested to this Government that he might be considered for a post in connection with the re-organisation of the Presidency College, as a research centre. The

Govt. have not passed final orders on the re-organization proposals. The question of qualifications, method of recruitment etc., to be prescribed for the post of Professors, is still pending. It is therefore too early to consider this scholar for a post in the reorganization scheme. He cannot be asked to wait indefinitely for a post. When final decision is taken on these proposals, the posts will be advertised and the scholar may try his chance then, if he wants.

2. What has been stated above shows that though attempts were made in many directions to find ~~out~~ a suitable job for this scholar, he has been rather ~~un~~fortunate not to get one notwithstanding his high qualifications. He returned to India on 13-X-'48 and the period^{of} waiting of 5 months expired in March '49. Though he has not specifically asked for release from the bond and still hopes to get a job, he has been repeatedly reminding the Govt. of their responsibility in the matter. He may slacken his own efforts to find ~~out~~ a job for himself by unnecessarily awaiting offers ~~for~~ from Government.

3. As the Govt. are unable to offer him a ~~job~~ post and as the period of waiting is long over, he may be released from the bond.

Subject to orders a draft order is submitted for approval. For orders as to circulation.
