Sir, Subject: Sri. K. Venugopal.

I am directed to inform you that the Imperial College of Science and Technology is prepared to accept this candidate provisionally for admission in October 1949 to a postgraduate course in trace element studies. It will not, however, be possible for them to accept him for work in either of the other two branches of research proposed by him. Mr. Venugopal will be required to undergo a six months preliminary period of training before the question of his registration for the PH.D. Degree can be decided. This will mean that he may have to spend 2½ years to 3 years altogether at the College.

I shall be glad if you will let me know whether Mr. Venugopal wishes to enter the College on these terms; if so, he will be required to arrange to be medically examined on arrival in this country and to produce a satisfactory medical certificate of his fitness to work in Britain before he starts on his course.
